#	ARTICLE	IF	CITATIONS
1	Passive restoration considerably improved the community structure, soil health and carbon stock in the Pine forests of Kashmir Himalaya, India. <i>Ecological Engineering</i> , 2022, 176, 106535.	3.6	6
2	Assessing the effectiveness of community managed forests for plant diversity conservation in Meghalaya, Northeast India. <i>Plant Diversity</i> , 2022, 44, 243-254.	3.7	1
3	A comprehensive checklist of threatened plants of Meghalaya, Northeast India. <i>Journal of Asia-Pacific Biodiversity</i> , 2022, 15, 435-441.	0.4	3
4	Lost and Found: Ecological Story of Recently Rediscovered Threatened Plant Species in Northeast India. , 2021, , .		0
5	Impact of disturbance on community structure, biomass and carbon stock in montane evergreen forests of Meghalaya, northeast India. <i>Carbon Management</i> , 2021, 12, 215-233.	2.4	5
6	A comprehensive checklist of endemic flora of Meghalaya, India. <i>Journal of Threatened Taxa</i> , 2019, 11, 14527-14561.	0.3	6
7	Reproductive Phenology and Germination Behavior of Some Important Tree Species of Northeast India. <i>Proceedings of the National Academy of Sciences India Section B - Biological Sciences</i> , 2018, 88, 1033-1041.	1.0	8
8	Abundance and habitat-suitability relationship deteriorate in fragmented forest landscapes: a case of <i>Adinandra griffithii</i> Dyer, a threatened endemic tree from Meghalaya in northeast India. <i>Ecological Processes</i> , 2018, 7, .	3.9	13
9	Rediscovery of <i>Magnolia rabaniana</i> (Magnoliaceae): A threatened tree species of Meghalaya, northeast India. <i>Journal of Asia-Pacific Biodiversity</i> , 2017, 10, 127-131.	0.4	5
10	Rediscovery, Distribution and Conservation Implications of <i>Cleyera grandiflora</i> Wall. ex Choisy (Pentaphragmaceae): An Endangered and Endemic Tree Species of Meghalaya, Northeast India. <i>The National Academy of Sciences, India</i> , 2017, 40, 205-209.	1.3	2
11	Effect of traditional management practices on woody species composition and structure in montane subtropical forests of Meghalaya, Northeast India. <i>Journal of Mountain Science</i> , 2017, 14, 1500-1512.	2.0	9
12	<i>Magnolia lanuginosa</i> (Wall.) Figlar & Noot. in West Khasi Hills of Meghalaya, northeastern India: re-collection and implications for conservation. <i>Journal of Threatened Taxa</i> , 2016, 8, 8398.	0.3	9
