|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Exploring the other side of cancer care: The informal caregiver. <i>European Journal of Oncology Nursing</i> , 2009, 13, 128-136.                                                                                                                                                          | 0.9 | 105       |
| 2  | The factors associated with the burnout syndrome and fatigue in Cypriot nurses: a census report. <i>BMC Public Health</i> , 2012, 12, 457.                                                                                                                                                 | 1.2 | 94        |
| 3  | Guided Imagery And Progressive Muscle Relaxation as a Cluster of Symptoms Management Intervention in Patients Receiving Chemotherapy: A Randomized Control Trial. <i>PLoS ONE</i> , 2016, 11, e0156911.                                                                                    | 1.1 | 91        |
| 4  | A scoping review of trials of interventions led or delivered by cancer nurses. <i>International Journal of Nursing Studies</i> , 2018, 86, 36-43.                                                                                                                                          | 2.5 | 80        |
| 5  | Virtual Reality and Symptoms Management of Anxiety, Depression, Fatigue, and Pain: A Systematic Review. <i>SAGE Open Nursing</i> , 2020, 6, 237796082093616.                                                                                                                               | 0.5 | 77        |
| 6  | Nurses' knowledge and attitudes about dementia care: Systematic literature review. <i>Perspectives in Psychiatric Care</i> , 2019, 55, 48-60.                                                                                                                                              | 0.9 | 72        |
| 7  | The Burdensome and Depressive Experience of Caring. <i>Cancer Nursing</i> , 2012, 35, 187-194.                                                                                                                                                                                             | 0.7 | 63        |
| 8  | Cancer Related Fatigue and Quality of Life in Patients with Advanced Prostate Cancer Undergoing Chemotherapy. <i>BioMed Research International</i> , 2016, 2016, 1-11.                                                                                                                     | 0.9 | 61        |
| 9  | The effect of the use of thyme honey in minimizing radiation - induced oral mucositis in head and neck cancer patients: A randomized controlled trial. <i>European Journal of Oncology Nursing</i> , 2018, 34, 89-97.                                                                      | 0.9 | 57        |
| 10 | How family caregivers of cancer patients manage symptoms at home: A systematic review. <i>International Journal of Nursing Studies</i> , 2018, 85, 68-79.                                                                                                                                  | 2.5 | 55        |
| 11 | A Randomized Controlled Trial for the Effectiveness of Progressive Muscle Relaxation and Guided Imagery as Anxiety Reducing Interventions in Breast and Prostate Cancer Patients Undergoing Chemotherapy. <i>Evidence-based Complementary and Alternative Medicine</i> , 2015, 2015, 1-10. | 0.5 | 54        |
| 12 | The effectiveness of thyme honey for the management of treatment-induced xerostomia in head and neck cancer patients: A feasibility randomized control trial. <i>European Journal of Oncology Nursing</i> , 2017, 27, 1-8.                                                                 | 0.9 | 50        |
| 13 | Listening to the voices of patients with cancer, their advocates and their nurses: A hermeneutic-phenomenological study of quality nursing care. <i>European Journal of Oncology Nursing</i> , 2008, 12, 436-442.                                                                          | 0.9 | 49        |
| 14 | How do informal caregivers of patients with cancer cope: A descriptive study of the coping strategies employed. <i>European Journal of Oncology Nursing</i> , 2012, 16, 258-263.                                                                                                           | 0.9 | 48        |
| 15 | The effect of resistance inspiratory muscle training in the management of breathlessness in patients with thoracic malignancies: a feasibility randomised trial. <i>Supportive Care in Cancer</i> , 2015, 23, 1637-1645.                                                                   | 1.0 | 48        |
| 16 | The associations among the ethical climate, the professional practice environment and individualized care in care settings for older people. <i>Journal of Advanced Nursing</i> , 2014, 70, 1356-1368.                                                                                     | 1.5 | 47        |
| 17 | Ricoeur's hermeneutic phenomenology: an implication for nursing research. <i>Scandinavian Journal of Caring Sciences</i> , 2008, 22, 637-642.                                                                                                                                              | 1.0 | 45        |
| 18 | Effectiveness of a relaxation intervention (progressive muscle relaxation and guided imagery) in patients with thoracic malignancies: A randomized controlled trial in Republic of Cyprus and Greece. <i>European Journal of Oncology Nursing</i> , 2017, 26, 9-18.                        | 0.9 | 45        |

| #  | ARTICLE                                                                                                                                                                                                                                                                 | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Cancer-related fatigue and sleep deficiency in cancer care continuum: concepts, assessment, clusters, and management. <i>Supportive Care in Cancer</i> , 2019, 27, 2747-2753.                                                                                           | 1.0 | 45        |
| 20 | Essential oncology nursing care along the cancer continuum. <i>Lancet Oncology</i> , The, 2020, 21, e555-e563.                                                                                                                                                          | 5.1 | 44        |
| 21 | The ethical dimension of nursing care rationing. <i>Nursing Ethics</i> , 2015, 22, 881-900.                                                                                                                                                                             | 1.8 | 43        |
| 22 | Ethical climate and missed nursing care in cancer care units. <i>Nursing Ethics</i> , 2018, 25, 707-723.                                                                                                                                                                | 1.8 | 41        |
| 23 | Parallel and serial mediation analysis between pain, anxiety, depression, fatigue and nausea, vomiting and retching within a randomised controlled trial in patients with breast and prostate cancer. <i>BMJ Open</i> , 2019, 9, e026809.                               | 0.8 | 41        |
| 24 | An international study of hospitalized cancer patients' health status, nursing care quality, perceived individuality in care and trust in nurses: A path analysis. <i>International Journal of Nursing Studies</i> , 2016, 61, 176-186.                                 | 2.5 | 40        |
| 25 | Undergraduate nursing students caring for cancer patients: hermeneutic phenomenological insights of their experiences. <i>BMC Health Services Research</i> , 2013, 13, 63.                                                                                              | 0.9 | 32        |
| 26 | Caregivers' work satisfaction and individualised care in care settings for older people. <i>Journal of Clinical Nursing</i> , 2013, 22, 479-490.                                                                                                                        | 1.4 | 29        |
| 27 | Social Media and Health Policy. <i>Asia-Pacific Journal of Oncology Nursing</i> , 2019, 6, 24-27.                                                                                                                                                                       | 0.7 | 29        |
| 28 | The effects on anxiety and quality of life of breast cancer patients following completion of the first cycle of chemotherapy. <i>SAGE Open Medicine</i> , 2017, 5, 205031211771750.                                                                                     | 0.7 | 27        |
| 29 | The use of patient-reported outcomes in routine cancer care: preliminary insights from a multinational scoping survey of oncology practitioners. <i>Supportive Care in Cancer</i> , 2022, 30, 1427-1439.                                                                | 1.0 | 27        |
| 30 | The Association of Health Literacy and Electronic Health Literacy With Self-Efficacy, Coping, and Caregiving Perceptions Among Carers of People With Dementia: Research Protocol for a Descriptive Correlational Study. <i>JMIR Research Protocols</i> , 2017, 6, e221. | 0.5 | 27        |
| 31 | To what extent are patients' needs met on oncology units? The phenomenon of care rationing. <i>European Journal of Oncology Nursing</i> , 2016, 21, 48-56.                                                                                                              | 0.9 | 25        |
| 32 | Adapting the eHealth Literacy Scale for Carers of People With Chronic Diseases (eHeals-Carer) in a Sample of Greek and Cypriot Carers of People With Dementia: Reliability and Validation Study. <i>Journal of Medical Internet Research</i> , 2019, 21, e12504.        | 2.1 | 25        |
| 33 | Knowledge expectations of surgical orthopaedic patients: A European survey. <i>International Journal of Nursing Practice</i> , 2014, 20, 597-607.                                                                                                                       | 0.8 | 24        |
| 34 | Validation of the Hospital Ethical Climate Survey for older people care. <i>Nursing Ethics</i> , 2015, 22, 517-532.                                                                                                                                                     | 1.8 | 24        |
| 35 | Supporting spirituality in the care of older people living with dementia: a hermeneutic phenomenological inquiry into nurses' experiences. <i>Scandinavian Journal of Caring Sciences</i> , 2018, 32, 880-888.                                                          | 1.0 | 24        |
| 36 | The effectiveness of honey for the management of radiotherapy-induced oral mucositis in head and neck cancer patients: A systematic review of clinical trials. <i>European Journal of Integrative Medicine</i> , 2013, 5, 217-225.                                      | 0.8 | 21        |

| #  | ARTICLE                                                                                                                                                                                                                        | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Hermeneutic phenomenological interpretations of patients with head and neck neoplasm experiences living with radiation-induced xerostomia: The price to pay?. <i>European Journal of Oncology Nursing</i> , 2014, 18, 512-520. | 0.9 | 21        |
| 38 | The quality of recovery on discharge from hospital, a comparison between patients undergoing hip and knee replacement – a European study. <i>Journal of Clinical Nursing</i> , 2016, 25, 2489-2501.                            | 1.4 | 21        |
| 39 | Towards a theory of quality nursing care for patients with cancer through hermeneutic phenomenology. <i>European Journal of Oncology Nursing</i> , 2009, 13, 350-360.                                                          | 0.9 | 19        |
| 40 | The Conceptualization and Measurement of Individualized Care. <i>Geriatric Nursing</i> , 2012, 33, 17-27.                                                                                                                      | 0.9 | 19        |
| 41 | Variations in patient satisfaction with care for breast, lung, head and neck and prostate cancers in different cancer care settings. <i>European Journal of Oncology Nursing</i> , 2013, 17, 588-595.                          | 0.9 | 18        |
| 42 | Cancer patients' perceptions of quality of care attributes – Associations with age, perceived health status, gender and education. <i>Journal of Clinical Nursing</i> , 2018, 27, 306-316.                                     | 1.4 | 17        |
| 43 | Construction and validation of the quality of oncology nursing care scale (QONCS). <i>BMC Nursing</i> , 2014, 13, 48.                                                                                                          | 0.9 | 16        |
| 44 | Fulfilment of knowledge expectations among family members of patients undergoing arthroplasty: a European perspective. <i>Scandinavian Journal of Caring Sciences</i> , 2015, 29, 615-624.                                     | 1.0 | 16        |
