SUSAN LAIDD

#	Article	IF	CITATIONS
1	Uterine natural killer cells in peri-implantation endometrium from women with repeated implantation failure after IVF. Journal of Reproductive Immunology, 2010, 87, 60-66.	0.8	130
2	Endocrinological and endometrial factors in recurrent miscarriage. BJOG: an International Journal of Obstetrics and Gynaecology, 2000, 107, 1471-1479.	1.1	98
3	Measurement of uterine natural killer cell percentage in theÂperiimplantation endometrium from fertile women and women with recurrent reproductive failure: establishment of a reference range. American Journal of Obstetrics and Gynecology, 2017, 217, 680.e1-680.e6.	0.7	69
4	A comparison of transcriptomic profiles in endometrium during window of implantation between women with unexplained recurrent implantation failure and recurrent miscarriage. Reproduction, 2017, 153, 749-758.	1.1	62
5	An analysis of the pattern of pregnancy loss in women with recurrent miscarriage. Fertility and Sterility, 2002, 78, 1100-1106.	0.5	45
6	Inhibin A and activin A may be used to predict pregnancy outcome in women with recurrent miscarriage. Fertility and Sterility, 2005, 83, 1758-1763.	0.5	34
7	Endometrial integrin expression in women with recurrent implantation failure after in vitro fertilization and its relationship to pregnancy outcome. Fertility and Sterility, 2013, 100, 825-830.e2.	0.5	30
8	Interleukin-1 receptor antagonist and interleukin-1 beta polymorphisms in women with recurrent miscarriage. Fertility and Sterility, 2005, 83, 1549-1552.	0.5	24
9	Use of human menopausal gonadotropins in the treatment of endometrial defects associated with recurrent miscarriage: preliminary report. Fertility and Sterility, 2001, 75, 434-437.	0.5	23
10	The observer and cycle-to-cycle variability in the measurement of uterine natural killer cells by immunohistochemistry. Journal of Reproductive Immunology, 2012, 95, 93-100.	0.8	20
11	The prognostic value of uNK cell count and histological dating in the mid-luteal phase of women with reproductive failure. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2014, 181, 171-175.	0.5	20
12	A study of luteal phase expression of inhibin, activin, and follistatin subunits in the endometrium of women with recurrent miscarriage. Fertility and Sterility, 2006, 86, 1723-1730.	0.5	18
13	The effect of a high progesterone concentration before oocyte retrieval on the peri-implantation endometrium. Reproductive BioMedicine Online, 2015, 31, 739-746.	1.1	18
14	Absence of follicular phase defect in women with recurrent miscarriage. Fertility and Sterility, 2006, 85, 1784-1790.	0.5	9
15	Concentrations of endometrial protein PP 14 and CA-125 in uterine flushings performed in natural and stimulated cycles. Human Reproduction, 2004, 19, 905-910.	0.4	6
16	Endometrial scratch to increase live birth rates in women undergoing first-time in vitro fertilisation: RCT and systematic review. Health Technology Assessment, 2022, 26, 1-212.	1.3	6
17	Induced endometrial trauma (endometrial scratch) in the mid-luteal menstrual cycle phase preceding first cycle IVF/ICSI versus usual IVF/ICSI therapy: study protocol for a randomised controlled trial. BMJ Open, 2018, 8, e020755.	0.8	4
18	Preliminary prospective study of the endocrinology of conception cycles and early pregnancy in women with antiphospholipid syndrome treated with low molecular weight heparin. Fertility and Sterility, 2006, 85, 165-170.	0.5	3
