#	ARTICLE	IF	CITATIONS
1	Effect of new and old pesticides on <i>Orius armatus</i> (Gross) an Australian predator of western flower thrips, <i>Frankliniella occidentalis</i> (Pergande). Pest Management Science, 2014, 70, 389-397.	1.7	22
2	Compatibility of spinosad with predaceous mites (Acari) used to control <i>Frankliniella occidentalis</i> (Pergande) (Thysanoptera: Thripidae). Pest Management Science, 2011, 67, 993-1003.	1.7	21
3	Within-field distribution of <i>Aphis gossypii</i> and aphidophagous lady beetles in chili, <i>Capsicum annum</i> . Entomologia Experimentalis Et Applicata, 2010, 137, 211-219.	0.7	20
4	Evaluation of lures and traps for male and female monitoring of Mediterranean fruit fly in pome and stone fruit. Journal of Applied Entomology, 2017, 141, 441-449.	0.8	19
5	Variation in Preference and Performance of <i>Frankliniella occidentalis</i> (Thysanoptera: Thripidae) on Three Strawberry Cultivars. Journal of Economic Entomology, 2010, 103, 1744-1753.	0.8	15
6	Single versus multiple releases of predatory mites combined with spinosad for the management of western flower thrips in strawberry. Crop Protection, 2011, 30, 468-475.	1.0	13
7	Suppressing Mediterranean fruit fly (Diptera: Tephritidae) with an attract-and-kill device in pome and stone fruit orchards in Western Australia. Crop Protection, 2016, 80, 108-117.	1.0	13
8	Effect of spinosad and predatory mites on control of <i>Frankliniella occidentalis</i> in three strawberry cultivars. Entomologia Experimentalis Et Applicata, 2011, 138, 154-161.	0.7	12
9	Use of spinosad and predatory mites for the management of <i>Frankliniella occidentalis</i> in low tunnel-grown strawberry. Entomologia Experimentalis Et Applicata, 2012, 142, 258-270.	0.7	12
10	Evaluation of thiacloprid and clothianidin (neonicotinoids) as alternative to fenthion (organophosphate) for control of Mediterranean fruit fly (Diptera: Tephritidae) in deciduous fruit orchards. Crop Protection, 2016, 90, 170-176.	1.0	11
11	Can spinosad-resistant <i>Frankliniella occidentalis</i> (Pergande) (Thysanoptera: Thripidae) be managed with spinosad and predatory mites (Acari)? Crop Protection, 2012, 42, 281-288.	1.0	2
12	The Survival of Mediterranean Fruit Fly (Diptera: Tephritidae) Over Winter in Western Australia. Environmental Entomology, 2019, 48, 977-987.	0.7	2
13	Diurnal patterns of abundance of aphidophagous lady beetle species on chili (<i>Capsicum annum</i> L.). Journal of Asia-Pacific Entomology, 2011, 14, 237-241.	0.4	1
