

Alexander Supady

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9123301/alexander-supady-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
39	Cytokine adsorption in patients with severe COVID-19 pneumonia requiring extracorporeal membrane oxygenation (CYCOV): a single centre, open-label, randomised, controlled trial. <i>Lancet Respiratory Medicine</i> , 2021 , 9, 755-762	35.1	54
38	Allocating scarce intensive care resources during the COVID-19 pandemic: practical challenges to theoretical frameworks. <i>Lancet Respiratory Medicine</i> , 2021 , 9, 430-434	35.1	32
37	A prospective, randomised, double blind placebo-controlled trial to evaluate the efficacy and safety of tocilizumab in patients with severe COVID-19 pneumonia (TOC-COVID): A structured summary of a study protocol for a randomised controlled trial. <i>Trials</i> , 2020 , 21, 470	2.8	31
36	Cytokine adsorption in patients with severe COVID-19 pneumonia requiring extracorporeal membrane oxygenation. <i>Critical Care</i> , 2020 , 24, 435	10.8	31
35	Rate of venous thromboembolism in a prospective all-comers cohort with COVID-19. <i>Journal of Thrombosis and Thrombolysis</i> , 2020 , 50, 558-566	5.1	15
34	Outcome of acute respiratory distress syndrome requiring extracorporeal membrane oxygenation in Covid-19 or influenza: A single-center registry study. <i>Artificial Organs</i> , 2021 , 45, 593-601	2.6	13
33	Combining lung ultrasound and Wells score for diagnosing pulmonary embolism in critically ill COVID-19 patients. <i>Journal of Thrombosis and Thrombolysis</i> , 2021 , 52, 76-84	5.1	12
32	Controlled automated reperfusion of the whole body after 120 minutes of Cardiopulmonary resuscitation: first clinical report. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2017 , 25, 66	3.6	10
31	Should we ration extracorporeal membrane oxygenation during the COVID-19 pandemic?. <i>Lancet Respiratory Medicine</i> , 2021 , 9, 326-328	35.1	10
30	Cytokine Adsorption in Critically Ill Patients Requiring ECMO Support. <i>Frontiers in Cardiovascular Medicine</i> , 2019 , 6, 71	5.4	9
29	Use of the CytoSorb adsorption device in MDMA intoxication: a first-in-man application and in vitro study. <i>Intensive Care Medicine Experimental</i> , 2020 , 8, 21	3.7	9
28	Extracorporeal life support in COVID-19-related acute respiratory distress syndrome: A EuroELSO international survey. <i>Artificial Organs</i> , 2021 , 45, 495-505	2.6	9
27	Outcome Prediction in Patients with Severe COVID-19 Requiring Extracorporeal Membrane Oxygenation-A Retrospective International Multicenter Study. <i>Membranes</i> , 2021 , 11,	3.8	8
26	Survival after extracorporeal membrane oxygenation in severe COVID-19 ARDS: results from an international multicenter registry. <i>Critical Care</i> , 2021 , 25, 90	10.8	7
25	Hemoadsorption eliminates remdesivir from the circulation: Implications for the treatment of COVID-19. <i>Pharmacology Research and Perspectives</i> , 2021 , 9, e00743	3.1	6
24	Cytokine Adsorption in Severe Acute Respiratory Failure Requiring Veno-Venous Extracorporeal Membrane Oxygenation. <i>ASAIO Journal</i> , 2021 , 67, 332-338	3.6	5
23	Mobile ECMO retrieval of patients during the COVID-19 pandemic. <i>Artificial Organs</i> , 2021 , 45, 1168-1172.6	2.6	5

22	Ten things to consider when implementing rationing guidelines during a pandemic. <i>Intensive Care Medicine</i> , 2021 , 47, 605-608	14.5	4
21	Cytokine adsorption in a patient with severe coronavirus disease 2019 related acute respiratory distress syndrome requiring extracorporeal membrane oxygenation therapy: A case report. <i>Artificial Organs</i> , 2021 , 45, 191-194	2.6	4
20	Extracorporeal cytokine adsorption as an alternative to pharmacological inhibition of IL-6 in COVID-19. <i>Critical Care</i> , 2020 , 24, 514	10.8	3
19	Ethical obligations for supporting healthcare workers during the COVID-19 pandemic. <i>European Respiratory Journal</i> , 2021 , 57,	13.6	3
18	Cytokine adsorption and ECMO in patients with COVID-19 - Authors reply. <i>Lancet Respiratory Medicine</i> , 2021 , 9, e72-e74	35.1	3
17	Extracorporeal haemoadsorption: does the evidence support its routine use in critical care?. <i>Lancet Respiratory Medicine</i> , 2021 ,	35.1	3
16	Procedural justice and egalitarian principles for rationing decisions in the COVID-19 crisis. <i>Critical Care</i> , 2020 , 24, 590	10.8	2
15	Effect of Cytokine Adsorption on Survival and Circulatory Stabilization in Patients Receiving Extracorporeal Cardiopulmonary Resuscitation. <i>ASAIO Journal</i> , 2021 ,	3.6	2
14	Opportunities, controversies, and challenges of extracorporeal hemoadsorption with CytoSorb during ECMO. <i>Artificial Organs</i> , 2021 , 45, 1240-1249	2.6	2
13	Cytokine adsorption in patients with severe COVID-19 pneumonia requiring extracorporeal membrane oxygenation: protocol for a randomised, controlled, open-label intervention, multicentre trial. <i>BMJ Open</i> , 2021 , 11, e043345	3	2
12	Consequences of the coronavirus pandemic for global health research and practice. <i>Journal of Global Health</i> , 2020 , 10, 010366	4.3	1
11	Conservative management of COVID-19 associated hypoxaemia. <i>ERJ Open Research</i> , 2021 , 7,	3.5	1
10	Mode of Death after Extracorporeal Cardiopulmonary Resuscitation. <i>Membranes</i> , 2021 , 11,	3.8	1
9	Admission blood glucose level and outcome in patients requiring venoarterial extracorporeal membrane oxygenation. <i>Clinical Research in Cardiology</i> , 2021 , 110, 1484-1492	6.1	1
8	Extracorporeal organ support in the treatment of coronavirus disease 2019? Yes, but with caution. <i>Artificial Organs</i> , 2021 , 45, 1124-1125	2.6	1
7	Hospital networks and patient transport capacity during the COVID-19 pandemic when intensive care resources become scarce. <i>Critical Care</i> , 2021 , 25, 28	10.8	1
6	Choosing the right reference cohort for assessing outcome of venovenous ECMO.. <i>Critical Care</i> , 2022 , 26, 17	10.8	0
5	Long-term survival and health-related quality of life in patients with severe acute respiratory distress syndrome and veno-venous extracorporeal membrane oxygenation support. <i>Critical Care</i> , 2021 , 25, 410	10.8	0

- 4 Advantages of score-based delirium detection compared to a clinical delirium assessment-a retrospective, monocentric cohort study. *PLoS ONE*, **2021**, 16, e0259841 3.7 ○
- 3 Cytokine adsorption in patients with acute-on-chronic liver failure (CYTOHEP)-a single center, open-label, three-arm, randomized, controlled intervention trial.. *Trials*, **2022**, 23, 222 2.8 ○
- 2 Extracorporeal Membrane Oxygenation and Inflammation in COVID-19. *ASAIO Journal*, **2021**, 67, e72-e73.6
- 1 Does adjunctive hemoadsorption with CytoSorb affect survival of COVID-19 patients on ECMO? Authorsbresponse. *Journal of Critical Care*, **2021**, 66, 31-32 4
