#	ARTICLE	IF	CITATIONS
1	A thematic cluster analysis of parents' online discussions about fussy eating. <i>Maternal and Child Nutrition</i> , 2022, 18, e13316.	3.0	5
2	What Works to Improve Nutrition and Food Sustainability across the First 2000 Days of Life: A Rapid Review. <i>Nutrients</i> , 2022, 14, 731.	4.1	9
3	Maternal Time Use Drives Suboptimal Complementary Feeding Practices in the El Niño-Affected Eastern Ethiopia Community. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 3937.	2.6	2
4	The Role of Household Structure and Composition in Influencing Complementary Feeding Practices in Ethiopia. <i>Nutrients</i> , 2022, 14, 130.	4.1	1
5	Breastfeeding and emerging motherhood identity: An interpretative phenomenological analysis of first time Chinese Australian mothers' breastfeeding experiences. <i>Women and Birth</i> , 2021, 34, e292-e301.	2.0	17
6	Process evaluations of early childhood obesity prevention interventions delivered via telephone or text messages: a systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 10.	4.6	11
7	Longitudinal analysis of growth trajectories in young children of Chinese-born immigrant mothers compared with Australian-born mothers living in Victoria, Australia. <i>BMJ Open</i> , 2021, 11, e041148.	1.9	2
8	Key stakeholder perspectives on the development and real-world implementation of a home-based physical activity program for mothers at risk of postnatal depression: a qualitative study. <i>BMC Public Health</i> , 2021, 21, 361.	2.9	13
9	Fussy eating in toddlers: A content analysis of parents' online support seeking. <i>Maternal and Child Nutrition</i> , 2021, 17, e13171.	3.0	12
10	The Facilitators and Barriers of Adopting Amylase-Rich Flour to Enhance Complementary Foods in the Kersa District Community of Eastern Ethiopia. <i>Nutrients</i> , 2021, 13, 838.	4.1	2
11	Commercially Available Apps to Support Healthy Family Meals: User Testing of App Utility, Acceptability, and Engagement. <i>JMIR MHealth and UHealth</i> , 2021, 9, e22990.	3.7	8
12	Protocol for an Effectiveness-Implementation Hybrid Trial to Evaluate Scale up of an Evidence-Based Intervention Addressing Lifestyle Behaviours From the Start of Life: INFANT. <i>Frontiers in Endocrinology</i> , 2021, 12, 717468.	3.5	9
13	Bump2Baby and Me: protocol for a randomised trial of mHealth coaching for healthy gestational weight gain and improved postnatal outcomes in high-risk women and their children. <i>Trials</i> , 2021, 22, 963.	1.6	13
14	Promoting healthy weight for all young children: a mixed methods study of child and family health nurses' perceptions of barriers and how to overcome them. <i>BMC Nursing</i> , 2020, 19, 84.	2.5	13
15	Patterns and predictors of exclusive breastfeeding in Chinese Australian mothers: a cross sectional study. <i>International Breastfeeding Journal</i> , 2020, 15, 61.	2.6	9
16	“They Just Need to Come Down a Little Bit to Your Level”: A Qualitative Study of Parents' Views and Experiences of Early Life Interventions to Promote Healthy Growth and Associated Behaviours. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3605.	2.6	10
17	Early Infant Feeding and BMI Trajectories in the First 5 Years of Life. <i>Obesity</i> , 2020, 28, 339-346.	3.0	21
18	What hinders and helps academics to conduct Dissemination and Implementation (D&I) research in the field of nutrition and physical activity? An international perspective. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 7.	4.6	14

#	ARTICLE	IF	CITATIONS
19	Healthy lifestyle behaviours in the first five years of life. , 2020, , .		0
20	Childhood obesity prevention: priority areas for future research and barriers and facilitators to knowledge translation, coproduced using the nominal group technique. <i>Translational Behavioral Medicine</i> , 2019, 9, 759-767.	2.4	15
21	A Mixed Methods Study to Explore the Effects of Program Design Elements and Participant Characteristics on Parents' Engagement With an mHealth Program to Promote Healthy Infant Feeding: The Growing Healthy Program. <i>Frontiers in Endocrinology</i> , 2019, 10, 397.	3.5	23
22	The effectiveness of health professional-delivered interventions during the first 1000 days to prevent overweight/obesity in children: A systematic review. <i>Obesity Reviews</i> , 2019, 20, 1691-1707.	6.5	47
23	Relative effects of postnatal rapid growth and maternal factors on early childhood growth trajectories. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 172-180.	1.7	10
24	Consumer Engagement in Mobile Application (App) Interventions Focused on Supporting Infant Feeding Practices for Early Prevention of Childhood Obesity. <i>Frontiers in Public Health</i> , 2019, 7, 60.	2.7	8
25	Health-e mums: Evaluating a smartphone app design for diabetes prevention in women with previous gestational diabetes. <i>Nutrition and Dietetics</i> , 2019, 76, 507-514.	1.8	22
26	Lessons on early childhood obesity prevention interventions from the Victorian Infant Program. <i>Public Health Research and Practice</i> , 2019, 29, .	1.5	6
27	Differences Between Mothers and Fathers of Young Children in Their Use of the Internet to Support Healthy Family Lifestyle Behaviors: Cross-Sectional Study. <i>Journal of Medical Internet Research</i> , 2019, 21, e11454.	4.3	32
28	Health professional-delivered obesity prevention interventions during the first 1,000 days: A systematic review of external validity reporting. <i>HRB Open Research</i> , 2019, 2, 14.	0.6	4
29	Infant formula feeding practices associated with rapid weight gain: A systematic review. <i>Maternal and Child Nutrition</i> , 2018, 14, e12602.	3.0	77
30	Differences in infant feeding practices between Chinese-born and Australian-born mothers living in Australia: a cross-sectional study. <i>BMC Pediatrics</i> , 2018, 18, 209.	1.7	17
31	Factors Influencing Parental Engagement in an Early Childhood Obesity Prevention Program Implemented at Scale: The Infant Program. <i>Nutrients</i> , 2018, 10, 509.	4.1	16
32	Infant formula feeding practices and the role of advice and support: an exploratory qualitative study. <i>BMC Pediatrics</i> , 2018, 18, 12.	1.7	37
33	Mobile Apps to Support Healthy Family Food Provision: Systematic Assessment of Popular, Commercially Available Apps. <i>JMIR MHealth and UHealth</i> , 2018, 6, e11867.	3.7	32
34	Key Lessons and Impact of the Growing Healthy mHealth Program on Milk Feeding, Timing of Introduction of Solids, and Infant Growth: Quasi-Experimental Study. <i>JMIR MHealth and UHealth</i> , 2018, 6, e78.	3.7	25
35	Impact of the Growing Healthy mHealth Program on Maternal Feeding Practices, Infant Food Preferences, and Satiety Responsiveness: Quasi-Experimental Study. <i>JMIR MHealth and UHealth</i> , 2018, 6, e77.	3.7	19
36	Assessing User Engagement of an mHealth Intervention: Development and Implementation of the Growing Healthy App Engagement Index. <i>JMIR MHealth and UHealth</i> , 2017, 5, e89.	3.7	93

#	ARTICLE	IF	CITATIONS
37	Factors Influencing Engagement and Behavioral Determinants of Infant Feeding in an mHealth Program: Qualitative Evaluation of the Growing Healthy Program. JMIR MHealth and UHealth, 2017, 5, e196.	3.7	38
38	Translating an early childhood obesity prevention program for local community implementation: a case study of the Melbourne InFANT Program. BMC Public Health, 2016, 16, 748.	2.9	21
39	The infant feeding practices of Chinese immigrant mothers in Australia: A qualitative exploration. Appetite, 2016, 105, 375-384.	3.7	39
40	A qualitative study of the infant feeding beliefs and behaviours of mothers with low educational attainment. BMC Pediatrics, 2016, 16, 69.	1.7	35
41	The Chinese-born immigrant infant feeding and growth hypothesis. BMC Public Health, 2016, 16, 1071.	2.9	5
42	Effects of parent and child behaviours on overweight and obesity in infants and young children from disadvantaged backgrounds: systematic review with narrative synthesis. BMC Public Health, 2016, 16, 151.	2.9	28
43	A Comparison of Recruitment Methods for an mHealth Intervention Targeting Mothers: Lessons from the Growing Healthy Program. Journal of Medical Internet Research, 2016, 18, e248.	4.3	48
44	A Review of the Relationship Between Socioeconomic Position and the Early-Life Predictors of Obesity. Current Obesity Reports, 2015, 4, 350-362.	8.4	91
45	Preventing obesity in infants: the Growing healthy feasibility trial protocol. BMJ Open, 2015, 5, e009258.	1.9	36
46	Infant Feeding Websites and Apps: A Systematic Assessment of Quality and Content. Interactive Journal of Medical Research, 2015, 4, e18.	1.4	68
47	The impact of interventions to prevent obesity or improve obesity related behaviours in children (Oâ€™5) Tj ETQq1 1 0.784314 rgBT /Ove Public Health, 2014, 14, 779.	2.9	108
48	Utilization of a population health survey in policy and practice: a case study. Health Research Policy and Systems, 2013, 11, 4.	2.8	17
49	Factors influencing participation in a vascular disease prevention lifestyle program among participants in a cluster randomized trial. BMC Health Services Research, 2013, 13, 201.	2.2	29
50	Factors influencing participant enrolment in a diabetes prevention program in general practice: lessons from the Sydney diabetes prevention program. BMC Public Health, 2012, 12, 822.	2.9	9
51	Predictors of primary care referrals to a vascular disease prevention lifestyle program among participants in a cluster randomised trial. BMC Health Services Research, 2012, 12, 234.	2.2	20
52	Diabetes Prevention Research. American Journal of Preventive Medicine, 2012, 43, 205-214.	3.0	43
53	A cluster randomised controlled trial of vascular risk factor management in general practice. Medical Journal of Australia, 2012, 197, 387-393.	1.7	29
54	Health improvement and prevention study (HIPS) - evaluation of an intervention to prevent vascular disease in general practice. BMC Family Practice, 2010, 11, 57.	2.9	25

#	ARTICLE	IF	CITATIONS
55	The 45 year old health check - feasibility and impact on practices and patient behaviour. Australian Family Physician, 2009, 38, 358-62.	0.5	28
56	Health professional-delivered obesity prevention interventions during the first 1,000 days: A systematic review of external validity reporting. HRB Open Research, 0, 2, 14.	0.6	5
