

# Jianguo Lin

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/9247556/jianguo-lin-publications-by-citations.pdf>

**Version:** 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

13  
papers

339

#	Paper	IF	Citations
13	Curcumin inhibits gene expression of receptor for advanced glycation end-products (RAGE) in hepatic stellate cells in vitro by elevating PPAR $\alpha$ activity and attenuating oxidative stress. <i>British Journal of Pharmacology</i> , <b>2012</b> , 166, 2212-27	8.6	80
12	Activation of peroxisome proliferator-activated receptor-gamma by curcumin blocks the signaling pathways for PDGF and EGF in hepatic stellate cells. <i>Laboratory Investigation</i> , <b>2008</b> , 88, 529-40	5.9	73
11	Curcumin attenuates the effects of insulin on stimulating hepatic stellate cell activation by interrupting insulin signaling and attenuating oxidative stress. <i>Laboratory Investigation</i> , <b>2009</b> , 89, 1397-409	5.9	51
10	Curcumin diminishes the impacts of hyperglycemia on the activation of hepatic stellate cells by suppressing membrane translocation and gene expression of glucose transporter-2. <i>Molecular and Cellular Endocrinology</i> , <b>2011</b> , 333, 160-71	4.4	39
9	Curcumin eliminates the inhibitory effect of advanced glycation end-products (AGEs) on gene expression of AGE receptor-1 in hepatic stellate cells in vitro. <i>Laboratory Investigation</i> , <b>2012</b> , 92, 827-41	5.9	36
8	Perilipin 5 restores the formation of lipid droplets in activated hepatic stellate cells and inhibits their activation. <i>Laboratory Investigation</i> , <b>2016</b> , 96, 791-806	5.9	22
7	Perilipin 5 and liver fatty acid binding protein function to restore quiescence in mouse hepatic stellate cells. <i>Journal of Lipid Research</i> , <b>2018</b> , 59, 416-428	6.3	14
6	Challenges of SARS-CoV-2 and lessons learnt from SARS in Guangdong Province, China. <i>Journal of Clinical Virology</i> , <b>2020</b> , 126, 104341	14.5	10
5	Neonatal neutrophils stimulated by group B Streptococcus induce a proinflammatory T-helper cell bias. <i>Pediatric Research</i> , <b>2018</b> , 83, 739-746	3.2	7
4	Advanced Glycated End Products Alter Neutrophil Effect on Regulation of CD4+ T Cell Differentiation Through Induction of Myeloperoxidase and Neutrophil Elastase Activities. <i>Inflammation</i> , <b>2019</b> , 42, 559-571	5.1	4
3	Peripheral blood CD4+ cell counts but not CD3+ and CD8+ cell counts are reduced in SARS-CoV-2 infection. <i>Journal of Affective Disorders</i> , <b>2020</b> , 277, 375-378	6.6	2
2	A Nomogram to Predict Lifestyle Factors for Recurrence of Large-Vessel Ischemic Stroke. <i>Risk Management and Healthcare Policy</i> , <b>2021</b> , 14, 365-377	2.8	1
1	Effect of Huoxiang Zhengqi Pill on Early Neurological Deterioration in Patients with Acute Ischemic Stroke Undergoing Recanalization Therapy and Predictive Effect of Essen Score. <i>Evidence-based Complementary and Alternative Medicine</i> , <b>2020</b> , 2020, 6912015	2.3	0
