#	ARTICLE	IF	CITATIONS
1	Tamil Nadu Pregnancy and Heart Disease Registry (TNPHDR): design and methodology. <i>BMC Pregnancy and Childbirth</i> , 2022, 22, 80.	0.9	1
2	Associations between Dietary Patterns and Cardiometabolic Risk Factors—A Longitudinal Analysis among High-Risk Individuals for Diabetes in Kerala, India. <i>Nutrients</i> , 2022, 14, 662.	1.7	7
3	Prevalence of multimorbidity and associated treatment burden in primary care settings in Kerala: a cross-sectional study in Malappuram District, Kerala, India. <i>Wellcome Open Research</i> , 2022, 7, 67.	0.9	2
4	Structured Lifestyle Modification Interventions Involving Frontline Health Workers for Population-Level Blood Pressure Reduction: Results of a Cluster Randomized Controlled Trial in India (DISHA Study). <i>Journal of the American Heart Association</i> , 2022, 11, e023526.	1.6	1
5	Pulmonary Hypertension Registry of Kerala, India (PRO-KERALA): One-year outcomes. <i>Indian Heart Journal</i> , 2022, 74, 34-39.	0.2	5
6	Determining the frequency and level of task-sharing for hypertension management in LMICs: A systematic review and meta-analysis. <i>EClinicalMedicine</i> , 2022, 47, 101388.	3.2	10
7	Differential impact of antenatal exposure to antiseizure medications on motor and mental development in infants of women with epilepsy. <i>Epileptic Disorders</i> , 2022, 24, 531-540.	0.7	1
8	Five-year mortality and readmission rates in patients with heart failure in India: Results from the Trivandrum heart failure registry. <i>International Journal of Cardiology</i> , 2021, 326, 139-143.	0.8	17
9	Task-sharing interventions for improving control of diabetes in low-income and middle-income countries: a systematic review and meta-analysis. <i>The Lancet Global Health</i> , 2021, 9, e170-e180.	2.9	32
10	A Sustainable Community-Based Model of Noncommunicable Disease Risk Factor Surveillance (Shraddha-Jagrithi Project): Protocol for a Cohort Study. <i>JMIR Research Protocols</i> , 2021, 10, e27299.	0.5	3
11	Secondary prevention of stroke by a primary health care approach: An open-label cluster randomised trial. <i>Journal of Clinical Neuroscience</i> , 2021, 84, 53-59.	0.8	6
12	Assessment of the impact of heart failure on household economic well-being: a protocol. <i>Wellcome Open Research</i> , 2021, 6, 167.	0.9	1
13	Efficacy of a family-based cardiovascular risk reduction intervention in individuals with a family history of premature coronary heart disease in India (PROLIFIC): an open-label, single-centre, cluster randomised controlled trial. <i>The Lancet Global Health</i> , 2021, 9, e1442-e1450.	2.9	16
14	World Heart Federation Roadmap for Hypertension – A 2021 Update. <i>Global Heart</i> , 2021, 16, 63.	0.9	56
15	Malformation risk of new anti-epileptic drugs in women with epilepsy; observational data from the Kerala registry of epilepsy and pregnancy (KREP). <i>Seizure: the Journal of the British Epilepsy Association</i> , 2021, 93, 127-132.	0.9	13
16	The Cardiology Society of India-Kerala Acute Heart Failure Registry: poor adherence to guideline-directed medical therapy. <i>European Heart Journal</i> , 2021, , .	1.0	5
17	Systematic review on the use of patient-held health records in low-income and middle-income countries. <i>BMJ Open</i> , 2021, 11, e046965.	0.8	1
18	Enduring language deficits in children of women with epilepsy and the potential role of intrauterine exposure to antiepileptic drugs. <i>Epilepsia</i> , 2020, 61, 2442-2451.	2.6	12

#	ARTICLE	IF	CITATIONS
19	Using Peer Educators to Deliver a Worksite-Based Lifestyle Program to Reduce Cardiometabolic Risk in India. <i>Current Developments in Nutrition</i> , 2020, 4, nzaa059_060.	0.1	1
20	Early and long-term outcomes of decompensated heart failure patients in a tertiary care centre in India. <i>ESC Heart Failure</i> , 2020, 7, 467-473.	1.4	9
21	Patient, caregiver, and health care provider perspectives on barriers and facilitators to heart failure care in Kerala, India: A qualitative study. <i>Wellcome Open Research</i> , 2020, 5, 250.	0.9	1
22	Family history of cardiovascular disease and risk of premature coronary heart disease: A matched case-control study. <i>Wellcome Open Research</i> , 2020, 5, 70.	0.9	12
23	Role of family support and self-care practices in blood pressure control in individuals with hypertension: results from a cross-sectional study in Kollam District, Kerala. <i>Wellcome Open Research</i> , 2020, 5, 180.	0.9	15
24	Family history of cardiovascular disease and risk of premature coronary heart disease: A matched case-control study. <i>Wellcome Open Research</i> , 2020, 5, 70.	0.9	5
25	Prevalence and patterns of multi-morbidity in the productive age group of 30-69 years: A cross-sectional study in Pathanamthitta District, Kerala.. <i>Wellcome Open Research</i> , 2020, 5, 233.	0.9	9
26	Prevalence and patterns of multi-morbidity in the productive age group of 30-69 years: A cross-sectional study in Pathanamthitta District, Kerala.. <i>Wellcome Open Research</i> , 2020, 5, 233.	0.9	15
27	Patient, caregiver, and health care provider perspectives on barriers and facilitators to heart failure care in Kerala, India: A qualitative study. <i>Wellcome Open Research</i> , 2020, 5, 250.	0.9	1
28	Diastolic Blood Pressure J-Curve Phenomenon in a Tertiary-Care Hypertension Clinic. <i>Hypertension</i> , 2019, 74, 767-775.	1.3	41
29	Task sharing with non-physician health-care workers for management of blood pressure – Authors' reply. <i>The Lancet Global Health</i> , 2019, 7, e1327.	2.9	1
30	Association of trans fatty acids with lipids and other cardiovascular risk factors in an Indian industrial population. <i>BMC Research Notes</i> , 2019, 12, 342.	0.6	1
31	Task sharing with non-physician health-care workers for management of blood pressure in low-income and middle-income countries: a systematic review and meta-analysis. <i>The Lancet Global Health</i> , 2019, 7, e761-e771.	2.9	115
32	Paying for Hemodialysis in Kerala, India: A Description of Household Financial Hardship in the Context of Medical Subsidy. <i>Kidney International Reports</i> , 2019, 4, 390-398.	0.4	28
33	Technology enabled non-physician health workers extending telemedicine to rural homes to control hypertension and diabetes (TETRA): A pre-post demonstration project in Telangana, India. <i>PLoS ONE</i> , 2019, 14, e0211551.	1.1	11
34	The impact of air pollution on deaths, disease burden, and life expectancy across the states of India: the Global Burden of Disease Study 2017. <i>Lancet Planetary Health</i> , The, 2019, 3, e26-e39.	5.1	536
35	Prevalence of risk factors of non-communicable diseases in Kerala, India: results of a cross-sectional study. <i>BMJ Open</i> , 2019, 9, e027880.	0.8	75
36	Perceived facilitators and barriers of enrolment, participation and adherence to a family based structured lifestyle modification interventions in Kerala, India: A qualitative study. <i>Wellcome Open Research</i> , 2019, 4, 131.	0.9	12

#	ARTICLE	IF	CITATIONS
37	Perceived facilitators and barriers of enrolment, participation and adherence to a family based structured lifestyle modification interventions in Kerala, India: A qualitative study. Wellcome Open Research, 2019, 4, 131.	0.9	6
38	Task-sharing interventions for cardiovascular risk reduction and lipid outcomes in low- and middle-income countries: A systematic review and meta-analysis. Journal of Clinical Lipidology, 2018, 12, 626-642.	0.6	17
39	Cardiovascular, respiratory, and related disorders: key messages from Disease Control Priorities, 3rd edition. Lancet, The, 2018, 391, 1224-1236.	6.3	101
40	The changing patterns of cardiovascular diseases and their risk factors in the states of India: the Global Burden of Disease Study 1990â€“2016. The Lancet Global Health, 2018, 6, e1339-e1351.	2.9	283
41	The increasing burden of diabetes and variations among the states of India: the Global Burden of Disease Study 1990â€“2016. The Lancet Global Health, 2018, 6, e1352-e1362.	2.9	323
42	The association between blood pressure and long-term outcomes of patients with ischaemic cardiomyopathy with and without surgical revascularization: an analysis of the STICH trial. European Heart Journal, 2018, 39, 3464-3471.	1.0	14
43	In-Hospital and Three-Year Outcomes of Heart Failure Patients in South India: The Trivandrum Heart Failure Registry. Journal of Cardiac Failure, 2018, 24, 842-848.	0.7	29
44	Pulmonary hypertension registry of Kerala, India (PRO-KERALA) â€” Clinical characteristics and practice patterns. International Journal of Cardiology, 2018, 265, 212-217.	0.8	8
45	Global, Regional, and National Burden of Cardiovascular Diseases for 10 Causes, 1990 to 2015. Journal of the American College of Cardiology, 2017, 70, 1-25.	1.2	2,705
46	One-year mortality outcomes and hospital readmissions of patients admitted with acute heart failure: Data from the Trivandrum Heart Failure Registry in Kerala, India. American Heart Journal, 2017, 189, 193-199.	1.2	31
47	Global, regional, and national age-sex specific mortality for 264 causes of death, 1980â€“2016: a systematic analysis for the Global Burden of Disease Study 2016. Lancet, The, 2017, 390, 1151-1210.	6.3	3,565
48	Global, regional, and national comparative risk assessment of 84 behavioural, environmental and occupational, and metabolic risks or clusters of risks, 1990â€“2016: a systematic analysis for the Global Burden of Disease Study 2016. Lancet, The, 2017, 390, 1345-1422.	6.3	1,879
49	Global, regional, and national burden of neurological disorders during 1990â€“2015: a systematic analysis for the Global Burden of Disease Study 2015. Lancet Neurology, The, 2017, 16, 877-897.	4.9	1,521
50	Measuring progress and projecting attainment on the basis of past trends of the health-related Sustainable Development Goals in 188 countries: an analysis from the Global Burden of Disease Study 2016. Lancet, The, 2017, 390, 1423-1459.	6.3	284
51	Prevalence and incidence of hypertension: Results from a representative cohort of over 16,000 adults in three cities of South Asia. Indian Heart Journal, 2017, 69, 434-441.	0.2	58
52	Chronic disease concordance within Indian households: A cross-sectional study. PLoS Medicine, 2017, 14, e1002395.	3.9	40
53	A PROgramme of Lifestyle Intervention in Families for Cardiovascular risk reduction (PROLIFIC Study): design and rationale of a family based randomized controlled trial in individuals with family history of premature coronary heart disease. BMC Public Health, 2017, 17, 10.	1.2	22
54	Quality Improvement in Cardiovascular Disease Care. , 2017, , 327-348.		1

#	ARTICLE	IF	CITATIONS
55	Management of Hypertension and Dyslipidemia for Primary Prevention of Cardiovascular Disease. , 2017, , 389-404.		9
56	Quality Improvement for Cardiovascular Disease Care in Low- and Middle-Income Countries: A Systematic Review. PLoS ONE, 2016, 11, e0157036.	1.1	39
57	Cardiovascular Diseases in India. Circulation, 2016, 133, 1605-1620.	1.6	544
58	Global, regional, and national levels of maternal mortality, 1990â€“2015: a systematic analysis for the Global Burden of Disease Study 2015. Lancet, The, 2016, 388, 1775-1812.	6.3	740
59	Global, regional, national, and selected subnational levels of stillbirths, neonatal, infant, and under-5 mortality, 1980â€“2015: a systematic analysis for the Global Burden of Disease Study 2015. Lancet, The, 2016, 388, 1725-1774.	6.3	571
60	Estimates of global, regional, and national incidence, prevalence, and mortality of HIV, 1980â€“2015: the Global Burden of Disease Study 2015. Lancet HIV,the, 2016, 3, e361-e387.	2.1	461
61	Task shifting of frontline community health workers for cardiovascular risk reduction: design and rationale of a cluster randomised controlled trial (DISHA study) in India. BMC Public Health, 2016, 16, 264.	1.2	19
62	Global and National Burden of Diseases and Injuries Among Children and Adolescents Between 1990 and 2013. JAMA Pediatrics, 2016, 170, 267.	3.3	479
63	Contrasting mortality risks among subgroups of treated hypertensive patients developing new-onset diabetes. European Heart Journal, 2016, 37, 968-974.	1.0	17
64	Clinical presentation, management, inâ€“hospital and 90â€“day outcomes of heart failure patients in Trivandrum, Kerala, India: the Trivandrum Heart Failure Registry. European Journal of Heart Failure, 2015, 17, 794-800.	2.9	105
65	Association between serum phosphate and calcium, long-term blood pressure, and mortality in treated hypertensive adults. Journal of Hypertension, 2015, 33, 2046-2053.	0.3	10
66	Cardiovascular health promotion in adolescents: a vital investment. Lancet Diabetes and Endocrinology,the, 2015, 3, 493-494.	5.5	0
67	Global, regional, and national disability-adjusted life years (DALYs) for 306 diseases and injuries and healthy life expectancy (HALE) for 188 countries, 1990â€“2013: quantifying the epidemiological transition. Lancet, The, 2015, 386, 2145-2191.	6.3	1,544
68	Abstract 20045: One in Six South Asian Adults Develop Hypertension Over a Two Year Period: Results From the CARRS Cohort Study. Circulation, 2015, 132, .	1.6	0
69	Response to Effect of Serum Chloride on Mortality in Hypertensive Patients. Hypertension, 2014, 63, e15.	1.3	1
70	Family history of premature cardiovascular disease: blood pressure control and long-term mortality outcomes in hypertensive patients. European Heart Journal, 2014, 35, 563-570.	1.0	25
71	PM148 Differences in the presentation, management and outcomes among patients presenting to cardiologists and non-cardiologists in Kerala, India. Results from the Kerala Acute Coronary Syndrome Registry. , 2014, 9, e92.		1
72	Global, regional, and national incidence and mortality for HIV, tuberculosis, and malaria during 1990â€“2013: a systematic analysis for the Global Burden of Disease Study 2013. Lancet, The, 2014, 384, 1005-1070.	6.3	786

#	ARTICLE	IF	CITATIONS
73	Diagnostic accuracy of diffuse reflectance imaging for early detection of pre-malignant and malignant changes in the oral cavity: a feasibility study. <i>BMC Cancer</i> , 2013, 13, 278.	1.1	27
74	Serum Chloride Is an Independent Predictor of Mortality in Hypertensive Patients. <i>Hypertension</i> , 2013, 62, 836-843.	1.3	67
75	Does uric acid qualify as an independent risk factor for cardiovascular mortality?. <i>Clinical Science</i> , 2013, 124, 255-257.	1.8	14
76	Blood Pressure Response to Patterns of Weather Fluctuations and Effect on Mortality. <i>Hypertension</i> , 2013, 62, 190-196.	1.3	47
77	Serum Uric Acid Level, Longitudinal Blood Pressure, Renal Function, and Long-Term Mortality in Treated Hypertensive Patients. <i>Hypertension</i> , 2013, 62, 105-111.	1.3	37
78	Commentary: Poverty and cardiovascular disease in India: Do we need more evidence for action?. <i>International Journal of Epidemiology</i> , 2013, 42, 1431-1435.	0.9	27
79	Authors' Response to: Mortality estimates for South East Asia, and INDEPTH mortality surveillance: necessary, but not sufficient. <i>International Journal of Epidemiology</i> , 2013, 42, 1200-1201.	0.9	0
80	Long-Term and Ultra Long-Term Blood Pressure Variability During Follow-Up and Mortality in 14 522 Patients With Hypertension. <i>Hypertension</i> , 2013, 62, 698-705.	1.3	81
81	Association between Gender, Process of Care Measures, and Outcomes in ACS in India: Results from the Detection and Management of Coronary Heart Disease (DEMAT) Registry. <i>PLoS ONE</i> , 2013, 8, e62061.	1.1	32
82	Serum Omega-6/Omega-3 Ratio and Risk Markers for Cardiovascular Disease in an Industrial Population of Delhi. <i>Food and Nutrition Sciences (Print)</i> , 2013, 04, 94-97.	0.2	11
83	Hematocrit Predicts Long-Term Mortality in a Nonlinear and Sex-Specific Manner in Hypertensive Adults. <i>Hypertension</i> , 2012, 60, 631-638.	1.3	34
84	Should Your Family History of Coronary Heart Disease Scare You?. <i>Mount Sinai Journal of Medicine</i> , 2012, 79, 721-732.	1.9	24
85	Tobacco use and nicotine dependency in a cross-sectional representative sample of 18,018 individuals in Andaman and Nicobar Islands, India. <i>BMC Public Health</i> , 2012, 12, 515.	1.2	35
86	Status of epidemiology in the WHO South-East Asia region: burden of disease, determinants of health and epidemiological research, workforce and training capacity. <i>International Journal of Epidemiology</i> , 2012, 41, 847-860.	0.9	62
87	Impact of comprehensive cardiovascular risk reduction programme on risk factor clustering associated with elevated blood pressure in an Indian industrial population. <i>Indian Journal of Medical Research</i> , 2012, 135, 485-93.	0.4	12
88	Socio-economic status and cardiovascular risk among Indians. <i>Preventive Medicine</i> , 2011, 52, 471-472.	1.6	4
89	Association of high sensitive C-reactive protein (hsCRP) with established cardiovascular risk factors in the Indian population. <i>Nutrition and Metabolism</i> , 2011, 8, 19.	1.3	17
90	Distribution of 10-year and lifetime predicted risk for cardiovascular disease in the Indian Sentinel Surveillance Study population (cross-sectional survey results). <i>BMJ Open</i> , 2011, 1, e000068-e000068.	0.8	27

#	ARTICLE	IF	CITATIONS
91	Implications of discoveries from genome-wide association studies in current cardiovascular practice. World Journal of Cardiology, 2011, 3, 230.	0.5	62
92	Social determinants of cardiovascular disease outcomes in Indians. Indian Journal of Medical Research, 2010, 132, 617-22.	0.4	35
93	Impact of a Worksite Intervention Program on Cardiovascular Risk Factors. Journal of the American College of Cardiology, 2009, 53, 1718-1728.	1.2	69
94	Independent and interactive effects of plant sterols and fish oiln-3 long-chain polyunsaturated fatty acids on the plasma lipid profile of mildly hyperlipidaemic Indian adults. British Journal of Nutrition, 2009, 102, 722-732.	1.2	44
95	Differences in the prevalence of metabolic syndrome in urban and rural India: a problem of urbanization. Chronic Illness, 2007, 3, 8-19.	0.6	64
96	Educational status and cardiovascular risk profile in Indians. Proceedings of the National Academy of Sciences of the United States of America, 2007, 104, 16263-16268.	3.3	163
97	Assessment of the impact of heart failure on household economic well-being: a protocol. Wellcome Open Research, 0, 6, 167.	0.9	0
98	Determinants of very low birth weight in India: The National Family Health Survey â€“ 4. Wellcome Open Research, 0, 7, 20.	0.9	1
99	Prevalence of multimorbidity and associated treatment burden in primary care settings in Kerala: a cross-sectional study in Malappuram District, Kerala, India. Wellcome Open Research, 0, 7, 67.	0.9	2
100	Determinants of very low birth weight in India: The National Family Health Survey â€“ 4. Wellcome Open Research, 0, 7, 20.	0.9	1
