Julie Considine

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/9000818/julie-considine-publications-by-year.pdf

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
210	Impact of a care bundle for patients with blunt chest injury (ChIP): A multicentre controlled implementation evaluation. <i>PLoS ONE</i> , 2021 , 16, e0256027	3.7	1
209	The impact of the COVID-19 pandemic on Australian hospital-based nursing and midwifery educators. <i>Collegian</i> , 2021 ,	1.6	2
208	Evidence-practice gaps in initial neuro-protective nursing care: A mixed methods study of Thai patients with moderate or severe traumatic brain injury. <i>International Journal of Nursing Practice</i> , 2021 , 27, e12899	2.3	
207	Translation of evidence into policy to improve clinical practice: the development of an emergency department rapid response system. <i>Australasian Emergency Care</i> , 2021 , 24, 197-209	1.8	1
206	Modifications to medical emergency team activation criteria and implications for patient safety: A point prevalence study. <i>Australian Critical Care</i> , 2021 , 34, 580-586	2.9	1
205	Faecal microbiota transplantation and the patient experience: A systematic review. <i>Journal of Clinical Nursing</i> , 2021 , 30, 1236-1252	3.2	О
204	Systems for recognition and response to deteriorating emergency department patients: a scoping review. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2021 , 29, 69	3.6	O
203	The effect of alternative methods of cardiopulmonary resuscitation - Cough CPR, percussion pacing or precordial thump - on outcomes following cardiac arrest. A systematic review. <i>Resuscitation</i> , 2021 , 162, 73-81	4	5
202	Impact of emergency department length of stay on anxiety and comfort in older people. International Emergency Nursing, 2021 , 56, 100974	2.4	2
201	The implementation of an emergency nursing framework (HIRAID) reduces patient deterioration: A multi-centre quasi-experimental study. <i>International Emergency Nursing</i> , 2021 , 56, 100976	2.4	3
200	Implementation of a hospital-wide multidisciplinary blunt chest injury care bundle (ChIP): Fidelity of delivery evaluation. <i>Australian Critical Care</i> , 2021 ,	2.9	4
199	Specific Elements of Team-Based Learning Used in Nursing Education: A Scoping Review. <i>Nurse Educator</i> , 2021 , 46, E84-E89	1.6	0
198	Clinical cues used by nurses to recognize changes in patients' clinical states: A systematic review. <i>Australian Journal of Cancer Nursing</i> , 2021 , 23, 9-28	1.9	O
197	Bidirectional associations between emergency nurses' occupational and leisure physical activity: An observational study. <i>Journal of Sports Sciences</i> , 2021 , 39, 705-713	3.6	1
196	Six-year trends in postoperative prescribing and use of multimodal analgesics following total hip and knee arthroplasty: A single-site observational study of pain management. <i>European Journal of Pain</i> , 2021 , 25, 107-121	3.7	O
195	Team-based learning in nursing education: A scoping review. <i>Journal of Clinical Nursing</i> , 2021 , 30, 903-9	91 3 .2	4
194	Measuring organizational context in Australian emergency departments and its impact on stroke care and patient outcomes. <i>Nursing Outlook</i> , 2021 , 69, 103-115	2.7	O

(2020-2021)

193	Diagnosis of out-of-hospital cardiac arrest by emergency medical dispatch: A diagnostic systematic review. <i>Resuscitation</i> , 2021 , 159, 85-96	4	10
192	Assessment Framework for Recognizing Clinical Deterioration in Patients With ACS Undergoing PCI. <i>Critical Care Nurse</i> , 2021 , 41, 18-28	1.6	
191	Perceived roles and barriers to nurses' engagement in antimicrobial stewardship: A Thai qualitative case study. <i>Infection, Disease and Health</i> , 2021 , 26, 218-227	4.6	О
190	Use of the pre-medical emergency team tier of rapid response systems: A scoping Review. <i>Intensive and Critical Care Nursing</i> , 2021 , 65, 103041	3.1	О
189	Treatments costs associated with inpatient clinical deterioration. Resuscitation, 2021, 166, 49-54	4	2
188	Understanding the pre-medical emergency team tier of a mature rapid response system: A content analysis of guidance documents. <i>Australian Critical Care</i> , 2021 , 34, 427-434	2.9	О
187	Emergency clinicians' knowledge, preparedness and experiences of managing COVID-19 during the 2020 global pandemic in Australian healthcare settings. <i>Australasian Emergency Care</i> , 2021 , 24, 186-196	1.8	2
186	Implementation of a structured emergency nursing framework results in significant cost benefit. BMC Health Services Research, 2021 , 21, 1318	2.9	О
185	Cardiopulmonary resuscitation and defibrillation for cardiac arrest when patients are in the prone position: A systematic review <i>Resuscitation Plus</i> , 2021 , 8, 100186	1.4	3
	Adult Basic Life Support: International Consensus on Cardiopulmonary Resuscitation and		
184	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79	4	37
184	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 ,	5.8	375
	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A		
183	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A prospective case-time-control study. <i>International Journal of Nursing Studies</i> , 2020 , 108, 103612 Emergency nurses' perceptions of their role in responding to escalations of care for clinical	5.8	5
183	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A prospective case-time-control study. <i>International Journal of Nursing Studies</i> , 2020 , 108, 103612 Emergency nurses' perceptions of their role in responding to escalations of care for clinical deterioration. <i>Australasian Emergency Care</i> , 2020 , 23, 233-239 Clinical deterioration in patients with ST-elevation myocardial infarction during and for 24lh after	5.8 1.8	5
183 182 181	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A prospective case-time-control study. <i>International Journal of Nursing Studies</i> , 2020 , 108, 103612 Emergency nurses' perceptions of their role in responding to escalations of care for clinical deterioration. <i>Australasian Emergency Care</i> , 2020 , 23, 233-239 Clinical deterioration in patients with ST-elevation myocardial infarction during and for 24lh after percutaneous coronary intervention: An observational study. <i>Australian Critical Care</i> , 2020 , 33, 458-462 Thai trauma nurses' knowledge of neuroprotective nursing care of traumatic brain injury patients: A	5.8 1.8 2.9	5 2 1
183 182 181	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A prospective case-time-control study. <i>International Journal of Nursing Studies</i> , 2020 , 108, 103612 Emergency nurses' perceptions of their role in responding to escalations of care for clinical deterioration. <i>Australasian Emergency Care</i> , 2020 , 23, 233-239 Clinical deterioration in patients with ST-elevation myocardial infarction during and for 24lh after percutaneous coronary intervention: An observational study. <i>Australian Critical Care</i> , 2020 , 33, 458-462 Thai trauma nurses' knowledge of neuroprotective nursing care of traumatic brain injury patients: A survey study. <i>Australian Journal of Cancer Nursing</i> , 2020 , 22, 787-794 Clinical deterioration and hospital-acquired complications in adult patients with isolation	5.8 1.8 2.9	5 2 1
183 182 181 180	Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2020 , 156, A35-A79 Vital sign abnormalities as predictors of clinical deterioration in subacute care patients: A prospective case-time-control study. <i>International Journal of Nursing Studies</i> , 2020 , 108, 103612 Emergency nurses' perceptions of their role in responding to escalations of care for clinical deterioration. <i>Australasian Emergency Care</i> , 2020 , 23, 233-239 Clinical deterioration in patients with ST-elevation myocardial infarction during and for 24th after percutaneous coronary intervention: An observational study. <i>Australian Critical Care</i> , 2020 , 33, 458-462 Thai trauma nurses' knowledge of neuroprotective nursing care of traumatic brain injury patients: A survey study. <i>Australian Journal of Cancer Nursing</i> , 2020 , 22, 787-794 Clinical deterioration and hospital-acquired complications in adult patients with isolation precautions for infection control: A systematic review. <i>Journal of Advanced Nursing</i> , 2020 , 76, 2235-225; Understanding the patient experience of early unplanned hospital readmission following acute	5.8 1.8 2.9 1.9	5 2 1 1

175	Adult Basic Life Support: 2020 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Circulation</i> , 2020 , 142, S41-	.5917	32
174	Emergency nurses' activity levels across rotating shifts. <i>Australasian Emergency Care</i> , 2020 , 23, 203-210	1.8	2
173	Process evaluation of an implementation trial to improve the triage, treatment and transfer of stroke patients in emergency departments (T trial): a qualitative study. <i>Implementation Science</i> , 2020 , 15, 99	8.4	4
172	The accumulation of, and associations between, nurses' activity levels within their shift in the emergency department. <i>Ergonomics</i> , 2020 , 63, 1525-1534	2.9	0
171	Stakeholder acceptance of digital team-based learning. <i>Nurse Education in Practice</i> , 2020 , 46, 102833	3.2	4
170	Chest compression components (rate, depth, chest wall recoil and leaning): A scoping review. <i>Resuscitation</i> , 2020 , 146, 188-202	4	26
169	Nurses' decision-making, practices and perceptions of patient involvement in medication administration in an acute hospital setting. <i>Journal of Advanced Nursing</i> , 2019 , 75, 1316-1327	3.1	11
168	Timing of emergency interhospital transfers from subacute to acute care and patient outcomes: A prospective cohort study. <i>International Journal of Nursing Studies</i> , 2019 , 91, 77-85	5.8	3
167	Exploring patient preferences for involvement in medication management in hospitals. <i>Journal of Advanced Nursing</i> , 2019 , 75, 2189-2199	3.1	7
166	Associations between patient and system characteristics and MET review within 48 h of admission to a teaching hospital: A retrospective cohort study. <i>European Journal of Internal Medicine</i> , 2019 , 66, 62-68	3.9	Ο
165	Nurse-Initiated Acute Stroke Care in Emergency Departments. <i>Stroke</i> , 2019 , STROKEAHA118020701	6.7	15
164	Patient acceptability of wearable vital sign monitoring technologies in the acute care setting: A systematic review. <i>Journal of Clinical Nursing</i> , 2019 , 28, 2732-2744	3.2	4
163	A systematic review and meta-analysis of the effect of dispatcher-assisted CPR on outcomes from sudden cardiac arrest in adults and children. <i>Resuscitation</i> , 2019 , 138, 82-105	4	38
162	Longer time to transfer from the emergency department after bed request is associated with worse outcomes. <i>EMA - Emergency Medicine Australasia</i> , 2019 , 31, 211-215	1.5	4
161	2019 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Resuscitation</i> , 2019 , 145, 95-150	4	62
160	Are service and patient indicators different in the presence or absence of nurse practitioners? The EDPRAC cohort study of Australian emergency departments. <i>BMJ Open</i> , 2019 , 9, e024529	3	1
159	2019 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations: Summary From the Basic Life Support; Advanced Life Support; Pediatric Life Support; Neonatal Life Support; Education, Implementation, and Teams;	16.7	82
158	and First Aid Task Forces. <i>Circulation</i> , 2019 , 140, e826-e880 Effectiveness of nurse-initiated X-ray for emergency department patients with distal limb injuries: a systematic review. <i>European Journal of Emergency Medicine</i> , 2019 , 26, 314-322	2.3	7

(2018-2019)

157	Nursing handover of vital signs at the transition of care from the emergency department to the inpatient ward: An integrative review. <i>Journal of Clinical Nursing</i> , 2019 , 28, 1010-1021	3.2	5	
156	Nurses' recognition and response to clinical deterioration in the cardiac catheterisation laboratory. <i>Australian Critical Care</i> , 2019 , 32, 355-360	2.9	1	
155	Factors associated with unplanned readmissions in a major Australian health service. <i>Australian Health Review</i> , 2019 , 43, 1-9	1.8	17	
154	Characteristics and outcomes of emergency interhospital transfers from subacute to acute care for clinical deterioration. <i>International Journal for Quality in Health Care</i> , 2019 , 31, 117-124	1.9	7	
153	Nurses' role in recognising and responding to clinical deterioration in surgical patients. <i>Journal of Clinical Nursing</i> , 2018 , 27, 1920-1930	3.2	15	
152	Frequent use of emergency departments by older people: a comparative cohort study of characteristics and outcomes. <i>International Journal for Quality in Health Care</i> , 2018 , 30, 624-629	1.9	7	
151	Systems for recognition and response to clinical deterioration in Victorian emergency departments. <i>Australasian Emergency Care</i> , 2018 , 21, 3-7	1.8	9	
150	Consensus-based clinical research priorities for emergency nursing in Australia. <i>Australasian Emergency Care</i> , 2018 , 21, 43-50	1.8	19	
149	Emergency department utilisation among older people with acute and/or chronic conditions: A multi-centre retrospective study. <i>International Emergency Nursing</i> , 2018 , 37, 39-43	2.4	8	
148	Mapping workforce configuration and operational models in Australian emergency departments: a national survey. <i>Australian Health Review</i> , 2018 , 42, 340-347	1.8	11	
147	Hospital in the Home nurses' recognition and response to clinical deterioration. <i>Journal of Clinical Nursing</i> , 2018 , 27, 2152-2160	3.2	5	
146	Senior emergency nurses' responses to escalations of care for clinical deterioration. <i>Australasian Emergency Care</i> , 2018 , 21, 69-74	1.8	4	
145	Frequency, nature and timing of clinical deterioration in the early postoperative period. <i>Journal of Clinical Nursing</i> , 2018 , 27, 3544-3553	3.2	3	
144	Comparison of policies for recognising and responding to clinical deterioration across five Victorian health services. <i>Australian Health Review</i> , 2018 , 42, 412-419	1.8	9	
143	Students perceive Team-Based Learning facilitates development of graduate learning outcomes and professional skills. <i>Journal of Teaching and Learning for Graduate Employability</i> , 2018 , 9, 93-113	1.2	7	
142	Thai clinicians' attitudes toward antimicrobial stewardship programs. <i>American Journal of Infection Control</i> , 2018 , 46, 425-430	3.8	13	
141	Influences on emergency department length of stay for older people. <i>European Journal of Emergency Medicine</i> , 2018 , 25, 242-249	2.3	9	
140	Implementation of guidelines for sepsis management in emergency departments: A systematic review. <i>Australasian Emergency Care</i> , 2018 , 21, 111-120	1.8	8	

139	Hospital in the home nurses' assessment decision making: an integrative review of the literature. <i>Contemporary Nurse</i> , 2018 , 54, 603-616	1.5	5
138	Factors associated with unplanned readmissions within 1 day of acute care discharge: a retrospective cohort study. <i>BMC Health Services Research</i> , 2018 , 18, 713	2.9	5
137	A survey of reported behaviours, attitudes and knowledge related to antibiotic use of hospitalised patients in Thailand. <i>Infection, Disease and Health</i> , 2018 , 23, 203-210	4.6	2
136	Patient physiological status during emergency care and rapid response team or cardiac arrest team activation during early hospital admission. <i>European Journal of Emergency Medicine</i> , 2017 , 24, 359-365	2.3	15
135	Patient-, medication- and environment-related factors affecting medication discrepancies in older patients. <i>Collegian</i> , 2017 , 24, 571-577	1.6	3
134	Current practices related to family presence during acute deterioration in adult emergency department patients. <i>Journal of Clinical Nursing</i> , 2017 , 26, 3624-3635	3.2	7
133	A framework for transition to specialty practice programmes. <i>Journal of Advanced Nursing</i> , 2017 , 73, 1970-1981	3.1	4
132	Evidence based emergency nursing: Designing a research question and searching the literature. <i>International Emergency Nursing</i> , 2017 , 32, 78-82	2.4	12
131	Case study and case-based research in emergency nursing and care: Theoretical foundations and practical application in paramedic pre-hospital clinical judgment and decision-making of patients with mental illness. <i>Australasian Emergency Nursing Journal</i> , 2017 , 20, 17-24		1
130	Using observation to collect data in emergency research. <i>Australasian Emergency Nursing Journal</i> , 2017 , 20, 25-30		8
129	Nurses' occupational physical activity levels: A systematic review. <i>International Journal of Nursing Studies</i> , 2017 , 73, 52-62	5.8	34
128	Nurses' perceptions of the impact of Team-Based Learning participation on learning style, team behaviours and clinical performance: An exploration of written reflections. <i>Nurse Education in Practice</i> , 2017 , 24, 62-69	3.2	14
127	Effect of gender on evidence-based practice for Australian patients with acute coronary syndrome: A retrospective multi-site study. <i>Australasian Emergency Nursing Journal</i> , 2017 , 20, 63-68		0
126	Post resuscitation management of cardiac arrest patients in the critical care environment: A retrospective audit of compliance with evidence based guidelines. <i>Australian Critical Care</i> , 2017 , 30, 299	9- 3 85	4
125	Emergency nurses' knowledge and self-rated practice skills when caring for older patients in the Emergency Department. <i>Australasian Emergency Nursing Journal</i> , 2017 , 20, 174-180		6
124	Development of a theory-informed implementation intervention to improve the triage, treatment and transfer of stroke patients in emergency departments using the Theoretical Domains Framework (TDF): the T Trial. <i>Implementation Science</i> , 2017 , 12, 88	8.4	23
123	Prioritising Responses Of Nurses To deteriorating patient Observations (PRONTO) protocol: testing the effectiveness of a facilitation intervention in a pragmatic, cluster-randomised trial with an embedded process evaluation and cost analysis. <i>Implementation Science</i> , 2017 , 12, 85	8.4	5
122	Adherence to evidence-based pressure injury prevention guidelines in routine clinical practice: a longitudinal study. <i>International Wound Journal</i> , 2017 , 14, 1290-1298	2.6	13

121	2017 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations Summary. <i>Circulation</i> , 2017 , 136, e424-e440	16.7	60
120	2017 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations Summary. <i>Resuscitation</i> , 2017 , 121, 201-214	4	70
119	Testing a systematic approach to identify and prioritise barriers to successful implementation of a complex healthcare intervention. <i>BMC Medical Research Methodology</i> , 2017 , 17, 24	4.7	8
118	Predictors for clinical deterioration of mental state in patients assessed by telephone-based mental health triage. <i>International Journal of Mental Health Nursing</i> , 2017 , 26, 226-237	3.8	6
117	Emergency nurses' decisions regarding frequency and nature of vital sign assessment. <i>Journal of Clinical Nursing</i> , 2017 , 26, 1949-1959	3.2	4
116	Vital signs as predictors for aggression in hospital patients (VAPA). <i>Journal of Clinical Nursing</i> , 2017 , 26, 2593-2604	3.2	5
115	Translating research findings to clinical nursing practice. <i>Journal of Clinical Nursing</i> , 2017 , 26, 862-872	3.2	112
114	Physiological antecedents and ward clinician responses before medical emergency team activation. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 50-56	2.8	4
113	Triage, treatment and transfer of patients with stroke in emergency department trial (the T Trial): a cluster randomised trial protocol. <i>Implementation Science</i> , 2016 , 11, 139	8.4	12
112	Frequency of vital sign assessment and clinical deterioration in an Australian emergency department. <i>Australasian Emergency Nursing Journal</i> , 2016 , 19, 217-222		10
111	A structured framework improves clinical patient assessment and nontechnical skills of early career emergency nurses: a pre-post study using full immersion simulation. <i>Journal of Clinical Nursing</i> , 2016 , 25, 2262-74	3.2	18
110	Transition to Specialty Practice Program characteristics and professional development outcomes. <i>Nurse Education Today</i> , 2016 , 44, 109-15	3.7	5
109	Profiling nursing resources in Australian emergency departments. <i>Australasian Emergency Nursing Journal</i> , 2016 , 19, 1-10		8
108	Epidemiology of early Rapid Response Team activation after Emergency Department admission. <i>Australasian Emergency Nursing Journal</i> , 2016 , 19, 54-61		14
107	Patient physiological status at the emergency department-ward interface and emergency calls for clinical deterioration during early hospital admission. <i>Journal of Advanced Nursing</i> , 2016 , 72, 1287-300	3.1	12
106	Identifying the barriers and enablers for a triage, treatment, and transfer clinical intervention to manage acute stroke patients in the emergency department: a systematic review using the theoretical domains framework (TDF). Implementation Science, 2016, 11, 157	8.4	31
	theoretical domains framework (1917). Implementation Science, 2010, 11, 131		
105	Comparison of medication policies to guide nursing practice across seven Victorian health services. Australian Health Review, 2016 , 40, 526-532	1.8	2

103	Interprofessional graduate programme for nursing-paramedicine degree graduates: work outcomes and participant experience. <i>International Paramedic Practice</i> , 2016 , 6, 19-28	0.1	
102	Family presence during management of acute deterioration: Clinician attitudes, beliefs and perceptions of current practices. <i>Australasian Emergency Nursing Journal</i> , 2016 , 19, 159-65		5
101	Nurses' documentation of physiological observations in three acute care settings. <i>Journal of Clinical Nursing</i> , 2016 , 25, 134-43	3.2	23
100	Spinal immobilisaton in pre-hospital and emergency care: A systematic review of the literature. <i>Australasian Emergency Nursing Journal</i> , 2015 , 18, 118-37		25
99	Development, reliability and validity of a tool, to measure emergency department clinicians' attitudes towards family presence (FP) during acute deterioration in adult patients. <i>Australasian Emergency Nursing Journal</i> , 2015 , 18, 106-14		3
98	The effect of Transition to Specialty Practice Programs on Australian emergency nurses' professional development, recruitment and retention. <i>Australasian Emergency Nursing Journal</i> , 2015 , 18, 204-11		11
97	Ian Jacobs - Resuscitation leader, educator and researcher. <i>Resuscitation</i> , 2015 , 96, 287-9	4	
96	Part 3: Adult Basic Life Support and Automated External Defibrillation: 2015 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations. <i>Circulation</i> , 2015 , 132, S51-83	16.7	149
95	Using an evidence-based care bundle to improve Thai emergency nurses' knowledge of care for patients with severe traumatic brain injury. <i>Nurse Education in Practice</i> , 2015 , 15, 284-92	3.2	7
94	Nurses' perceptions of using an evidence-based care bundle for initial emergency nursing management of patients with severe traumatic brain injury: A qualitative study. <i>International Emergency Nursing</i> , 2015 , 23, 299-305	2.4	5
93	Evaluation of postgraduate critical care nursing students' attitudes to, and engagement with, Team-Based Learning: a descriptive study. <i>Intensive and Critical Care Nursing</i> , 2015 , 31, 19-28	3.1	37
92	Development, implementation and evaluation of an interprofessional graduate program for nursing-paramedicine double-degree graduates. <i>Australian Health Review</i> , 2015 , 39, 595-599	1.8	3
91	The effect of a staged, emergency department specific rapid response system on reporting of clinical deterioration. <i>Australasian Emergency Nursing Journal</i> , 2015 , 18, 218-26		17
90	In-reach nursing services improve older patient outcomes and access to emergency care. <i>Australasian Journal on Ageing</i> , 2015 , 34, 115-20	1.5	14
89	Multisite analysis of the timing and outcomes of unplanned transfers from subacute to acute care. <i>Australian Health Review</i> , 2015 , 39, 387-394	1.8	8
88	Ensuring a proactive, evidence-based, patient safety approach to patient assessment. <i>Journal of Clinical Nursing</i> , 2015 , 24, 300-7	3.2	39
87	Model to predict inpatient mortality from information gathered at presentation to an emergency department: The Triage Information Mortality Model (TIMM). <i>EMA - Emergency Medicine Australasia</i> , 2015 , 27, 300-6	1.5	8
86	Using an evidence-based care bundle to improve initial emergency nursing management of patients with severe traumatic brain injury. <i>Journal of Clinical Nursing</i> , 2015 , 24, 3365-73	3.2	6

(2013-2015)

85	Advance care planning for older people in Australia presenting to the emergency department from the community or residential aged care facilities. <i>Health and Social Care in the Community</i> , 2015 , 23, 513	3- 2 2	29
