## Karine Monceau

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/8993661/publications.pdf Version: 2024-02-01

| #  | Article   | IF                  | CITATIONS    |
|----|---|---------------------|--------------|
| 1  | Coccidial oocyst release: once a day or all day long? Tropical bird hosts shed new light on the adaptive significance of diurnal periodicity in parasite output. Parasitology, 2022, 149, 469-481.                  | 1.5                 | 0            |
| 2  | Organic farming positively affects the vitality of passerine birds in agricultural landscapes.<br>Agriculture, Ecosystems and Environment, 2022, 336, 108034.   | 5.3                 | 7            |
| 3  | Assortative pairing for boldness and consequences for reproductive success in Montagu's harrier.<br>Biological Journal of the Linnean Society, 2021, 132, 759-773.  | 1.6                 | 3            |
| 4  | Feeding partridges with organic or conventional grain triggers cascading effects in life-history traits. Environmental Pollution, 2021, 278, 116851.  | 7.5                 | 18           |
| 5  | Do human infrastructures shape nest distribution in the landscape depending on individual personality in a farmland bird of prey?. Journal of Animal Ecology, 2021, 90, 2848-2858.                                  | 2.8                 | 4            |
| 6  | To change or not to change experimenters: caveats for repeated behavioural and physiological measures in Montagu's harrier. Journal of Avian Biology, 2019, 50, .   | 1.2                 | 8            |
| 7  | Fine-scale genetic structure in a high dispersal capacity raptor, the Montagu's harrier (Circus) Tj ETQq1 1   | 0.784314 rgl<br>1.1 | 3T ¦Overlock |
| 8  | Towards sustainable and multifunctional agriculture in farmland landscapes: Lessons from the integrative approach of a French LTSER platform. Science of the Total Environment, 2018, 627, 822-834.                 | 8.0                 | 119          |
| 9  | Insect personality: what can we learn from metamorphosis?. Current Opinion in Insect Science, 2018, 27, 46-51.  | 4.4                 | 23           |
| 10 | How Apis mellifera Behaves with its Invasive Hornet Predator Vespa velutina?. Journal of Insect<br>Behavior, 2018, 31, 1-11.  | 0.7                 | 20           |
| 11 | An alarm pheromone in the venom gland of Vespa velutina: evidence revisited from the european<br>invasive population. Entomologia Generalis, 2018, 38, 145-156.   | 3.1                 | 8            |
| 12 | Activity rhythm and action range of workers of the invasive hornet predator of honeybees <i>Vespa<br/>velutina</i> , measured by radio frequency identification tags. Ecology and Evolution, 2018, 8,<br>7588-7598. | 1.9                 | 28           |
| 13 | Description of long-term monitoring of farmland biodiversity in a LTSER. Data in Brief, 2018, 19, 1310-1313.  | 1.0                 | 28           |
| 14 | <i>&gt;Vespa velutina</i> nest distribution at a local scale: An 8â€year survey of the invasive honeybee predator. Insect Science, 2017, 24, 663-674.   | 3.0                 | 61           |
| 15 | Daily and Seasonal Extranidal Behaviour Variations in the Invasive Yellow-Legged Hornet, Vespa<br>velutina Lepeletier (Hymenoptera: Vespidae). Journal of Insect Behavior, 2017, 30, 220-230.                       | 0.7                 | 3            |
| 16 | Personality, immune response and reproductive success: an appraisal of the paceâ€ofâ€life syndrome<br>hypothesis. Journal of Animal Ecology, 2017, 86, 932-942.   | 2.8                 | 31           |
| 17 | Larval personality does not predict adult personality in a holometabolous insect. Biological Journal of the Linnean Society, 2017, 120, 869-878.  | 1.6                 | 20           |
| 18 | Larval food influences temporal oviposition and egg quality traits in females of Lobesia botrana.<br>Journal of Pest Science, 2016, 89, 439-448.  | 3.7                 | 8            |

KARINE MONCEAU

| #  | Article   | IF                 | CITATIONS          |
|----|---|--------------------|--------------------|
| 19 | The relative abundance of hemocyte types in a polyphagous moth larva depends on diet. Journal of<br>Insect Physiology, 2016, 88, 33-39.   | 2.0                | 21                 |
| 20 | Evaluation of competition between a native and an invasive hornet species: do seasonal phenologies overlap?. Bulletin of Entomological Research, 2015, 105, 462-469.  | 1.0                | 30                 |
| 21 | Interpreting immunological indices: The importance of taking parasite community into account. An example in blackbirds <i>Turdus merula</i> . Methods in Ecology and Evolution, 2015, 6, 960-972.                               | 5.2                | 33                 |
| 22 | The next meeting for animal personality: population genetics. Ethology Ecology and Evolution, 2015, 27, 428-435.  | 1.4                | 1                  |
| 23 | Behavioral syndrome in a native and an invasive hymenoptera species. Insect Science, 2015, 22, 541-548.   | 3.0                | 43                 |
| 24 | Spatial distribution of <i>Vespa velutina</i> individuals hunting at domestic honeybee hives:<br>heterogeneity at a local scale. Insect Science, 2014, 21, 765-774.   | 3.0                | 25                 |
| 25 | Larval intraspecific competition for food in the European grapevine moth <i>Lobesia botrana</i> .<br>Bulletin of Entomological Research, 2014, 104, 517-524.  | 1.0                | 20                 |
| 26 | Vespa velutina: a new invasive predator of honeybees in Europe. Journal of Pest Science, 2014, 87, 1-16.  | 3.7                | 231                |
| 27 | Defensive behaviour of Apis mellifera against Vespa velutina in France: Testing whether European<br>honeybees can develop an effective collective defence against a new predator. Behavioural Processes,<br>2014, 106, 122-129. | 1.1                | 59                 |
| 28 | Different emergence phenology of European grapevine moth (Lobesia botrana, Lepidoptera:) Tj ETQq0 0 0 rgB   | T /Overlock<br>1.0 | 10 Tf 50 382<br>26 |
| 29 | Olfactory Attraction of the Hornet Vespa velutina to Honeybee Colony Odors and Pheromones. PLoS<br>ONE, 2014, 9, e115943.   | 2.5                | 41                 |
| 30 | Relationship between the age of Vespa velutina workers and their defensive behaviour established from colonies maintained in the laboratory. Insectes Sociaux, 2013, 60, 437-444.   | 1.2                | 17                 |
| 31 | Predation pressure dynamics study of the recently introduced honeybee killer Vespa velutina: learning from the enemy. Apidologie, 2013, 44, 209-221.  | 2.0                | 62                 |
| 32 | Heterozygosity-Fitness Correlations in Adult and Juvenile Zenaida Dove, Zenaida aurita. Journal of<br>Heredity, 2013, 104, 47-56.   | 2.4                | 11                 |
| 33 | Colonisation and Diversification of the Zenaida Dove (Zenaida aurita) in the Antilles: Phylogeography,<br>Contemporary Gene Flow and Morphological Divergence. PLoS ONE, 2013, 8, e82189.                                       | 2.5                | 14                 |
| 34 | Native Prey and Invasive Predator Patterns of Foraging Activity: The Case of the Yellow-Legged Hornet<br>Predation at European Honeybee Hives. PLoS ONE, 2013, 8, e66492.   | 2.5                | 61                 |
| 35 | Female teneral mating in a monandrous species. Ecology and Evolution, 2012, 2, 1426-1436.   | 1.9                | 8                  |
| 36 | Chasing the queens of the alien predator of honeybees: A water drop in the invasiveness ocean. Open   | 1.0                | 40                 |

Chasing the queens of the alien predator of honeybees: A water drop in the invasiveness ocean. Open Journal of Ecology, 2012, 02, 183-191. 36

KARINE MONCEAU

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Territoriality Versus Flocking in the Zenaida Dove (Zenaida aurita): Resource Polymorphism Revisited<br>Using Morphological and Genetic Analyses. Auk, 2011, 128, 15-25.                             | 1.4 | 11        |
| 38 | Sexing Birds Using Discriminant Function Analysis: A Critical Appraisal. Auk, 2011, 128, 78-86.  | 1.4 | 94        |
| 39 | A field test of behavioural flexibility in Zenaida doves (Zenaida aurita). Behavioural Processes, 2010,<br>85, 135-141.  | 1.1 | 54        |
| 40 | Twenty-three polymorphic microsatellite markers for the Caribbean endemic Zenaida dove, Zenaida aurita, and its conservation in related Zenaida species. Conservation Genetics, 2009, 10, 1577-1581. | 1.5 | 7         |
