

Miomir Kostic

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9021542/miomir-kostic-publications-by-year.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

24
papers

309
citations

#	Paper	IF	Citations
24	Comparison of energy efficiency and costs related to conventional and LED road lighting installations. <i>Energy</i> , 2022 , 254, 124299	7.9	2
23	Voltage distortion in LED street lighting installations. <i>Electrical Engineering</i> , 2021 , 103, 2161-2180	1.5	1
22	Improved measurement accuracy of industrial-commercial thermal imagers when inspecting low-voltage electrical installations. <i>Measurement: Journal of the International Measurement Confederation</i> , 2021 , 185, 109934	4.6	0
21	Drivers' Preference for the Color of LED Street Lighting. <i>IEEE Access</i> , 2019 , 7, 72850-72861	3.5	12
20	A new procedure for determining the road surface reduced luminance coefficient table by on-site measurements. <i>Lighting Research and Technology</i> , 2019 , 51, 65-81	2	7
19	Luminous flux to input power ratio, power factor and harmonics when dimming high-pressure sodium and LED luminaires used in road lighting. <i>Lighting Research and Technology</i> , 2019 , 51, 304-323	2	11
18	Warm white versus neutral white LED street lighting: Pedestrians' impressions. <i>Lighting Research and Technology</i> , 2019 , 51, 1237-1248	2	8
17	Detection of Poor Contacts in Low-Voltage Electrical Installations. <i>IEEE Transactions on Components, Packaging and Manufacturing Technology</i> , 2019 , 9, 129-137	1.7	4
16	Effects of a Reduced Torque on Heating of Electrical Contacts in Plugs and Receptacles. <i>IEEE Transactions on Components, Packaging and Manufacturing Technology</i> , 2018 , 8, 1905-1913	1.7	3
15	Actual energy savings when replacing high-pressure sodium with LED luminaires in street lighting. <i>Energy</i> , 2018 , 157, 367-378	7.9	56
14	The Impact of an Incomplete Overlap of a Copper Conductor and the Corresponding Terminal on the Contact Temperature. <i>IEEE Transactions on Components, Packaging and Manufacturing Technology</i> , 2017 , 7, 1644-1654	1.7	6
13	Modifications to the CIE 115-2010 procedure for selecting lighting classes for roads. <i>Lighting Research and Technology</i> , 2016 , 48, 340-351	2	3
12	Quick calculation of the grounding resistance of a typical 110 kV transmission line tower grounding system. <i>Electric Power Systems Research</i> , 2016 , 131, 178-186	3.5	6
11	Opinion: The importance of developing city street lighting maps. <i>Lighting Research and Technology</i> , 2016 , 48, 916-916	2	2
10	An Algorithm for Estimating the Grounding Resistance of Complex Grounding Systems Including Contact Resistance. <i>IEEE Transactions on Industry Applications</i> , 2015 , 51, 5167-5174	4.3	6
9	An open source tool for transmission system analysis and planning. <i>Energy Systems</i> , 2014 , 5, 705-717	1.7	2
8	Comparison of electronic and conventional ballasts used in roadway lighting. <i>Lighting Research and Technology</i> , 2014 , 46, 407-420	2	4

7	Analysis of influence of imperfect contact between grounding electrodes and surrounding soil on electrical properties of grounding loops. <i>Electrical Engineering</i> , 2014 , 96, 255-265	1.5	9
6	Reductions in electricity losses in the distribution power system in case of the mass use of compact fluorescent lamps. <i>Electric Power Systems Research</i> , 2011 , 81, 465-477	3.5	7
5	Detection of series arcing in low-voltage electrical installations. <i>European Transactions on Electrical Power</i> , 2009 , 19, 423-432		22
4	Technical and economic analysis of road lighting solutions based on mesopic vision. <i>Building and Environment</i> , 2009 , 44, 66-75	6.5	22
3	Recommendations for energy efficient and visually acceptable street lighting. <i>Energy</i> , 2009 , 34, 1565-1572		83
2	Reductions in electricity consumption and power demand in case of the mass use of compact fluorescent lamps. <i>Energy</i> , 2009 , 34, 1355-1363	7.9	21
1	The voltage distortion in low-voltage networks caused by compact fluorescent lamps with electronic gear. <i>Electric Power Systems Research</i> , 2005 , 73, 129-136	3.5	12
