#	ARTICLE	IF	CITATIONS
1	Dynamics of gap junctions observed in living cells with connexin43-GFP chimeric protein. European Journal of Cell Biology, 1999, 78, 856-866.	1.6	43
2	Interference with DNA Methyltransferase Activity and Genome Methylation during F9 Teratocarcinoma Stem Cell Differentiation Induced by Polyamine Depletion. Journal of Biological Chemistry, 1997, 272, 4359-4366.	1.6	72
3	Effects of chronically elevated growth hormone levels on polyamine metabolism in elderly transgenic mice. Molecular and Cellular Endocrinology, 1997, 126, 49-58.	1.6	13
4	Polyamines Regulate Both Transcription and Translation of the Gene Encoding Ornithine Decarboxylase Antizyme in Mouse. FEBS Journal, 1997, 250, 223-231.	0.2	36
5	Expression of transforming growth factor- β 21 in rat ventral prostate and Dunning R3327 PAP prostate tumor after castration and estrogen treatment. , 1996, 29, 209-218.		15
6	Localization of S-adenosylmethionine decarboxylase in murine tissues by immunohistochemistry. European Journal of Oral Sciences, 1995, 103, 133-140.	0.7	4
7	Down-regulation of ornithine decarboxylase by an increased degradation of the enzyme during gastrulation of <i>Xenopus laevis</i> . Biochimica Et Biophysica Acta Gene Regulatory Mechanisms, 1995, 1264, 121-128.	2.4	11
8	Cloning and Sequencing of an Intronless Mouse S-Adenosylmethionine Decarboxylase Gene Coding for a Functional Enzyme Strongly Expressed in the Liver. Journal of Biological Chemistry, 1995, 270, 5642-5648.	1.6	26
9	On the translational control of ornithine decarboxylase expression by polyamines. Biochimica Et Biophysica Acta Gene Regulatory Mechanisms, 1991, 1090, 188-194.	2.4	17
10	Polyamine-mediated control of ornithine decarboxylase and S-adenosylmethionine decarboxylase expression in mammalian cells. Biochemical Society Transactions, 1990, 18, 1084-1087.	1.6	13
11	Residual proliferative capacity in F9 teratocarcinoma stem cell cultures treated with β -difluoromethylornithine, an inducer of parietal endoderm differentiation. Cancer Letters, 1990, 50, 103-107.	3.2	1
12	Feedback regulation of ornithine decarboxylase expression. FEBS Letters, 1990, 260, 39-41.	1.3	3
13	Polyamine-mediated control of mammalian S-adenosyl-L-methionine decarboxylase expression: Effects on the content and translational efficiency of the mRNA. Biochemical and Biophysical Research Communications, 1989, 160, 1196-1202.	1.0	29
14	Feedback regulation of polyamine synthesis in Ehrlich ascites tumor cells. Analysis using nonmetabolizable derivatives of putrescine and spormine. Biochimica Et Biophysica Acta - Molecular Cell Research, 1988, 972, 239-248.	1.9	14
15	Feedback regulation of polyamine synthesis in Ehrlich ascites tumor cells. Analysis using nonmetabolizable derivatives of putrescine and spermine. Biochimica Et Biophysica Acta - Bioenergetics, 1988, 972, 239-248.	0.5	2
16	Regulation of Polyamine Synthesis in Mammalian Cells. Advances in Experimental Medicine and Biology, 1988, 250, 261-271.	0.8	13
17	Inhibition of polyamine synthesis reduces the growth rate and delays the expression of differentiated phenotypes in primary cultures of embryonic mesoderm from chick. Cell and Tissue Research, 1987, 249, 151-160.	1.5	8
18	Translational regulation of ornithine decarboxylase by polyamines. FEBS Letters, 1986, 205, 175-178.	1.3	90
