#	ARTICLE	IF	CITATIONS
1	eHealth Tools That Assess and Track Health and Well-being in Children and Young People: Systematic Review. <i>Journal of Medical Internet Research</i> , 2022, 24, e26015.	2.1	4
2	Informing the Future of Integrated Digital and Clinical Mental Health Care: Synthesis of the Outcomes From Project Synergy. <i>JMIR Mental Health</i> , 2022, 9, e33060.	1.7	19
3	Understanding Technology Preferences and Requirements for Health Information Technologies Designed to Improve and Maintain the Mental Health and Well-Being of Older Adults: Participatory Design Study. <i>JMIR Aging</i> , 2021, 4, e21461.	1.4	43
4	Innovative preclinic triage system to guide Australians to the right mental health care first time. <i>Australian Health Review</i> , 2021, 45, 578-583.	0.5	10
5	Technology-Enabled Reform in a Nontraditional Mental Health Service for Eating Disorders: Participatory Design Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e19532.	2.1	12
6	Recommendations for Designing Health Information Technologies for Mental Health Drawn From Self-Determination Theory and Co-design With Culturally Diverse Populations: Template Analysis. <i>Journal of Medical Internet Research</i> , 2021, 23, e23502.	2.1	15
7	Reducing youth suicide: systems modelling and simulation to guide targeted investments across the determinants. <i>BMC Medicine</i> , 2021, 19, 61.	2.3	29
8	Evaluation of the Usability and Acceptability of the InnoWell Platform as Rated by Older Adults: Survey Study. <i>JMIR Aging</i> , 2021, 4, e25928.	1.4	7
9	Participatory Design of an Activities-Based Collective Mentoring Program in After-School Care Settings: Connect, Promote, and Protect Program. <i>JMIR Pediatrics and Parenting</i> , 2021, 4, e22822.	0.8	7
10	Evaluating the quality and safety of health-related apps and e-tools: Adapting the Mobile App Rating Scale and developing a quality assurance protocol. <i>Internet Interventions</i> , 2021, 24, 100379.	1.4	45
11	Implementing a digital health model of care in Australian youth mental health services: protocol for impact evaluation. <i>BMC Health Services Research</i> , 2021, 21, 452.	0.9	9
12	Using Staged Care to Provide "Right Care First Time" to People With Common Affective Disorders. <i>Psychiatric Services</i> , 2021, 72, 691-703.	1.1	22
13	The Impact of Technology-Enabled Care Coordination in a Complex Mental Health System: A Local System Dynamics Model. <i>Journal of Medical Internet Research</i> , 2021, 23, e25331.	2.1	20
14	Supporting Clinicians to Use Technology to Deliver Highly Personalized and Measurement-Based Mental Health Care to Young People: Protocol for an Evaluation Study. <i>JMIR Research Protocols</i> , 2021, 10, e24697.	0.5	2
15	Right Care, First Time: Developing a Theory-Based Automated Protocol to Help Clinically Stage Young People Based on Severity and Persistence of Mental Illness. <i>Frontiers in Public Health</i> , 2021, 9, 621862.	1.3	10
16	Privacy Practices of Health Information Technologies: Privacy Policy Risk Assessment Study and Proposed Guidelines. <i>Journal of Medical Internet Research</i> , 2021, 23, e26317.	2.1	10
17	Optimising the integration of technology-enabled solutions to enhance primary mental health care: a service mapping study. <i>BMC Health Services Research</i> , 2021, 21, 68.	0.9	9
18	Body Image Distress and Its Associations From an International Sample of Men and Women Across the Adult Life Span: Web-Based Survey Study. <i>JMIR Formative Research</i> , 2021, 5, e25329.	0.7	4

#	ARTICLE	IF	CITATIONS
19	Using Digital Technologies to Facilitate Care Coordination Between Youth Mental Health Services: A Guide for Implementation. , 2021, 1, .		13
20	Youth Mental Health Tracker: protocol to establish a longitudinal cohort and research database for young people attending Australian mental health services. <i>BMJ Open</i> , 2020, 10, e035379.	0.8	5
21	Naturalistic evaluation of a sport-themed mental health and wellbeing app aimed at men (MindMax), that incorporates applied video games and gamification. <i>Internet Interventions</i> , 2020, 20, 100306.	1.4	17
22	Co-designing the InnoWell Platform to deliver the right mental health care first time to regional youth. <i>Australian Journal of Rural Health</i> , 2020, 28, 190-194.	0.7	21
23	Predicting self-harm within six months after initial presentation to youth mental health services: A machine learning study. <i>PLoS ONE</i> , 2020, 15, e0243467.	1.1	16
24	Involving End Users in Adapting a Spanish Version of a Web-Based Mental Health Clinic for Young People in Colombia: Exploratory Study Using Participatory Design Methodologies. <i>JMIR Mental Health</i> , 2020, 7, e15914.	1.7	27
25	Technology-Enabled Solutions for Australian Mental Health Services Reform: Impact Evaluation. <i>JMIR Formative Research</i> , 2020, 4, e18759.	0.7	18
26	Flip the Clinic: A Digital Health Approach to Youth Mental Health Service Delivery During the COVID-19 Pandemic and Beyond. <i>JMIR Mental Health</i> , 2020, 7, e24578.	1.7	31
27	Suicidal Thoughts and Behaviors and Their Associations With Transitional Life Events in Men and Women: Findings From an International Web-Based Sample. <i>JMIR Mental Health</i> , 2020, 7, e18383.	1.7	5
28	Right care, first time: a highly personalised and measurement-based care model to manage youth mental health. <i>Medical Journal of Australia</i> , 2019, 211, S3-S46.	0.8	88
29	Project Synergy: co-designing technology-enabled solutions for Australian mental health services reform. <i>Medical Journal of Australia</i> , 2019, 211, S3-S39.	0.8	57
30	A Digital Platform Designed for Youth Mental Health Services to Deliver Personalized and Measurement-Based Care. <i>Frontiers in Psychiatry</i> , 2019, 10, 595.	1.3	65
31	Developing neurocognitive standard clinical care: A study of young adult inpatients. <i>Psychiatry Research</i> , 2019, 276, 232-238.	1.7	6
32	Neurocognitive clusters: A pilot study of young people with affective disorders in an inpatient facility. <i>Journal of Affective Disorders</i> , 2019, 242, 80-86.	2.0	15
33	A Sense of Belonging: Pokémon GO and Social Connectedness. <i>Games and Culture</i> , 2019, 14, 583-603.	1.7	77
34	User Involvement in Developing the MYPLAN Mobile Phone Safety Plan App for People in Suicidal Crisis: Case Study. <i>JMIR Mental Health</i> , 2019, 6, e11965.	1.7	27
35	Sexting, Web-Based Risks, and Safety in Two Representative National Samples of Young Australians: Prevalence, Perspectives, and Predictors. <i>JMIR Mental Health</i> , 2019, 6, e13338.	1.7	10
36	Technology-Enabled Mental Health Service Reform for Open Arms " Veterans and Families Counselling: Participatory Design Study. <i>JMIR Formative Research</i> , 2019, 3, e13662.	0.7	28

#	ARTICLE	IF	CITATIONS
37	Gamification in Apps and Technologies for Improving Mental Health and Well-Being: Systematic Review. JMIR Mental Health, 2019, 6, e13717.	1.7	139
38	Validation of the InnoWell Platform: Protocol for a Clinical Trial. JMIR Research Protocols, 2019, 8, e13955.	0.5	58
39	Using Participatory Design Methodologies to Co-Design and Culturally Adapt the Spanish Version of the Mental Health eClinic: Qualitative Study. Journal of Medical Internet Research, 2019, 21, e14127.	2.1	70
40	Technology-Enabled Person-Centered Mental Health Services Reform: Strategy for Implementation Science. JMIR Mental Health, 2019, 6, e14719.	1.7	30
41	Pathways to depression by age 16 years: Examining trajectories for self-reported psychological and somatic phenotypes across adolescence. Journal of Affective Disorders, 2018, 230, 1-6.	2.0	15
42	Nineteen and Up study (19Up): understanding pathways to mental health disorders in young Australian twins. BMJ Open, 2018, 8, e018959.	0.8	19
43	An App That Incorporates Gamification, Mini-Games, and Social Connection to Improve Men's Mental Health and Well-Being (MindMax): Participatory Design Process. JMIR Mental Health, 2018, 5, e11068.	1.7	37
44	Developing a Mental Health eClinic to Improve Access to and Quality of Mental Health Care for Young People: Using Participatory Design as Research Methodologies. Journal of Medical Internet Research, 2018, 20, e188.	2.1	74
45	Using New and Innovative Technologies to Assess Clinical Stage in Early Intervention Youth Mental Health Services: Evaluation Study. Journal of Medical Internet Research, 2018, 20, e259.	2.1	30
46	Using New and Emerging Technologies to Identify and Respond to Suicidality Among Help-Seeking Young People: A Cross-Sectional Study. Journal of Medical Internet Research, 2017, 19, e247.	2.1	47
47	Comparison of Self-Reported Telephone Interviewing and Web-Based Survey Responses: Findings From the Second Australian Young and Well National Survey. JMIR Mental Health, 2017, 4, e37.	1.7	55
48	The role of technology in Australian youth mental health reform. Australian Health Review, 2016, 40, 584.	0.5	48
49	Moderator Assistant: A Natural Language Generation-Based Intervention to Support Mental Health via Social Media. Journal of Technology in Human Services, 2015, 33, 304-329.	0.9	13
50	Development and evaluation of an Internet-based program to improve the mental health and wellbeing of young men. Interactive Technology and Smart Education, 2015, 12, 2-13.	3.8	7
51	Getting mental health reform back on track: a leadership challenge for the new Australian Government. Medical Journal of Australia, 2014, 200, 445-448.	0.8	17
52	Characterization of Fatigue States in Medicine and Psychiatry by Structured Interview. Psychosomatic Medicine, 2014, 76, 379-388.	1.3	20
53	Encouraging young men's participation in mental health research and treatment: perspectives in our technological age. Clinical Investigation, 2014, 4, 881-888.	0.0	27
54	headspace â€•Australia's innovation in youth mental health: who are the clients and why are they presenting?. Medical Journal of Australia, 2014, 200, 452-452.	0.8	1

#	ARTICLE	IF	CITATIONS
55	Applying clinical staging to young people who present for mental health care. <i>Microbial Biotechnology</i> , 2013, 7, 31-43.	0.9	173
56	Young men's attitudes and behaviour in relation to mental health and technology: implications for the development of online mental health services. <i>BMC Psychiatry</i> , 2013, 13, 119.	1.1	116
57	The impact of gender on early ill-health retirement in people with heart disease and depression. <i>Australian and New Zealand Journal of Psychiatry</i> , 2012, 46, 249-256.	1.3	13
58	Not letting the ideal be the enemy of the good: The case of the Better Access evaluation "Reply". <i>Australian and New Zealand Journal of Psychiatry</i> , 2012, 46, 581-582.	1.3	4
59	Identification and Management of Depression in Australian Primary Care and Access to Specialist Mental Health Care. <i>Psychiatric Services</i> , 2012, 63, 1247-1251.	1.1	9
60	Young Men, Mental Health, and Technology: Implications for Service Design and Delivery in the Digital Age. <i>Journal of Medical Internet Research</i> , 2012, 14, e160.	2.1	51
