

Thomas E Lohmeier

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9284913/thomas-e-lohmeier-publications-by-year.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

53
papers

1,828
citations

#	Paper	IF	Citations
53	Renal Denervation Update From the International Sympathetic Nervous System Summit: JACC State-of-the-Art Review. <i>Journal of the American College of Cardiology</i> , 2019 , 73, 3006-3017	15.1	37
52	Device-Based Neuromodulation for Resistant Hypertension Therapy. <i>Circulation Research</i> , 2019 , 124, 1071-1093	15.7	30
51	Preeminent role of the cardiorenal axis in the antihypertensive response to an arteriovenous fistula: an in silico analysis. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2019 , 317, H1002-H1012	5.2	2
50	Reduced Renal Mass, Salt-Sensitive Hypertension Is Resistant to Renal Denervation. <i>Frontiers in Physiology</i> , 2018 , 9, 455	4.6	6
49	Role of the heart in blood pressure lowering during chronic baroreflex activation: insight from an in silico analysis. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2018 , 315, H1368-H1382	5.2	7
48	Illogical Critiques of the Pressure Natriuresis Theory of Chronic Hypertension. <i>American Journal of Hypertension</i> , 2016 , 29, 1332-1334	2.3	5
47	Prolonged Baroreflex Activation Abolishes Salt-Induced Hypertension After Reductions in Kidney Mass. <i>Hypertension</i> , 2016 , 68, 1400-1406	8.5	10
46	Chronic Interactions Between Carotid Baroreceptors and Chemoreceptors in Obesity Hypertension. <i>Hypertension</i> , 2016 , 68, 227-35	8.5	23
45	Global- and renal-specific sympathoinhibition in aldosterone hypertension. <i>Hypertension</i> , 2015 , 65, 1223-30	8.9	23
44	The baroreflex as a long-term controller of arterial pressure. <i>Physiology</i> , 2015 , 30, 148-58	9.8	50
43	Renal denervation for the treatment of resistant hypertension: review and clinical perspective. <i>American Journal of Physiology - Renal Physiology</i> , 2015 , 309, F583-94	4.3	36
42	Regulation of renin secretion and arterial pressure during prolonged baroreflex activation: influence of salt intake. <i>Hypertension</i> , 2014 , 64, 604-9	8.5	15
41	Baroreflex activation: from mechanisms to therapy for cardiovascular disease. <i>Current Hypertension Reports</i> , 2014 , 16, 453	4.7	24
40	Chronic activation of the baroreflex and the promise for hypertension therapy. <i>Handbook of Clinical Neurology / Edited By P J Vinken and G W Bruyn</i> , 2013 , 117, 395-406	3	3
39	The sympathetic nervous system in obesity hypertension. <i>Current Hypertension Reports</i> , 2013 , 15, 409-16	4.7	34
38	Chronic baroreflex activation restores spontaneous baroreflex control and variability of heart rate in obesity-induced hypertension. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2013 , 305, H1080-8	5.2	36
37	Abstract 354: Cardiovascular Responses to Chronic Baroreflex Activation in Aldosterone Hypertension. <i>Hypertension</i> , 2013 , 62,	8.5	2

36	Renal responses to chronic suppression of central sympathetic outflow. <i>Hypertension</i> , 2012 , 60, 749-56	8.5	27
35	Systemic and renal-specific sympathoinhibition in obesity hypertension. <i>Hypertension</i> , 2012 , 59, 331-8	8.5	107
34	Lowering of blood pressure by chronic suppression of central sympathetic outflow: insight from prolonged baroreflex activation. <i>Journal of Applied Physiology</i> , 2012 , 113, 1652-8	3.7	24
33	Renal hemodynamic responses to sustained suppression of central sympathetic outflow. <i>FASEB Journal</i> , 2012 , 26, 1104.12	0.9	
32	Influence of Renal Sympathetic Nerve Activity on Mean Arterial Pressure during Reduced Renal Perfusion Pressure. <i>FASEB Journal</i> , 2012 , 26, 1104.11	0.9	
31	Chronic lowering of blood pressure by carotid baroreflex activation: mechanisms and potential for hypertension therapy. <i>Hypertension</i> , 2011 , 57, 880-6	8.5	86
30	Systemic and Renal-Specific Sympathoinhibition in Obesity Hypertension. <i>FASEB Journal</i> , 2011 , 25, 1078.2.9		
29	Lowering of blood pressure during chronic suppression of central sympathetic outflow: insight from computer simulations. <i>Clinical and Experimental Pharmacology and Physiology</i> , 2010 , 37, e24-33	3	18
28	Sustained suppression of sympathetic activity and arterial pressure during chronic activation of the carotid baroreflex. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2010 , 299, H402-9	5.2	86
27	Chronic electrical stimulation of the carotid sinus enhances the sensitivity of baroreflex-mediated heart rate regulation. <i>FASEB Journal</i> , 2010 , 24, 794.4	0.9	
26	Mechanisms of blood pressure reduction by prolonged activation of the baroreflex. <i>Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society Annual International Conference</i> , 2009 , 2009, 2040-2	0.9	
25	Prolonged activation of the baroreflex decreases arterial pressure even during chronic adrenergic blockade. <i>Hypertension</i> , 2009 , 53, 833-8	8.5	41
24	Baroreflex stimulation: A novel treatment option for resistant hypertension. <i>Journal of the American Society of Hypertension</i> , 2009 , 3, 69-74		13
23	The Baroreflex in the Pathogenesis of Hypertension 2007 , 265-279		12
22	Prolonged activation of the baroreflex abolishes obesity-induced hypertension. <i>Hypertension</i> , 2007 , 49, 1307-14	8.5	96
21	Renal denervation does not abolish sustained baroreflex-mediated reductions in arterial pressure. <i>Hypertension</i> , 2007 , 49, 373-9	8.5	91
20	Prolonged activation of the baroreflex decreases arterial pressure in the presence of chronic adrenergic blockade. <i>FASEB Journal</i> , 2007 , 21, A516	0.9	
19	Baroreflex activation for the treatment of hypertension: principles and practice. <i>Expert Review of Medical Devices</i> , 2006 , 3, 595-601	3.5	12

18	Prolonged activation of the baroreflex: a viable approach for the treatment of hypertension?. <i>Current Hypertension Reports</i> , 2005 , 7, 193-8	4.7	34
17	Recent insights into the interactions between the baroreflex and the kidneys in hypertension. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2005 , 288, R828-36	3.2	88
16	Influence of prolonged baroreflex activation on arterial pressure in angiotensin hypertension. <i>Hypertension</i> , 2005 , 46, 1194-200	8.5	87
15	Prolonged activation of the baroreflex produces sustained hypotension. <i>Hypertension</i> , 2004 , 43, 306-11	8.5	226
14	Sustained activation of the central baroreceptor pathway in obesity hypertension. <i>Hypertension</i> , 2003 , 42, 96-102	8.5	39
13	Neurohypophysial hormones. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2003 , 285, R715-7	3.2	4
12	Interactions between angiotensin II and baroreflexes in long-term regulation of renal sympathetic nerve activity. <i>Circulation Research</i> , 2003 , 92, 1282-4	15.7	18
11	Neurohumoral regulation of arterial pressure in hemorrhage and heart failure. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2002 , 283, R810-4	3.2	8
10	Sustained activation of the central baroreceptor pathway in angiotensin hypertension. <i>Hypertension</i> , 2002 , 39, 550-6	8.5	69
9	Young Investigator Award in Regulatory and Integrative Physiology. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2002 , 282, R334-R334	3.2	
8	Sustained influence of the renal nerves to attenuate sodium retention in angiotensin hypertension. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2001 , 281, R434-43	3.2	42
7	Influence of angiotensin on the early progression of heart failure. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2000 , 278, R74-86	3.2	15
6	Baroreflexes prevent neurally induced sodium retention in angiotensin hypertension. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2000 , 279, R1437-48	3.2	80
5	Renal nerves promote sodium excretion during long-term increases in salt intake. <i>Hypertension</i> , 1999 , 33, 487-92	8.5	51
4	Renal nerves promote sodium excretion in angiotensin-induced hypertension. <i>Hypertension</i> , 1998 , 31, 429-34	8.5	33
3	Renal denervation supersensitivity revisited. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 1998 , 275, R1239-46	3.2	9
2	Role of atrial natriuretic peptide in long-term volume homeostasis. <i>Clinical and Experimental Pharmacology and Physiology</i> , 1995 , 22, 55-61	3	20
1	Hypertension induced by chronic renal adrenergic stimulation is angiotensin dependent. <i>Hypertension</i> , 1995 , 25, 940-9	8.5	37
