

Seong-Ah Kim

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9202153/seong-ah-kim-publications-by-citations.pdf>
Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

26 papers	289 citations	8 h-index	16 g-index
28 ext. papers	448 ext. citations	3.6 avg, IF	4.01 L-index

#	Paper	IF	Citations
26	Changes in Serum Antioxidant Vitamin Levels After Consumption of Korean Diet and American Diet Among Korean Adults: A Randomized Controlled Trial. <i>Current Developments in Nutrition</i> , 2020 , 4, 1411-1411	14.1	78
25	Serum level of sex steroid hormone is associated with diversity and profiles of human gut microbiome. <i>Research in Microbiology</i> , 2019 , 170, 192-201	4	75
24	Differential Effects of Typical Korean Versus American-Style Diets on Gut Microbial Composition and Metabolic Profile in Healthy Overweight Koreans: A Randomized Crossover Trial. <i>Nutrients</i> , 2019 , 11,	6.7	21
23	Assessment of Dietary Mercury Intake and Blood Mercury Levels in the Korean Population: Results from the Korean National Environmental Health Survey 2012-2014. <i>International Journal of Environmental Research and Public Health</i> , 2016 , 13,	4.6	21
22	Dietary pattern, dietary total antioxidant capacity, and dyslipidemia in Korean adults. <i>Nutrition Journal</i> , 2019 , 18, 37	4.3	15
21	Association between the prevalence of metabolic syndrome and coffee consumption among Korean adults: results from the Health Examinees study. <i>Applied Physiology, Nutrition and Metabolism</i> , 2019 , 44, 1371-1378	3	9
20	Effect of a balanced Korean diet on metabolic risk factors among overweight/obese Korean adults: a randomized controlled trial. <i>European Journal of Nutrition</i> , 2020 , 59, 3023-3035	5.2	8
19	Associations of Dietary Antioxidants and Risk of Type 2 Diabetes: Data from the 2007-2012 Korea National Health and Nutrition Examination Survey. <i>Molecules</i> , 2017 , 22,	4.8	8
18	Association between dietary flavonoid intake and obesity among adults in Korea. <i>Applied Physiology, Nutrition and Metabolism</i> , 2020 , 45, 203-212	3	7
17	Oily Fish Consumption and the Risk of Dyslipidemia in Korean Adults: A Prospective Cohort Study Based on the Health Examinees Gem (HEXA-G) Study. <i>Nutrients</i> , 2019 , 11,	6.7	5
16	The association of potassium intake with bone mineral density and the prevalence of osteoporosis among older Korean adults. <i>Nutrition Research and Practice</i> , 2020 , 14, 55-61	2.1	5
15	Estimated macronutrients and antioxidant vitamins intake according to Hansik consumption rate among Korean adults: Based on the Korea National Health and Nutrition Examination Survey 2007~2012. <i>Journal of Nutrition and Health</i> , 2016 , 49, 323	0.8	5
14	Association between Three Low-Carbohydrate Diet Scores and Lipid Metabolism among Chinese Adults. <i>Nutrients</i> , 2020 , 12,	6.7	4
13	The Role of Red Meat and Flavonoid Consumption on Cancer Prevention: The Korean Cancer Screening Examination Cohort. <i>Nutrients</i> , 2017 , 9,	6.7	4
12	Red meat and processed meat consumption and the risk of dyslipidemia in Korean adults: A prospective cohort study based on the Health Examinees (HEXA) study. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2021 , 31, 1714-1727	4.5	4
11	The Association between Coffee Consumption Pattern and Prevalence of Metabolic Syndrome in Korean Adults. <i>Nutrients</i> , 2019 , 11,	6.7	4
10	Associations between Low-Carbohydrate Diets from Animal and Plant Sources and Dyslipidemia among Korean Adults. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019 , 119, 2041-2054	3.9	3

9	Development of a mercury database for food commonly consumed by Koreans. <i>Journal of Nutrition and Health</i> , 2014 , 47, 364	0.8	3
8	Fruit and vegetable consumption and non-alcoholic fatty liver disease among Korean adults: a prospective cohort study. <i>Journal of Epidemiology and Community Health</i> , 2020 , 74, 1035-1042	5.1	3
7	Association between antioxidant vitamin intake and obesity among Korean women: using the Korea National Health and Nutrition Examination Survey 2007 ~ 2016. <i>Journal of Nutrition and Health</i> , 2018 , 51, 400	0.8	3
6	Association of Coffee Consumption and Its Types According to Addition of Sugar and Creamer with Metabolic Syndrome Incidence in a Korean Population from the Health Examinees (HEXA) Study. <i>Nutrients</i> , 2021 , 13,	6.7	2
5	Coffee Consumption and the Risk of All-Cause and Cause-Specific Mortality in the Korean Population. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2021 , 121, 2221-2232.e4	3.9	1
4	The Association Between Coffee Consumption and Nonalcoholic Fatty Liver Disease in the South Korean General Population. <i>Molecular Nutrition and Food Research</i> , 2021 , 65, e2100356	5.9	1
3	Dietary Patterns and the Risk of Dyslipidemia in Korean Adults: A Prospective Cohort Study Based on the Health Examinees (HEXA) Study. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2021 , 121, 1242-1257.e2	3.9	0
2	Development of mercury database for commonly consumed food among Koreans and assessment of mercury exposure from diet among the Korean population (1023.2). <i>FASEB Journal</i> , 2014 , 28, 1023.2	0.9	
1	The Association Between Heavy Metals in Food and Alzheimer's Disease in Korean Elderly People. <i>FASEB Journal</i> , 2013 , 27, 616.4	0.9
