

Anna Taddio

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9304032/anna-taddio-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
93	Introducing a practical tool to reduce fear and anxiety during COVID-19. <i>Canadian Pharmacists Journal</i> , 2021 , 154, 26-29	1.3	2
92	Factors associated with parents' experiences using a knowledge translation tool for vaccination pain management: a qualitative study. <i>BMC Health Services Research</i> , 2021 , 21, 355	2.9	2
91	Understanding parents' use of a knowledge translation tool to manage children's vaccination pain. <i>Pain Reports</i> , 2021 , 6, e907	3.5	1
90	Feasibility of implementation of CARDI for school-based immunizations in Calgary, Alberta: a cluster trial. <i>BMC Public Health</i> , 2021 , 21, 260	4.1	1
89	Managing pain and fear: Playing your CARDS to improve the vaccination experience. <i>Canada Communicable Disease Report</i> , 2021 , 47, 87-91	3.1	2
88	Benchmarking public health pain management practices during school immunizations. <i>Canada Communicable Disease Report</i> , 2020 , 45, 367-372	3.1	2
87	Implementation Effectiveness of a Parent-Directed YouTube Video ("It Doesn't Have To Hurt") on Evidence-Based Strategies to Manage Needle Pain: Descriptive Survey Study. <i>JMIR Pediatrics and Parenting</i> , 2020 , 3, e13552	4.2	7
86	Student Feedback to Tailor the CARDI System for Improving the Immunization Experience at School. <i>Children</i> , 2020 , 7,	2.8	2
85	Reducing pain and distress related to needle procedures in children with cancer: A clinical practice guideline. <i>European Journal of Cancer</i> , 2020 , 131, 53-67	7.5	9
84	Effect of alcohol skin cleansing on vaccination-associated infections and local skin reactions: a randomized controlled trial. <i>Human Vaccines and Immunotherapeutics</i> , 2019 , 15, 995-1002	4.4	3
83	Piloting The CARDI System for education of students about vaccination: Does it improve the vaccination experience at school?. <i>Paediatrics and Child Health</i> , 2019 , 24, S35-S41	0.7	4
82	The CARDI System for improving the vaccination experience at school: Results of a small-scale implementation project on student symptoms. <i>Paediatrics and Child Health</i> , 2019 , 24, S42-S53	0.7	18
81	The CARDI System for improving the vaccination experience at school: Results of a small-scale implementation project on program delivery. <i>Paediatrics and Child Health</i> , 2019 , 24, S54-S67	0.7	8
80	Pain Pain Go Away: Improving the vaccination experience at school. <i>Paediatrics and Child Health</i> , 2019 , 24, S1-S2	0.7	8
79	Involving stakeholders in informing the development of a Knowledge Translation (KT) intervention to improve the vaccination experience at school. <i>Paediatrics and Child Health</i> , 2019 , 24, S19-S28	0.7	12
78	Stakeholder feedback on The CARDI System to improve the vaccination experience at school. <i>Paediatrics and Child Health</i> , 2019 , 24, S29-S34	0.7	5
77	Overview of a Knowledge Translation (KT) Project to improve the vaccination experience at school: The CARDI System. <i>Paediatrics and Child Health</i> , 2019 , 24, S3-S18	0.7	9

76	Describing drug and fluid therapy in the paediatric intensive care unit: A pilot study. <i>Journal of Critical Care</i> , 2019 , 52, 53-57	4	1
75	Nonpharmacologic Management of Pain During Common Needle Puncture Procedures in Infants: Current Research Evidence and Practical Considerations: An Update. <i>Clinics in Perinatology</i> , 2019 , 46, 709-730	2.8	12
74	Featured Article: The ABCDs of Pain Management: A Double-Blind Randomized Controlled Trial Examining the Impact of a Brief Educational Video on Infants and Toddlers' Pain Scores and Parent Soothing Behavior. <i>Journal of Pediatric Psychology</i> , 2018 , 43, 224-233	3.2	10
73	The minimally effective dose of sucrose for procedural pain relief in neonates: a randomized controlled trial. <i>BMC Pediatrics</i> , 2018 , 18, 85	2.6	31
72	Brief Clinical Report: A Systematic Review and Meta-analysis of Pain Memory-reframing Interventions for Children's Needle Procedures. <i>Pain Practice</i> , 2018 , 18, 123-129	3	16
71	To look or not to look during vaccination: A pilot randomized trial.. <i>Canadian Journal of Pain</i> , 2018 , 2, 1-8	1.5	2
70	Safety of fentanyl for peripherally inserted central catheter in non-intubated infants in the neonatal intensive care unit. <i>Journal of Perinatology</i> , 2018 , 38, 526-529	3.1	1
69	Pharmacists as vaccinators: An analysis of their experiences and perceptions of their new role. <i>Human Vaccines and Immunotherapeutics</i> , 2018 , 14, 471-477	4.4	19
68	Effectiveness of a hospital-based postnatal parent education intervention about pain management during infant vaccination: a randomized controlled trial. <i>Cmaj</i> , 2018 , 190, E1245-E1252	3.5	5
67	A cohort study of intranasal fentanyl for procedural pain management in neonates. <i>Paediatrics and Child Health</i> , 2018 , 23, e170-e175	0.7	4
66	Intravenous midazolam infusion for sedation of infants in the neonatal intensive care unit. <i>The Cochrane Library</i> , 2017 , 1, CD002052	5.2	30
65	A Longitudinal Randomized Trial of the Effect of Consistent Pain Management for Infant Vaccinations on Future Vaccination Distress. <i>Journal of Pain</i> , 2017 , 18, 1060-1066	5.2	1
64	The Power of a Parent's Touch: Evaluation of Reach and Impact of a Targeted Evidence-Based YouTube Video. <i>Journal of Perinatal and Neonatal Nursing</i> , 2017 , 31, 341-349	1.5	13
63	Relative effectiveness of additive pain interventions during vaccination in infants. <i>Cmaj</i> , 2017 , 189, E227-E234	3.5	12
62	Health utilities in people with chronic pain using a population-level survey and linked health care administrative data. <i>Pain</i> , 2017 , 158, 408-416	8	13
61	Parent-led interventions in reducing infant vaccination pain after participation in a longitudinal randomized control trial. <i>Paediatrics and Child Health</i> , 2017 , 22, 217-219	0.7	0
60	Taking the sting out of school-based immunizations. <i>Paediatrics and Child Health</i> , 2017 , 22, 41-42	0.7	10
59	A randomized trial of the effect of vaccine injection speed on acute pain in infants. <i>Vaccine</i> , 2016 , 34, 4672-4677	4.1	5

58	Reply. <i>Pain</i> , 2016 , 157, 1834		8
57	Exposure-based Interventions for the management of individuals with high levels of needle fear across the lifespan: a clinical practice guideline and call for further research. <i>Cognitive Behaviour Therapy</i> , 2016 , 45, 217-35	4.4	42
56	Are parents really that important to managing vaccination pain during infancy?. <i>Pain Management</i> , 2016 , 6, 13-7	2.3	2
55	Systematic Review: Predisposing, Precipitating, Perpetuating, and Present Factors Predicting Anticipatory Distress to Painful Medical Procedures in Children. <i>Journal of Pediatric Psychology</i> , 2016 , 41, 159-81	3.2	36
54	Pain management during childhood vaccination injections in Portugal - a call to action. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2016 , 105, e338	3.1	2
53	Predicting preschool pain-related anticipatory distress: the relative contribution of longitudinal and concurrent factors. <i>Pain</i> , 2016 , 157, 1918-1932	8	14
52	Impact of parent-directed education on parental use of pain treatments during routine infant vaccinations: a cluster randomized trial. <i>Pain</i> , 2015 , 156, 185-191	8	21
51	Why are children still crying? Going beyond "evidence" in guideline development to improve pain care for children: the HELPiKIDS experience. <i>Pain</i> , 2015 , 156 Suppl 1, S127-S135	8	3
50	Intraurethral Lidocaine for Urethral Catheterization in Children: A Randomized Controlled Trial. <i>Pediatrics</i> , 2015 , 136, e879-86	7.4	7
49	Reducing pain during vaccine injections: clinical practice guideline. <i>Cmaj</i> , 2015 , 187, 975-982	3.5	143
48	Psychological interventions for needle-related procedural pain and distress in children and adolescents. <i>Paediatrics and Child Health</i> , 2015 , 20, 195-6	0.7	20
47	Far From "Just a Poke": Common Painful Needle Procedures and the Development of Needle Fear. <i>Clinical Journal of Pain</i> , 2015 , 31, S3-11	3.5	145
46	Publicly available online educational videos regarding pediatric needle pain: a scoping review. <i>Clinical Journal of Pain</i> , 2015 , 31, S91-8	3.5	27
45	Procedural and Physical Interventions for Vaccine Injections: Systematic Review of Randomized Controlled Trials and Quasi-Randomized Controlled Trials. <i>Clinical Journal of Pain</i> , 2015 , 31, S20-37	3.5	47
44	A randomized trial of rotavirus vaccine versus sucrose solution for vaccine injection pain. <i>Vaccine</i> , 2015 , 33, 2939-43	4.1	15
43	Usability and knowledge testing of educational tools about infant vaccination pain management directed to postnatal nurses. <i>BMC Medical Education</i> , 2015 , 15, 45	3.3	3
42	Setting the Stage for Improved Practices During Vaccine Injections: A Knowledge Synthesis of Interventions for the Management of Pain and Fear. <i>Clinical Journal of Pain</i> , 2015 , 31, S1-2	3.5	5
41	Methodology for Knowledge Synthesis of the Management of Vaccination Pain and Needle Fear. <i>Clinical Journal of Pain</i> , 2015 , 31, S12-9	3.5	19

40	Impact of prenatal education on maternal utilization of analgesic interventions at future infant vaccinations: a cluster randomized trial. <i>Pain</i> , 2014 , 155, 1288-1292	8	22
39	From the mouth of babes: Getting vaccinated doesn't have to hurt. <i>Canadian Journal of Infectious Diseases and Medical Microbiology</i> , 2014 , 25, 196-200	2.6	27
38	A systematic review of vapocoolants for reducing pain from venipuncture and venous cannulation in children and adults. <i>Journal of Emergency Medicine</i> , 2014 , 47, 736-49	1.5	37
37	A randomized controlled trial of clinician-led tactile stimulation to reduce pain during vaccination in infants. <i>Clinical Pediatrics</i> , 2014 , 53, 639-44	1.2	9
36	Teaching parents to manage pain during infant immunizations: laying the foundation for better pain management practices. <i>Clinical Journal of Pain</i> , 2014 , 30, 987-94	3.5	8
35	Validation of the Premature Infant Pain Profile-Revised (PIPP-R). <i>Early Human Development</i> , 2014 , 90, 189-93	2.2	83
34	Knowledge translation of the HELPinKIDS clinical practice guideline for managing childhood vaccination pain: usability and knowledge uptake of educational materials directed to new parents. <i>BMC Pediatrics</i> , 2013 , 13, 23	2.6	37
33	Implementation of a new clinical practice guideline regarding pain management during childhood vaccine injections. <i>Paediatrics and Child Health</i> , 2013 , 18, 367-72	0.7	7
32	Survey of the prevalence of immunization non-compliance due to needle fears in children and adults. <i>Vaccine</i> , 2012 , 30, 4807-12	4.1	251
31	Addressing parental concerns about pain during childhood vaccination: is there enough time to include pain management in the ambulatory setting?. <i>Clinical Journal of Pain</i> , 2012 , 28, 238-42	3.5	16
30	Evaluation of the reliability, validity and practicality of 3 measures of acute pain in infants undergoing immunization injections. <i>Vaccine</i> , 2011 , 29, 1390-4	4.1	35
29	Epidemiology and management of painful procedures in children in Canadian hospitals. <i>Cmaj</i> , 2011 , 183, E403-10	3.5	169
28	Effect of liposomal lidocaine and sucrose alone and in combination for venipuncture pain in newborns. <i>Pediatrics</i> , 2011 , 127, e940-7	7.4	15
27	The fetal safety of hydrocortisone-pramoxine (Proctofoam-HC) for the treatment of hemorrhoids in late pregnancy. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2011 , 33, 153-158	1.3	10
26	Reducing the pain of childhood vaccination: an evidence-based clinical practice guideline. <i>Cmaj</i> , 2010 , 182, E843-55	3.5	136
25	A randomized controlled trial of analgesia during vaccination in adults. <i>Vaccine</i> , 2010 , 28, 5365-9	4.1	20
24	Canadian neonatologist practices regarding opioid use in ventilated and spontaneously breathing infants undergoing medical procedures. <i>Clinical Journal of Pain</i> , 2010 , 26, 422-8	3.5	7
23	Reduced infant response to a routine care procedure after sucrose analgesia. <i>Pediatrics</i> , 2009 , 123, e425-9	4.1	25

22	Reliability and validity of observer ratings of pain using the visual analog scale (VAS) in infants undergoing immunization injections. <i>Pain</i> , 2009 , 147, 141-6	8	34
21	Inadequate pain management during routine childhood immunizations: the nerve of it. <i>Clinical Therapeutics</i> , 2009 , 31 Suppl 2, S152-67	3.5	163
20	Psychological interventions for reducing pain and distress during routine childhood immunizations: a systematic review. <i>Clinical Therapeutics</i> , 2009 , 31 Suppl 2, S77-S103	3.5	146
19	Physical interventions and injection techniques for reducing injection pain during routine childhood immunizations: systematic review of randomized controlled trials and quasi-randomized controlled trials. <i>Clinical Therapeutics</i> , 2009 , 31 Suppl 2, S48-76	3.5	99
18	Effectiveness and tolerability of pharmacologic and combined interventions for reducing injection pain during routine childhood immunizations: systematic review and meta-analyses. <i>Clinical Therapeutics</i> , 2009 , 31 Suppl 2, S104-51	3.5	102
17	Influence of repeated painful procedures and sucrose analgesia on the development of hyperalgesia in newborn infants. <i>Pain</i> , 2009 , 144, 43-8	8	78
16	Variability in clinical practice guidelines for sweetening agents in newborn infants undergoing painful procedures. <i>Clinical Journal of Pain</i> , 2009 , 25, 153-5	3.5	32
15	Safety of morphine in nonintubated infants in the neonatal intensive care unit. <i>Clinical Journal of Pain</i> , 2009 , 25, 418-22	3.5	16
14	Effectiveness of sucrose analgesia in newborns undergoing painful medical procedures. <i>Cmaj</i> , 2008 , 179, 37-43	3.5	74
13	Routine immunization practices: use of topical anesthetics and oral analgesics. <i>Pediatrics</i> , 2007 , 120, e637-43	7.4	74
12	Intravenous morphine and topical tetracaine for treatment of pain in [corrected] neonates undergoing central line placement. <i>JAMA - Journal of the American Medical Association</i> , 2006 , 295, 793-800	7.4	49
11	Contact dermatitis and bradycardia in a preterm infant given tetracaine 4% gel. <i>Therapeutic Drug Monitoring</i> , 2006 , 28, 291-4	3.2	12
10	The effects of early pain experience in neonates on pain responses in infancy and childhood. <i>Paediatric Drugs</i> , 2005 , 7, 245-57	4.2	109
9	Liposomal lidocaine to improve procedural success rates and reduce procedural pain among children: a randomized controlled trial. <i>Cmaj</i> , 2005 , 172, 1691-5	3.5	105
8	Pain, opioid tolerance and sensitisation to nociception in the neonate. <i>Baillieres Best Practice and Research in Clinical Anaesthesiology</i> , 2004 , 18, 291-302	4	11
7	Pharmacologic Management of Painful Oncology Procedures in Pediatrics. <i>American Journal of Cancer</i> , 2003 , 2, 403-426		2
6	Beta-endorphin concentration after administration of sucrose in preterm infants. <i>JAMA Pediatrics</i> , 2003 , 157, 1071-4		46
5	Conditioning and hyperalgesia in newborns exposed to repeated heel lances. <i>JAMA - Journal of the American Medical Association</i> , 2002 , 288, 857-61	27.4	249

4	Lidocaine-prilocaine cream versus tetracaine gel for procedural pain in children. <i>Annals of Pharmacotherapy</i> , 2002 , 36, 687-92	2.9	35
3	Opioid analgesia for infants in the neonatal intensive care unit. <i>Clinics in Perinatology</i> , 2002 , 29, 493-509	2.8	23
2	Pain management for neonatal circumcision. <i>Paediatric Drugs</i> , 2001 , 3, 101-11	4.2	41
1	Effect of neonatal circumcision on pain response during subsequent routine vaccination. <i>Lancet, The</i> , 1997 , 349, 599-603	4.0	931
