Michael P Cornes

List of Publications by Year in Descending Order

34 papers	731 citations	16 h-index	26 g-index
37 ext. papers	881 ext. citations	3.7 avg, IF	3.76 L-index

#	Paper	IF	Citations
34	A survey of practice in the management of haemolysis, icterus, and lipaemia in blood specimens in the United Kingdom and Republic of Ireland. *Annals of Clinical Biochemistry*, **2021**, 45632211059755	2.2	
33	The Relationship Between Intact Parathyroid Hormone and 25-Hydroxyvitamin D in United Kingdom Resident South Asians and Whites: A Comparative, Cross-Sectional Observational Study. *Hormone and Metabolic Research*, **2021**, 53, 672-675	3.1	
32	Survey of patient perception of pre-analytical requirements for blood testing in the UK and RoI. *Annals of Clinical Biochemistry*, **2021**, 58, 132-140	2.2	1
31	Inappropriate use of laboratory tests: How availability triggers demand - Examples across Europe. *Clinica Chimica Acta*, **2020**, 505, 100-107	6.2	13
30	Monitoring and capturing patient identification errors in laboratory medicine. *Annals of Clinical Biochemistry*, **2020**, 57, 266-270	2.2	
29	The CRESS checklist for reporting stability studies: on behalf of the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM) Working Group for the Preanalytical Phase (WG-PRE). *Clinical Chemistry and Laboratory Medicine*, **2020**, 59, 59-69	5.9	14
28	Preanalytical challenges - time for solutions. *Clinical Chemistry and Laboratory Medicine*, **2019**, 57, 974-985	5.9	34
27	Managing inappropriate utilization of laboratory resources. *Diagnosis*, **2019**, 6, 5-13	4.2	22
26	Heparin and citrate additive carryover during blood collection. *Clinical Chemistry and Laboratory Medicine*, **2019**, 57, 1888-1896	5.9	1
25	European survey on preanalytical sample handling - Part 1: How do European laboratories monitor the preanalytical phase? On behalf of the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM) Working Group for the Preanalytical Phase (WG-PRE). *Biochemia Medica*, **2019**, 29, 020704	2.5	14
24	Blood sampling guidelines with focus on patient safety and identification - a review. *Diagnosis*, **2019**, 6, 33-37	4.2	4
23	Early availability of laboratory results increases same day ward discharge rates. *Clinical Chemistry and Laboratory Medicine*, **2018**, 56, 1864-1869	5.9	2
22	Joint EFLM-COLABIOCLI Recommendation for venous blood sampling. *Clinical Chemistry and Laboratory Medicine*, **2018**, 56, 2015-2038	5.9	90
21	Mechanisms of measuring key performance indicators in the pre-analytical phase. *Journal of Laboratory and Precision Medicine*, **2018**, 3, 57-57	1.1	
20	Improving quality in the preanalytical phase through innovation, on behalf of the European Federation for Clinical Chemistry and Laboratory Medicine (EFLM) Working Group for Preanalytical Phase (WG-PRE). *Clinical Chemistry and Laboratory Medicine*, **2017**, 55, 489-500	5.9	29
19	Order of blood draw: Opinion Paper by the European Federation for Clinical Chemistry and Laboratory Medicine (EFLM) Working Group for the Preanalytical Phase (WG-PRE). *Clinical Chemistry and Laboratory Medicine*, **2017**, 55, 27-31	5.9	38
18	Preanalytical errors in medical laboratories: a review of the available methodologies of data collection and analysis. *Annals of Clinical Biochemistry*, **2017**, 54, 14-19	2.2	21

List of Publications

17	Case report of unexplained hypocalcaemia in a slightly haemolysed sample. *Biochemia Medica*, **2017**, 27, 426-429	2.5	4
16	The impact of change in albumin assay on reference intervals, prevalence of WhypoalbuminaemiaW and albumin prescriptions. *Annals of Clinical Biochemistry*, **2016**, 53, 112-6	2.2	13
15	Patient identification and tube labelling - a call for harmonisation. *Clinical Chemistry and Laboratory Medicine*, **2016**, 54, 1141-5	5.9	29
14	Monitoring and reporting of preanalytical errors in laboratory medicine: the UK situation. *Annals of Clinical Biochemistry*, **2016**, 53, 279-84	2.2	32
13	The role of European Federation of Clinical Chemistry and Laboratory Medicine Working Group for Preanalytical Phase in standardization and harmonization of the preanalytical phase in Europe. *Annals of Clinical Biochemistry*, **2016**, 53, 539-47	2.2	25
12	Exogenous sample contamination. Sources and interference. *Clinical Biochemistry*, **2016**, 49, 1340-1345	3.5	6
11	Compliance of blood sampling procedures with the CLSI H3-A6 guidelines: An observational study by the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM) working group for the preanalytical phase (WG-PRE). *Clinical Chemistry and Laboratory Medicine*, **2015**, 53, 1321-31	5.9	59
10	Preanalytical quality improvement. In pursuit of harmony, on behalf of European Federation for Clinical Chemistry and Laboratory Medicine (EFLM) Working group for Preanalytical Phase (WG-PRE). *Clinical Chemistry and Laboratory Medicine*, **2015**, 53, 357-70	5.9	83
9	Salivary cortisol and cortisone responses to tetracosactrin (synacthen). *Annals of Clinical Biochemistry*, **2015**, 52, 606-10	2.2	17
8	Reference ranges for serum total and monomeric prolactin for the current generation Abbott Architect assay. *Annals of Clinical Biochemistry*, **2015**, 52, 61-6	2.2	5
7	The order of draw, myth or science. *Clinical Chemistry and Laboratory Medicine*, **2013**, 51, e285	5.9	5
6	Survey of national guidelines, education and training on phlebotomy in 28 European countries: an original report by the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM) working group for the preanalytical phase (WG-PA). *Clinical Chemistry and Laboratory Medicine*, **2013**, 51, 1585-93	5.9	58
5	Effect of order of draw of blood samples during phlebotomy on routine biochemistry results. *Journal of Clinical Pathology*, **2011**, 64, 1019-20	3.9	36
4	Undetected spurious hypernatraemia wastes health-care resources. *Annals of Clinical Biochemistry*, **2011**, 48, 87-8	2.2	7
3	The lactate gap revisited: variable interference with lactate analyses in ethylene glycol poisoning. *British Journal of Biomedical Science*, **2010**, 67, 148-50	1.6	0
2	Multi-centre observational study of spurious hyperkalaemia due to EDTA contamination. *Clinical Laboratory*, **2010**, 56, 597-9	2	21
1	Spurious hyperkalaemia due to EDTA contamination: common and not always easy to identify. *Annals of Clinical Biochemistry*, **2008**, 45, 601-3	2.2	43
