

# Claudio Sillero-Zubiri

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/9032746/claudio-sillero-zubiri-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

52  
papers

| #  | Paper                                                                                                                                                                                                       | IF  | Citations |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 52 | Towards resolving taxonomic uncertainties in wolf, dog and jackal lineages of Africa, Eurasia and Australasia. <i>Journal of Zoology</i> , <b>2022</b> , 316, 155-168                                       | 2   | 5         |
| 51 | Overcoming racism in the twin spheres of conservation science and practice. <i>Proceedings of the Royal Society B: Biological Sciences</i> , <b>2021</b> , 288, 20211871                                    | 4.4 | 4         |
| 50 | Open-source, low-cost modular GPS collars for monitoring and tracking wildlife. <i>Methods in Ecology and Evolution</i> , <b>2020</b> , 11, 553-558                                                         | 7.7 | 8         |
| 49 | Himalayan wolf distribution and admixture based on multiple genetic markers. <i>Journal of Biogeography</i> , <b>2020</b> , 47, 1272-1285                                                                   | 4.1 | 10        |
| 48 | People and jaguars: new insights into the role of social factors in an old conflict. <i>Oryx</i> , <b>2020</b> , 54, 678-686                                                                                | 1.5 | 3         |
| 47 | Perspectives of traditional Himalayan communities on fostering coexistence with Himalayan wolf and snow leopard. <i>Conservation Science and Practice</i> , <b>2020</b> , 2, e165                           | 2.2 | 8         |
| 46 | Threat analysis for more effective lion conservation. <i>Oryx</i> , <b>2020</b> , 1-8                                                                                                                       | 1.5 | 4         |
| 45 | Lion and spotted hyaena abundance in Dinder National Park, Sudan. <i>African Journal of Ecology</i> , <b>2020</b> , 58, 316-318                                                                             | 0.8 | 1         |
| 44 | The giant that makes do with little: small and easy-to-leave home ranges found in the giant root-rat. <i>Journal of Zoology</i> , <b>2020</b> , 310, 64-70                                                  | 2   | 1         |
| 43 | Effects of publication bias on conservation planning. <i>Conservation Biology</i> , <b>2019</b> , 33, 1151-1163                                                                                             | 6   | 19        |
| 42 | Foraging ecology of African wolves ( <i>Canis lupus</i> ) and its implications for the conservation of Ethiopian wolves ( <i>Canis lupus</i> ). <i>Royal Society Open Science</i> , <b>2019</b> , 6, 190772 | 3.3 | 4         |
| 41 | Shifts in habitat suitability and the conservation status of the Endangered Andean cat <i>Leopardus jacobita</i> under climate change scenarios. <i>Oryx</i> , <b>2019</b> , 53, 356-367                    | 1.5 | 3         |
| 40 | Conservation implications for the Himalayan wolf <i>Canis (lupus) himalayensis</i> based on observations of packs and home sites in Nepal. <i>Oryx</i> , <b>2019</b> , 53, 663-669                          | 1.5 | 3         |
| 39 | CAPTURE AND IMMOBILIZATION OF AFRICAN WOLVES ( <i>CANIS LUPASTER</i> ) IN THE ETHIOPIAN HIGHLANDS. <i>Journal of Wildlife Diseases</i> , <b>2018</b> , 54, 175-179                                          | 1.3 | 5         |
| 38 | Combining biological and socio-political criteria to set spatial conservation priorities for the endangered African wild dog. <i>Animal Conservation</i> , <b>2018</b> , 21, 376-386                        | 3.2 | 6         |
| 37 | Lions in the modern arena of CITES. <i>Conservation Letters</i> , <b>2018</b> , 11, e12444                                                                                                                  | 6.9 | 26        |
| 36 | A culture of tolerance: coexisting with large carnivores in the Kafa Highlands, Ethiopia. <i>Oryx</i> , <b>2018</b> , 52, 751-760                                                                           | 1.5 | 19        |

|    |                                                                                                                                                                                                                           |     |     |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| 35 | Competition between sympatric wolf taxa: an example involving African and Ethiopian wolves. <i>Royal Society Open Science</i> , <b>2018</b> , 5, 172207                                                                   | 3.3 | 6   |
| 34 | Ethiopian wolves conflict with pastoralists in small Afroalpine relicts. <i>African Journal of Ecology</i> , <b>2018</b> , 56, 368-374                                                                                    | 0.8 | 5   |
| 33 | The unique genetic adaptation of the Himalayan wolf to high-altitudes and consequences for conservation. <i>Global Ecology and Conservation</i> , <b>2018</b> , 16, e00455                                                | 2.8 | 16  |
| 32 | Daily activity patterns in the giant root rat ( <i>Tachyoryctes macrocephalus</i> ), a fossorial rodent from the Afro-alpine zone of the Bale Mountains, Ethiopia. <i>Journal of Zoology</i> , <b>2017</b> , 302, 157-163 | 2   | 8   |
| 31 | Financial compensation for damage to livestock by lions <i>Panthera leo</i> on community rangelands in Kenya. <i>Oryx</i> , <b>2017</b> , 51, 106-114                                                                     | 1.5 | 30  |
| 30 | Food habits of the pale fox ( <i>Vulpes pallida</i> ) in Niger. <i>African Journal of Ecology</i> , <b>2017</b> , 55, 664-671                                                                                             | 0.8 | 2   |
| 29 | African wolf diet, predation on livestock and conflict in the Guassa mountains of Ethiopia. <i>African Journal of Ecology</i> , <b>2017</b> , 55, 632-639                                                                 | 0.8 | 7   |
| 28 | Phylogenetic evidence for the ancient Himalayan wolf: towards a clarification of its taxonomic status based on genetic sampling from western Nepal. <i>Royal Society Open Science</i> , <b>2017</b> , 4, 170186           | 3.3 | 21  |
| 27 | Ecological role of the giant root-rat ( <i>Tachyoryctes macrocephalus</i> ) in the Afroalpine ecosystem. <i>Integrative Zoology</i> , <b>2017</b> , 12, 333-344                                                           | 1.9 | 6   |
| 26 | An interdisciplinary review of current and future approaches to improving human-predator relations. <i>Conservation Biology</i> , <b>2017</b> , 31, 513-523                                                               | 6   | 140 |
| 25 | Feasibility and efficacy of oral rabies vaccine SAG2 in endangered Ethiopian wolves. <i>Vaccine</i> , <b>2016</b> , 34, 4792-8                                                                                            | 4.1 | 21  |
| 24 | Large carnivore abundance in the Benoue ecosystem, North Cameroon. <i>African Journal of Ecology</i> , <b>2016</b> , 54, 235-237                                                                                          | 0.8 | 8   |
| 23 | Helminth parasites in the endangered Ethiopian wolf, <i>Canis simensis</i> . <i>Journal of Helminthology</i> , <b>2015</b> , 89, 487-95                                                                                   | 1.6 | 6   |
| 22 | Developing fencing policies for dryland ecosystems. <i>Journal of Applied Ecology</i> , <b>2015</b> , 52, 544-551                                                                                                         | 5.8 | 51  |
| 21 | Saharan cheetah <i>Acinonyx jubatus hecki</i> , a ghostly dweller on Niger's Termit massif. <i>Oryx</i> , <b>2015</b> , 49, 591-594                                                                                       | 5.4 | 5   |
| 20 | Fiddling in biodiversity hotspots while deserts burn? Collapse of the Sahara's megafauna. <i>Diversity and Distributions</i> , <b>2014</b> , 20, 114-122                                                                  | 5   | 76  |
| 19 | Levels of approach <b>2013</b> , 23-41                                                                                                                                                                                    |     | 3   |
| 18 | Genetic structure and patterns of gene flow among populations of the endangered Ethiopian wolf. <i>Animal Conservation</i> , <b>2013</b> , 16, 234-247                                                                    | 3.2 | 20  |

|    |                                                                                                                                                                                                                                         |     |     |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| 17 | Ecological bases of philopatry and cooperation in Ethiopian wolves. <i>Behavioral Ecology and Sociobiology</i> , <b>2012</b> , 66, 1005-1015                                                                                            | 2.5 | 12  |
| 16 | An analysis of long-term trends in the abundance of domestic livestock and free-roaming dogs in the Bale Mountains National Park, Ethiopia. <i>African Journal of Ecology</i> , <b>2011</b> , 49, 91-102                                | 0.8 | 7   |
| 15 | Bioclimatic constraints to Andean cat distribution: a modelling application for rare species. <i>Diversity and Distributions</i> , <b>2011</b> , 17, 311-322                                                                            | 5   | 37  |
| 14 | Mitigating carnivore-livestock conflict in Europe: lessons from Slovakia. <i>Oryx</i> , <b>2011</b> , 45, 272-280                                                                                                                       | 1.5 | 90  |
| 13 | The cryptic African wolf: <i>Canis aureus lupaster</i> is not a golden jackal and is not endemic to Egypt. <i>PLoS ONE</i> , <b>2011</b> , 6, e16385                                                                                    | 3.7 | 69  |
| 12 | The Endangered Siberian marmot <i>Marmota sibirica</i> as a keystone species? Observations and implications of burrow use by corsac foxes <i>Vulpes corsac</i> in Mongolia. <i>Oryx</i> , <b>2009</b> , 43, 431                         | 1.5 | 36  |
| 11 | Behaviour and ecology of the Ethiopian wolf ( <i>Canis simensis</i> ) in a human-dominated landscape outside protected areas. <i>Animal Conservation</i> , <b>2005</b> , 8, 113-121                                                     | 3.2 | 31  |
| 10 | Wolves: Behavior, Ecology and Conservation edited by L. David Mech and Luigi Boitani (2003), xvii + 448 pp., The University of Chicago Press, Chicago, USA. ISBN 0 226 51696 2 (hbk), \$49.00.. <i>Oryx</i> , <b>2004</b> , 38, 234-235 | 1.5 |     |
| 9  | Integrating Epidemiology into Population Viability Analysis: Managing the Risk Posed by Rabies and Canine Distemper to the Ethiopian Wolf. <i>Conservation Biology</i> , <b>2002</b> , 16, 1372-1385                                    | 6   | 103 |
| 8  | Disease as a threat to endangered species: Ethiopian wolves, domestic dogs and canine pathogens. <i>Animal Conservation</i> , <b>1998</b> , 1, 273-280                                                                                  | 3.2 | 120 |
| 7  | Scent-marking and territorial behaviour of Ethiopian wolves <i>Canis simensis</i> . <i>Journal of Zoology</i> , <b>1998</b> , 245, 351-361                                                                                              | 2   | 125 |
| 6  | Disease as a threat to endangered species: Ethiopian wolves, domestic dogs and canine pathogens <b>1998</b> , 1, 273                                                                                                                    |     | 6   |
| 5  | Rabies and mortality in Ethiopian wolves ( <i>Canis simensis</i> ). <i>Journal of Wildlife Diseases</i> , <b>1996</b> , 32, 80-6                                                                                                        | 1.3 | 96  |
| 4  | Field immobilization of Ethiopian wolves ( <i>Canis simensis</i> ). <i>Journal of Wildlife Diseases</i> , <b>1996</b> , 32, 147-51                                                                                                      | 1.3 | 18  |
| 3  | Male philopatry, extra-pack copulations and inbreeding avoidance in Ethiopian wolves ( <i>Canis simensis</i> ). <i>Behavioral Ecology and Sociobiology</i> , <b>1996</b> , 38, 331-340                                                  | 2.5 | 172 |
| 2  | The Ethiopian wolf [An endangered endemic canid. <i>Oryx</i> , <b>1992</b> , 26, 205-214                                                                                                                                                | 1.5 | 56  |
| 1  | Population ecology of spotted hyaena in an equatorial mountain forest. <i>African Journal of Ecology</i> , <b>1992</b> , 30, 292-300                                                                                                    | 0.8 | 25  |
