#	ARTICLE	IF	PR CITATIONS
1	A prospective evaluation of neck and shoulder function following treatments of <sc>early-stage</sc> human <sc>papillomavirus-associated</sc> oropharynx cancer. Clinical Otolaryngology, 2023, 48, 756-765.	1.3	2
2	Impact of Smoking and Primary Tumor Subsite on Recurrence in HPV-associated Oropharyngeal Squamous Cell Carcinoma. Otolaryngology - Head and Neck Surgery, 2022, 166, 704-711.	2.4	5
3	Adjuvant therapy improves survival in pT4aN0 oral cavity squamous cell carcinoma with bone invasion. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2022, 43, 103303.	1.6	1
4	Prevalence of human papillomavirus in head and neck cancers at tertiary care centers in the United States over time. Cancer, 2022, 128, 1767-1774.	4.1	19
5	STAT3 Activation as a Predictive Biomarker for Ruxolitinib Response in Head and Neck Cancer. Clinical Cancer Research, 2022, 28, 4737-4746.	6.8	22
6	Patient-reported Quality of Life After Resection With Primary Closure for Oral Tongue Carcinoma. Laryngoscope, 2021, 131, 312-318.	1.5	17
7	Improved Tumor Control Related to Radiotherapy Technological Development for Hypopharyngeal Cancer. Laryngoscope, 2021, 131, .	1.5	2
8	Sialendoscopy in Chronic Obstructive Sialadenitis Without Sialolithiasis: A Prospective Cohort Study. Otolaryngology - Head and Neck Surgery, 2021, 164, 595-601.	2.4	13
9	Head and neck surgery during the coronavirus-19 pandemic: The University of California San Francisco experience. Head and Neck, 2021, 43, 622-629.	2.0	16
10	Patterns of Nodal Metastases and Predictors of Occult Disease in HPV-associated Oropharynx Cancer. Otolaryngology - Head and Neck Surgery, 2021, 164, 624-630.	2.4	11
11	Predicting Adverse Histopathology and Need for Postsurgical Adjuvant Therapy for Human Papilloma Virus-associated Oropharynx Carcinoma. Otolaryngology - Head and Neck Surgery, 2021, 165, 309-316.	2.4	5
12	Obstructive Sialadenitis: Stones and Stenoses. Current Otorhinolaryngology Reports, 2021, 9, 215-222.	1.0	1
13	Impact of surgical margins on local control in patients undergoing <sc>single-modality</sc> transoral robotic surgery for <sc>HPV-related</sc> oropharyngeal squamous cell carcinoma. Head and Neck, 2021, 43, 2434-2444.	2.0	41
14	Oncologic outcomes of human papillomavirus-associated oropharynx carcinoma treated with surgery alone: A 12-institution study of 344 patients. Cancer, 2021, 127, 3092-3106.	4.1	19
15	Nasogastric tube feeding after transoral robotic surgery for oropharynx carcinoma. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2021, 42, 102857.	1.6	8
16	A prospective study of <sc>patient-reported xerostomia-related</sc> outcomes after parotidectomy. Laryngoscope Investigative Otolaryngology, 2021, 6, 683-689.	1.6	6
17	Transoral Excision of Parapharyngeal Space Tumors. Otolaryngologic Clinics of North America, 2021, 54, 531-541.	1.2	21
18	Risk of Pathologic Extranodal Extension and Other Adverse Features After Transoral Robotic Surgery in Patients With HPV-Positive Oropharynx Cancer. JAMA Otolaryngology - Head and Neck Surgery, 2021, 147, 1080.	3.1	19

#	ARTICLE	IF	PR CITATIONS
19	Treatment modality impact on quality of life for human papillomavirus-associated oropharynx cancer. <i>Laryngoscope</i> , 2020, 130, .	1.5	42
20	Beyond Depth of Invasion: Adverse Pathologic Tumor Features in Early Oral Tongue Squamous Cell Carcinoma. <i>Laryngoscope</i> , 2020, 130, 1715-1720.	1.5	60
21	Distinct biomarker and behavioral profiles of human papillomavirus-related oropharynx cancer patients by age. <i>Oral Oncology</i> , 2020, 101, 104522.	2.5	23
22	Functional Specialization of Human Salivary Glands and Origins of Proteins Intrinsic to Human Saliva. <i>Cell Reports</i> , 2020, 33, 108402.	6.4	82
23	Salivary and lacrimal dysfunction after radioactive iodine for differentiated thyroid cancer: American Head and Neck Society Endocrine Surgery Section and Salivary Gland Section joint multidisciplinary clinical consensus statement of otolaryngology, ophthalmology, nuclear medicine and endocrinology. <i>Head and Neck</i> , 2020, 42, 3446-3459.	2.0	40
24	Salivary Gland Neoplasms. <i>Current Otorhinolaryngology Reports</i> , 2020, 8, 298-303.	1.0	0
25	HPV-positive Squamous Cell Carcinoma of the Larynx, Oral Cavity, and Hypopharynx. <i>American Journal of Surgical Pathology</i> , 2020, 44, 691-702.	3.6	30
26	Modified technique of submandibular gland transfer followed by intensity modulated radiotherapy to reduce xerostomia in head and neck cancer patients. <i>Head and Neck</i> , 2020, 42, 2340-2347.	2.0	5
27	Sex differences in HPV immunity among adults without cancer. <i>Human Vaccines and Immunotherapeutics</i> , 2019, 15, 1935-1941.	3.1	17
28	Patterns of care and survival impact of adjuvant chemoradiotherapy for oropharyngeal cancer with intermediate-risk features. <i>Head and Neck</i> , 2019, 41, 3177-3186.	2.0	2
29	One-year outcomes of sialendoscopic-assisted salivary duct surgery for sialadenitis without sialolithiasis. <i>Laryngoscope</i> , 2019, 129, 890-896.	1.5	16
30	Advanced head and neck surgical techniques: A survey of US otolaryngology resident perspectives. <i>Auris Nasus Larynx</i> , 2019, 46, 272-278.	1.5	7
31	Socioeconomic disparities in a population of patients undergoing total thyroidectomy for benign disease. <i>Head and Neck</i> , 2019, 41, 715-721.	2.0	4
32	Human Papillomavirus-Associated Oropharyngeal Cancer: Patterns of Nodal Disease. <i>Otolaryngology - Head and Neck Surgery</i> , 2019, 160, 502-509.	2.4	24
33	Salivary glands regenerate after radiation injury through SOX2-mediated secretory cell replacement. <i>EMBO Molecular Medicine</i> , 2018, 10, .	7.3	116
34	Surgeon-performed ultrasound for the assessment of parotid masses. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2018, 39, 467-471.	1.6	12
35	Mortality risk after clinical management of recurrent and metastatic adenoid cystic carcinoma. <i>Journal of Otolaryngology - Head and Neck Surgery</i> , 2018, 47, .	1.8	20
36	Increasing prevalence of human papillomavirus-positive oropharyngeal cancers among older adults. <i>Cancer</i> , 2018, 124, 2993-2999.	4.1	149

#	ARTICLE	IF	PR CITATIONS
37	Prognostic factors for human papillomavirus‐positive and negative oropharyngeal carcinomas. Laryngoscope, 2018, 128, .	1.5	30
38	Major prognostic factors for recurrence and survival independent of the American Joint Committee on Cancer eighth edition staging system in patients with cutaneous squamous cell carcinoma treated with multimodality therapy. Head and Neck, 2018, 40, 1406-1414.	2.0	30
39	The effect of submandibular gland preservation during level 1B neck dissection on postoperative xerostomia. Auris Nasus Larynx, 2018, 45, 123-127.	1.5	11
40	A Novel Approach to Oropharyngeal Foreign Body Removal. Otolaryngology - Head and Neck Surgery, 2018, 158, 194-196.	2.4	5
41	Squamous cell carcinoma of unknown primary of the head and neck: Favorable prognostic factors comparable to those in oropharyngeal cancer. Head and Neck, 2018, 40, 904-916.	2.0	14
42	A natural killer‐dendritic cell axis defines checkpoint therapy‐responsive tumor microenvironments. Nature Medicine, 2018, 24, 1178-1191.	40.4	921
43	Squamous Cell Carcinoma of the Soft Palate in the United States: A Population‐Based Study. Otolaryngology - Head and Neck Surgery, 2018, 159, 662-668.	2.4	9
44	High-Yield Purification, Preservation, and Serial Transplantation of Human Satellite Cells. Stem Cell Reports, 2018, 10, 1160-1174.	4.6	69
45	Shorter interval between radiation therapy and salvage laryngopharyngeal surgery increases complication rates following microvascular free tissue transfer. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2018, 39, 548-552.	1.6	11
46	Does a Standalone Cancer Center Improve Head and Neck Microsurgical Outcomes?. Journal of Reconstructive Microsurgery, 2017, 33, 252-256.	2.1	3
47	The prognostic role of sex, race, and human papillomavirus in oropharyngeal and nonoropharyngeal head and neck squamous cell cancer. Cancer, 2017, 123, 1566-1575.	4.1	210
48	A feasibility and efficacy trial of a hand-held humidification device in patients undergoing radiotherapy for head and neck cancer. Supportive Care in Cancer, 2017, 25, 2611-2618.	2.4	3
49	Chronic parotitis with multiple calcifications: Clinical and sialendoscopic findings. Laryngoscope, 2017, 127, 1565-1570.	1.5	13
50	Differences in the Prevalence of Human Papillomavirus (HPV) in Head and Neck Squamous Cell Cancers by Sex, Race, Anatomic Tumor Site, and HPV Detection Method. JAMA Oncology, 2017, 3, 169.	14.7	136
51	Transoral robotic surgery (TORS) for excision of a retropharyngeal intramuscular lipoma. Auris Nasus Larynx, 2017, 44, 742-744.	1.5	8
52	Surgeon‐Performed Ultrasound for Chronic Obstructive Sialadenitis Helps Predict Sialendoscopic Findings and Outcomes. Otolaryngology - Head and Neck Surgery, 2017, 157, 973-980.	2.4	20
53	Salivary duct stenosis: Short‐term symptom outcomes after sialendoscopy‐assisted salivary duct surgery. Laryngoscope, 2017, 127, 2770-2776.	1.5	22
54	Identification and characterization of a rich population of CD34+ mesenchymal stem/stromal cells in human parotid, sublingual and submandibular glands. Scientific Reports, 2017, 7, .	3.5	30

#	ARTICLE	IF	PR CITATIONS
55	Volumetric Growth of Cervical Schwannoma as a Predictor of Surgical Intervention. Otolaryngology - Head and Neck Surgery, 2017, 156, 152-155.	2.4	5
56	Sialadenitis without sialolithiasis: Prospective outcomes after sialendoscopy-assisted salivary duct surgery. Laryngoscope, 2017, 127, 1073-1079.	1.5	34
57	Earlier and more specific detection of persistent neck disease with diffusion-weighted MRI versus subsequent PET/CT after definitive chemoradiation for oropharyngeal squamous cell carcinoma. Head and Neck, 2017, 39, 432-438.	2.0	16
58	Neck Dissection Technique Commonality and Variance: A Survey on Neck Dissection Technique Preferences among Head and Neck Oncologic Surgeons in the American Head and Neck Society. International Archives of Otorhinolaryngology, 2017, 21, 8-16.	1.1	12
59	Sialendoscopy-assisted surgery and the chronic obstructive sialadenitis symptoms questionnaire: A prospective study. Laryngoscope, 2016, 126, 1343-1348.	1.5	42
60	Benefits of Immediate Extubation Following Free Tissue Transfer for Head and Neck Reconstruction. Journal of Reconstructive Microsurgery, 2016, 32, 533-539.	2.1	21
61	Anterolateral Thigh Adipofascial Flap: A New Option for Scalp Reconstruction. Journal of Reconstructive Microsurgery, 2016, 32, 160-163.	2.1	10
62	The Chronic Obstructive Sialadenitis Symptoms Questionnaire to assess sialendoscopy-assisted surgery. Laryngoscope, 2016, 126, 93-99.	1.5	46
63	Clinicopathologic characteristics and outcomes of recurrent oropharyngeal squamous cell carcinoma. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2016, 37, 513-516.	1.6	0
64	Xanthogranuloma in the heavily irradiated low neck in a patient with head and neck cancer. Journal of Otolaryngology - Head and Neck Surgery, 2016, 45, .	1.8	2
65	How, when, and from whom neck dissection operative technique is learned: An international survey on neck dissection education among head and neck oncologic surgeons. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2016, 37, 431-435.	1.6	3
66	The advantages and drawbacks of routine magnetic resonance imaging for long-term post-treatment locoregional surveillance of oral cavity squamous cell carcinoma. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2015, 36, 415-423.	1.6	8
67	Elective Lymphadenectomy during Salvage for Locally Recurrent Head and Neck Squamous Cell Carcinoma after Radiation. Otolaryngology - Head and Neck Surgery, 2014, 151, 462-467.	2.4	11
68	Surgeon-performed ultrasound and transfacial sialoendoscopy for complete parotid duct stenosis. Laryngoscope, 2014, 124, 418-420.	1.5	12
69	Intraoperative Tumor Localization With Surgeon-Performed Ultrasound-Guided Needle Dye Injection. Laryngoscope, 2011, 121, S152-S152.	1.5	0
70	Intraoperative tumor localization with surgeon-performed ultrasound-guided needle dye injection. Laryngoscope, 2011, 121, 1651-1655.	1.5	26
