papers	citations

7	7	7	42
all docs	docs citations	times ranked	citing authors

#	Article	IF	Citations
1	DeepMQ: A Deep Learning Approach Based Myelin Quantification in Microscopic Fluorescence Images. , 2018, , .		5
2	Generalized regression neural network based efficient memristor modeling. , 2016, , .		1
3	Diagnosis of Parkinson's disease by using ANN. , 2016, , .		5
4	Learning parameter optimization of Multi-Layer Perceptron using Artificial Bee Colony, Genetic Algorithm and Particle Swarm Optimization. , 2015, , .		9
