citing authors

#	ARTICLE	IF	CITATIONS
1	Solid wastes generation in India and their recycling potential in building materials. <i>Building and Environment</i> , 2007, 42, 2311-2320.	6.9	549
2	Jarosite characteristics and its utilisation potentials. <i>Science of the Total Environment</i> , 2006, 359, 232-243.	8.0	100
3	Towards sustainable micro and nano composites from fly ash and natural fibers for multifunctional applications. <i>Vacuum</i> , 2017, 146, 375-385.	3.5	44
4	Synthesis and characterization of new class of geopolymer hybrid composite materials from industrial wastes. <i>Journal of Cleaner Production</i> , 2019, 230, 11-20.	9.3	40
5	Recycling marble wastes and Jarosite wastes into sustainable hybrid composite materials and validation through Response Surface Methodology. <i>Journal of Cleaner Production</i> , 2019, 240, 118249.	9.3	30
6	Marble waste characterization and reinforcement in low density polyethylene composites via injection moulding: Towards improved mechanical strength and thermal conductivity. <i>Construction and Building Materials</i> , 2021, 269, 121229.	7.2	25
7	Accelerated weathering performance of injection moulded PP and LDPE composites reinforced with calcium rich waste resources. <i>Polymer Degradation and Stability</i> , 2021, 192, 109694.	5.8	19
8	Next-generation high-performance sustainable hybrid composite materials from silica-rich granite waste particulates and jute textile fibres in epoxy resin. <i>Industrial Crops and Products</i> , 2022, 177, 114527.	5.2	17
9	Sustainable approach towards utilizing Makrana marble waste for making water resistant green composite materials. <i>SN Applied Sciences</i> , 2020, 2, 1.	2.9	14
10	A review on calcium-rich industrial wastes: a sustainable source of raw materials in India for civil infrastructure—opportunities and challenges to bond circular economy. <i>Journal of Material Cycles and Waste Management</i> , 2022, 24, 49-62.	3.0	13
11	Sustainable approach toward novel poly(vinyl chloride) composite using calcite-rich waste particulates. <i>Journal of Vinyl and Additive Technology</i> , 2022, 28, 649-658.	3.4	2
