

Angel Nadal

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9181771/angel-nadal-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
137	EDC-2: The Endocrine Society's Second Scientific Statement on Endocrine-Disrupting Chemicals. <i>Endocrine Reviews</i> , 2015 , 36, E1-E150	27.2	1028
136	In vitro molecular mechanisms of bisphenol A action. <i>Reproductive Toxicology</i> , 2007 , 24, 178-98	3.4	695
135	Metabolism disrupting chemicals and metabolic disorders. <i>Reproductive Toxicology</i> , 2017 , 68, 3-33	3.4	500
134	The estrogenic effect of bisphenol A disrupts pancreatic beta-cell function in vivo and induces insulin resistance. <i>Environmental Health Perspectives</i> , 2006 , 114, 106-12	8.4	432
133	Executive Summary to EDC-2: The Endocrine Society's Second Scientific Statement on Endocrine-Disrupting Chemicals. <i>Endocrine Reviews</i> , 2015 , 36, 593-602	27.2	359
132	Bisphenol A exposure during pregnancy disrupts glucose homeostasis in mothers and adult male offspring. <i>Environmental Health Perspectives</i> , 2010 , 118, 1243-50	8.4	329
131	Nongenomic actions of estrogens and xenoestrogens by binding at a plasma membrane receptor unrelated to estrogen receptor alpha and estrogen receptor beta. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2000 , 97, 11603-8	11.5	309
130	Pancreatic insulin content regulation by the estrogen receptor ER alpha. <i>PLoS ONE</i> , 2008 , 3, e2069	3.7	287
129	Widespread synchronous [Ca ²⁺] _i oscillations due to bursting electrical activity in single pancreatic islets. <i>Pflügers Archiv European Journal of Physiology</i> , 1991 , 418, 417-22	4.6	284
128	Marine litter plastics and microplastics and their toxic chemicals components: the need for urgent preventive measures. <i>Environmental Sciences Europe</i> , 2018 , 30, 13	5	271
127	Endocrine disruptors in the etiology of type 2 diabetes mellitus. <i>Nature Reviews Endocrinology</i> , 2011 , 7, 346-53	15.2	270
126	Physiology of the pancreatic alpha-cell and glucagon secretion: role in glucose homeostasis and diabetes. <i>Journal of Endocrinology</i> , 2008 , 199, 5-19	4.7	259
125	Bisphenol-A acts as a potent estrogen via non-classical estrogen triggered pathways. <i>Molecular and Cellular Endocrinology</i> , 2012 , 355, 201-7	4.4	223
124	Cannabinoid receptors regulate Ca ²⁺ signals and insulin secretion in pancreatic beta-cell. <i>Cell Calcium</i> , 2006 , 39, 155-62	4	220
123	The pancreatic beta-cell as a target of estrogens and xenoestrogens: Implications for blood glucose homeostasis and diabetes. <i>Molecular and Cellular Endocrinology</i> , 2009 , 304, 63-8	4.4	215
122	Why public health agencies cannot depend on good laboratory practices as a criterion for selecting data: the case of bisphenol A. <i>Environmental Health Perspectives</i> , 2009 , 117, 309-15	8.4	212
121	Low doses of bisphenol A and diethylstilbestrol impair Ca ²⁺ signals in pancreatic alpha-cells through a nonclassical membrane estrogen receptor within intact islets of Langerhans. <i>Environmental Health Perspectives</i> , 2005 , 113, 969-77	8.4	211

120	Low doses of the endocrine disruptor bisphenol-A and the native hormone 17beta-estradiol rapidly activate transcription factor CREB. <i>FASEB Journal</i> , 2002 , 16, 1671-3	0.9	179
119	Rapid insulinotropic effect of 17beta-estradiol via a plasma membrane receptor. <i>FASEB Journal</i> , 1998 , 12, 1341-8	0.9	178
118	Genistein affects adipose tissue deposition in a dose-dependent and gender-specific manner. <i>Endocrinology</i> , 2006 , 147, 5740-51	4.8	161
117	Presence of functional cannabinoid receptors in human endocrine pancreas. <i>Diabetologia</i> , 2008 , 51, 476-83	3.3	153
116	Homologous and heterologous asynchronicity between identified alpha-, beta- and delta-cells within intact islets of Langerhans in the mouse. <i>Journal of Physiology</i> , 1999 , 517 (Pt 1), 85-93	3.9	151
115	Rapid insulinotropic action of low doses of bisphenol-A on mouse and human islets of Langerhans: role of estrogen receptor α . <i>PLoS ONE</i> , 2012 , 7, e31109	3.7	147
114	Bisphenol-A disruption of the endocrine pancreas and blood glucose homeostasis. <i>Journal of Developmental and Physical Disabilities</i> , 2008 , 31, 194-200		142
113	Short-term treatment with bisphenol-A leads to metabolic abnormalities in adult male mice. <i>PLoS ONE</i> , 2012 , 7, e33814	3.7	121
112	Glucocorticoid treatment and endocrine pancreas function: implications for glucose homeostasis, insulin resistance and diabetes. <i>Journal of Endocrinology</i> , 2014 , 223, R49-62	4.7	120
111	Exposure to bisphenol-A during pregnancy partially mimics the effects of a high-fat diet altering glucose homeostasis and gene expression in adult male mice. <i>PLoS ONE</i> , 2014 , 9, e100214	3.7	117
110	The role of estrogen receptors in the control of energy and glucose homeostasis. <i>Steroids</i> , 2008 , 73, 874-88	2.8	115
109	A nonclassical estrogen membrane receptor triggers rapid differential actions in the endocrine pancreas. <i>Molecular Endocrinology</i> , 2002 , 16, 497-505		115
108	Plasma albumin is a potent trigger of calcium signals and DNA synthesis in astrocytes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1995 , 92, 1426-30	11.5	110
107	Activation of L-arginine transport (system γ^+) and nitric oxide synthase by elevated glucose and insulin in human endothelial cells. <i>Journal of Physiology</i> , 1996 , 490 (Pt 3), 775-81	3.9	110
106	Endocrine-disrupting chemicals and the regulation of energy balance. <i>Nature Reviews Endocrinology</i> , 2017 , 13, 536-546	15.2	108
105	Junctional communication of pancreatic beta cells contributes to the control of insulin secretion and glucose tolerance. <i>Journal of Clinical Investigation</i> , 2000 , 106, 235-43	15.9	105
104	Role of leptin in the pancreatic β cell: effects and signaling pathways. <i>Journal of Molecular Endocrinology</i> , 2012 , 49, R9-17	4.5	95
103	Bisphenol-A treatment during pregnancy in mice: a new window of susceptibility for the development of diabetes in mothers later in life. <i>Endocrinology</i> , 2015 , 156, 1659-70	4.8	93

102	The role of oestrogens in the adaptation of islets to insulin resistance. <i>Journal of Physiology</i> , 2009 , 587, 5031-7	3.9	92
101	A role for the putative cannabinoid receptor GPR55 in the islets of Langerhans. <i>Journal of Endocrinology</i> , 2011 , 211, 177-85	4.7	90
100	Role of cannabinoid CB2 receptors in glucose homeostasis in rats. <i>European Journal of Pharmacology</i> , 2007 , 565, 207-11	5.3	89
99	Different effects of tolbutamide and diazoxide in alpha, beta-, and delta-cells within intact islets of Langerhans. <i>Diabetes</i> , 1999 , 48, 2390-7	0.9	86
98	Activation of cannabinoid CB1 receptors induces glucose intolerance in rats. <i>European Journal of Pharmacology</i> , 2006 , 531, 282-4	5.3	81
97	Non-genomic actions of 17beta-oestradiol in mouse pancreatic beta-cells are mediated by a cGMP-dependent protein kinase. <i>Journal of Physiology</i> , 1999 , 521 Pt 2, 397-407	3.9	81
96	Glucose induces opposite intracellular Ca ²⁺ concentration oscillatory patterns in identified alpha- and beta-cells within intact human islets of Langerhans. <i>Diabetes</i> , 2006 , 55, 2463-9	0.9	80
95	Rapid regulation of K(ATP) channel activity by 17{beta}-estradiol in pancreatic {beta}-cells involves the estrogen receptor {beta} and the atrial natriuretic peptide receptor. <i>Molecular Endocrinology</i> , 2009 , 23, 1973-82		78
94	OR23-3 Differential Effects of Chronic Exposure to Bisphenol-A on Ion Channel Activity and Expression in Mouse Pancreatic Beta-Cells. <i>Journal of the Endocrine Society</i> , 2019 , 3,	0.4	78
93	The clock gene Rev-erb β regulates pancreatic β cell function: modulation by leptin and high-fat diet. <i>Endocrinology</i> , 2012 , 153, 592-601	4.8	76
92	Nuclear KATP channels trigger nuclear Ca(2+) transients that modulate nuclear function. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2002 , 99, 9544-9	11.5	73
91	Bisphenol-A: a new diabetogenic factor?. <i>Hormones</i> , 2010 , 9, 118-26	3.1	68
90	Flawed experimental design reveals the need for guidelines requiring appropriate positive controls in endocrine disruption research. <i>Toxicological Sciences</i> , 2010 , 115, 612-3	4.4	64
89	Inhibitory effects of leptin on pancreatic alpha-cell function. <i>Diabetes</i> , 2009 , 58, 1616-24	0.9	60
88	Estrogen and xenoestrogen actions on endocrine pancreas: from ion channel modulation to activation of nuclear function. <i>Steroids</i> , 2004 , 69, 531-6	2.8	56
87	Glucocorticoids in vivo induce both insulin hypersecretion and enhanced glucose sensitivity of stimulus-secretion coupling in isolated rat islets. <i>Endocrinology</i> , 2010 , 151, 85-95	4.8	55
86	The relationship between glucose-induced K ⁺ ATP channel closure and the rise in [Ca ²⁺] _i in single mouse pancreatic beta-cells. <i>Journal of Physiology</i> , 1992 , 455, 173-86	3.9	55
85	Rapid endocrine disruption: environmental estrogen actions triggered outside the nucleus. <i>Journal of Steroid Biochemistry and Molecular Biology</i> , 2006 , 102, 163-9	5.1	54

84	Involvement of the clock gene Rev-erb alpha in the regulation of glucagon secretion in pancreatic alpha-cells. <i>PLoS ONE</i> , 2013 , 8, e69939	3.7	52
83	A water-soluble perylene dye functionalised with a 17 β estradiol: a new fluorescent tool for steroid hormones. <i>Chemical Communications</i> , 2011 , 47, 8307-9	5.8	52
82	Impacts of food contact chemicals on human health: a consensus statement. <i>Environmental Health</i> , 2020 , 19, 25	6	50
81	Insulin hypersecretion in islets from diet-induced hyperinsulinemic obese female mice is associated with several functional adaptations in individual β cells. <i>Endocrinology</i> , 2013 , 154, 3515-24	4.8	50
80	The estrogen trinity: membrane, cytosolic, and nuclear effects. <i>Physiology</i> , 2001 , 16, 251-5	9.8	50
79	The bile acid TUDCA increases glucose-induced insulin secretion via the cAMP/PKA pathway in pancreatic beta cells. <i>Metabolism: Clinical and Experimental</i> , 2016 , 65, 54-63	12.7	48
78	Extranuclear-initiated estrogenic actions of endocrine disrupting chemicals: Is there toxicology beyond paracelsus?. <i>Journal of Steroid Biochemistry and Molecular Biology</i> , 2018 , 176, 16-22	5.1	47
77	Prenatal Exposure to BPA and Offspring Outcomes: The Diabesogenic Behavior of BPA. <i>Dose-Response</i> , 2015 , 13, 1559325815590395	2.3	46
76	Maternal Exposure to Bisphenol-A During Pregnancy Increases Pancreatic β Cell Growth During Early Life in Male Mice Offspring. <i>Endocrinology</i> , 2016 , 157, 4158-4171	4.8	45
75	Antidiabetic actions of an estrogen receptor β selective agonist. <i>Diabetes</i> , 2013 , 62, 2015-25	0.9	45
74	Engineering pancreatic islets. <i>Pflugers Archiv European Journal of Physiology</i> , 2000 , 440, 1-18	4.6	43
73	Polluted Pathways: Mechanisms of Metabolic Disruption by Endocrine Disrupting Chemicals. <i>Current Environmental Health Reports</i> , 2017 , 4, 208-222	6.5	42
72	Molecular mechanisms involved in the non-monotonic effect of bisphenol-a on ca ²⁺ entry in mouse pancreatic β cells. <i>Scientific Reports</i> , 2017 , 7, 11770	4.9	42
71	Glucagon-Like Peptide 1 Analogs and their Effects on Pancreatic Islets. <i>Trends in Endocrinology and Metabolism</i> , 2016 , 27, 304-318	8.8	41
70	Experimental BPA Exposure and Glucose-Stimulated Insulin Response in Adult Men and Women. <i>Journal of the Endocrine Society</i> , 2018 , 2, 1173-1187	0.4	41
69	Estradiol modulates acetylcholine-induced Ca ²⁺ signals in LHRH-releasing GT1-7 cells through a membrane binding site. <i>European Journal of Neuroscience</i> , 2003 , 18, 2505-14	3.5	39
68	Taurine supplementation ameliorates glucose homeostasis, prevents insulin and glucagon hypersecretion, and controls α and β cell masses in genetic obese mice. <i>Amino Acids</i> , 2015 , 47, 1533-48	3.5	37
67	On-line analysis of gap junctions reveals more efficient electrical than dye coupling between islet cells. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2003 , 284, E980-7	6	36

66	Role of estrogen receptors alpha, beta and GPER1/GPR30 in pancreatic beta-cells. <i>Frontiers in Bioscience - Landmark</i> , 2011 , 16, 251-60	2.8	35
65	Enhanced glucose-induced intracellular signaling promotes insulin hypersecretion: pancreatic beta-cell functional adaptations in a model of genetic obesity and prediabetes. <i>Molecular and Cellular Endocrinology</i> , 2015 , 404, 46-55	4.4	34
64	The atrial natriuretic peptide and guanylyl cyclase-A system modulates pancreatic beta-cell function. <i>Endocrinology</i> , 2010 , 151, 3665-74	4.8	34
63	Lysophosphatidic acid induces Ca ²⁺ mobilization and c-Myc expression in mouse embryonic stem cells via the phospholipase C pathway. <i>Cellular Signalling</i> , 2009 , 21, 523-8	4.9	31
62	Plasma albumin induces calcium waves in rat cortical astrocytes. <i>Glia</i> , 1997 , 19, 343-51	9	31
61	Nutrient regulation of glucagon secretion: involvement in metabolism and diabetes. <i>Nutrition Research Reviews</i> , 2014 , 27, 48-62	7	29
60	The F-actin cortical network is a major factor influencing the organization of the secretory machinery in chromaffin cells. <i>Journal of Cell Science</i> , 2011 , 124, 727-34	5.3	29
59	The role of the pancreatic endocannabinoid system in glucose metabolism. <i>Best Practice and Research in Clinical Endocrinology and Metabolism</i> , 2009 , 23, 87-102	6.5	29
58	Salicylates increase insulin secretion in healthy obese subjects. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2008 , 93, 2523-30	5.6	27
57	Uppsala Consensus Statement on Environmental Contaminants and the Global Obesity Epidemic. <i>Environmental Health Perspectives</i> , 2016 , 124, A81-3	8.4	27
56	Rapid non-genomic regulation of Ca ²⁺ signals and insulin secretion by PPAR alpha ligands in mouse pancreatic islets of Langerhans. <i>Journal of Endocrinology</i> , 2009 , 200, 127-38	4.7	26
55	Pancreatic alpha-cells from female mice undergo morphofunctional changes during compensatory adaptations of the endocrine pancreas to diet-induced obesity. <i>Scientific Reports</i> , 2015 , 5, 11622	4.9	26
54	Leptin downregulates expression of the gene encoding glucagon in alphaTC1-9 cells and mouse islets. <i>Diabetologia</i> , 2011 , 54, 843-51	10.3	25
53	Reduced insulin secretion in protein malnourished mice is associated with multiple changes in the beta-cell stimulus-secretion coupling. <i>Endocrinology</i> , 2010 , 151, 3543-54	4.8	25
52	Disentangling the molecular mechanisms of action of endogenous and environmental estrogens. <i>Pflügers Archiv European Journal of Physiology</i> , 2005 , 449, 335-43	4.6	25
51	Pancreatic alpha-cell dysfunction contributes to the disruption of glucose homeostasis and compensatory insulin hypersecretion in glucocorticoid-treated rats. <i>PLoS ONE</i> , 2014 , 9, e93531	3.7	25
50	Role of ER α and GPR30 in the endocrine pancreas: A matter of estrogen dose. <i>Steroids</i> , 2012 , 77, 951-8	2.8	24
49	Position paper: Rapid responses to steroids: current status and future prospects. <i>European Journal of Endocrinology</i> , 2010 , 162, 825-30	6.5	24

48	Involvement of ATP-sensitive potassium (K(ATP)) channels in the loss of beta-cell function induced by human islet amyloid polypeptide. <i>Journal of Biological Chemistry</i> , 2011 , 286, 40857-66	5.4	24
47	Effects of Bisphenol A on ion channels: Experimental evidence and molecular mechanisms. <i>Steroids</i> , 2016 , 111, 12-20	2.8	24
46	Mitochondria as target of endocrine-disrupting chemicals: implications for type 2 diabetes. <i>Journal of Endocrinology</i> , 2018 , 239, R27-R45	4.7	23
45	Actions of serum and plasma albumin on intracellular Ca ²⁺ in human endothelial cells. <i>Journal of Physiology</i> , 1997 , 504 (Pt 2), 315-26	3.9	23
44	Glucose induces synchronous mitochondrial calcium oscillations in intact pancreatic islets. <i>Cell Calcium</i> , 2008 , 43, 39-47	4	20
43	Albumin elicits calcium signals from astrocytes in brain slices from neonatal rat cortex. <i>Journal of Physiology</i> , 1998 , 509 (Pt 3), 711-6	3.9	19
42	Bioluminescence imaging of nuclear calcium oscillations in intact pancreatic islets of Langerhans from the mouse. <i>Cell Calcium</i> , 2005 , 38, 131-9	4	19
41	Novel players in pancreatic islet signaling: from membrane receptors to nuclear channels. <i>Diabetes</i> , 2004 , 53 Suppl 1, S86-91	0.9	18
40	Fluorescence digital image analysis of glucose-induced [Ca ²⁺] _i oscillations in mouse pancreatic islets of Langerhans. <i>Diabetes</i> , 1993 , 42, 1210-1214	0.9	18
39	Oestrogen receptor β mediates the actions of bisphenol-A on ion channel expression in mouse pancreatic beta cells. <i>Diabetologia</i> , 2019 , 62, 1667-1680	10.3	17
38	Pancreatic alpha-cell mass in the early-onset and advanced stage of a mouse model of experimental autoimmune diabetes. <i>Scientific Reports</i> , 2019 , 9, 9515	4.9	17
37	Effects of bisphenol A treatment during pregnancy on kidney development in mice: a stereological and histopathological study. <i>Journal of Developmental Origins of Health and Disease</i> , 2018 , 9, 208-214	2.4	14
36	The GOLIATH Project: Towards an Internationally Harmonised Approach for Testing Metabolism Disrupting Compounds. <i>International Journal of Molecular Sciences</i> , 2020 , 21,	6.3	13
35	Rapid regulation of pancreatic alpha- and beta- cell signalling systems by estrogens. <i>Infectious Disorders - Drug Targets</i> , 2008 , 8, 61-4	1.1	13
34	Glial cell responses to lipids bound to albumin in serum and plasma. <i>Progress in Brain Research</i> , 2001 , 132, 367-74	2.9	13
33	Lysophospholipids trigger calcium signals but not DNA synthesis in cortical astrocytes 1999 , 28, 272-276		13
32	Inhibition of connexin 36 hemichannels by glucose contributes to the stimulation of insulin secretion. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2014 , 306, E1354-66	6	12
31	Lacking of estradiol reduces insulin exocytosis from pancreatic β cells and increases hepatic insulin degradation. <i>Steroids</i> , 2016 , 114, 16-24	2.8	12

30	Oestradiol rapidly inhibits Ca ²⁺ signals in ciliary neurons through classical oestrogen receptors in cytoplasm. <i>Pflugers Archiv European Journal of Physiology</i> , 2004 , 449, 33-41	4.6	10
29	Functional and structural adaptations in the pancreatic β cell and changes in glucagon signaling during protein malnutrition. <i>Endocrinology</i> , 2012 , 153, 1663-72	4.8	9
28	Adenosine 5Triphosphate (ATP) receptors induce intracellular calcium changes in mouse leydig cells. <i>Endocrine</i> , 1996 , 4, 239-47		9
27	Morphological and functional adaptations of pancreatic alpha-cells during late pregnancy in the mouse. <i>Metabolism: Clinical and Experimental</i> , 2020 , 102, 153963	12.7	9
26	GPR55 and the regulation of glucose homeostasis. <i>International Journal of Biochemistry and Cell Biology</i> , 2017 , 88, 204-207	5.6	8
25	Cyclin D3 promotes pancreatic β cell fitness and viability in a cell cycle-independent manner and is targeted in autoimmune diabetes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2014 , 111, E3405-14	11.5	8
24	In utero exposure to bisphenol-A disrupts key elements of retinoid system in male mice offspring. <i>Food and Chemical Toxicology</i> , 2019 , 126, 142-151	4.7	7
23	Update on Activities in Endocrine Disruptor Research and Policy. <i>Endocrinology</i> , 2019 , 160, 1681-1683	4.8	7
22	Pancreatic islet cells: a model for calcium-dependent peptide release. <i>HFSP Journal</i> , 2010 , 4, 52-60		7
21	Toxic Effects of Common Environmental Pollutants in Pancreatic β Cells and the Onset of Diabetes Mellitus 2019 , 764-775		6
20	Regulation of K(ATP) channel by 17 β estradiol in pancreatic β cells. <i>Steroids</i> , 2011 , 76, 856-60	2.8	5
19	Role of iduronate-2-sulfatase in glucose-stimulated insulin secretion by activation of exocytosis. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2009 , 297, E793-801	6	5
18	Bisphenol-S and Bisphenol-F alter mouse pancreatic β cell ion channel expression and activity and insulin release through an estrogen receptor ER α mediated pathway. <i>Chemosphere</i> , 2021 , 265, 129051	8.4	5
17	A Calcium-Dependent Chloride Current Increases Repetitive Firing in Mouse Sympathetic Neurons. <i>Frontiers in Physiology</i> , 2018 , 9, 508	4.6	4
16	Bisphenol A Regulates Sodium Ramp Currents in Mouse Dorsal Root Ganglion Neurons and Increases Nociception. <i>Scientific Reports</i> , 2019 , 9, 10306	4.9	4
15	Glucose metabolism regulates cytosolic Ca ²⁺ in the pancreatic beta-cell by three different mechanisms. <i>Advances in Experimental Medicine and Biology</i> , 1997 , 426, 235-43	3.6	4
14	Effects of hexose pentaacetates on electrical activity and cytosolic Ca ²⁺ in mouse pancreatic islets. <i>International Journal of Molecular Medicine</i> , 1999 , 3, 15-20	4.4	4
13	Cortistatin regulates glucose-induced electrical activity and insulin secretion in mouse pancreatic beta-cells. <i>Molecular and Cellular Endocrinology</i> , 2019 , 479, 123-132	4.4	4
