|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Positive and Negative Affect Schedule (PANAS): psychometric properties of the online Spanish version in a clinical sample with emotional disorders. <i>BMC Psychiatry</i> , 2020, 20, 56.                                                          | 1.1 | 91        |
| 2  | Dropping out of a transdiagnostic online intervention: A qualitative analysis of client's experiences. <i>Internet Interventions</i> , 2017, 10, 29-38.                                                                                            | 1.4 | 50        |
| 3  | A brief online transdiagnostic measure: Psychometric properties of the Overall Anxiety Severity and Impairment Scale (OASIS) among Spanish patients with emotional disorders. <i>PLoS ONE</i> , 2018, 13, e0206516.                                | 1.1 | 32        |
| 4  | Virtual reality for the enhancement of emotion regulation. <i>Clinical Psychology and Psychotherapy</i> , 2021, 28, 519-537.                                                                                                                       | 1.4 | 25        |
| 5  | Interventions for Family Members and Carers of Patients with Borderline Personality Disorder: A Systematic Review. <i>Family Process</i> , 2021, 60, 134-144.                                                                                      | 1.4 | 23        |
| 6  | Comorbidity and diagnosis distribution in transdiagnostic treatments for emotional disorders: A systematic review of randomized controlled trials. <i>PLoS ONE</i> , 2018, 13, e0207396.                                                           | 1.1 | 21        |
| 7  | Effectiveness of a Transdiagnostic Guided Internet-Delivered Protocol for Emotional Disorders Versus Treatment as Usual in Specialized Care: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e18220.          | 2.1 | 21        |
| 8  | Efficacy of a Transdiagnostic internet-based treatment for emotional disorders with a specific component to address positive affect: Study protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2017, 17, 145.                      | 1.1 | 19        |
| 9  | Negative and Positive Affect Regulation in a Transdiagnostic Internet-Based Protocol for Emotional Disorders: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e21335.                                         | 2.1 | 16        |
| 10 | Capturing the Severity and Impairment Associated With Depression: The Overall Depression Severity and Impairment Scale (ODSIS) Validation in a Spanish Clinical Sample. <i>Frontiers in Psychiatry</i> , 2019, 10, 180.                            | 1.3 | 14        |
| 11 | Predicting response to transdiagnostic iCBT for emotional disorders from patient and therapist involvement. <i>Internet Interventions</i> , 2021, 25, 100420.                                                                                      | 1.4 | 6         |
| 12 | “Family Connections”, a DBT-Based Program for Relatives of People with Borderline Personality Disorder during the COVID-19 Pandemic: A Focus Group Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 79. | 1.2 | 6         |
| 13 | Theoretical adequacy, methodological quality and efficacy of online interventions targeting resilience: a systematic review and meta-analysis. <i>European Journal of Public Health</i> , 2021, 31, i11-i18.                                       | 0.1 | 5         |
| 14 | Technological Interventions for Emotion Regulation. , 2022, , 197-218.                                                                                                                                                                             |     | 5         |
| 15 | Efficacy of “Family Connections”, a program for relatives of people with borderline personality disorder, in the Spanish population: study protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2020, 20, 302.                      | 1.1 | 4         |
| 16 | Emotion regulation and peripheral psychophysiological correlates in the management of induced pain: A systematic review. <i>PLoS ONE</i> , 2021, 16, e0253509.                                                                                     | 1.1 | 4         |
| 17 | Ecological momentary intervention to enhance emotion regulation in healthcare workers via smartphone: a randomized controlled trial protocol. <i>BMC Psychiatry</i> , 2022, 22, 164.                                                               | 1.1 | 4         |
| 18 | Spanish Adaptation of the Overall Anxiety and Depression Severity and Impairment Scales in University Students. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 345.                                          | 1.2 | 4         |

| #  | ARTICLE                                                                                                                                                                                                                                                                                            | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Protocol for a randomized controlled dismantling study of an internet-based intervention for depressive symptoms: exploring the contribution of behavioral activation and positive psychotherapy strategies. <i>BMC Psychiatry</i> , 2019, 19, 133.                                                | 1.1 | 3         |
| 20 | Blended transdiagnostic group CBT for emotional disorders: A feasibility trial protocol. <i>Internet Interventions</i> , 2021, 23, 100363.                                                                                                                                                         | 1.4 | 3         |
| 21 | mHealth for the Monitoring of Brace Compliance and Wellbeing in Adolescents with Idiopathic Scoliosis: Study Protocol for a Feasibility Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7767.                                                          | 1.2 | 3         |
| 22 | Programa de tratamiento integrativo para la fibromialgia: estudio preliminar. , 2018, , 327-336.                                                                                                                                                                                                   |     | 1         |
| 23 | La aceptabilidad de un protocolo de tratamiento transdiagnóstico autoaplicado a través de internet: datos preliminares. <i>Égora De Salut</i> , 2016, , 165-173.                                                                                                                                   | 0.0 | 0         |
| 24 | La regulación emocional en los trastornos emocionales, una piedra nodal para los abordajes transdiagnósticos: una revisión de la literatura. , 0, IV, 111-121.                                                                                                                                     |     | 0         |
| 25 | Clients'™ Experiences With Internet-Based Psychological Treatments for Mental Disorders: Protocol for a Metasynthesis of Qualitative Studies. <i>JMIR Research Protocols</i> , 2018, 7, e183.                                                                                                      | 0.5 | 0         |
| 26 | Usability of a Transdiagnostic Internet-Delivered Protocol for Anxiety and Depression in Community Patients. <i>Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering</i> , 2019, , 147-156.                                                 | 0.2 | 0         |
| 27 | An Internet-Based Intervention for Depressive Symptoms: Preliminary Data on the Contribution of Behavioral Activation and Positive Psychotherapy Strategies. <i>Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering</i> , 2019, , 129-146. | 0.2 | 0         |
| 28 | Prácticas de PS1034: Evaluación e Intervención Clínica. , 0, , .                                                                                                                                                                                                                                   |     | 0         |
