#	ARTICLE	IF	CITATIONS
1	Series: Practical guidance to qualitative research. Part 4: Trustworthiness and publishing. European Journal of General Practice, 2018, 24, 120-124.	0.9	1,311
2	Series: Practical guidance to qualitative research. Part 3: Sampling, data collection and analysis. European Journal of General Practice, 2018, 24, 9-18.	0.9	982
3	Series: Practical guidance to qualitative research. Part 2: Context, research questions and designs. European Journal of General Practice, 2017, 23, 274-279.	0.9	172
4	Series: Practical guidance to qualitative research. Part 1: Introduction. European Journal of General Practice, 2017, 23, 271-273.	0.9	102
5	Supporting and hindering environments for participation of adolescents diagnosed with autism spectrum disorder: A scoping review. PLoS ONE, 2018, 13, e0202071.	1.1	70
6	Self-management of type 2 diabetes mellitus: a qualitative investigation from the perspective of participants in a nurse-led, shared-care programme in the Netherlands. BMC Public Health, 2008, 8, 91.	1.2	63
7	Identification of promising strategies to sustain improvements in hospital practice: a qualitative case study. BMC Health Services Research, 2014, 14, 641.	0.9	53
8	Mobile health data collection at primary health care in Ethiopia: a feasible challenge. Journal of Clinical Epidemiology, 2015, 68, 80-86.	2.4	53
9	Factors associated with sustainability of 2 quality improvement programs after achieving early implementation success. A qualitative case study. Journal of Evaluation in Clinical Practice, 2017, 23, 1135-1143.	0.9	41
10	Childhood fever: a qualitative study on GPs'™ experiences during out-of-hours care. Family Practice, 2015, 32, cmv029.	0.8	34
11	Preparing researchers for patient and public involvement in scientific research: Development of a hands-on learning approach through action research. Health Expectations, 2018, 21, 752-763.	1.1	34
12	Themes affecting health-care consumers'™ choice of a hospital for elective surgery when receiving web-based comparative consumer information. Patient Education and Counseling, 2010, 78, 365-371.	1.0	30
13	Content Validity of the Credibility and Expectancy Questionnaire in a Pain Rehabilitation Setting. Pain Practice, 2017, 17, 902-913.	0.9	24
14	Physiotherapists use a great variety of motor learning options in neurological rehabilitation, from which they choose through an iterative process: a retrospective think-aloud study. Disability and Rehabilitation, 2017, 39, 1729-1737.	0.9	21
15	Practices and challenges of growth monitoring and promotion in ethiopia: a qualitative study. Journal of Health, Population and Nutrition, 2014, 32, 441-51.	0.7	21
16	Patients'™ experiences with commercially available activity trackers embedded in physiotherapy treatment: a qualitative study. Disability and Rehabilitation, 2020, 42, 3284-3292.	0.9	19
17	The use and perceived usefulness of a patient-specific measurement instrument in physiotherapy goal setting. A qualitative study. Musculoskeletal Science and Practice, 2017, 27, 23-31.	0.6	16
18	Cross-cultural adaptation of the Participation and Environment Measure for Children and Youth (PEM-CY) into German: a qualitative study in three countries. BMC Pediatrics, 2020, 20, 492.	0.7	15

#	ARTICLE	IF	CITATIONS
19	Series: Practical guidance to qualitative research. Part 5: Co-creative qualitative approaches for emerging themes in primary care research: Experience-based co-design, user-centred design and community-based participatory research. <i>European Journal of General Practice</i> , 2022, 28, 1-12.	0.9	15
20	Protocol for a pre-implementation and post-implementation study on shared decision-making in the surgical treatment of women with early-stage breast cancer. <i>BMJ Open</i> , 2015, 5, e007698-e007698.	0.8	14
21	Realizing autonomy in responsive relationships. <i>Medicine, Health Care and Philosophy</i> , 2010, 13, 215-223.	0.9	13
22	Autonomous Decision Making and Moral capacities. <i>Nursing Ethics</i> , 2009, 16, 203-218.	1.8	12
23	The perceived impact of public involvement in palliative care in a provincial palliative care network in the Netherlands: a qualitative study. <i>Health Expectations</i> , 2015, 18, 3186-3200.	1.1	12
24	Improving the experience of older people with colorectal and breast cancer in patient-centred cancer care pathways using experience-based co-design. <i>Health Expectations</i> , 2021, 24, 478-490.	1.1	12
25	Stakeholder engagement from problem analysis to implementation strategies for a patient-reported experience measure in disability care: A qualitative study on the process and experiences. <i>Health Expectations</i> , 2021, 24, 53-65.	1.1	11
26	The patient's perspective of the feasibility of a patient-specific instrument in physiotherapy goal setting: a qualitative study. <i>Patient Preference and Adherence</i> , 2016, 10, 425.	0.8	10
27	A future in primary care research: a view from the middle. <i>British Journal of General Practice</i> , 2018, 68, 440-441.	0.7	10
28	Jointly discussing care plans for real-life patients: The potential of a student-led interprofessional team meeting in undergraduate health professions education. <i>Perspectives on Medical Education</i> , 2022, 8, 372-377.	1.8	10
29	Validity, reliability and feasibility of commercially available activity trackers in physical therapy for people with a chronic disease: a study protocol of a mixed methods research. <i>Pilot and Feasibility Studies</i> , 2017, 3, 64.	0.5	9
30	The Perception of Shared Decision-Making in Hematology by Patients and Physicians Seems Satisfactory, but Important Steps are Still Ahead of Us. <i>HemaSphere</i> , 2020, 4, e417.	1.2	8
31	The Next Step Toward Patient-Centeredness in Multidisciplinary Cancer Team Meetings: An Interview Study with Professionals. <i>Journal of Multidisciplinary Healthcare</i> , 2021, Volume 14, 1311-1324.	1.1	8
32	Environmental pre-requisites and social interchange: the participation experience of adolescents with autism spectrum disorder in Zurich. <i>Disability and Rehabilitation</i> , 2021, 43, 3789-3802.	0.9	7
33	What matters to me – a web-based preference elicitation tool for clients in long-term care: a user-centred design. <i>BMC Medical Informatics and Decision Making</i> , 2020, 20, 57.	1.5	7
34	Implementation of a Patient Reported Experience Measure in a Dutch disability care organisation: a qualitative study. <i>Journal of Patient-Reported Outcomes</i> , 2020, 4, 5.	0.9	6
35	Series: Practical guidance to qualitative research. Part 6: Longitudinal qualitative and mixed-methods approaches for longitudinal and complex health themes in primary care research. <i>European Journal of General Practice</i> , 2022, 28, 118-124.	0.9	5
36	Getting to grips with the process of decision-making in long-term care. Descriptive cases illustrate the chaotic reality of the construction of preferences. <i>PLoS ONE</i> , 2019, 14, e0217338.	1.1	4

#	ARTICLE	IF	CITATIONS
37	Patient and public involvement cultures and the perceived impact in the vulnerable context of palliative care: A qualitative study. <i>Health Expectations</i> , 2021, 24, 456-467.	1.1	4
38	<p>Proposal for a Framework to Enable Elicitation of Preferences for Clients in Need of Long-Term Care</p>. <i>Patient Preference and Adherence</i> , 2020, Volume 14, 1553-1566.	0.8	2
39	How to foster successful implementation of a patient reported experience measurement in the disability sector: an example of developing strategies in co-creation. <i>Research Involvement and Engagement</i> , 2021, 7, 45.	1.1	2
40	Involving &ldquo;authentic&rdquo; cancer patients, their caregivers, and multidisciplinary professionals in a quality improvement trajectory in a hospital cancer pathway: a study protocol. <i>Journal of Multidisciplinary Healthcare</i> , 2018, Volume 11, 661-671.	1.1	1
41	Clients and professionals elicit long-term care preferences by using â€˜What matters to meâ€™™: A process evaluation in the Netherlands. <i>Health and Social Care in the Community</i> , 2022, 30, .	0.7	1
42	European Interprofessional Education Network Conference, Nijmegen, the Netherlands: Bridging education and practice. <i>Journal of Interprofessional Care</i> , 2017, 31, 137-139.	0.8	0
43	An observational study on the process of collaborative deliberation in arranging long-term care: The perception of clients and professionals. <i>Clinical Ethics</i> , 0, , 147775092110366.	0.5	0
