#	ARTICLE	IF	CITATIONS
1	Smart Surveillance of Runway Conditions. Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering, 2021, , 252-270.	0.3	0
2	Ground Operations Management using a Data Governance Dashboard. , 2019, , .		0
3	Performing Enterprise Architectures Through Gamified Business Models. Advances in Business Strategy and Competitive Advantage Book Series, 2019, , 232-246.	0.3	1
4	Modeling an Information Visualization Engine for Situational-Awareness in Health Insurance. Advances in Intelligent Systems and Computing, 2018, , 773-786.	0.6	0
5	A knowledge management system for analysis of organisational log files. , 2018, , .		1
6	A knowledge management architecture for information technology services delivery. , 2018, , .		9
7	An Information Visualization Engine for Situational-Awareness in Health Insurance. Advances in Intelligent Systems and Computing, 2018, , 294-308.	0.6	0
8	Health Outcomes Analysis for the Patient in Hospital Context. Advances in Intelligent Systems and Computing, 2017, , 717-723.	0.6	0
9	A framework for social well-being and skills management at the workplace. International Journal of Information Management, 2017, 37, 718-725.	17.5	39
10	Articulating Gamification and Visual Analytics as a Paradigm for Flexible Skills Management. Advances in Intelligent Systems and Computing, 2017, , 185-196.	0.6	0
11	Corporate frameworks and technological products focusing alarmistic and monitoring incidators of control and performance. , 2016, , .		0
12	A Multi-driven Approach to Improve Data Analytics for Multi-value Dimensions. Advances in Intelligent Systems and Computing, 2015, , 115-128.	0.6	0
13	A Spatio-temporal Surveillance Approach for Business Activity Monitoring. Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering, 2013, , 131-140.	0.3	1
14	Adressing stakeholders coordination for airport efficiency and decision-support requirements. Journal of Aerospace Operations, 2012, 1, 267-280.	0.1	9
15	An Event-Driven Architecture for Spatio-temporal Surveillance of Business Activities. Lecture Notes in Computer Science, 2012, , 136-142.	1.3	0
16	Handling airport ground operations using an A-SMGCS approach. , 2011, , .		3
17	LocON: A location based services platform to improve airport safety. , 2011, , .		2
18	An airport decision support system for mobiles surveillance & alerting. , 2005, , .		8
