

Antonio Pelliccia

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9179910/antonio-pelliccia-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
142	Cardiovascular pre-participation screening of young competitive athletes for prevention of sudden death: proposal for a common European protocol. Consensus Statement of the Study Group of Sport Cardiology of the Working Group of Cardiac Rehabilitation and Exercise Physiology and the Working Group of Myocardial and Pericardial Diseases of the European Society of Cardiology.	9.5	853
141	The upper limit of physiologic cardiac hypertrophy in highly trained elite athletes. <i>New England Journal of Medicine</i> , 1991 , 324, 295-301	59.2	737
140	Recommendations for competitive sports participation in athletes with cardiovascular disease: a consensus document from the Study Group of Sports Cardiology of the Working Group of Cardiac Rehabilitation and Exercise Physiology and the Working Group of Myocardial and Pericardial Diseases of the European Society of Cardiology. <i>European Heart Journal</i> , 2007 , 28, 1428-45	9.5	675
139	Exercise and acute cardiovascular events placing the risks into perspective: a scientific statement from the American Heart Association Council on Nutrition, Physical Activity, and Metabolism and the Council on Clinical Cardiology. <i>Circulation</i> , 2007 , 115, 2358-68	16.7	640
138	Recommendations for interpretation of 12-lead electrocardiogram in the athlete. <i>European Heart Journal</i> , 2010 , 31, 243-59	9.5	581
137	The heart of trained athletes: cardiac remodeling and the risks of sports, including sudden death. <i>Circulation</i> , 2006 , 114, 1633-44	16.7	502
136	Clinical significance of abnormal electrocardiographic patterns in trained athletes. <i>Circulation</i> , 2000 , 102, 278-84	16.7	411
135	Physiologic left ventricular cavity dilatation in elite athletes. <i>Annals of Internal Medicine</i> , 1999 , 130, 23-38		358
134	Prevalence and clinical significance of left atrial remodeling in competitive athletes. <i>Journal of the American College of Cardiology</i> , 2005 , 46, 690-6	15.1	321
133	Morphology of the "athlete's heart" assessed by echocardiography in 947 elite athletes representing 27 sports. <i>American Journal of Cardiology</i> , 1994 , 74, 802-6	3	292
132	2020 ESC Guidelines on sports cardiology and exercise in patients with cardiovascular disease. <i>European Heart Journal</i> , 2021 , 42, 17-96	9.5	264
131	Cardiac disease in young trained athletes. Insights into methods for distinguishing athlete's heart from structural heart disease, with particular emphasis on hypertrophic cardiomyopathy. <i>Circulation</i> , 1995 , 91, 1596-601	16.7	252
130	Remodeling of left ventricular hypertrophy in elite athletes after long-term deconditioning. <i>Circulation</i> , 2002 , 105, 944-9	16.7	246
129	Outcomes in athletes with marked ECG repolarization abnormalities. <i>New England Journal of Medicine</i> , 2008 , 358, 152-61	59.2	228
128	Long-term clinical significance of frequent and complex ventricular tachyarrhythmias in trained athletes. <i>Journal of the American College of Cardiology</i> , 2002 , 40, 446-52	15.1	220
127	The International Olympic Committee (IOC) Consensus Statement on periodic health evaluation of elite athletes March 2009. <i>British Journal of Sports Medicine</i> , 2009 , 43, 631-43	10.3	210
126	Prevalence of abnormal electrocardiograms in a large, unselected population undergoing pre-participation cardiovascular screening. <i>European Heart Journal</i> , 2007 , 28, 2006-10	9.5	210

125	Athlete's Heart in Women. <i>JAMA - Journal of the American Medical Association</i> , 1996 , 276, 211	27.4	203
124	Bethesda Conference #36 and the European Society of Cardiology Consensus Recommendations revisited a comparison of U.S. and European criteria for eligibility and disqualification of competitive athletes with cardiovascular abnormalities. <i>Journal of the American College of Cardiology</i> , 2008 , 52, 1990-6	15.1	197
123	Pre-participation screening of young competitive athletes for prevention of sudden cardiac death. <i>Journal of the American College of Cardiology</i> , 2008 , 52, 1981-9	15.1	195
122	Recommendations for participation in competitive and leisure time sport in athletes with cardiomyopathies, myocarditis, and pericarditis: position statement of the Sport Cardiology Section of the European Association of Preventive Cardiology (EAPC). <i>European Heart Journal</i> , 2019 , 40, 19-33	9.5	174
121	International Recommendations for Electrocardiographic Interpretation in Athletes. <i>Journal of the American College of Cardiology</i> , 2017 , 69, 1057-1075	15.1	171
120	Recommendations for participation in leisure-time physical activity and competitive sports of patients with arrhythmias and potentially arrhythmogenic conditions. Part II: ventricular arrhythmias, channelopathies and implantable defibrillators. <i>European Journal of Cardiovascular</i>		169
119	Recommendations for preparticipation screening and the assessment of cardiovascular disease in masters athletes: an advisory for healthcare professionals from the working groups of the World Heart Federation, the International Federation of Sports Medicine, and the American Heart Association Committee on Exercise, Cardiac Rehabilitation, and Prevention. <i>Circulation</i> , 2001 , 103, 327-34	16.7	168
118	Interpretation of the electrocardiogram of young athletes. <i>Circulation</i> , 2011 , 124, 746-57	16.7	163
117	International criteria for electrocardiographic interpretation in athletes: Consensus statement. <i>British Journal of Sports Medicine</i> , 2017 , 51, 704-731	10.3	159
116	Risk of sports: do we need a pre-participation screening for competitive and leisure athletes?. <i>European Heart Journal</i> , 2011 , 32, 934-44	9.5	140
115	International recommendations for electrocardiographic interpretation in athletes. <i>European Heart Journal</i> , 2018 , 39, 1466-1480	9.5	137
114	Cardiovascular evaluation of middle-aged/ senior individuals engaged in leisure-time sport activities: position stand from the sections of exercise physiology and sports cardiology of the European Association of Cardiovascular Prevention and Rehabilitation. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2011 , 18, 116-20		137
113	Evidence for efficacy of the Italian national pre-participation screening programme for identification of hypertrophic cardiomyopathy in competitive athletes. <i>European Heart Journal</i> , 2006 , 27, 2196-200	9.5	134
112	Nonischemic Left Ventricular Scar as a Substrate of Life-Threatening Ventricular Arrhythmias and Sudden Cardiac Death in Competitive Athletes. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2016 , 9,	6.4	133
111	Recommendations for participation in competitive sport and leisure-time physical activity in individuals with cardiomyopathies, myocarditis and pericarditis. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2006 , 13, 876-85		122
110	Prospective echocardiographic screening for coronary artery anomalies in 1,360 elite competitive athletes. <i>American Journal of Cardiology</i> , 1993 , 72, 978-9	3	121
109	European Association of Preventive Cardiology (EAPC) and European Association of Cardiovascular Imaging (EACVI) joint position statement: recommendations for the indication and interpretation of cardiovascular imaging in the evaluation of the athlete's heart. <i>European Heart Journal</i> , 2018 , 39, 1949-1969	9.5	118
108	Pre-participation cardiovascular evaluation for athletic participants to prevent sudden death: Position paper from the EHRA and the EACPR, branches of the ESC. Endorsed by APHRS, HRS, and SOLAECE. <i>European Journal of Preventive Cardiology</i> , 2017 , 24, 41-69	3.9	110

107	Arrhythmogenic right ventricular cardiomyopathy: evaluation of the current diagnostic criteria and differential diagnosis. <i>European Heart Journal</i> , 2020 , 41, 1414-1429	9.5	110
106	Long-term clinical consequences of intense, uninterrupted endurance training in olympic athletes. <i>Journal of the American College of Cardiology</i> , 2010 , 55, 1619-25	15.1	109
105	Impact of physical deconditioning on ventricular tachyarrhythmias in trained athletes. <i>Journal of the American College of Cardiology</i> , 2004 , 44, 1053-8	15.1	108
104	Normal electrocardiographic findings: recognising physiological adaptations in athletes. <i>British Journal of Sports Medicine</i> , 2013 , 47, 125-36	10.3	106
103	The athlete's heart in adolescent Africans: an electrocardiographic and echocardiographic study. <i>Journal of the American College of Cardiology</i> , 2012 , 59, 1029-36	15.1	101
102	Differentiating left ventricular hypertrophy in athletes from that in patients with hypertrophic cardiomyopathy. <i>American Journal of Cardiology</i> , 2014 , 114, 1383-9	3	97
101	Abnormal electrocardiographic findings in athletes: recognising changes suggestive of cardiomyopathy. <i>British Journal of Sports Medicine</i> , 2013 , 47, 137-52	10.3	97
100	Diagnosis of arrhythmogenic cardiomyopathy: The Padua criteria. <i>International Journal of Cardiology</i> , 2020 , 319, 106-114	3.2	89
99	Challenges in secondary prevention after acute myocardial infarction: A call for action. <i>European Journal of Preventive Cardiology</i> , 2016 , 23, 1994-2006	3.9	88
98	Assessment of left ventricular hypertrophy in a trained athlete: differential diagnosis of physiologic athlete's heart from pathologic hypertrophy. <i>Progress in Cardiovascular Diseases</i> , 2012 , 54, 387-96	8.5	87
97	Prevalence and clinical significance of aortic root dilation in highly trained competitive athletes. <i>Circulation</i> , 2010 , 122, 698-706, 3 p following 706	16.7	86
96	Absence of left ventricular wall thickening in athletes engaged in intense power training. <i>American Journal of Cardiology</i> , 1993 , 72, 1048-54	3	85
95	Abnormal electrocardiographic findings in athletes: recognising changes suggestive of primary electrical disease. <i>British Journal of Sports Medicine</i> , 2013 , 47, 153-67	10.3	84
94	J wave, QRS slurring, and ST elevation in athletes with cardiac arrest in the absence of heart disease: marker of risk or innocent bystander?. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2010 , 3, 305-11	6.4	75
93	RV Remodeling in Olympic Athletes. <i>JACC: Cardiovascular Imaging</i> , 2017 , 10, 385-393	8.4	70
92	Recommendations for participation in leisure-time physical activity and competitive sports in patients with arrhythmias and potentially arrhythmogenic conditions Part I: Supraventricular arrhythmias and pacemakers. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2006 , 13, 475-84		67
91	The International Olympic Committee (IOC) consensus statement on periodic health evaluation of elite athletes, March 2009. <i>Clinical Journal of Sport Medicine</i> , 2009 , 19, 347-65	3.2	63
90	Patterns of left ventricular longitudinal strain and strain rate in Olympic athletes. <i>Journal of the American Society of Echocardiography</i> , 2015 , 28, 245-53	5.8	62

89	Morphological and functional adaptation of left and right atria induced by training in highly trained female athletes. <i>Circulation: Cardiovascular Imaging</i> , 2014 , 7, 222-9	3.9	60
88	Recommendations for participation in leisure time or competitive sports in athletes-patients with coronary artery disease: a position statement from the Sports Cardiology Section of the European Association of Preventive Cardiology (EAPC). <i>European Heart Journal</i> , 2019 , 40, 13-18	9.5	59
87	Electrocardiographic anterior T-wave inversion in athletes of different ethnicities: differential diagnosis between athlete's heart and cardiomyopathy. <i>European Heart Journal</i> , 2016 , 37, 2515-27	9.5	57
86	Novel echocardiographic techniques for the evaluation of athlete's heart: A focus on speckle-tracking echocardiography. <i>European Journal of Preventive Cardiology</i> , 2016 , 23, 437-46	3.9	53
85	Right ventricular remodelling induced by exercise training in competitive athletes. <i>European Heart Journal Cardiovascular Imaging</i> , 2016 , 17, 301-7	4.1	44
84	Clinical significance of exercise-induced ventricular tachyarrhythmias in trained athletes without cardiovascular abnormalities. <i>Heart Rhythm</i> , 2015 , 12, 78-85	6.7	44
83	Patterns of ventricular tachyarrhythmias associated with training, deconditioning and retraining in elite athletes without cardiovascular abnormalities. <i>American Journal of Cardiology</i> , 2011 , 107, 697-703	3	44
82	Prospective identification by two-dimensional echocardiography of anomalous origin of the left main coronary artery from the right sinus of Valsalva. <i>American Journal of Cardiology</i> , 1991 , 68, 140-2	3	44
81	Are Olympic athletes free from cardiovascular diseases? Systematic investigation in 2352 participants from Athens 2004 to Sochi 2014. <i>British Journal of Sports Medicine</i> , 2017 , 51, 238-243	10.3	42
80	Patterns of left ventricular diastolic function in Olympic athletes. <i>Journal of the American Society of Echocardiography</i> , 2015 , 28, 236-44	5.8	42
79	Strategies for the prevention of sudden cardiac death during sports. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2011 , 18, 197-208		42
78	The athlete's heart: remodeling, electrocardiogram and preparticipation screening. <i>Cardiology in Review</i> , 2002 , 10, 85-90	3.2	42
77	Relation between training-induced left ventricular hypertrophy and risk for ventricular tachyarrhythmias in elite athletes. <i>American Journal of Cardiology</i> , 2008 , 101, 1792-5	3	41
76	Recommendations for participation in competitive sports of athletes with arterial hypertension: a position statement from the sports cardiology section of the European Association of Preventive Cardiology (EAPC). <i>European Heart Journal</i> , 2018 , 39, 3664-3671	9.5	39
75	Normative Reference Values of Right Heart in Competitive Athletes: A Systematic Review and Meta-Analysis. <i>Journal of the American Society of Echocardiography</i> , 2017 , 30, 845-858.e2	5.8	39
74	Aortic root dilatation in athletic population. <i>Progress in Cardiovascular Diseases</i> , 2012 , 54, 432-7	8.5	38
73	Training-induced right ventricular remodelling in pre-adolescent endurance athletes: The athlete's heart in children. <i>International Journal of Cardiology</i> , 2017 , 236, 270-275	3.2	37
72	Benign clinical significance of J-wave pattern (early repolarization) in highly trained athletes. <i>Heart Rhythm</i> , 2014 , 11, 1974-82	6.7	37

71	Pre-participation cardiovascular evaluation for athletic participants to prevent sudden death: Position paper from the EHRA and the EACPR, branches of the ESC. Endorsed by APHRS, HRS, and SOLAECE. <i>Europace</i> , 2017 , 19, 139-163	3.9	36
70	Italian cardiological guidelines for sports eligibility in athletes with heart disease: part 1. <i>Journal of Cardiovascular Medicine</i> , 2013 , 14, 477-99	1.9	35
69	Upper normal values of blood pressure response to exercise in Olympic athletes. <i>American Heart Journal</i> , 2016 , 177, 120-8	4.9	35
68	High blood pressure response to exercise predicts future development of hypertension in young athletes. <i>European Heart Journal</i> , 2019 , 40, 62-68	9.5	35
67	Does Sport Participation Worsen the Clinical Course of Hypertrophic Cardiomyopathy? Clinical Outcome of Hypertrophic Cardiomyopathy in Athletes. <i>Circulation</i> , 2018 , 137, 531-533	16.7	33
66	Differential diagnosis between early repolarization of athlete's heart and coved-type Brugada electrocardiogram. <i>American Journal of Cardiology</i> , 2015 , 115, 529-32	3	30
65	Recommendations for participation in competitive sport in adolescent and adult athletes with Congenital Heart Disease (CHD): position statement of the Sports Cardiology & Exercise Section of the European Association of Preventive Cardiology (EAPC), the European Society of Cardiology (ESC) Working Group on Adult Congenital Heart Disease and the Sports Cardiology, Physical	9.5	28
64	Prevalence and Management of Systemic Hypertension in Athletes. <i>American Journal of Cardiology</i> , 2017 , 119, 1616-1622 <i>European Heart Journal</i> , 2020 , 41, 4191-4199	3	27
63	Position paper: proposal for a core curriculum for a European Sports Cardiology qualification. <i>European Journal of Preventive Cardiology</i> , 2013 , 20, 889-903	3.9	27
62	Accuracy of the ECG for differential diagnosis between hypertrophic cardiomyopathy and athlete's heart: comparison between the European Society of Cardiology (2010) and International (2017) criteria. <i>British Journal of Sports Medicine</i> , 2018 , 52, 667-673	10.3	25
61	Dynamic changes in left ventricular mass and in fat-free mass in top-level athletes during the competitive season. <i>European Journal of Preventive Cardiology</i> , 2015 , 22, 127-34	3.9	23
60	Effects of training on LV strain in competitive athletes. <i>Heart</i> , 2015 , 101, 1834-9	5.1	21
59	The electrocardiogram in the diagnosis and management of patients with hypertrophic cardiomyopathy. <i>Heart Rhythm</i> , 2020 , 17, 142-151	6.7	21
58	Alterations in echocardiographic and electrocardiographic features in Japanese professional soccer players: comparison to African-Caucasian ethnicities. <i>European Journal of Preventive Cardiology</i> , 2013 , 20, 880-8	3.9	20
57	Exercise and sports participation in patients with thoracic aortic disease: a review. <i>Expert Review of Cardiovascular Therapy</i> , 2019 , 17, 251-266	2.5	19
56	Training-induced dynamic changes in left atrial reservoir, conduit, and active volumes in professional soccer players. <i>European Journal of Applied Physiology</i> , 2015 , 115, 1715-23	3.4	19
55	Increased left atrial size is associated with reduced atrial stiffness and preserved reservoir function in athlete's heart. <i>International Journal of Cardiovascular Imaging</i> , 2015 , 31, 699-705	2.5	18
54	Left ventricular systolic performance is improved in elite athletes. <i>European Journal of Echocardiography</i> , 2011 , 12, 514-9		18

53	Can electrocardiographic screening prevent sudden death in athletes? Yes. <i>BMJ, The</i> , 2010 , 341, c4923	5.9	18
52	Cardiovascular risk profile in Olympic athletes: an unexpected and underestimated risk scenario. <i>British Journal of Sports Medicine</i> , 2019 , 53, 37-42	10.3	18
51	Recommendations for participation in leisure-time physical activity and competitive sports of patients with arrhythmias and potentially arrhythmogenic conditions. Part 2: ventricular arrhythmias, channelopathies, and implantable defibrillators. <i>Europace</i> , 2021 , 23, 147-148	3.9	18
50	The preparticipation cardiovascular screening of competitive athletes: is it time to change the customary clinical practice?. <i>European Heart Journal</i> , 2007 , 28, 2703-5	9.5	17
49	The genetics of left ventricular remodeling in competitive athletes. <i>Journal of Cardiovascular Medicine</i> , 2006 , 7, 267-70	1.9	17
48	Challenges in secondary prevention after acute myocardial infarction: A call for action. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2017 , 6, 299-310	4.3	16
47	Yield and clinical significance of genetic screening in elite and amateur athletes. <i>European Journal of Preventive Cardiology</i> , 2020 , 2047487320934265	3.9	16
46	Prevalence and Clinical Outcome of Athletes With Mitral Valve Prolapse. <i>Circulation</i> , 2018 , 137, 2080-2087	3.7	16
45	Italian cardiological guidelines for sports eligibility in athletes with heart disease: part 2. <i>Journal of Cardiovascular Medicine</i> , 2013 , 14, 500-15	1.9	16
44	The "Athlete's Heart": relation to gender and race. <i>Cardiology Clinics</i> , 2007 , 25, 383-9, v	2.5	14
43	Athlete's heart electrocardiogram mimicking hypertrophic cardiomyopathy. <i>Current Cardiology Reports</i> , 2001 , 3, 147-51	4.2	14
42	Cardiovascular diseases in Paralympic athletes. <i>British Journal of Sports Medicine</i> , 2016 , 50, 1075-80	10.3	14
41	Recommendations for participation in leisure-time physical activity and competitive sports in patients with arrhythmias and potentially arrhythmogenic conditions: Part 1: Supraventricular arrhythmias. A position statement of the Section of Sports Cardiology and Exercise from the European Association of Preventive Cardiology (EAPC) and the European Heart Rhythm Association	3.9	12
40	Screening athletes for cardiovascular disease in Africa: a challenging experience. <i>British Journal of Sports Medicine</i> , 2013 , 47, 579-84	10.3	12
39	Pre-participation health evaluation in adolescent athletes competing at Youth Olympic Games: proposal for a tailored protocol. <i>British Journal of Sports Medicine</i> , 2019 , 53, 1111-1116	10.3	12
38	Global left ventricular shape is not altered as a consequence of physiologic remodeling in highly trained athletes. <i>American Journal of Cardiology</i> , 2000 , 86, 700-2, A9	3	11
37	Challenges in secondary prevention after acute myocardial infarction: A call for action. <i>European Journal of Cardiovascular Nursing</i> , 2017 , 16, 369-380	3.3	9
36	Exercise prescription for the prevention and treatment of cardiovascular diseases: part II. <i>Journal of Cardiovascular Medicine</i> , 2008 , 9, 641-52	1.9	9

35	Brief recommendations for participation in competitive sports of athletes with arterial hypertension: Summary of a Position Statement from the Sports Cardiology Section of the European Association of Preventive Cardiology (EAPC). <i>European Journal of Preventive Cardiology</i> , 2019 , 26, 1549-1555	3.9	8
34	Cardiac remodeling in women athletes and implications for cardiovascular screening. <i>Medicine and Science in Sports and Exercise</i> , 2005 , 37, 1436-9	1.2	8
33	Clinical outcomes in adult athletes with hypertrophic cardiomyopathy: a 7-year follow-up study. <i>British Journal of Sports Medicine</i> , 2020 , 54, 1008-1012	10.3	7
32	Interpretation of T-wave inversion in physiological and pathological conditions: Current state and future perspectives. <i>Clinical Cardiology</i> , 2020 , 43, 827-833	3.3	7
31	Sudden death and physical exercise: timely diagnosis of congenital anomalies of the coronary arteries with the new 320-slide multi-detector computed tomography. <i>Internal and Emergency Medicine</i> , 2013 , 8 Suppl 1, S35-9	3.7	7
30	Brief recommendations for participation in leisure time or competitive sports in athletes-patients with coronary artery disease: Summary of a Position Statement from the Sports Cardiology Section of the European Association of Preventive Cardiology (EAPC). <i>European Journal of Preventive Cardiology</i> , 2020 , 27, 750-754	3.9	6
29	Athletes with abnormal repolarization pattern and structurally normal heart can participate in competitive sport a lifelong experience. <i>Journal of the American College of Cardiology</i> , 2011 , 58, 883-4	15.1	5
28	Cardiovascular effects of doping substances, commonly prescribed medications and ergogenic aids in relation to sports: a position statement of the sport cardiology and exercise nucleus of the European Association of Preventive Cardiology.. <i>European Journal of Preventive Cardiology</i> , 2022 ,	3.9	5
27	Female Athlete's Heart: Sex Effects on Electrical and Structural Remodeling. <i>Circulation: Cardiovascular Imaging</i> , 2020 , 13, e011587	3.9	5
26	Clinical significance of J-wave in elite athletes. <i>Journal of Electrocardiology</i> , 2015 , 48, 385-9	1.4	4
