#	ARTICLE	IF	CITATIONS
1	Developing and using a structured, conversation-based intervention for clarifying values and preferences for end-of-life in the advance care planning-naÅve Swedish context: Action research within the DÅrBra research program. <i>Death Studies</i> , 2022, 46, 803-815.	2.7	17
2	Engagement of specialized palliative care services with the general public: A population-level survey in three European countries. <i>Palliative Medicine</i> , 2022, , 026921632210795.	3.1	2
3	Use, usability, and impact of a card-based conversation tool to support communication about end-of-life preferences in residential elder care â€“ a qualitative study of staff experiences. <i>BMC Geriatrics</i> , 2022, 22, 274.	2.7	3
4	Conceptualizing impact in community-based participatory action research to engage communities in end-of-life issues. <i>Palliative Care and Social Practice</i> , 2022, 16, 263235242210951.	1.1	1
5	The call-bell in residential care homes: Experiences of residents and staff. <i>Journal of Aging Studies</i> , 2022, 62, 101056.	1.4	1
6	Navigating power dynamics in engaging communities in end-of-life issues â€“ Lessons learned from developing community-based intergenerational arts initiatives about death and loss. <i>Death Studies</i> , 2021, 45, 651-664.	2.7	10
7	Tishelman et al's Response to Morrison: Advance Directives/Care Planning: Clear, Simple, and Wrong (DOI: 10.1089/jpm.2020.0272). <i>Journal of Palliative Medicine</i> , 2021, 24, 16-17.	1.1	10
8	Dissemination, use, and impact of a community-based, conversational advance care planning intervention: ripple effects of the Swedish DÅrBra cards. <i>Palliative Care and Social Practice</i> , 2021, 15, 263235242110329.	1.1	4
9	Sensations, symptoms, and then what? Early bodily experiences prior to diagnosis of lung cancer. <i>PLoS ONE</i> , 2021, 16, e0249114.	2.5	6
10	Using patientsâ€™ own knowledge of early sensations and symptoms to develop an interactive, individualized e-questionnaire to facilitate early diagnosis of lung cancer. <i>BMC Cancer</i> , 2021, 21, 544.	2.6	1
11	Continuums of Change in a Competence-Building Initiative Addressing End-of-Life Communication in Swedish Elder Care. <i>Qualitative Health Research</i> , 2021, 31, 1904-1917.	2.1	5
12	A Salutogenic Perspective on End-of-Life Care among the Indigenous SÅjmi of Northern Fennoscandia. <i>Healthcare (Switzerland)</i> , 2021, 9, 766.	2.0	2
13	Play Elements as Mechanisms in Intergenerational Arts Activities to Support Community Engagement with End-of-Life Issues. <i>Healthcare (Switzerland)</i> , 2021, 9, 764.	2.0	4
14	Fearing fear itself: Crowdsourced longitudinal data on Covid-19-related fear in Sweden. <i>PLoS ONE</i> , 2021, 16, e0253371.	2.5	2
15	Same, same, but different? A longitudinal, mixed-methods study of stability in values and preferences for future end-of-life care among community-dwelling, older adults. <i>BMC Palliative Care</i> , 2021, 20, 148.	1.8	2
16	Values and preferences for future end-of-life care among the indigenous SÅjmi. <i>Scandinavian Journal of Caring Sciences</i> , 2021, , .	2.1	2
17	12-hour shifts in nursing: Do they remove unproductive time and information loss or do they reduce education and discussion opportunities for nurses? A cross-sectional study in 12 European countries. <i>Journal of Clinical Nursing</i> , 2020, 29, 53-59.	3.0	16
18	Nursing and euthanasia: A narrative review of the nursing ethics literature. <i>Nursing Ethics</i> , 2020, 27, 152-167.	3.4	27

#	ARTICLE	IF	CITATIONS
19	Using narrative analysis to explore traditional Sápmi knowledge through storytelling about End-of-Life. <i>Health and Place</i> , 2020, 65, 102424.	3.3	3
20	Constructing Good Nursing Practice for Medical Assistance in Dying in Canada: An Interpretive Descriptive Study. <i>Global Qualitative Nursing Research</i> , 2020, 7, 233339362093868.	1.4	15
21	Death, loss and community—Perspectives from children, their parents and older adults on intergenerational community-based arts initiatives in Sweden. <i>Health and Social Care in the Community</i> , 2020, 28, 2025-2036.	1.6	7
22	Exploring Community-Dwelling Older Adults™ Considerations About Values and Preferences for Future End-of-Life Care: A Study from Sweden. <i>Gerontologist</i> , The, 2020, 60, 1332-1342.	3.9	11
23	Between a rock and a hard place: Registered nurses™ accounts of their work situation in cancer care in Swedish acute care hospitals. <i>European Journal of Oncology Nursing</i> , 2020, 47, 101778.	2.1	6
24	The past is present: Death systems among the Indigenous Sápmi in Northern Scandinavia today. <i>Mortality</i> , 2020, 25, 470-489.	0.5	8
25	Early symptoms and sensations as predictors of lung cancer: a machine learning multivariate model. <i>Scientific Reports</i> , 2019, 9, 16504.	3.3	12
26	Not just things: the roles of objects at the end of life. <i>Sociology of Health and Illness</i> , 2018, 40, 735-749.	2.1	10
27	Public awareness of palliative care in Sweden. <i>Scandinavian Journal of Public Health</i> , 2018, 46, 478-487.	2.3	53
28	Post-operative mortality, missed care and nurse staffing in nine countries: A cross-sectional study. <i>International Journal of Nursing Studies</i> , 2018, 78, 10-15.	5.6	326
29	Family members' experiences of the end-of-life care environments in acute care settings — a photo-elicitation study. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2018, 13, 1511767.	1.6	18
30	Dealing with taste and smell alterations—A qualitative interview study of people treated for lung cancer. <i>PLoS ONE</i> , 2018, 13, e0191117.	2.5	16
31	AB003. Lessons we are learning: using participatory action research to integrate palliative care, health promotion and public health through the DÅ¶Bra research program in Sweden. <i>Annals of Palliative Medicine</i> , 2018, 7, AB003-AB003.	1.2	0
32	Do perceived barriers to clinical presentation affect anticipated time to presenting with cancer symptoms: an ICBP study. <i>European Journal of Public Health</i> , 2017, 27, 808-813.	0.3	13
33	Patients™ initial steps to cancer diagnosis in Denmark, England and Sweden: what can a qualitative, cross-country comparison of narrative interviews tell us about potentially modifiable factors?. <i>BMJ Open</i> , 2017, 7, e018210.	1.9	23
34	Using a retrospective pretest instead of a conventional pretest is replacing biases: a qualitative study of cognitive processes underlying responses to the test items. <i>Quality of Life Research</i> , 2016, 25, 1327-1337.	3.1	11
35	B08-B Going Public: Integrating Palliative Care, Health Promotion and Public Health in Sweden Through the DÅ¶Bra Research Program. <i>Journal of Pain and Symptom Management</i> , 2016, 52, e19.	1.2	0
36	D11-C Exploring Objects at the End of Life. <i>Journal of Pain and Symptom Management</i> , 2016, 52, e37.	1.2	1

#	ARTICLE	IF	CITATIONS
37	Nurses' practice environment and satisfaction with schedule flexibility is related to intention to leave due to dissatisfaction: A multi-country, multilevel study. <i>International Journal of Nursing Studies</i> , 2016, 58, 47-58.	5.6	78
38	A cross-sectional study of care left undone on nursing shifts in hospitals. <i>Journal of Advanced Nursing</i> , 2016, 72, 2086-2097.	3.3	121
39	RN assessments of excellent quality of care and patient safety are associated with significantly lower odds of 30-day inpatient mortality: A national cross-sectional study of acute-care hospitals. <i>International Journal of Nursing Studies</i> , 2016, 61, 117-124.	5.6	34
40	Beyond the visual and verbal: Using participant-produced photographs in research on the surroundings for care at the end-of-life. <i>Social Science and Medicine</i> , 2016, 168, 120-129.	3.8	26
41	Opening the doors a crack wider: palliative care research data in the public domain. <i>BMJ Supportive and Palliative Care</i> , 2016, 6, 113-115.	1.6	2
42	Awareness of cancer symptoms and anticipated patient interval for healthcare seeking. A comparative study of Denmark and Sweden. <i>Acta Oncologica</i> , 2016, 55, 917-924.	1.8	3
43	A longitudinal study of changing characteristics of self-reported taste and smell alterations in patients treated for lung cancer. <i>European Journal of Oncology Nursing</i> , 2016, 21, 232-241.	2.1	30
44	Awareness of sunburn in childhood, use of sunbeds and change of moles in Denmark, Northern Ireland, Norway and Sweden. <i>European Journal of Public Health</i> , 2016, 26, 29-35.	0.3	8
45	Going public: reflections on developing the DÅbra research program for health-promoting palliative care in Sweden. <i>Progress in Palliative Care</i> , 2016, 24, 19-24.	1.2	25
46	Research in public health and end-of-life care " Building on the past and developing the new. <i>Progress in Palliative Care</i> , 2016, 24, 25-30.	1.2	28
47	Effectiveness of the Liverpool care pathway for the dying in residential care homes: An exploratory, controlled before-and-after study. <i>Palliative Medicine</i> , 2016, 30, 54-63.	3.1	25
48	Awareness of risk factors for cancer: a comparative study of Sweden and Denmark. <i>BMC Public Health</i> , 2015, 15, 1156.	2.9	33
49	PA33...Reflections from the intersection of palliative care and design. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, A29.3-A29.	1.6	0
50	Reflections on Using Biographical Approaches in End-of-Life Care. <i>Qualitative Health Research</i> , 2015, 25, 40-50.	2.1	22
51	WA3...Room for death " international museum " visitors' preferences regarding the end of their life. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, A1.3-A1.	1.6	1
52	Agile, a guiding principle for health care improvement?. <i>International Journal of Health Care Quality Assurance</i> , 2015, 28, 468-493.	0.9	50
53	Room for Death " International museum-visitors' preferences regarding the end of their life. <i>Social Science and Medicine</i> , 2015, 139, 1-8.	3.8	20
54	Intention to leave the workplace among nurses working with cancer patients in acute care hospitals in Sweden. <i>European Journal of Oncology Nursing</i> , 2015, 19, 629-637.	2.1	39

#	ARTICLE	IF	CITATIONS
55	Structural characteristics of hospitals and nurse-reported care quality, work environment, burnout and leaving intentions. <i>Journal of Nursing Management</i> , 2015, 23, 263-274.	3.4	42
56	WA7â€¦Refining and sharing our methods â€“ how to research the public health approach to palliative care?. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, A2.4-A3.	1.6	0
57	Self-reported taste and smell alterations in patients under investigation for lung cancer. <i>Acta OncolÃ³gica</i> , 2014, 53, 1405-1412.	1.8	34
58	Interventions to improve cervical cancer screening uptake amongst young women: A systematic review. <i>Acta OncolÃ³gica</i> , 2014, 53, 445-451.	1.8	25
59	Staffing and resource adequacy strongly related to RNsâ€™ assessment of patient safety: a national study of RNs working in acute-care hospitals in Sweden. <i>BMJ Quality and Safety</i> , 2014, 23, 242-249.	3.7	63
60	Organization of nursing care in three Nordic countries: relationships between nursesâ€™ workload, level of involvement in direct patient care, job satisfaction, and intention to leave. <i>BMC Nursing</i> , 2014, 13, 27.	2.5	32
61	Nursesâ€™ Shift Length and Overtime Working in 12 European Countries. <i>Medical Care</i> , 2014, 52, 975-981.	2.4	225
62	Hospital organizational factors influence workâ€“family conflict in registered nurses: Multilevel modeling of a nation-wide cross-sectional survey in Sweden. <i>International Journal of Nursing Studies</i> , 2014, 51, 744-751.	5.6	31
63	Characteristics of taste and smell alterations reported by patients after starting treatment for lung cancer. <i>Supportive Care in Cancer</i> , 2014, 22, 2635-2644.	2.2	52
64	Nurse staffing and education and hospital mortality in nine European countries: a retrospective observational study. <i>Lancet, The</i> , 2014, 383, 1824-1830.	13.7	1,497
65	Nurses' Practice Environment and Work-Family Conflict in Relation to Burn Out: A Multilevel Modelling Approach. <i>PLoS ONE</i> , 2014, 9, e96991.	2.5	70
66	Four Essential Drugs Needed for Quality Care of the Dying: A Delphi-Study Based International Expert Consensus Opinion. <i>Journal of Palliative Medicine</i> , 2013, 16, 38-43.	1.1	70
67	Differences in cancer awareness and beliefs between Australia, Canada, Denmark, Norway, Sweden and the UK (the International Cancer Benchmarking Partnership): do they contribute to differences in cancer survival?. <i>British Journal of Cancer</i> , 2013, 108, 292-300.	6.4	183
68	A National Observational Study of the Prevalence and Use of Enteral Tube Feeding, Parenteral Nutrition and Intravenous Glucose in Cancer Patients Enrolled in Specialized Palliative Care. <i>Nutrients</i> , 2013, 5, 267-282.	4.1	29
69	Merryn Gott and Christine Ingleton (eds), <i>Living with Ageing and Dying: Palliative and End of Life Care for Older People</i> , Oxford University Press, Oxford, 2011, 304 pp., pbk A£32.95, ISBN 13: 978 0 19 956993 9.. <i>Ageing and Society</i> , 2012, 32, 901-903.	1.7	1
70	Towards a basic drug kit for the dying patient. <i>Current Opinion in Supportive and Palliative Care</i> , 2012, 6, 386-390.	1.3	9
71	Patient safety, satisfaction, and quality of hospital care: cross sectional surveys of nurses and patients in 12 countries in Europe and the United States. <i>BMJ: British Medical Journal</i> , 2012, 344, e1717-e1717.	2.3	1,321
72	An international measure of awareness and beliefs about cancer: development and testing of the ABC. <i>BMJ Open</i> , 2012, 2, e001758.	1.9	90

#	ARTICLE	IF	CITATIONS
73	Considerations in developing and delivering a non-pharmacological intervention for symptom management in lung cancer: the views of health care professionals. <i>Supportive Care in Cancer</i> , 2012, 20, 2565-2574.	2.2	20
74	Considerations in Developing and Delivering a Nonpharmacological Intervention for Symptom Management in Lung Cancer: The Views of Patients and Informal Caregivers. <i>Journal of Pain and Symptom Management</i> , 2012, 44, 831-842.	1.2	41
75	Differences according to socioeconomic status in the management and mortality in men with high risk prostate cancer. <i>European Journal of Cancer</i> , 2012, 48, 75-84.	2.8	52
