#	ARTICLE	IF	CITATIONS
1	Who has a beef with reducing red and processed meat consumption? A media framing analysis. <i>Public Health Nutrition</i> , 2022, 25, 578-590.	1.1	21
2	What are the benefits and risks of nutrition policy actions to reduce added sugar consumption? An Australian case study. <i>Public Health Nutrition</i> , 2022, 25, 2025-2042.	1.1	1
3	Evaluating intake levels of nutrients linked to non-communicable diseases in Australia using the novel combination of food processing and nutrient profiling metrics of the PAHO Nutrient Profile Model. <i>European Journal of Nutrition</i> , 2022, 61, 1801-1812.	1.8	6
4	Dietitians Australia position statement on healthy and sustainable diets. <i>Nutrition and Dietetics</i> , 2022, 79, 6-27.	0.9	21
5	Identifying effective interventions to promote consumption of protein-rich foods from lower ecological footprint sources: A systematic literature review. <i>PLOS Global Public Health</i> , 2022, 2, e0000209.	0.5	5
6	Ultra-processed foods should be central to global food systems dialogue and action on biodiversity. <i>BMJ Global Health</i> , 2022, 7, e008269.	2.0	25
7	Complexities and Context of Scaling Up: A Qualitative Study of Stakeholder Perspectives of Scaling Physical Activity and Nutrition Interventions in Australia. <i>Frontiers in Public Health</i> , 2022, 10, 771235.	1.3	4
8	A Systematic Review of the Methods Used to Assess and Report Dietary Patterns. <i>Frontiers in Nutrition</i> , 2022, 9, .	1.6	18
9	Nutrition Classification Schemes for Informing Nutrition Policy in Australia: Nutrient-Based, Food-Based, or Dietary-Based?. <i>Current Developments in Nutrition</i> , 2022, 6, nzac112.	0.1	13
10	The drivers, trends and dietary impacts of non-nutritive sweeteners in the food supply: a narrative review. <i>Nutrition Research Reviews</i> , 2021, 34, 185-208.	2.1	30
11	Have we compromised too much? A critical analysis of nutrition policy in Australia 2007â€“2018. <i>Public Health Nutrition</i> , 2021, 24, 755-765.	1.1	8
12	Ultraprocessed foods and cardiovascular health: it's not just about the nutrients. <i>American Journal of Clinical Nutrition</i> , 2021, 113, 257-258.	2.2	10
13	Dietary patterns, foods and nutrients: a descriptive analysis of the systematic reviews conducted to inform the Australian Dietary Guidelines. <i>Nutrition Research Reviews</i> , 2021, 34, 117-124.	2.1	8
14	Voluntary food fortification policy in Australia: did â€˜formalâ€™ stakeholder consultation influence the outcome?. <i>Health Promotion International</i> , 2021, 36, 1393-1402.	0.9	3
15	Mechanisms of scaling up: combining a realist perspective and systems analysis to understand successfully scaled interventions. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 42.	2.0	19
16	Does the Australian Health Star Rating System Encourage Added Sugar Reformulation? <i>Trends in Sweetener Use in Australia</i> . <i>Nutrients</i> , 2021, 13, 898.	1.7	11
17	Promoting healthy and sustainable diets: barriers and enablers for successful policy activities in Australia. <i>Health Promotion International</i> , 2021, 36, 1633-1643.	0.9	2
18	Globalization, first-foods systems transformations and corporate power: a synthesis of literature and data on the market and political practices of the transnational baby food industry. <i>Globalization and Health</i> , 2021, 17, 58.	2.4	60

#	ARTICLE	IF	CITATIONS
19	Progress towards Achieving the Recommendations of the Commission on Ending Childhood Obesity: A Comprehensive Review and Analysis of Current Policies, Actions and Implementation Gaps in Thailand. <i>Nutrients</i> , 2021, 13, 1927.	1.7	2
20	The need to reshape global food processing: a call to the United Nations Food Systems Summit. <i>BMJ Global Health</i> , 2021, 6, e006885.	2.0	49
21	1005Dietary pattern assessment methods and implications for dietary guideline development. <i>International Journal of Epidemiology</i> , 2021, 50, .	0.9	0
22	Breastfeeding, first-food systems and corporate power: a case study on the market and political practices of the transnational baby food industry and public health resistance in the Philippines. <i>Globalization and Health</i> , 2021, 17, 125.	2.4	15
23	Healthy and Environmentally Sustainable Food Procurement and Foodservice in Australian Aged Care and Healthcare Services: A Scoping Review of Current Research and Training. <i>Sustainability</i> , 2021, 13, 11207.	1.6	6
24	Evidence Use in the Development of the Australian Dietary Guidelines: A Qualitative Study. <i>Nutrients</i> , 2021, 13, 3748.	1.7	4
25	The Politics of Regulating Foods for Infants and Young Children: A Case Study on the Framing and Contestation of Codex Standard-Setting Processes on Breast-Milk Substitutes. <i>International Journal of Health Policy and Management</i> , 2021, , .	0.5	3
26	Ultra-processed foods and the nutrition transition: Global, regional and national trends, food systems transformations and political economy drivers. <i>Obesity Reviews</i> , 2020, 21, e13126.	3.1	449
27	Approaches to Defining Healthy Diets: A Background Paper for the International Expert Consultation on Sustainable Healthy Diets. <i>Food and Nutrition Bulletin</i> , 2020, 41, 7S-30S.	0.5	21
28	Comparison of methodological quality between the 2007 and 2019 Canadian dietary guidelines. <i>Public Health Nutrition</i> , 2020, 23, 2879-2885.	1.1	8
29	Interpretive nutrient profiling algorithms are a limited tool for assessing the healthiness of countries' packaged food and beverage supplies, and the conclusions are not substantiated by the data. <i>Obesity Reviews</i> , 2020, 21, e12957.	3.1	2
30	Ultra-Processed Foods and Health Outcomes: A Narrative Review. <i>Nutrients</i> , 2020, 12, 1955.	1.7	346
31	The political construction of public health nutrition problems: a framing analysis of parliamentary debates on junk-food marketing to children in Australia. <i>Public Health Nutrition</i> , 2020, 23, 2041-2052.	1.1	32
32	Evaluating Nutrient-Based Indices against Food- and Diet-Based Indices to Assess the Health Potential of Foods: How Does the Australian Health Star Rating System Perform after Five Years?. <i>Nutrients</i> , 2020, 12, 1463.	1.7	19
33	Concepts and guiding principles. , 2020, , 5-27.		0
34	Policy and politics. , 2020, , 450-476.		0
35	Reference standards and guidelines. , 2020, , 39-70.		0
36	Understanding the Political Challenge of Red and Processed Meat Reduction for Healthy and Sustainable Food Systems: A Narrative Review of the Literature. <i>International Journal of Health Policy and Management</i> , 2020, , .	0.5	19

#	ARTICLE	IF	CITATIONS
37	The significant influence of “Big Food”™ over the design and implementation of the Health Star Rating system. <i>Nutrition and Dietetics</i> , 2019, 76, 118-118.	0.9	3
38	Generating political commitment for ending malnutrition in all its forms: A system dynamics approach for strengthening nutrition actor networks. <i>Obesity Reviews</i> , 2019, 20, 30-44.	3.1	30
39	Vegetarian diets and health. <i>BMJ: British Medical Journal</i> , 2019, 366, l5272.	2.4	7
40	Sustainable, resilient food systems for healthy diets: the transformation agenda. <i>Public Health Nutrition</i> , 2019, 22, 2916-2920.	1.1	42
41	Aligning evidence generation and use across health, development, and environment. <i>Current Opinion in Environmental Sustainability</i> , 2019, 39, 81-93.	3.1	16
42	Processed Foods and Nutrition Transition in the Pacific: Regional Trends, Patterns and Food System Drivers. <i>Nutrients</i> , 2019, 11, 1328.	1.7	68
43	Ultra-processed food and adverse health outcomes. <i>BMJ: British Medical Journal</i> , 2019, 365, l2289.	2.4	103
44	Making nutrition guidelines fit for purpose. <i>BMJ: British Medical Journal</i> , 2019, 365, l1579.	2.4	17
45	Positioning food standards programmes to protect public health: current performance, future opportunities and necessary reforms. <i>Public Health Nutrition</i> , 2019, 22, 912-926.	1.1	10
46	Historical Developments and Paradigm Shifts in Public Health Nutrition Science, Guidance and Policy Actions: A Narrative Review. <i>Nutrients</i> , 2019, 11, 531.	1.7	38
47	Modelling the Food Availability and Environmental Impacts of a Shift Towards Consumption of Healthy Dietary Patterns in Australia. <i>Sustainability</i> , 2019, 11, 7124.	1.6	11
48	The Health Star Rating system “ is its reductionist (nutrient) approach a benefit or risk for tackling dietary risk factors?. <i>Public Health Research and Practice</i> , 2019, 29, .	0.7	11
49	Squandering Australia’s food security”The environmental and economic costs of our unhealthy diet and the policy Path We’re On. <i>Journal of Cleaner Production</i> , 2018, 195, 1581-1599.	4.6	14
50	Inter-sectoral action to support healthy and environmentally sustainable food behaviours: a study of sectoral knowledge, governance and implementation opportunities. <i>Sustainability Science</i> , 2018, 13, 465-477.	2.5	19
51	Analysing the use of the Australian Health Star Rating system by level of food processing. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 128.	2.0	28
52	Front-of-package nutrition labels need to be assessed on their nutrition science rigour. <i>Public Health Nutrition</i> , 2018, 21, 2773-2773.	1.1	2
53	Do Nutrient-Based Front-of-Pack Labelling Schemes Support or Undermine Food-Based Dietary Guideline Recommendations? Lessons from the Australian Health Star Rating System. <i>Nutrients</i> , 2018, 10, 32.	1.7	47
54	Re: Jones et al., <i>Nutrients</i> 2018, 10, 501. <i>Nutrients</i> , 2018, 10, 746.	1.7	4

#	ARTICLE	IF	CITATIONS
55	Perceptions of nutrition transition problems: a qualitative study of Vietnamese health and education professionals. <i>International Journal of Health Promotion and Education</i> , 2017, 55, 158-172.	0.4	3
56	Kitchens and Pantriesâ€”Helping or Hindering? The Perspectives of Emergency Food Users in Victoria, Australia. <i>Journal of Hunger and Environmental Nutrition</i> , 2017, 12, 26-45.	1.1	14
57	Barriers and potential facilitators to the implementation of government policies on front-of-pack food labeling and restriction of unhealthy food advertising in Thailand. <i>Food Policy</i> , 2017, 71, 101-110.	2.8	33
58	Level of implementation of best practice policies for creating healthy food environments: assessment by state and non-state actors in Thailand. <i>Public Health Nutrition</i> , 2017, 20, 381-390.	1.1	27
59	Shrinking the food-print: A qualitative study into consumer perceptions, experiences and attitudes towards healthy and environmentally friendly food behaviours. <i>Appetite</i> , 2017, 108, 117-131.	1.8	211
60	Opportunities and barriers to public health nutrition education in Vietnamese universities. <i>Asia Pacific Journal of Clinical Nutrition</i> , 2017, 26, 494-503.	0.3	2
61	Evidence Synthesis and Translation for Nutrition Interventions to Combat Micronutrient Deficiencies with Particular Focus on Food Fortification. <i>Nutrients</i> , 2016, 8, 555.	1.7	9
62	Opportunities and challenges in developing a whole-of-government national food and nutrition policy: lessons from Australiaâ€™s National Food Plan. <i>Public Health Nutrition</i> , 2016, 19, 3-14.	1.1	42
63	Awareness of nutrition problems among Vietnamese health and education professionals. <i>Health Promotion International</i> , 2016, 32, daw016.	0.9	1
64	A call to action to reshape evidence synthesis and use for nutrition policy. , 2016, 11, ED000118.		6
65	Formulating policy activities to promote healthy and sustainable diets. <i>Public Health Nutrition</i> , 2015, 18, 2333-2340.	1.1	51
66	Public health nutrition and sustainability. <i>Public Health Nutrition</i> , 2015, 18, 2287-2292.	1.1	20
67	Still serving hot soup? Two hundred years of a charitable food sector in Australia: a narrative review. <i>Australian and New Zealand Journal of Public Health</i> , 2015, 39, 358-365.	0.8	49
68	A review of methods and tools to assess the implementation of government policies to create healthy food environments for preventing obesity and diet-related non-communicable diseases. <i>Implementation Science</i> , 2015, 11, 15.	2.5	24
69	Integrating Environmental Sustainability Considerations into Food and Nutrition Policies: Insights from Australiaâ€™s National Food Plan. <i>Frontiers in Nutrition</i> , 2015, 2, 29.	1.6	12
70	Using a Qualitative Vignette to Explore a Complex Public Health Issue. <i>Qualitative Health Research</i> , 2015, 25, 1395-1409.	1.0	67
71	Communication of scientific uncertainty: international case studies on the development of folate and vitamin D Dietary Reference Values. <i>Public Health Nutrition</i> , 2015, 18, 1378-1388.	1.1	2
72	Marketing ethics in context: the promotion of unhealthy foods and beverages to children. , 2015, , .		2

#	ARTICLE	IF	CITATIONS
73	Towards healthy and sustainable food consumption: an Australian case study. <i>Public Health Nutrition</i> , 2014, 17, 1156-1166.	1.1	100
74	An accountability framework to promote healthy food environments. <i>Public Health Nutrition</i> , 2014, 17, 2467-2483.	1.1	61
75	A Q methodology study of stakeholdersâ€™ views about accountability for promoting healthy food environments in England through the Responsibility Deal Food Network. <i>Food Policy</i> , 2014, 49, 207-218.	2.8	24
76	Unhealthy food, integrated marketing communication and power: a critical analysis. <i>Critical Public Health</i> , 2014, 24, 489-505.	1.4	27
77	Building environmentally sustainable food systems on informed citizen choices: evidence from Australia. <i>Biological Agriculture and Horticulture</i> , 2014, 30, 183-197.	0.5	26
78	Distinguishing Accountability From Responsibility: An Accountability Framework. <i>American Journal of Public Health</i> , 2014, 104, e2-e3.	1.5	3
79	Food rescue â€” an Australian example. <i>British Food Journal</i> , 2014, 116, 1478-1489.	1.6	35
80	Reflections on Public Health Policy in the Food Regulatory System: Challenges, and Opportunities for Nutrition and Food Law Experts to Collaborate. <i>Deakin Law Review</i> , 2014, 14, 397.	0.1	4
81	Food Policy Development in the Australian State of Victoria: A Case Study of the Food Alliance. <i>International Planning Studies</i> , 2013, 18, 78-95.	1.2	18
82	Food fortification evidence and ethics. , 2013, , 21-48.		0
83	Policy change to create supportive environments for physical activity and healthy eating: which options are the most realistic for local government?. <i>Health Promotion International</i> , 2012, 27, 261-274.	0.9	98
84	Balancing the benefits and risks of publicâ€™private partnerships to address the global double burden of malnutrition. <i>Public Health Nutrition</i> , 2012, 15, 503-517.	1.1	84
85	An analysis of potential barriers and enablers to regulating the television marketing of unhealthy foods to children at the state government level in Australia. <i>BMC Public Health</i> , 2012, 12, 1123.	1.2	15
86	Regulation to Create Environments Conducive to Physical Activity: Understanding the Barriers and Facilitators at the Australian State Government Level. <i>PLoS ONE</i> , 2012, 7, e42831.	1.1	20
87	Climate Change Adaptation at the Intersection of Food and Health. <i>Asia-Pacific Journal of Public Health</i> , 2011, 23, 91S-104S.	0.4	55
88	Estimating the impact of mandatory folic acid fortification on the folic acid intake of Australian women of childbearing age. <i>Australian and New Zealand Journal of Public Health</i> , 2011, 35, 442-450.	0.8	7
89	Food and Nutrition Security in the Australia-New Zealand Region: Impact of Climate Change. <i>World Review of Nutrition and Dietetics</i> , 2011, 102, 192-200.	0.1	7
90	Evidence-informed process to identify policies that will promote a healthy food environment in the Pacific Islands. <i>Public Health Nutrition</i> , 2010, 13, 886-892.	1.1	41
