

Jan Gmc Damoiseaux

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9099814/jan-gmc-damoiseaux-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
144	Anti-dsDNA antibodies in the classification criteria of systemic lupus erythematosus.. <i>Journal of Translational Autoimmunity</i> , 2022 , 5, 100139	4.1	0
143	Autoantibodies in the criteria of autoimmune diseases: is it sufficient to know that the test is positive?. <i>Journal of Translational Autoimmunity</i> , 2022 , 5, 100144	4.1	
142	Antinuclear antibodies (ANA) as a criterion for classification and diagnosis of systemic autoimmune diseases.. <i>Journal of Translational Autoimmunity</i> , 2022 , 5, 100145	4.1	2
141	Lessons learned from the diagnostic work-up of a patient with the bare lymphocyte syndrome type II.. <i>Clinical Immunology</i> , 2022 , 108932	9	
140	Positioning of myositis-specific and associated autoantibody (MSA/MAA) testing in disease criteria and routine diagnostic work-up.. <i>Journal of Translational Autoimmunity</i> , 2022 , 5, 100148	4.1	0
139	Autoantibodies in the disease criteria for systemic sclerosis: The need for specification for optimal application.. <i>Journal of Translational Autoimmunity</i> , 2022 , 5, 100141	4.1	0
138	The International Consensus on ANA Patterns (ICAP) in 2021-The 6th Workshop and Current Perspectives.. <i>journal of applied laboratory medicine, The</i> , 2022 , 7, 322-330	2	6
137	The Role of Autoantibodies in the Diagnosis of Autoimmune Liver Disease: Lessons Learned from Clinical Practice.. <i>journal of applied laboratory medicine, The</i> , 2022 , 7, 259-267	2	2
136	Diagnostic performance characteristics of the Quanta Flash Rheumatoid Factor assay in a consecutive Dutch patient cohort.. <i>Clinical Chemistry and Laboratory Medicine</i> , 2022 ,	5.9	
135	Autoimmune Encephalitis With mGluR1 Antibodies Presenting With Epilepsy, but Without Cerebellar Signs: A Case Report.. <i>Neurology: Neuroimmunology and NeuroInflammation</i> , 2022 , 9,	9.1	0
134	Vitamin D related genetic polymorphisms affect serological response to high-dose vitamin D supplementation in multiple sclerosis. <i>PLoS ONE</i> , 2021 , 16, e0261097	3.7	2
133	Autoantibodies and SARS-CoV2 infection: The spectrum from association to clinical implication: Report of the 15th Dresden Symposium on Autoantibodies.. <i>Autoimmunity Reviews</i> , 2021 , 21, 103012	13.6	10
132	How to report the antinuclear antibodies (anti-cell antibodies) test on HEp-2 cells: guidelines from the ICAP initiative. <i>Immunologic Research</i> , 2021 , 69, 594-608	4.3	11
131	The impact of the COVID-19 pandemic on autoimmune diagnostics in Europe: A lesson to be learned. <i>Autoimmunity Reviews</i> , 2021 , 20, 102985	13.6	3
130	ANCA Testing in Clinical Practice: From Implementation to Quality Control and Harmonization. <i>Frontiers in Immunology</i> , 2021 , 12, 656796	8.4	2
129	NK/T cell ratios associate with interleukin-2 receptor alpha chain expression and shedding in multiple sclerosis. <i>Journal of Neuroimmunology</i> , 2021 , 353, 577499	3.5	2
128	Vitamin D supplementation in multiple sclerosis: an expert opinion based on the review of current evidence. <i>Expert Review of Neurotherapeutics</i> , 2021 , 21, 715-725	4.3	3

127	Prognostic value of natural killer cell/T cell ratios for disease activity in multiple sclerosis. <i>European Journal of Neurology</i> , 2021 , 28, 901-909	6	6
126	Immune Monitoring upon Treatment with Biologics in Sjögren's Syndrome: The What, Where, When, and How. <i>Biomolecules</i> , 2021 , 11,	5.9	1
125	Subclinical myasthenia gravis in thymomas. <i>Lung Cancer</i> , 2021 , 152, 143-148	5.9	4
124	The search for an autoimmune origin of psychotic disorders: Prevalence of autoantibodies against hippocampus antigens, glutamic acid decarboxylase and nuclear antigens. <i>Schizophrenia Research</i> , 2021 , 228, 462-471	3.6	3
123	Proportions of circulating transitional B cells associate with MRI activity in interferon beta-treated multiple sclerosis patients. <i>Journal of Neuroimmunology</i> , 2021 , 358, 577664	3.5	1
122	The IL-2 - IL-2 receptor pathway: Key to understanding multiple sclerosis.. <i>Journal of Translational Autoimmunity</i> , 2021 , 4, 100123	4.1	0
121	Comparison of different immunoassays for the detection of antibodies against Intrinsic Factor and Parietal Cells. <i>Journal of Immunological Methods</i> , 2020 , 487, 112867	2.5	1
120	More about complement in the antiphospholipid syndrome. <i>Blood</i> , 2020 , 136, 1456-1459	2.2	3
119	Standardisation of PR3-ANCA and MPO-ANCA: evaluation of certified reference materials. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, 1520-1522	2.4	3
118	The IL-2 - IL-2 receptor pathway in health and disease: The role of the soluble IL-2 receptor. <i>Clinical Immunology</i> , 2020 , 218, 108515	9	36
117	Natural killer cells in multiple sclerosis: A review. <i>Immunology Letters</i> , 2020 , 222, 1-11	4.1	20
116	The perspective on standardisation and harmonisation: the viewpoint of the EASI president. <i>Autoimmunity Highlights</i> , 2020 , 11, 4	3.7	10
115	Testing for IgA anti-tissue transglutaminase in routine clinical practice: Requesting behaviour in relation to prevalence of positive results. <i>Journal of Translational Autoimmunity</i> , 2020 , 3, 100045	4.1	3
114	Harmonization of antineutrophil cytoplasmic antibodies (ANCA) testing by reporting test result-specific likelihood ratios: position paper. <i>Clinical Chemistry and Laboratory Medicine</i> , 2020 , 59, e35-e39	5.9	10
113	Case report of delayed seroprotection rather than non-response after primary three-dose hepatitis B vaccination. <i>Vaccine</i> , 2020 , 38, 112-114	4.1	0
112	Vitamin D supplementation and neurofilament light chain in multiple sclerosis. <i>Acta Neurologica Scandinavica</i> , 2020 , 141, 77-80	3.8	11
111	2020 international consensus on ANCA testing beyond systemic vasculitis. <i>Autoimmunity Reviews</i> , 2020 , 19, 102618	13.6	36
110	Precision of autoantibody assays in clinical diagnostic laboratories: What is the reality?. <i>Clinical Biochemistry</i> , 2020 , 83, 57-64	3.5	2

109	Vitamin D/CD46 Crosstalk in Human T Cells in Multiple Sclerosis. <i>Frontiers in Immunology</i> , 2020 , 11, 5987-874	2.4	3
108	Current laboratory and clinical practices in reporting and interpreting anti-nuclear antibody indirect immunofluorescence (ANA IIF) patterns: results of an international survey. <i>Autoimmunity Highlights</i> , 2020 , 11, 17	3.7	4
107	Neutrophils and Contact Activation of Coagulation as Potential Drivers of COVID-19. <i>Circulation</i> , 2020 , 142, 1787-1790	16.7	46
106	Quality and best practice in medical laboratories: specific requests for autoimmunity testing. <i>Autoimmunity Highlights</i> , 2020 , 11, 12	3.7	10
105	Response to: Decision making value of nuclear dense fine speckled pattern in systemic autoimmune rheumatic disease: trick or treat? By Deng. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, e93	2.4	2
104	Response to: The utility of the HEp-2000 antinuclear antibody substrate By Lee. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, e68	2.4	5
103	Response to: Antinuclear antibodies: mitotic patterns and their clinical associations By Betancur and Gñez-Puerta. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, e64	2.4	
102	239th ENMC International Workshop: Classification of dermatomyositis, Amsterdam, the Netherlands, 14-16 December 2018. <i>Neuromuscular Disorders</i> , 2020 , 30, 70-92	2.9	53
101	Frequencies and clinical associations of myositis-related antibodies in The Netherlands: A one-year survey of all Dutch patients. <i>Journal of Translational Autoimmunity</i> , 2019 , 2, 100013	4.1	17
100	Autoantibodies in Disease Criteria for Systemic Autoimmune Diseases 2019 , 81-89		
99	Clinical relevance of HEp-2 indirect immunofluorescent patterns: the International Consensus on ANA patterns (ICAP) perspective. <i>Annals of the Rheumatic Diseases</i> , 2019 , 78, 879-889	2.4	128
98	Hypercalcaemia rather than high dose vitamin D3 supplements could exacerbate multiple sclerosis. <i>Brain</i> , 2019 , 142, e71	11.2	3
97	Response to: Titre-specific positive predictive value of anti-nuclear antibody patterns By Vulsteke. <i>Annals of the Rheumatic Diseases</i> , 2019 ,	2.4	1
96	Response to: Revised 2017 international consensus on ANCA testing in small vessel vasculitis: support from an external quality assessment By Broeders. <i>Annals of the Rheumatic Diseases</i> , 2019 , 78, e114-e111	2.4	1
95	Correlation of different cellular assays to analyze T cell-related cytokine profiles in vitamin D-supplemented patients with multiple sclerosis. <i>Molecular Immunology</i> , 2019 , 105, 198-204	4.3	7
94	Autoantibodies in idiopathic inflammatory myopathies: Clinical associations and laboratory evaluation by mono- and multispecific immunoassays. <i>Autoimmunity Reviews</i> , 2019 , 18, 293-305	13.6	60
93	Antigen-Specific Detection of Autoantibodies Against Myeloperoxidase (MPO) and Proteinase 3 (PR3). <i>Methods in Molecular Biology</i> , 2019 , 1901, 153-176	1.4	3
92	Detection of Anti-neutrophil Cytoplasmic Antibodies (ANCA) by Indirect Immunofluorescence. <i>Methods in Molecular Biology</i> , 2019 , 1901, 47-62	1.4	4

91	Unending story of the indirect immunofluorescence assay on HEp-2 cells: old problems and new solutions?. <i>Annals of the Rheumatic Diseases</i> , 2019 , 78, e46	2.4	28
90	International Consensus on Antinuclear Antibody Patterns: defining negative results and reporting unidentified patterns. <i>Clinical Chemistry and Laboratory Medicine</i> , 2018 , 56, 1799-1802	5.9	18
89	The Engagement Between Vitamin D and the Immune System: Is Consolidation by a Marriage to Be Expected?. <i>EBioMedicine</i> , 2018 , 31, 9-10	8.8	10
88	EASI - European Autoimmunity Standardisation Initiative: facing the challenges of diagnostics in autoimmunity. <i>Clinical Chemistry and Laboratory Medicine</i> , 2018 , 56, 1620-1623	5.9	6
87	Validation conform ISO-15189 of assays in the field of autoimmunity: Joint efforts in The Netherlands. <i>Autoimmunity Reviews</i> , 2018 , 17, 513-517	13.6	9
86	Exploring the effect of vitamin D supplementation on the anti-EBV antibody response in relapsing-remitting multiple sclerosis. <i>Multiple Sclerosis Journal</i> , 2018 , 24, 1280-1287	5	27
85	An international survey on anti-neutrophil cytoplasmic antibodies (ANCA) testing in daily clinical practice. <i>Clinical Chemistry and Laboratory Medicine</i> , 2018 , 56, 1759-1770	5.9	8
84	Stress-Axis Regulation by Vitamin D in Multiple Sclerosis. <i>Frontiers in Neurology</i> , 2018 , 9, 263	4.1	16
83	Nature versus nurture in the spectrum of rheumatic diseases: Classification of spondyloarthritis as autoimmune or autoinflammatory. <i>Autoimmunity Reviews</i> , 2018 , 17, 935-941	13.6	38
82	The Way Forward With Vitamin D in Multiple Sclerosis 2018 , 175-191		2
81	Vitamin D supplementation and the IL-2/IL-2R pathway in multiple sclerosis: Attenuation of progressive disturbances?. <i>Journal of Neuroimmunology</i> , 2018 , 314, 50-57	3.5	11
80	Individual values of antineutrophil cytoplasmic antibodies do not correspond between antigen-specific assays. <i>Clinical Chemistry and Laboratory Medicine</i> , 2018 , 56, e39-e42	5.9	6
79	Performance analysis of automated evaluation of antinuclear antibody indirect immunofluorescent tests in a routine setting. <i>Autoimmunity Highlights</i> , 2018 , 9, 8	3.7	9
78	Clinical relevance of ANCA in small-vessel vasculitis: positioning of antigen-specific immunoassays. <i>Clinical Rheumatology</i> , 2018 , 37, 2015-2016	3.9	1
77	International consensus on antinuclear antibody patterns: definition of the AC-29 pattern associated with antibodies to DNA topoisomerase I. <i>Clinical Chemistry and Laboratory Medicine</i> , 2018 , 56, 1783-1788	5.9	32
76	Vitamin D status is negatively correlated with retinal nerve fiber layer thickness in relapsing-remitting MS patients without acute optic neuritis. <i>Multiple Sclerosis Journal</i> , 2017 , 23, 128-129 ⁵		2
75	Seasonal Influence on the Risk of Relapse at a Rise of Antineutrophil Cytoplasmic Antibodies in Vasculitis Patients with Renal Involvement. <i>Journal of Rheumatology</i> , 2017 , 44, 473-481	4.1	11
74	Detection of antineutrophil cytoplasmic antibodies (ANCAs): a multicentre European Vasculitis Study Group (EUVAS) evaluation of the value of indirect immunofluorescence (IIF) versus antigen-specific immunoassays. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, 647-653	2.4	105

73	Antineutrophil cytoplasmic antibodies: appropriate use and interpretation. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, e24	2.4	3
72	Vitamin D supplementation in multiple sclerosis: Symptoms and biomarkers of depression. <i>Journal of the Neurological Sciences</i> , 2017 , 378, 30-35	3.2	29
71	Multiplex autoantibody detection for autoimmune liver diseases and autoimmune gastritis. <i>Journal of Immunological Methods</i> , 2017 , 448, 21-25	2.5	4
70	Antineutrophil cytoplasmic antibodies: reporting and diagnostic strategies. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, e39	2.4	4
69	Maintaining remission in patients with granulomatosis with polyangiitis or microscopic polyangiitis: the role of ANCA. <i>Expert Opinion on Orphan Drugs</i> , 2017 , 1-12	1.1	2
68	Characterization of an anti-fetal AChR monoclonal antibody isolated from a myasthenia gravis patient. <i>Scientific Reports</i> , 2017 , 7, 14426	4.9	11
67	Influence of vitamin D on key bacterial taxa in infant microbiota in the KOALA Birth Cohort Study. <i>PLoS ONE</i> , 2017 , 12, e0188011	3.7	39
66	Position paper: Revised 2017 international consensus on testing of ANCA in granulomatosis with polyangiitis and microscopic polyangiitis. <i>Nature Reviews Rheumatology</i> , 2017 , 13, 683-692	8.1	183
65	On the ethics of not supplementing low 25-hydroxyvitamin D levels in a controlled study in relapsing remitting multiple sclerosis. <i>Journal of the Neurological Sciences</i> , 2017 , 379, 331	3.2	2
64	Performance analysis of automated evaluation of Crithidia luciliae-based indirect immunofluorescence tests in a routine setting - strengths and weaknesses. <i>Clinical Chemistry and Laboratory Medicine</i> , 2017 , 56, 86-93	5.9	2
63	A multicentre study to improve clinical interpretation of proteinase-3 and myeloperoxidase anti-neutrophil cytoplasmic antibodies. <i>Rheumatology</i> , 2017 , 56, 1533-1541	3.9	31
62	The interaction between anti-Ro/SSA and anti-La/SSB autoantibodies and anti-infectious antibodies in a wide spectrum of auto-immune diseases: another angle of the autoimmune mosaic. <i>Clinical and Experimental Rheumatology</i> , 2017 , 35, 929-935	2.2	15
61	Network of nuclear receptor ligands in multiple sclerosis: Common pathways and interactions of sex-steroids, corticosteroids and vitamin D3-derived molecules. <i>Autoimmunity Reviews</i> , 2016 , 15, 900-1013.6	13.6	16
60	Diagnostic ANCA algorithms in daily clinical practice: evidence, experience, and effectiveness. <i>Lupus</i> , 2016 , 25, 917-24	2.6	9
59	Evaluation of automated multi-parametric indirect immunofluorescence assays to detect anti-neutrophil cytoplasmic antibodies (ANCA) in granulomatosis with polyangiitis (GPA) and microscopic polyangiitis (MPA). <i>Autoimmunity Reviews</i> , 2016 , 15, 736-41	13.6	39
58	International consensus on ANA patterns (ICAP): the bumpy road towards a consensus on reporting ANA results. <i>Autoimmunity Highlights</i> , 2016 , 7, 1	3.7	86
57	Immunomodulation by vitamin D in multiple sclerosis: More than IL-17. <i>Journal of Neuroimmunology</i> , 2016 , 292, 79-80	3.5	6
56	A low vitamin D status at diagnosis is associated with an early conversion to secondary progressive multiple sclerosis. <i>Journal of Steroid Biochemistry and Molecular Biology</i> , 2016 , 164, 254-257	5.1	21

55	Illuminating vitamin D effects on B cells [the multiple sclerosis perspective 2016 , 147, 275		1
54	Vitamin D Status Does Not Affect Disability Progression of Patients with Multiple Sclerosis over Three Year Follow-Up. <i>PLoS ONE</i> , 2016 , 11, e0156122	3.7	25
53	Multiparametric autoimmune diagnostics: recent advances. <i>Pathology and Laboratory Medicine International</i> , 2016 , 15	0	5
52	Immune regulatory effects of high dose vitamin D supplementation in a randomized controlled trial in relapsing remitting multiple sclerosis patients receiving IFN β the SOLARIUM study. <i>Journal of Neuroimmunology</i> , 2016 , 300, 47-56	3.5	55
51	Illuminating vitamin D effects on B cells--the multiple sclerosis perspective. <i>Immunology</i> , 2016 , 147, 275-88	3.8	33
50	GM-CSF production by CD4+ T cells in MS patients: regulation by regulatory T cells and vitamin D. <i>Journal of Neuroimmunology</i> , 2015 , 280, 36-42	3.5	12
49	Do associated auto-antibodies influence the outcome of myasthenia gravis after thymectomy?. <i>Autoimmunity</i> , 2015 , 48, 552-5	3	6
48	ANCA as a predictor of relapse: useful in patients with renal involvement but not in patients with nonrenal disease. <i>Journal of the American Society of Nephrology: JASN</i> , 2015 , 26, 537-42	12.7	117
47	Antigen excess in modern immunoassays: to anticipate on the unexpected. <i>Autoimmunity Reviews</i> , 2015 , 14, 160-7	13.6	44
46	Increased inflammasome related gene expression profile in PBMC may facilitate T helper 17 cell induction in multiple sclerosis. <i>Molecular Immunology</i> , 2015 , 63, 521-9	4.3	47
45	Report of the First International Consensus on Standardized Nomenclature of Antinuclear Antibody HEp-2 Cell Patterns 2014-2015. <i>Frontiers in Immunology</i> , 2015 , 6, 412	8.4	193
44	Autoantibodies 2015: From diagnostic biomarkers toward prediction, prognosis and prevention. <i>Autoimmunity Reviews</i> , 2015 , 14, 555-63	13.6	59
43	Diagnostics and treatment of cryoglobulinaemia: it takes two to tango. <i>Clinical Reviews in Allergy and Immunology</i> , 2014 , 47, 299-310	12.3	20
42	Vitamin D effects on B cell function in autoimmunity. <i>Annals of the New York Academy of Sciences</i> , 2014 , 1317, 84-91	6.5	41
41	The diagnosis and classification of the cryoglobulinemic syndrome. <i>Autoimmunity Reviews</i> , 2014 , 13, 359-62	13.6	46
40	International recommendations for the assessment of autoantibodies to cellular antigens referred to as anti-nuclear antibodies. <i>Annals of the Rheumatic Diseases</i> , 2014 , 73, 17-23	2.4	360
39	Sperm-associated antigen 16 is a novel target of the humoral autoimmune response in multiple sclerosis. <i>Journal of Immunology</i> , 2014 , 193, 2147-56	5.3	18
38	Are autoantibodies to RNA-polymerase III to be incorporated in routine diagnostic laboratory algorithms for systemic autoimmune rheumatic diseases?. <i>Annals of the Rheumatic Diseases</i> , 2014 , 73, e29	2.4	4

37	CD14/Toll-like receptors interact with bacteria and regulatory T-cells in the development of childhood asthma. <i>European Respiratory Journal</i> , 2014 , 44, 799-802	13.6	4
36	Medical immunology: two-way bridge connecting bench and bedside. <i>Immunology Letters</i> , 2014 , 162, 127-33	4.1	2
35	Acute hemodynamic response and uremic toxin removal in conventional and extended hemodialysis and hemodiafiltration: a randomized crossover study. <i>American Journal of Kidney Diseases</i> , 2014 , 64, 247-56	7.4	73
34	From ANA-screening to antigen-specificity: an EASI-survey on the daily practice in European countries. <i>Clinical and Experimental Rheumatology</i> , 2014 , 32, 539-46	2.2	21
33	Autoantibodies in the grocery shop: does quantity matter?. <i>Immunologic Research</i> , 2013 , 56, 413-9	4.3	11
32	PR3-ANCA: a promising biomarker for ulcerative colitis with extensive disease. <i>Clinica Chimica Acta</i> , 2013 , 424, 267-73	6.2	52
31	Bullous skin diseases: classical types of autoimmune diseases. <i>Scientifica</i> , 2013 , 2013, 457982	2.6	8
30	Vitamin D supplementation and antibodies against the Epstein-Barr virus in multiple sclerosis patients. <i>Multiple Sclerosis Journal</i> , 2013 , 19, 1679-80	5	18
29	Statin use and markers of immunity in the Doetinchem cohort study. <i>PLoS ONE</i> , 2013 , 8, e77587	3.7	6
28	Intracellular IL-10 detection in T cells by flowcytometry: the use of protein transport inhibitors revisited. <i>Journal of Immunological Methods</i> , 2012 , 381, 59-65	2.5	16
27	Autoantibody detection in bullous pemphigoid: clinical evaluation of the EUROPLUS Dermatology Mosaic. <i>Journal of Immunological Methods</i> , 2012 , 382, 76-80	2.5	29
26	Antineutrophil cytoplasmic autoantibodies: how are they detected and what is their use for diagnosis, classification and follow-up?. <i>Clinical Reviews in Allergy and Immunology</i> , 2012 , 43, 211-9	12.3	59
25	Infectious serologies and autoantibodies in hepatitis C and autoimmune disease-associated mixed cryoglobulinemia. <i>Clinical Reviews in Allergy and Immunology</i> , 2012 , 42, 238-46	12.3	15
24	Performance evaluation of a novel chemiluminescence assay for detection of anti-GBM antibodies: an international multicenter study. <i>Nephrology Dialysis Transplantation</i> , 2012 , 27, 243-52	4.3	28
23	Automatic reading of ANCA-slides: evaluation of the AKLIDES system. <i>Clinical and Developmental Immunology</i> , 2012 , 2012, 762874		13
22	Vitamin D in the healthy and inflamed central nervous system: access and function. <i>Journal of the Neurological Sciences</i> , 2011 , 311, 37-43	3.2	54
21	Vitamin D-related gene expression profiles in immune cells of patients with relapsing remitting multiple sclerosis. <i>Journal of Neuroimmunology</i> , 2011 , 235, 91-7	3.5	16
20	Reduction in IL-10 producing B cells (Breg) in multiple sclerosis is accompanied by a reduced naïve/memory Breg ratio during a relapse but not in remission. <i>Journal of Neuroimmunology</i> , 2011 , 239, 80-6	3.5	128

19	Effects of vitamin D on the peripheral adaptive immune system: a review. <i>Autoimmunity Reviews</i> , 2011 , 10, 733-43	13.6	175
18	Effect of vitamin D(3) supplementation on peripheral B cell differentiation and isotype switching in patients with multiple sclerosis. <i>Multiple Sclerosis Journal</i> , 2011 , 17, 1418-23	5	37
17	Vitamin D as a T-cell modulator in multiple sclerosis. <i>Vitamins and Hormones</i> , 2011 , 86, 401-28	2.5	37
16	Safety and T cell modulating effects of high dose vitamin D3 supplementation in multiple sclerosis. <i>PLoS ONE</i> , 2010 , 5, e15235	3.7	126
15	Autoantibody standardization in The Netherlands. <i>Annals of the New York Academy of Sciences</i> , 2009 , 1173, 10-4	6.5	53
14	Prevalence of anticardiolipin antibodies in patient cohorts with distinct clinical manifestations of the antiphospholipid syndrome. <i>Annals of the New York Academy of Sciences</i> , 2009 , 1173, 146-51	6.5	9
13	A novel enzyme-linked immunosorbent assay using a mixture of human native and recombinant proteinase-3 significantly improves the diagnostic potential for antineutrophil cytoplasmic antibody-associated vasculitis. <i>Annals of the Rheumatic Diseases</i> , 2009 , 68, 228-33	2.4	53
12	EUROPLUS ANCA BIOCHIP mosaic: PR3 and MPO antigen microdots improve the laboratory diagnostics of ANCA-associated vasculitis. <i>Journal of Immunological Methods</i> , 2009 , 348, 67-73	2.5	24
11	The relevance of vitamin D receptor gene polymorphisms for vitamin D research in multiple sclerosis. <i>Autoimmunity Reviews</i> , 2009 , 8, 621-6	13.6	109
10	Fifty years of antineutrophil cytoplasmic antibodies (ANCA) testing: do we need to revise the international consensus statement on testing and reporting on ANCA?. <i>Apmis</i> , 2009 , 117, 55-9	3.4	19
9	Vitamin D status is positively correlated with regulatory T cell function in patients with multiple sclerosis. <i>PLoS ONE</i> , 2009 , 4, e6635	3.7	205
