#	ARTICLE	IF	CITATIONS
1	Comparison of two supplemental oxygen methods during gastroscopy with propofol mono-sedation in patients with a normal body mass index. <i>World Journal of Gastroenterology</i> , 2020, 26, 6867-6879.	3.3	14
2	Prospective, randomized comparison of two supplemental oxygen methods during gastroscopy with propofol mono-sedation in obese patients. <i>World Journal of Clinical Cases</i> , 2021, 9, 5479-5489.	0.8	8
3	Estimation of effective dose of propofol mono-sedation for successful insertion of upper gastrointestinal endoscope in healthy, non-obese Chinese adults. <i>Journal of Clinical Pharmacy and Therapeutics</i> , 2021, 46, 484-491.	1.5	6
4	<p>Dexmedetomidine reduces sevoflurane EC<sub>50</sub> for supraglottic airway device insertion in spontaneously breathing morbidly obese patients</p>. <i>Therapeutics and Clinical Risk Management</i> , 2019, Volume 15, 627-635.	2.0	5
5	A feasibility study of jaw thrust as an indicator assessing adequate depth of anesthesia for insertion of supraglottic airway device in morbidly obese patients. <i>Chinese Medical Journal</i> , 2019, 132, 2185-2191.	2.3	4
6	Clinical characteristics and risk factors of early acute kidney injury in severely burned patients. <i>Burns</i> , 2021, 47, 498-499.	1.9	2
7	Assessing risk factors of delirium and its effects on adverse outcomes in patients admitted to the ICU after craniotomy. <i>European Journal of Anaesthesiology</i> , 2021, 38, 191-192.	1.7	2
8	A commentary on "Incidence, predictors and validation of risk scores to predict postoperative mortality after noncardiac vascular surgery, a prospective cohort study" (<i>Int J Surg</i> 2020;73:89-93). <i>International Journal of Surgery</i> , 2020, 77, 181-182.	2.7	1
9	Assessing association of preoperative estimated glomerular filtration rate with postoperative acute kidney injury in very elderly surgical patients. <i>Renal Failure</i> , 2020, 42, 398-399.	2.1	1
10	Comparison of tracheal intubation with controlled ventilation and laryngeal mask airway with spontaneous ventilation for thoroscopic bullectomy. <i>Medicine (United States)</i> , 2020, 99, e19704.	1.0	1
11	Establishing a risk prediction model for acute kidney injury. <i>Chinese Medical Journal</i> , 2019, 132, 2770-2771.	2.3	0
12	Acute kidney injury after colorectal surgery with an enhanced recovery pathway. <i>Surgery Today</i> , 2020, , 1.	1.5	0
13	Use of ultrasound for prediction of difficult laryngoscopy in adult patients. <i>Chinese Medical Journal</i> , 2020, 133, 1369-1370.	2.3	0
14	Assessing risk factors and associated complications of acute kidney injury after craniotomy. <i>Clinical Neurology and Neurosurgery</i> , 2020, 193, 105784.	1.4	0
15	Efficacy of Single-shot Thoracic Paravertebral Block Combined with Intravenous Analgesia Versus Continuous Thoracic Epidural Analgesia for Chronic Pain After Thoracotomy. <i>Pain Physician</i> , 2021, 24, E753-E759.	0.4	0
16	Can really preoperative furosemide increase the risk of acute kidney injury after coronary artery bypass grafting?. <i>General Thoracic and Cardiovascular Surgery</i> , 2022, , 1.	0.9	0
17	Letter to the editor in response to the article:predictors of difficult intubation when using a videolaryngoscope with an intermediate-angled blade during the first attempt: a prospective observational study. <i>Journal of Clinical Monitoring and Computing</i> , 2022, 36, 1909-1910.	1.6	0
