Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

8,176 82 52 234 h-index g-index citations papers 9,655 6.25 257 4.5 avg, IF L-index ext. papers ext. citations

#	Paper	IF	Citations
234	Nutrition knowledge and food intake. <i>Appetite</i> , 2000 , 34, 269-75	4.5	515
233	Demographic variation in nutrition knowledge in England. <i>Health Education Research</i> , 2000 , 15, 163-74	1.8	259
232	Sex differences in the association of socioeconomic status with obesity. <i>American Journal of Public Health</i> , 2002 , 92, 1299-304	5.1	255
231	Public awareness of cancer in Britain: a population-based survey of adults. <i>British Journal of Cancer</i> , 2009 , 101 Suppl 2, S18-23	8.7	233
230	Knowledge, attitudes, and behavioral intentions in relation to the early detection of colorectal cancer in the United Kingdom. <i>Preventive Medicine</i> , 2003 , 36, 525-35	4.3	188
229	Parental attitudes to pre-pubertal HPV vaccination. <i>Vaccine</i> , 2007 , 25, 1945-52	4.1	182
228	Barriers to cervical cancer screening attendance in England: a population-based survey. <i>Journal of Medical Screening</i> , 2009 , 16, 199-204	1.4	169
227	Social and psychological impact of HPV testing in cervical screening: a qualitative study. <i>Sexually Transmitted Infections</i> , 2006 , 82, 169-74	2.8	153
226	Development of a measurement tool to assess public awareness of cancer. <i>British Journal of Cancer</i> , 2009 , 101 Suppl 2, S13-7	8.7	138
225	Testing positive for human papillomavirus in routine cervical screening: examination of psychosocial impact. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2004 , 111, 1437-43	3.7	130
224	MothersRattitudes towards preventing cervical cancer through human papillomavirus vaccination: a qualitative study. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2006 , 15, 1257-61	4	123
223	Age of onset and body dissatisfaction in obesity. <i>Addictive Behaviors</i> , 2002 , 27, 561-73	4.2	118
222	HPV self-sampling as an alternative strategy in non-attenders for cervical screening - a randomised controlled trial. <i>British Journal of Cancer</i> , 2011 , 104, 915-20	8.7	115
221	Awareness, knowledge, perceptions, and attitudes towards genetic testing for cancer risk among ethnic minority groups: a systematic review. <i>BMC Public Health</i> , 2017 , 17, 503	4.1	113
220	The association between knowledge of HPV and feelings of stigma, shame and anxiety. <i>Sexually Transmitted Infections</i> , 2007 , 83, 155-9	2.8	110
219	Awareness of risk factors for cancer among British adults. <i>Public Health</i> , 2001 , 115, 173-174	4	109
218	Knowledge of human papillomavirus (HPV) and HPV vaccination: an international comparison. <i>Vaccine</i> , 2013 , 31, 763-9	4.1	107

(2009-2003)

217	Awareness of human papillomavirus among women attending a well woman clinic. <i>Sexually Transmitted Infections</i> , 2003 , 79, 320-2	2.8	107
216	Beliefs about the risk factors for cervical cancer in a British population sample. <i>Preventive Medicine</i> , 2004 , 38, 745-53	4.3	105
215	Patient delay in presentation of possible cancer symptoms: the contribution of knowledge and attitudes in a population sample from the United kingdom. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2010 , 19, 2272-7	4	103
214	Prevalence of hardcore smoking in England, and associated attitudes and beliefs: cross sectional study. <i>BMJ, The</i> , 2003 , 326, 1061	5.9	103
213	Ethnic differences in human papillomavirus awareness and vaccine acceptability. <i>Journal of Epidemiology and Community Health</i> , 2009 , 63, 1010-5	5.1	100
212	Attitudes towards HPV testing: a qualitative study of beliefs among Indian, Pakistani, African-Caribbean and white British women in the UK. <i>British Journal of Cancer</i> , 2003 , 88, 42-6	8.7	99
211	Validation of a measure of knowledge about human papillomavirus (HPV) using item response theory and classical test theory. <i>Preventive Medicine</i> , 2013 , 56, 35-40	4.3	96
21 0	Barriers to cervical cancer screening among ethnic minority women: a qualitative study. <i>Journal of Family Planning and Reproductive Health Care</i> , 2015 , 41, 248-54		90
209	Public awareness that HPV is a risk factor for cervical cancer. <i>British Journal of Cancer</i> , 2007 , 97, 691-4	8.7	89
208	Trust and experience as predictors of HPV vaccine acceptance. <i>Hum Vaccin</i> , 2007 , 3, 171-5		89
207	MothersRand adolescentsRbeliefs about risk compensation following HPV vaccination. <i>Journal of Adolescent Health</i> , 2009 , 44, 446-51	5.8	88
206	Acceptability of unsupervised HPV self-sampling using written instructions. <i>Journal of Medical Screening</i> , 2006 , 13, 208-13	1.4	87
205	Screening for prevention and early diagnosis of cancer. <i>American Psychologist</i> , 2015 , 70, 119-33	9.5	86
204	Awareness of lifestyle risk factors for cancer and heart disease among adults in the UK. <i>Patient Education and Counseling</i> , 2009 , 74, 221-7	3.1	80
203	Awareness of cancer symptoms and anticipated help seeking among ethnic minority groups in England. <i>British Journal of Cancer</i> , 2009 , 101 Suppl 2, S24-30	8.7	74
202	What do people fear about cancer? A systematic review and meta-synthesis of cancer fears in the general population. <i>Psycho-Oncology</i> , 2017 , 26, 1070-1079	3.9	73
201	Exploring age differences in reasons for nonattendance for cervical screening: a qualitative study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2012 , 119, 26-32	3.7	70
200	Exploring the acceptability of two self-sampling devices for human papillomavirus testing in the cervical screening context: a qualitative study of Muslim women in London. <i>Journal of Medical Screening</i> , 2009 , 16, 193-8	1.4	65

199	SunSmart? Skin cancer knowledge and preventive behaviour in a British population representative sample. <i>Health Education Research</i> , 2005 , 20, 579-85	1.8	65
198	Understanding cervical screening non-attendance among ethnic minority women in England. <i>British Journal of Cancer</i> , 2015 , 113, 833-9	8.7	64
197	Women® responses to information about overdiagnosis in the UK breast cancer screening programme: a qualitative study. <i>BMJ Open</i> , 2013 , 3,	3	64
196	Predictors of interest in HPV vaccination: A study of British adolescents. <i>Vaccine</i> , 2009 , 27, 2483-8	4.1	64
195	Women® experiences of repeated HPV testing in the context of cervical cancer screening: a qualitative study. <i>Psycho-Oncology</i> , 2007 , 16, 196-204	3.9	63
194	Making sense of information about HPV in cervical screening: a qualitative study. <i>British Journal of Cancer</i> , 2005 , 92, 265-70	8.7	62
193	Enthusiasm for cancer screening in Great Britain: a general population survey. <i>British Journal of Cancer</i> , 2015 , 112, 562-6	8.7	61
192	Passport to promiscuity or lifesaver: press coverage of HPV vaccination and risky sexual behavior. Journal of Health Communication, 2010 , 15, 205-17	2.5	61
191	Human papillomavirus testing by self-sampling: assessment of accuracy in an unsupervised clinical setting. <i>Journal of Medical Screening</i> , 2007 , 14, 34-42	1.4	58
190	Measuring cancer knowledge: comparing prompted and unprompted recall. <i>British Journal of Psychology</i> , 2004 , 95, 219-34	4	58
189	Body dissatisfaction and binge eating in obese women: the role of restraint and depression. <i>Obesity</i> , 2001 , 9, 778-87		58
188	Barriers to cervical screening in women who have experienced sexual abuse: an exploratory study. Journal of Family Planning and Reproductive Health Care, 2012, 38, 214-20		57
187	Attitudes to self-sampling for HPV among Indian, Pakistani, African-Caribbean and white British women in Manchester, UK. <i>Journal of Medical Screening</i> , 2004 , 11, 85-8	1.4	57
186	Cancer fear: facilitator and deterrent to participation in colorectal cancer screening. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2015 , 24, 400-5	4	54
185	Walking the tightrope: communicating overdiagnosis in modern healthcare. <i>BMJ, The</i> , 2016 , 352, i348	5.9	54
184	Human papillomavirus and cervical cancer: issues for biobehavioral and psychosocial research. <i>Annals of Behavioral Medicine</i> , 2004 , 27, 68-79	4.5	54
183	What do British women know about cervical cancer symptoms and risk factors?. <i>European Journal of Cancer</i> , 2012 , 48, 3001-8	7.5	53
182	Does lung cancer attract greater stigma than other cancer types?. <i>Lung Cancer</i> , 2015 , 88, 104-7	5.9	51

(2014-2017)

181	Experiences of cervical screening and barriers to participation in the context of an organised programme: a systematic review and thematic synthesis. <i>Psycho-Oncology</i> , 2017 , 26, 161-172	3.9	51	
180	Socioeconomic inequalities in breast and cervical screening coverage in England: are we closing the gap?. <i>Journal of Medical Screening</i> , 2016 , 23, 98-103	1.4	48	
179	Human papillomavirus vaccination and sexual behaviour: cross-sectional and longitudinal surveys conducted in England. <i>Vaccine</i> , 2012 , 30, 4939-44	4.1	48	
178	Comparing barriers to colorectal cancer screening with barriers to breast and cervical screening: a population-based survey of screening-age women in Great Britain. <i>Journal of Medical Screening</i> , 2013 , 20, 73-9	1.4	47	
177	Ethnic disparities in knowledge of cancer screening programmes in the UK. <i>Journal of Medical Screening</i> , 2010 , 17, 125-31	1.4	47	
176	The structure and demographic correlates of cancer fear. <i>BMC Cancer</i> , 2014 , 14, 597	4.8	46	
175	Knowledge and awareness of HPV and the HPV vaccine among young women in the first routinely vaccinated cohort in England. <i>Vaccine</i> , 2013 , 31, 1051-6	4.1	45	
174	Awareness of risk factors for cancer among British adults. <i>Public Health</i> , 2001 , 115, 173-4	4	45	
173	Variation in blame attributions across different cancer types. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2010 , 19, 1799-805	4	43	
172	Seeking the real spain? Authenticity in Motivation. <i>Annals of Tourism Research</i> , 1999 , 26, 110-129	7.7	41	
171	A survey study of women responses to information about overdiagnosis in breast cancer screening in Britain. <i>British Journal of Cancer</i> , 2014 , 111, 1831-5	8.7	39	
170	Attitudes to HPV vaccination among ethnic minority mothers in the UK: an exploratory qualitative study. <i>Hum Vaccin</i> , 2009 , 5, 105-10		38	
169	Ethnicity-specific factors influencing childhood immunisation decisions among Black and Asian Minority Ethnic groups in the UK: a systematic review of qualitative research. <i>Journal of Epidemiology and Community Health</i> , 2017 , 71, 544-549	5.1	37	
168	Understanding the heterogeneity of cervical cancer screening non-participants: Data from a national sample of British women. <i>European Journal of Cancer</i> , 2017 , 80, 30-38	7.5	37	
167	Lung Screen Uptake Trial (LSUT): Randomized Controlled Clinical Trial Testing Targeted Invitation Materials. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020 , 201, 965-975	10.2	37	
166	Adverse psychological outcomes following colposcopy and related procedures: a systematic review. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016 , 123, 24-38	3.7	35	
165	Sociodemographic predictors of HPV testing and vaccination acceptability: results from a population-representative sample of British women. <i>Journal of Medical Screening</i> , 2008 , 15, 91-6	1.4	35	
164	Predicting human papillomavirus vaccination behaviour among adolescent girls in England: results from a prospective survey. <i>Journal of Family Planning and Reproductive Health Care</i> , 2014 , 40, 14-22		34	

163	Does the HPV vaccination programme have implications for cervical screening programmes in the UK?. <i>Vaccine</i> , 2014 , 32, 1828-33	4.1	32
162	Knowledge of human papillomavirus (HPV) testing in the USA, the UK and Australia: an international survey. <i>Sexually Transmitted Infections</i> , 2014 , 90, 201-7	2.8	32
161	The impact of human papillomavirus information on perceived risk of cervical cancer. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2009 , 18, 373-6	4	31
160	Cervical screening among migrant women: a qualitative study of Polish, Slovak and Romanian women in London, UK. <i>Journal of Family Planning and Reproductive Health Care</i> , 2012 , 38, 229-38		31
159	Attitudes towards human papillomavirus vaccination: a qualitative study of vaccinated and unvaccinated girls aged 17-18 years. <i>Journal of Family Planning and Reproductive Health Care</i> , 2011 , 37, 22-5		30
158	Communication about colorectal cancer screening in Britain: public preferences for an expert recommendation. <i>British Journal of Cancer</i> , 2012 , 107, 1938-43	8.7	30
157	Barriers to cervical screening and interest in self-sampling among women who actively decline screening. <i>Journal of Medical Screening</i> , 2018 , 25, 211-217	1.4	30
156	Ovarian cancer symptom awareness and anticipated time to help-seeking for symptoms among UK women. <i>Journal of Family Planning and Reproductive Health Care</i> , 2013 , 39, 163-71		29
155	Ovarian and cervical cancer awareness: development of two validated measurement tools. <i>Journal of Family Planning and Reproductive Health Care</i> , 2012 , 38, 167-74		29
154	The impact of believing you have had COVID-19 on self-reported behaviour: Cross-sectional survey. <i>PLoS ONE</i> , 2020 , 15, e0240399	3.7	28
153	Anxiety and distress following receipt of results from routine HPV primary testing in cervical screening: The psychological impact of primary screening (PIPS) study. <i>International Journal of Cancer</i> , 2020 , 146, 2113-2121	7.5	28
152	Cancer stigma and cancer screening attendance: a population based survey in England. <i>BMC Cancer</i> , 2019 , 19, 566	4.8	27
151	Common methods of measuring Ronformed choiceRin screening participation: Challenges and future directions. <i>Preventive Medicine Reports</i> , 2016 , 4, 601-607	2.6	27
150	Extending and validating a human papillomavirus (HPV) knowledge measure in a national sample of Canadian parents of boys. <i>Preventive Medicine</i> , 2016 , 91, 43-49	4.3	26
149	A qualitative systematic review of factors influencing parentsRvaccination decision-making in the United Kingdom. <i>SSM - Population Health</i> , 2016 , 2, 603-612	3.8	26
148	Interest in having HPV vaccination among adolescent boys in England. <i>Vaccine</i> , 2012 , 30, 4505-10	4.1	25
147	High-pressure homogenization of raw and pasteurized milk modifies the yield, composition, and texture of queso fresco cheese. <i>Journal of Dairy Science</i> , 2011 , 94, 1201-10	4	25
146	Increasing awareness of gynecological cancer symptoms and reducing barriers to medical help seeking: does health literacy play a role?. <i>Journal of Health Communication</i> , 2012 , 17 Suppl 3, 265-79	2.5	25

(2013-2018)

145	Prevalence of beliefs about actual and mythical causes of cancer and their association with socio-demographic and health-related characteristics: Findings from a cross-sectional survey in England. <i>European Journal of Cancer</i> , 2018 , 103, 308-316	7.5	24
144	Attitudes to HPV vaccination among mothers in the British Jewish community: reasons for accepting or declining the vaccine. <i>Vaccine</i> , 2011 , 29, 7350-6	4.1	24
143	Understanding adolescentsRintentions to have the HPV vaccine. Vaccine, 2010, 28, 1673-6	4.1	24
142	Anticipated shame and worry following an abnormal Pap test result: the impact of information about HPV. <i>Preventive Medicine</i> , 2009 , 48, 415-9	4.3	24
141	Association between human papillomavirus vaccine status and other cervical cancer risk factors. <i>Vaccine</i> , 2014 , 32, 4310-6	4.1	23
140	Public awareness of genetic influence on chronic disease risk: are genetic and lifestyle causal beliefs compatible?. <i>Public Health Genomics</i> , 2011 , 14, 290-7	1.9	23
139	The Jade Goody Effect: whose cervical screening decisions were influenced by her story?. <i>Journal of Medical Screening</i> , 2012 , 19, 184-8	1.4	23
138	Human Papillomavirus and Head and Neck Cancer: Psychosocial Impact in Patients and Knowledge of the Link - A Systematic Review. <i>Clinical Oncology</i> , 2016 , 28, 421-439	2.8	23
137	SmokersRinterest in a lung cancer screening programme: a national survey in England. <i>BMC Cancer</i> , 2018 , 18, 497	4.8	22
136	Attitudes towards cytology and human papillomavirus self-sample collection for cervical screening among Hindu women in London, UK: a mixed methods study. <i>Journal of Family Planning and Reproductive Health Care</i> , 2015 , 41, 38-47		21
135	Cervical cancer and HPV: Awareness and vaccine acceptability among parents in Morocco. <i>Vaccine</i> , 2014 , 32, 409-16	4.1	20
134	Menß experiences of regaining urinary continence following robotic-assisted laparoscopic prostatectomy (RALP) for localised prostate cancer: a qualitative phenomenological study. <i>Journal of Clinical Nursing</i> , 2013 , 22, 368-78	3.2	20
133	Women® interpretation of and responses to potential gynaecological cancer symptoms: a qualitative interview study. <i>BMJ Open</i> , 2015 , 5, e008082	3	20
132	High-Risk Human Papillomavirus (HPV) Infection and Cervical Cancer Prevention in Britain: Evidence of Differential Uptake of Interventions from a Probability Survey. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2015 , 24, 842-53	4	19
131	Effect of HPV vaccination and cervical cancer screening in England by ethnicity: a modelling study. Lancet Public Health, The, 2018 , 3, e44-e51	22.4	19
130	Variation in cervical and breast cancer screening coverage in England: a cross-sectional analysis to characterise districts with atypical behaviour. <i>BMJ Open</i> , 2015 , 5, e007735	3	19
129	Awareness of cancer risk factors among ethnic minority groups in England. <i>Public Health</i> , 2012 , 126, 702	 ⊒P	19
128	Experience of symptoms indicative of gynaecological cancers in UK women. <i>British Journal of Cancer</i> , 2013 , 109, 882-7	8.7	19

127	Use of Social Media to Promote Cancer Screening and Early Diagnosis: Scoping Review. <i>Journal of Medical Internet Research</i> , 2020 , 22, e21582	7.6	19
126	Discussing a diagnosis of human papillomavirus oropharyngeal cancer with patients: An exploratory qualitative study of health professionals. <i>Head and Neck</i> , 2016 , 38, 394-401	4.2	19
125	Does psychosocial stress exacerbate avoidant responses to cancer information in those who are afraid of cancer? A population-based survey among older adults in England. <i>Psychology and Health</i> , 2018 , 33, 117-129	2.9	18
124	What is it about a cancer diagnosis that would worry people? A population-based survey of adults in England. <i>BMC Cancer</i> , 2018 , 18, 86	4.8	18
123	Social Cognitive Mediators of Sociodemographic Differences in Colorectal Cancer Screening Uptake. <i>BioMed Research International</i> , 2015 , 2015, 165074	3	18
122	Survey of public definitions of the term Roverdiagnosis Rin the UK. BMJ Open, 2016, 6, e010723	3	18
121	Barriers to cervical screening among older women from hard-to-reach groups: a qualitative study in England. <i>BMC Womens Health</i> , 2019 , 19, 38	2.9	17
120	The psychosexual impact of testing positive for high-risk cervical human papillomavirus (HPV): A systematic review. <i>Psycho-Oncology</i> , 2019 , 28, 1959-1970	3.9	17
119	Do comorbidities influence help-seeking for cancer alarm symptoms? A population-based survey in England. <i>Journal of Public Health</i> , 2018 , 40, 340-349	3.5	15
118	Human papillomavirus (HPV) information needs: a theoretical framework. <i>Journal of Family Planning and Reproductive Health Care</i> , 2009 , 35, 29-33		15
117	Discussing HPV with oropharyngeal cancer patients: A cross-sectional survey of attitudes in health professionals. <i>Oral Oncology</i> , 2017 , 68, 67-73	4.4	14
116	A cluster randomised feasibility study of an adolescent incentive intervention to increase uptake of HPV vaccination. <i>British Journal of Cancer</i> , 2017 , 117, 1121-1127	8.7	14
115	An experimental investigation of the emotional and motivational impact of HPV information in adolescents. <i>Journal of Adolescent Health</i> , 2009 , 45, 532-4	5.8	14
114	Emotional response to testing positive for human papillomavirus at cervical cancer screening: a mixed method systematic review with meta-analysis. <i>Health Psychology Review</i> , 2021 , 15, 395-429	7.1	14
113	A cross-sectional survey of awareness of human papillomavirus-associated oropharyngeal cancers among general practitioners in the UK. <i>BMJ Open</i> , 2018 , 8, e023339	3	14
112	Self-Reported And Objectively Recorded Colorectal Cancer Screening Participation In England. Journal of Medical Screening, 2016 , 23, 17-23	1.4	13
111	Determinants of willingness to receive healthy lifestyle advice in the context of cancer screening. British Journal of Cancer, 2018 , 119, 251-257	8.7	13
110	Increasing awareness of gynaecological cancer symptoms: a GP perspective. <i>British Journal of General Practice</i> , 2014 , 64, e372-80	1.6	13

(2019-2017)

109	A cross-sectional survey assessing factors associated with reading cancer screening information: previous screening behaviour, demographics and decision-making style. <i>BMC Public Health</i> , 2017 , 17, 327	4.1	13
108	Attitudes towards risk-stratified breast cancer screening among women in England: A cross-sectional survey. <i>Journal of Medical Screening</i> , 2020 , 27, 138-145	1.4	13
107	Variation in health beliefs across different types of cervical screening non-participants. <i>Preventive Medicine</i> , 2018 , 111, 204-209	4.3	12
106	Factors associated with the human papillomavirus (HPV) vaccination across three countries following vaccination introduction. <i>Preventive Medicine Reports</i> , 2017 , 8, 169-176	2.6	12
105	Perceived risk of cervical cancer among pre-screening age women (18-24 years): the impact of information about cervical cancer risk factors and the causal role of HPV. <i>Sexually Transmitted Infections</i> , 2012 , 88, 400-6	2.8	12
104	Decision-making about HPV vaccination in parents of boys and girls: A population-based survey in England and Wales. <i>Vaccine</i> , 2020 , 38, 1040-1047	4.1	12
103	Psychological Impact of Primary Screening (PIPS) for HPV: a protocol for a cross-sectional evaluation within the NHS cervical screening programme. <i>BMJ Open</i> , 2016 , 6, e014356	3	12
102	Could changing invitation and booking processes help women translate their cervical screening intentions into action? A population-based survey of womenß preferences in Great Britain. <i>BMJ Open</i> , 2019 , 9, e028134	3	12
101	Psychosocial impact of human papillomavirus-related head and neck cancer on patients and their partners: A qualitative interview study. <i>European Journal of Cancer Care</i> , 2019 , 28, e12999	2.4	11
100	The impact of descriptive norms on motivation to participate in cancer screening - Evidence from online experiments. <i>Patient Education and Counseling</i> , 2019 , 102, 1621-1628	3.1	11
99	Colposcopy attendance and deprivation: A retrospective analysis of 27,193 women in the NHS Cervical Screening Programme. <i>British Journal of Cancer</i> , 2015 , 113, 119-22	8.7	11
98	Acceptability of non-speculum clinician sampling for cervical screening in older women: A qualitative study. <i>Journal of Medical Screening</i> , 2018 , 25, 205-210	1.4	11
97	Public understanding of the purpose of cancer screening: A population-based survey. <i>Journal of Medical Screening</i> , 2018 , 25, 64-69	1.4	11
