#	ARTICLE	IF	CITATIONS
1	Effects of internet-based training on antibiotic prescribing rates for acute respiratory-tract infections: a multinational, cluster, randomised, factorial, controlled trial. <i>Lancet, The</i> , 2013, 382, 1175-1182.	6.3	329
2	Antibiotic prescribing for acute respiratory tract infections in primary care: a systematic review and meta-ethnography. <i>Journal of Antimicrobial Chemotherapy</i> , 2011, 66, 2215-2223.	1.3	181
3	Effectiveness of physician-targeted interventions to improve antibiotic use for respiratory tract infections. <i>British Journal of General Practice</i> , 2012, 62, e801-e807.	0.7	155
4	European Surveillance of Antimicrobial Consumption (ESAC): disease-specific quality indicators for outpatient antibiotic prescribing. <i>BMJ Quality and Safety</i> , 2011, 20, 764-772.	1.8	122
5	Understanding by Older Patients of Dialysis and Conservative Management for Chronic Kidney Failure. <i>American Journal of Kidney Diseases</i> , 2015, 65, 443-450.	2.1	90
6	Evaluation of a web-based intervention to reduce antibiotic prescribing for LRTI in six European countries: quantitative process analysis of the GRACE/INTRO randomised controlled trial. <i>Implementation Science</i> , 2013, 8, 134.	2.5	84
7	Clinicians's Views and Experiences of Interventions to Enhance the Quality of Antibiotic Prescribing for Acute Respiratory Tract Infections. <i>Journal of General Internal Medicine</i> , 2015, 30, 408-416.	1.3	78
8	Exploring Patients' Views of a Cognitive Behavioral Therapy-Based Website for the Self-Management of Irritable Bowel Syndrome Symptoms. <i>Journal of Medical Internet Research</i> , 2013, 15, e190.	2.1	77
9	Transformation of primary care during the COVID-19 pandemic: experiences of healthcare professionals in eight European countries. <i>British Journal of General Practice</i> , 2021, 71, e634-e642.	0.7	76
10	Discrepancies between qualitative and quantitative evaluation of randomised controlled trial results: achieving clarity through mixed methods triangulation. <i>Implementation Science</i> , 2015, 11, 66.	2.5	65
11	General practitioners's views on the acceptability and applicability of a web-based intervention to reduce antibiotic prescribing for acute cough in multiple European countries: a qualitative study prior to a randomised trial. <i>BMC Family Practice</i> , 2012, 13, 101.	2.9	64
12	Factors associated with antibiotic prescribing for adults with acute conditions: an umbrella review across primary care and a systematic review focusing on primary dental care. <i>Journal of Antimicrobial Chemotherapy</i> , 2019, 74, 2139-2152.	1.3	63
13	General practitioner and nurse prescriber experiences of prescribing antibiotics for respiratory tract infections in UK primary care out-of-hours services (the UNITE study). <i>Journal of Antimicrobial Chemotherapy</i> , 2018, 73, 795-803.	1.3	52
14	Face coverings for covid-19: from medical intervention to social practice. <i>BMJ, The</i> , 2020, 370, m3021.	3.0	51
15	Conservative Care for ESRD in the United Kingdom. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2015, 10, 120-126.	2.2	49
16	Contribution of behavioural science to antibiotic stewardship. <i>BMJ, The</i> , 2015, 350, h3413-h3413.	3.0	45
17	Exploring patients's views of primary care consultations with contrasting interventions for acute cough: a six-country European qualitative study. <i>Npj Primary Care Respiratory Medicine</i> , 2014, 24, 14026.	1.1	43
18	Parents's perceptions of antibiotic use and antibiotic resistance (PAUSE): a qualitative interview study. <i>Journal of Antimicrobial Chemotherapy</i> , 2019, 74, 1741-1747.	1.3	43

#	ARTICLE	IF	CITATIONS
19	Integrating quantitative and qualitative data and findings when undertaking randomised controlled trials. <i>BMJ Open</i> , 2019, 9, e032081.	0.8	42
20	GPs' views in five European countries of interventions to promote prudent antibiotic use. <i>British Journal of General Practice</i> , 2011, 61, e252-e261.	0.7	42
21	Patient attitudes towards kidney transplant listing: qualitative findings from the ATTOM study. <i>Nephrology Dialysis Transplantation</i> , 2014, 29, 2144-2150.	0.4	38
22	Antibiotic Prescribing for Acute Respiratory Tract Infections 12 Months After Communication and CRP Training: A Randomized Trial. <i>Annals of Family Medicine</i> , 2019, 17, 125-132.	0.9	38
23	Patients'™ Experiences After CKD Diagnosis: A Meta-ethnographic Study and Systematic Review. <i>American Journal of Kidney Diseases</i> , 2017, 70, 656-665.	2.1	35
24	Reducing demand for antibiotic prescriptions: evidence from an online survey of the general public on the interaction between preferences, beliefs and information, United Kingdom, 2015. <i>Eurosurveillance</i> , 2018, 23, .	3.9	33
25	Perceptions on undertaking regular asymptomatic self-testing for COVID-19 using lateral flow tests: a qualitative study of university students and staff. <i>BMJ Open</i> , 2021, 11, e053850.	0.8	33
26	Understanding the policy dynamics of COVID-19 in the UK: Early findings from interviews with policy makers and health care professionals. <i>Social Science and Medicine</i> , 2020, 266, 113423.	1.8	31
27	A national study of practice patterns in UK renal units in the use of dialysis and conservative kidney management to treat people aged 75 years and over with chronic kidney failure. <i>Health Services and Delivery Research</i> , 2015, 3, 1-186.	1.4	30
28	Understanding how community antiretroviral delivery influences engagement in HIV care: a qualitative assessment of the Centralised Chronic Medication Dispensing and Distribution programme in South Africa. <i>BMJ Open</i> , 2020, 10, e035412.	0.8	26
29	Patient and Primary Care Physician Perceptions of Penicillin Allergy Testing and Subsequent Use of Penicillin-Containing Antibiotics: A Qualitative Study. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , 2019, 7, 1888-1893.e1.	2.0	25
30	Patient and Prescriber Views of Penicillin Allergy Testing and Subsequent Antibiotic Use: A Rapid Review. <i>Antibiotics</i> , 2018, 7, 71.	1.5	24
31	Reducing expectations for antibiotics in primary care: a randomised experiment to test the response to fear-based messages about antimicrobial resistance. <i>BMC Medicine</i> , 2020, 18, 110.	2.3	24
32	Following the science? Views from scientists on government advisory boards during the COVID-19 pandemic: a qualitative interview study in five European countries. <i>BMJ Global Health</i> , 2021, 6, e006928.	2.0	24
33	Impact of the COVID-19 Pandemic on Community Antibiotic Prescribing and Stewardship: A Qualitative Interview Study with General Practitioners in England. <i>Antibiotics</i> , 2021, 10, 1531.	1.5	24
34	GPs'™ views on managing advanced chronic kidney disease in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2015, 65, e469-e477.	0.7	23
35	Social and Contextual Influences on Antibiotic Prescribing and Antimicrobial Stewardship: A Qualitative Study with Clinical Commissioning Group and General Practice Professionals. <i>Antibiotics</i> , 2020, 9, 859.	1.5	23
36	How Can National Antimicrobial Stewardship Interventions in Primary Care Be Improved? A Stakeholder Consultation. <i>Antibiotics</i> , 2019, 8, 207.	1.5	20

#	ARTICLE	IF	CITATIONS
37	Patients' perceptions of the potential of breathing training for asthma: a qualitative study. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2013, 22, 449-453.	2.5	18
38	Treatment of End-stage Kidney Failure without Renal Replacement Therapy. <i>Seminars in Dialysis</i> , 2016, 29, 491-506.	0.7	18
39	Variation in Practice Patterns for Listing Patients for Renal Transplantation in the United Kingdom. <i>Transplantation</i> , 2018, 102, 961-968.	0.5	17
40	Conditionality of COVID-19 vaccine acceptance in European countries. <i>Vaccine</i> , 2022, 40, 1191-1197.	1.7	17
41	Strategies to promote prudent antibiotic use: exploring the views of professionals who develop and implement guidelines and interventions. <i>Family Practice</i> , 2013, 30, 88-95.	0.8	16
42	Platform Randomised trial of Interventions against COVID-19 In older peoPLE (PRINCIPLE): protocol for a randomised, controlled, open-label, adaptive platform, trial of community treatment of COVID-19 syndromic illness in people at higher risk. <i>BMJ Open</i> , 2021, 11, e046799.	0.8	16
43	Patients' and clinicians' perspectives on the primary care consultations for acute respiratory infections during the first wave of the COVID-19 pandemic: an eight-country qualitative study in Europe. <i>BJGP Open</i> , 2022, 6, BJGPO.2021.0172.	0.9	16
44	Experiences and concerns of health workers throughout the first year of the COVID-19 pandemic in the UK: A longitudinal qualitative interview study. <i>PLoS ONE</i> , 2022, 17, e0264906.	1.1	16
45	How did a Quality Premium financial incentive influence antibiotic prescribing in primary care? Views of Clinical Commissioning Group and general practice professionals. <i>Journal of Antimicrobial Chemotherapy</i> , 2020, 75, 2681-2688.	1.3	14
46	Focus group study exploring the issues and the solutions to incorrect penicillin allergy-labelled patients: an antibiotic stewardship patient safety initiative. <i>European Journal of Hospital Pharmacy</i> , 2021, 28, 71-75.	0.5	14
47	Primary care for patients with respiratory tract infection before and early on in the COVID-19 pandemic: an observational study in 16 European countries. <i>BMJ Open</i> , 2021, 11, e049257.	0.8	14
48	Implementing interventions to reduce antibiotic use: a qualitative study in high-prescribing practices. <i>BMC Family Practice</i> , 2021, 22, 25.	2.9	13
49	Feasibility and Acceptability of Community Coronavirus Disease 2019 Testing Strategies (FACTS) in a University Setting. <i>Open Forum Infectious Diseases</i> , 2021, 8, .	0.4	13
50	How can behavioural science contribute to qualitative research on antimicrobial stewardship in primary care?. <i>JAC-Antimicrobial Resistance</i> , 2022, 4, dlac007.	0.9	13
51	Introducing new point-of-care tests for common infections in publicly funded clinics in South Africa: a qualitative study with primary care clinicians. <i>BMJ Open</i> , 2019, 9, e029260.	0.8	12
52	Management of penicillin allergy in primary care: a qualitative study with patients and primary care physicians. <i>BMC Family Practice</i> , 2021, 22, 112.	2.9	11
53	Optimising antimicrobial stewardship interventions in English primary care: a behavioural analysis of qualitative and intervention studies. <i>BMJ Open</i> , 2020, 10, e039284.	0.8	10
54	Protocol for a randomised feasibility study of Point-Of-care HIV viral load testing to Enhance Re-suppression in South Africa: the POWER study. <i>BMJ Open</i> , 2021, 11, e045373.	0.8	9

#	ARTICLE	IF	CITATIONS
55	Experiences and needs of persons living with a household member infected with SARS-CoV-2: A mixed method study. PLoS ONE, 2021, 16, e0249391.	1.1	9
56	Gender in the consolidated criteria for reporting qualitative research (COREQ) checklist. International Journal for Quality in Health Care, 2021, 33, .	0.9	9
57	How do Healthcare Workers "Do"™ Guidelines? Exploring How Policy Decisions Impacted UK Healthcare Workers During the First Phase of the COVID-19 Pandemic. Qualitative Health Research, 2022, 32, 729-743.	1.0	9
58	Developing a behavioural intervention package to identify and amend incorrect penicillin allergy records in UK general practice and subsequently change antibiotic use. BMJ Open, 2020, 10, e035793.	0.8	8
59	Estimating the Effect of Healthcare-Associated Infections on Excess Length of Hospital Stay Using Inverse Probability-Weighted Survival Curves. Clinical Infectious Diseases, 2020, 71, e415-e420.	2.9	8
60	Perspectives on COVID-19 testing policies and practices: a qualitative study with scientific advisors and NHS health care workers in England. BMC Public Health, 2021, 21, 1216.	1.2	8
61	Supporting Primary Care Professionals to Stay in Work During the COVID-19 Pandemic: Views on Personal Risk and Access to Testing During the First Wave of Pandemic in Europe. Frontiers in Medicine, 2021, 8, 726319.	1.2	8
62	The experience of European hospital-based health care workers on following infection prevention and control procedures and their wellbeing during the first wave of the COVID-19 pandemic. PLoS ONE, 2022, 17, e0245182.	1.1	8
63	Assessing Consensus Between UK Renal Clinicians on Listing for Kidney Transplantation: A Modified Delphi Study. Transplantation Direct, 2018, 4, e343.	0.8	7
64	Decision-making for people with dementia and advanced kidney disease: a secondary qualitative analysis of interviews from the Conservative Kidney Management Assessment of Practice Patterns Study. BMJ Open, 2018, 8, e022385.	0.8	7
65	Optimising Interventions for Catheter-Associated Urinary Tract Infections (CAUTI) in Primary, Secondary and Care Home Settings. Antibiotics, 2020, 9, 419.	1.5	7
66	Primary care preparedness for the SARS-CoV-2 pandemic: a survey of NHS GPs. Family Practice, 2022, 39, 332-339.	0.8	7
67	Changing the antibiotic prescribing behaviour of clinicians in primary care. Cmaj, 2016, 188, 94-95.	0.9	6
68	Investigating the mechanism of impact and differential effect of the Quality Premium scheme on antibiotic prescribing in England: a longitudinal study. BJGP Open, 2020, 4, bjgpopen20X101052.	0.9	6
69	Role of locum GPs in antibiotic prescribing and stewardship: a mixed-methods study. British Journal of General Practice, 2022, 72, e118-e127.	0.7	6
70	Point-of-care tests for infectious diseases: barriers to implementation across three London teaching hospitals. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1192-1195.	0.7	5
71	Perceptions on undertaking regular asymptomatic self-testing for COVID-19 using lateral flow tests: a qualitative study of university students and staff. BMJ Open, 2021, 11, e053850.	0.8	5
72	Methodological and Ethical Considerations when Conducting Qualitative Interview Research With Healthcare Professionals: Reflections and Recommendations as a Result of a Pandemic. International Journal of Qualitative Methods, The, 2022, 21, 160940692210777.	1.3	5
