#	Article	IF	Citations
1	Surgical-Site Infection Rates and Risk Factor Analysis in Coronary Artery Bypass Graft Surgery. Infection Control and Hospital Epidemiology, 2004, 25, 472-476.	1.8	146
2	Outcomes from the first 2 years of the Australian National Hand Hygiene Initiative. Medical Journal of Australia, 2011, 195, 615-619.	1.7	120
3	Cost of surgical site infections following coronary artery bypass surgery. ANZ Journal of Surgery, 2001, 71, 662-664.	0.7	92
4	A New Surgical-Site Infection Risk Index Using Risk Factors Identified by Multivariate Analysis for Patients Undergoing Coronary Artery Bypass Graft Surgery. Infection Control and Hospital Epidemiology, 2002, 23, 372-376.	1.8	82
5	RISK FACTORS FOR SURGICAL WOUND INFECTION AND BACTERAEMIA FOLLOWING CORONARY ARTERY BYPASS SURGERY. ANZ Journal of Surgery, 2000, 70, 47-51.	0.7	74
6	An Alternative Scoring System to Predict Risk for Surgical Site Infection Complicating Coronary Artery Bypass Graft Surgery. Infection Control and Hospital Epidemiology, 2007, 28, 1162-1168.	1.8	73
7	The burden of healthcare-associated infection in Australian hospitals: A systematic review of the literature. Infection, Disease and Health, 2017, 22, 117-128.	1.1	63
8	Nurse Expertise: A Critical Resource in the COVID-19 Pandemic Response. Annals of Global Health, 2020, 86, 49.	2.0	60
9	Effects of the Australian National Hand Hygiene Initiative after 8 years on infection control practices, health-care worker education, and clinical outcomes: a longitudinal study. Lancet Infectious Diseases, The, 2018, 18, 1269-1277.	9.1	56
10	The prevalence of healthcare associated infections among adult inpatients at nineteen large Australian acute-care public hospitals: a point prevalence survey. Antimicrobial Resistance and Infection Control, 2019, 8, 114.	4.1	54
11	Validation of Statewide Surveillance System Data on Central Lineâ€“Associated Bloodstream Infection in Intensive Care Units in Australia. Infection Control and Hospital Epidemiology, 2009, 30, 1045-1049.	1.8	49
12	Compliance with surgical antibiotic prophylaxis â€“ reporting from a statewide surveillance programme in Victoria, Australia. Journal of Hospital Infection, 2006, 63, 140-147.	2.9	45
13	Impact of revising the National Nosocomial Infection Surveillance System definition for catheter-related bloodstream infection in ICU: Reproducibility of the National Healthcare Safety Network case definition in an Australian cohort of infection control professionals. American Journal of Infection Control, 2009, 37, 643-648.	2.3	45
14	Performance of the National Nosocomial Infections Surveillance Risk Index in Predicting Surgical Site Infection in Australia. Infection Control and Hospital Epidemiology, 2007, 28, 55-59.	1.8	39
15	Hospital Outbreak of Norwalk-Like Virus. Infection Control and Hospital Epidemiology, 1997, 18, 576-579.	1.8	38
16	Strategies to reduce non-ventilator-associated hospital-acquired pneumonia: A systematic review. Infection, Disease and Health, 2019, 24, 229-239.	1.1	37
17	Influenza vaccine coverage among health care workers in Victorian public hospitals. Medical Journal of Australia, 2007, 186, 185-186.	1.7	36
18	The establishment of a statewide surveillance program for hospital-acquired infections in large Victorian public hospitals: A report from the VICNISS Coordinating Centre. American Journal of Infection Control, 2006, 34, 430-436.	2.3	35

#	Article	IF	Citations
19	Validation of Coronary Artery Bypass Graft Surgical Site Infection Surveillance Data From a Statewide Surveillance System in Australia. Infection Control and Hospital Epidemiology, 2007, 28, 812-817.	1.8	33
20	Budget impact analysis of routinely using whole-genomic sequencing of six multidrug-resistant bacterial pathogens in Queensland, Australia. BMJ Open, 2021, 11, e041968.	1.9	28
21	Estimating sensitivity and specificity from positive predictive value, negative predictive value and prevalence: application to surveillance systems for hospital-acquired infections. Journal of Hospital Infection, 2008, 69, 164-168.	2.9	24
22	Needleless intravenous systems: A reviewâ˜†â˜†â˜†.... American Journal of Infection Control, 1999, 27, 431-434.	2.3	23
23	The nursesâ€™ role in antimicrobial stewardship: A scoping review. International Journal of Nursing Studies, 2021, 113, 103772.	5.6	23
24	ASID/AICA position statement â€“ Infection control guidelines for patients with Clostridium difficile infection in healthcare settings. Healthcare Infection, 2011, 16, 33-39.	0.6	21
25	Healthcare-associated infections in Australia: time for national surveillance. Australian Health Review, 2015, 39, 37.	1.1	21
26	Hospital Outbreak of Norwalk-Like Virus. Infection Control and Hospital Epidemiology, 1997, 18, 576-579.	1.8	21
27	SURGICAL ANTIBIOTIC PROPHYLAXIS IN SMALLER HOSPITALS. ANZ Journal of Surgery, 2006, 76, 676-678.	0.7	16
28	The National Hand Hygiene Initiative. Medical Journal of Australia, 2009, 191, 420-421.	1.7	16
29	Variation in health care-associated infection surveillance practices in Australia. American Journal of Infection Control, 2015, 43, 773-775.	2.3	16
30	What Makes a Tweet Fly? Analysis of Twitter Messaging at Four Infection Control Conferences. Infection Control and Hospital Epidemiology, 2017, 38, 1271-1276.	1.8	16
31	Differences in identifying healthcare associated infections using clinical vignettes and the influence of respondent characteristics: a cross-sectional survey of Australian infection prevention staff. Antimicrobial Resistance and Infection Control, 2015, 4, 29.	4.1	14
32	Global burden, point sources, and outbreak management of healthcare-associatedBurkholderia cepaciainfections: An integrative review. Infection Control and Hospital Epidemiology, 2020, 41, 777-783.	1.8	14
33	Preventing healthcare-associated infections: the role of surveillance. Nursing Standard (Royal) Tj ETQq1 1 0.784314 rgBT /Overlock 10	0.P	13
34	Mental Health Outcomes in Australian Healthcare and Aged-Care Workers during the Second Year of the COVID-19 Pandemic. International Journal of Environmental Research and Public Health, 2022, 19, 4951.	2.6	12
35	The utility of frailty indices in predicting the risk of health care associated infections: A systematic review. American Journal of Infection Control, 2021, 49, 1078-1084.	2.3	11
36	Reducing urinary catheter use using an electronic reminder system in hospitalized patients: A randomized stepped-wedge trial. Infection Control and Hospital Epidemiology, 2019, 40, 427-431.	1.8	9

#	Article	IF	Citations
37	Development of a standardised approach to observing hand hygiene compliance in Australia. Healthcare Infection, 2012, 17, 115-121.	0.6	8
38	Novel application of a discrete choice experiment to identify preferences for a national healthcare-associated infection surveillance programme: a cross-sectional study. BMJ Open, 2016, 6, e011397.	1.9	8
39	Nurses' and midwivesâ€™ cleaning knowledge, attitudes and practices: An Australian study. Infection, Disease and Health, 2021, 26, 55-62.	1.1	8
40	Enteral nutrition feeding practices by intensive care nurses: A retrospective evaluation. Nursing in Critical Care, 2022, 27, 676-681.	2.3	8
41	Infections after coronary artery bypass graft surgery in Victorian hospitals - VICNISS Hospital Acquired Infection Surveillance. Australian and New Zealand Journal of Public Health, 2005, 29, 244-248.	1.8	7
42	A profile of smaller hospitals: Planning for a novel, statewide surveillance program, Victoria, Australia. American Journal of Infection Control, 2006, 34, 170-175.	2.3	7
43	Reducing urinary catheter use: a protocol for a mixed methods evaluation of an electronic reminder system in hospitalised patients in Australia. BMJ Open, 2018, 8, e020469.	1.9	7
44	Clinician perspectives of policy implementation: A qualitative study of the implementation of a national infection prevention policy in Australian hospitals. American Journal of Infection Control, 2019, 47, 366-370.	2.3	7
45	Prevalence of device use and transmission based precautions in nineteen large Australian acute care public hospitals: Secondary outcomes from a national healthcare associated infection point prevalence survey. Infection, Disease and Health, 2020, 25, 262-267.	1.1	7
46	Infection control professionals' and infectious diseases physicians' knowledge, preparedness, and experiences of managing COVID-19 in Australian healthcare settings. Infection, Disease and Health, 2021, 26, 249-257.	1.1	7
47	Healthcare-associated infections in Australia: tackling the â€˜known unknownsâ€™. Australian Health Review, 2018, 42, 178.	1.1	6
48	Establishing the prevalence of healthcare-associated infections in Australian hospitals: protocol for the Comprehensive Healthcare Associated Infection National Surveillance (CHAINS) study. BMJ Open, 2018, 8, e024924.	1.9	6
49	The frequency of urinary tract infections and the value of antiseptics in community-dwelling people who undertake intermittent urinary catheterization: A systematic review. American Journal of Infection Control, 2021, 49, 1058-1065.	2.3	6
50	Environmental hygiene, knowledge and cleaning practice: a phenomenological study of nurses and midwives during COVID-19. American Journal of Infection Control, 2021, 49, 1123-1128.	2.3	6
51	Intravascular device-related primary bacteraemia rates in a general intensive care unit. Healthcare Infection, 1999, 4, 8-11.	0.1	5
52	Surveillance for ventilator-associated pneumonia: the challenges and pitfalls. Healthcare Infection, 2005, 10, 122-125.	0.1	5
53	Characteristics of national and statewide health careâ€“associated infection surveillance programs: A qualitative study. American Journal of Infection Control, 2016, 44, 1505-1510.	2.3	5
54	Rate of nosocomial transmission of vancomycin-resistant enterococci from isolated patients. Internal Medicine Journal, 2004, 34, 510-512.	0.8	4

#	Article	IF	Citations
55	Use of Pulsed-Field Gel Electrophoresis in Infection Control Issues ConcerningBurkholderia cepacia. Infection Control and Hospital Epidemiology, 2003, 24, 624-626.	1.8	3
56	Implementation of a pilot surveillance program for smaller acute care hospitals. American Journal of Infection Control, 2007, 35, 196-199.	2.3	3
57	Quality of Data Reported to a Smaller-Hospital Pilot Surveillance Program. Infection Control and Hospital Epidemiology, 2007, 28, 486-488.	1.8	3
58	Interhospital Comparisons of Coronary Artery Bypass Graft Surgical Site Infection Rates Differ if Donor Sites Are Excluded. Infection Control and Hospital Epidemiology, 2007, 28, 1210-1212.	1.8	3
59	Bloodstream infection surveillance in smaller hospitals. Healthcare Infection, 2007, 12, 45-47.	0.1	3
60	Using Samples to Estimate the Sensitivity and Specificity of a Surveillance Process. Infection Control and Hospital Epidemiology, 2008, 29, 559-563.	1.8	3
61	MRSA infections in smaller hospitals, Victoria, Australia. American Journal of Infection Control, 2007, 35, 697-699.	2.3	2
62	Occupational Exposures to Bloodborne Pathogens in Smaller Hospitals. Infection Control and Hospital Epidemiology, 2007, 28, 896-898.	1.8	2
63	Health-care-associated infections. Lancet Infectious Diseases, The, 2015, 15, 763-764.	9.1	2
64	Scope of practice and educational needs of infection prevention and control professionals in Australian residential aged care facilities. Infection, Disease and Health, 2020, 25, 286-293.	1.1	2
65	The National Hand Hygiene Initiative. Healthcare Infection, 2011, 16, 122.	0.6	1
66	Caution advised when interpreting MyHospitals data. Healthcare Infection, 2012, 17, 142.	0.6	1
67	Clostridium difficile infection: nursing considerations. Nursing Standard (Royal College of Nursing) Tj ETQq1 1 0.784314 rgBT /Overlo	0.1	1
68	Evidence based recommendations for a national healthcare associated infection surveillance program. Infection, Disease and Health, 2016, 21, 126-127.	1.1	1
69	Aseptic technique and the implementation of national policy: Contextual factors for consideration. Infection, Disease and Health, 2017, 22, 94-95.	1.1	1
70	Problematic linkage of publicly disclosed hand hygiene compliance and health careâ€associated Staphylococcus aureus bacteraemia rates. Medical Journal of Australia, 2012, 197, 212-214.	1.7	1
71	Patient perspectives of healthcare associated infection: â€œYou donâ€™t know what impacts it will have on your lifeâ€. Journal of Hospital Infection, 2022, , .	2.9	1
72	A user assessment of a smaller hospital surveillance program. American Journal of Infection Control, 2008, 36, 761-763.	2.3	0

#	Article	IF	Citations
73	Hand Hygiene Australia: Synopsis. Healthcare Infection, 2009, 14, 11.	0.6	0
74	Australasian College for Infection Prevention and Control â€“ our College, our future. Healthcare Infection, 2012, 17, 71.	0.6	0
75	The impact of electronic surveillance systems for healthcare associated infections on infection prevention resources: A systematic review of the literature. Infection, Disease and Health, 2017, 22, S17-S18.	1.1	0
76	Bundles of bundles. Infection, Disease and Health, 2019, 24, 113-114.	1.1	0
77	Consumer knowledge and attitudes toward public reporting of health careâ€“associated infection data. American Journal of Infection Control, 2019, 47, 656-660.	2.3	0
78	Bloodstream infection. , 2021, , 47-61.		0
79	Surgical site infection. , 2021, , 9-24.		0
80	Doctor, do you have a moment? National Hand Hygiene Initiative compliance in Australian hospitals. Medical Journal of Australia, 2014, 201, 264-265.	1.7	0
81	Epidemiology of healthcare-associated infections in Australia: New data and challenges. Infection, Disease and Health, 2021, 26, S1-S2.	1.1	0
82	Australian infection control practitionersâ€™ and infectious diseases physiciansâ€™ experiences of managing COVID-19. Infection, Disease and Health, 2021, 26, S2.	1.1	0
