Version: 2024-02-01

69 papers

4,939 citations

147801 31 h-index 64 g-index

69 all docs

69 docs citations

69 times ranked 4608 citing authors

#	Article	lF	CITATIONS
1	Exposure to Parental Aggression and the Development of Psychopathology in Young Children: The Mediating Role of Early Dissociative Symptoms. Journal of Interpersonal Violence, 2022, 37, NP6988-NP7013.	2.0	3
2	Early executive and school functioning: Protective roles of home environment by income. Journal of Applied Developmental Psychology, 2022, 78, 101369.	1.7	1
3	Integrating dynamic and developmental time scales: Emotion-specific autonomic coordination predicts baseline functioning over time. International Journal of Psychophysiology, 2022, 171, 29-37.	1.0	2
4	<scp>Father–child</scp> physiological concordance on two timescales is differentially associated with paternal characteristics. Psychophysiology, 2022, , e14073.	2.4	1
5	An eventâ€based analysis of maternal physiological reactivity following aversive child behaviors. Psychophysiology, 2022, 59, e14093.	2.4	4
6	A dynamic systems account of parental selfâ€regulation processes in the context of challenging child behavior. Child Development, 2022, 93, .	3.0	8
7	Decision-making in uncertain contexts: The role of autonomic markers in resolving indecision. International Journal of Psychophysiology, 2022, 177, 220-229.	1.0	4
8	Proximity to sources of airborne lead is associated with reductions in Children's executive function in the first four years of life. Health and Place, 2021, 68, 102517.	3.3	10
9	Concordance of mother-child respiratory sinus arrythmia is continually moderated by dynamic changes in emotional content of film stimuli. Biological Psychology, 2021, 161, 108053.	2.2	13
10	The developmental cascade of early parenting, emergence of executive functioning, and emotional symptoms across childhood. Infant Mental Health Journal, 2021, 42, 331-345.	1.8	1
11	Capturing emotion coherence in daily life: Using ambulatory physiology measures and ecological momentary assessments to examine within-person associations and individual differences. Biological Psychology, 2021, 162, 108074.	2.2	10
12	The reliability of visual ERP components in children across the first year of school. Developmental Psychobiology, 2021, 63, e22150.	1.6	2
13	Association between EEG asymmetry and the error-related negativity across middle childhood. Biological Psychology, 2021, 163, 108137.	2.2	O
14	Association Between Dynamic Parasympathetic Reactivity to Frustration and Children's Social Success with Peers in Kindergarten. Research on Child and Adolescent Psychopathology, 2021, 49, 1537-1549.	2.3	1
15	A biopsychosocial approach to emotion-related parenting: Physiological responses to child frustration among urban Chinese parents Journal of Family Psychology, 2021, 35, 639-648.	1.3	3
16	Developmental changes in external and internal performance monitoring across middle childhood: An ERP study. International Journal of Psychophysiology, 2021, 169, 20-33.	1.0	1
17	When you go low, I go high: Negative coordination of physiological synchrony among parents and children. Developmental Psychobiology, 2020, 62, 310-323.	1.6	31
18	Association between environmental tobacco smoke exposure across the first four years of life and manifestation of externalizing behavior problems in schoolâ€aged children. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2020, 61, 1243-1252.	5.2	15

#	Article	IF	Citations
19	Neurophysiological evidence for distinct biases in emotional face processing associated with internalizing and externalizing symptoms in children. Biological Psychology, 2020, 150, 107829.	2.2	8
20	A registered report format for <i>Psychophysiology</i> . Psychophysiology, 2020, 57, .	2.4	6
21	SPR statement on racial justice. Psychophysiology, 2020, 57, e13634.	2.4	0
22	Cortical and affective regulation of autonomic coordination. Psychophysiology, 2020, 57, e13544.	2.4	10
23	Predictors of Developmental Patterns of Obesity in Young Children. Frontiers in Pediatrics, 2020, 8, 109.	1.9	7
24	Conducting Event-Related Potential (ERP) Research With Young Children. Journal of Psychophysiology, 2020, 34, 137-158.	0.7	37
25	Parental support of self-regulation among children at risk for externalizing symptoms: Developmental trajectories of physiological regulation and behavioral adjustment Developmental Psychology, 2020, 56, 528-540.	1.6	20
26	Physiological Regulation among Caregivers and their Children: Relations with Trauma History, Symptoms, and Parenting Behavior. Journal of Child and Family Studies, 2019, 28, 3098-3109.	1.3	5
27	Magnitude and Chronicity of Environmental Smoke Exposure Across Infancy and Early Childhood in a Sample of Low-Income Children. Nicotine and Tobacco Research, 2019, 21, 1665-1672.	2.6	15
28	The association between perinatal hypoxia exposure and externalizing symptoms and children's decision making in conditions of uncertainty is moderated by DRD2 genotype. Developmental Psychobiology, 2019, 61, 56-68.	1.6	0
29	Children's Sensitivity to Cost and Reward in Decision Making across Distinct Domains of Probability, Effort, and Delay. Journal of Behavioral Decision Making, 2018, 31, 12-24.	1.7	11
30	Differential Effects of Family Stress Exposure and Harsh Parental Discipline on Child Social Competence. Journal of Child and Family Studies, 2018, 27, 483-493.	1.3	11
31	Developmental dynamics of autonomic function in childhood. Psychophysiology, 2018, 55, e13218.	2.4	40
32	Quantifying respiratory sinus arrhythmia: Effects of misspecifying breathing frequencies across development. Development and Psychopathology, 2018, 30, 351-366.	2.3	116
33	Resting sympathetic arousal moderates the association between parasympathetic reactivity and working memory performance in adults reporting high levels of life stress. Psychophysiology, 2017, 54, 1195-1208.	2.4	31
34	Unsealing Fate: Policy Practices Aimed at Reducing the Intergenerational Transmission of Poverty. Policy Insights From the Behavioral and Brain Sciences, 2017, 4, 115-122.	2.4	1
35	The dynamics of internalizing and externalizing comorbidity across the early school years. Development and Psychopathology, 2016, 28, 1033-1052.	2.3	159
36	Research and Policy on Disability. Policy Insights From the Behavioral and Brain Sciences, 2016, 3, 138-145.	2.4	11

#	Article	IF	Citations
37	Diversity and representation: Key issues for psychophysiological science. Psychophysiology, 2016, 53, 3-13.	2.4	66
38	Emotional Reactivity, Behavior Problems, and Social Adjustment at School Entry in a High-risk Sample. Journal of Abnormal Child Psychology, 2016, 44, 1527-1541.	3.5	39
39	Electrodermal responding predicts responses to, and may be altered by, preschool intervention for ADHD Journal of Consulting and Clinical Psychology, 2015, 83, 293-303.	2.0	42
40	Relevance of a neurophysiological marker of attention allocation for children's learning-related behaviors and academic performance Developmental Psychology, 2015, 51, 1148-1162.	1.6	24
41	Estimating timeâ€varying RSA to examine psychophysiological linkage of marital dyads. Psychophysiology, 2015, 52, 1059-1065.	2.4	79
42	Children's Parasympathetic Reactivity to Specific Emotions Moderates Response to Intervention for Early-Onset Aggression. Journal of Clinical Child and Adolescent Psychology, 2015, 44, 291-304.	3.4	48
43	Implications of ongoing neural development for the measurement of the errorâ€related negativity in childhood. Developmental Science, 2015, 18, 452-468.	2.4	44
44	How does reactivity to frustrative non-reward increase risk for externalizing symptoms?. International Journal of Psychophysiology, 2015, 98, 300-309.	1.0	32
45	Early adversity, RSA, and inhibitory control: Evidence of children's neurobiological sensitivity to social context. Developmental Psychobiology, 2014, 56, 964-978.	1.6	92
46	The role of resting frontal EEG asymmetry in psychopathology: Afferent or efferent filter?. Developmental Psychobiology, 2014, 56, 73-85.	1.6	50
47	EEG asymmetry in borderline personality disorder and depression following rejection Personality Disorders: Theory, Research, and Treatment, 2014, 5, 178-185.	1.3	81
48	Associations between respiratory sinus arrhythmia reactivity and internalizing and externalizing symptoms are emotion specific. Cognitive, Affective and Behavioral Neuroscience, 2013, 13, 238-251.	2.0	91
49	Sympathetic- and parasympathetic-linked cardiac function and prediction of externalizing behavior, emotion regulation, and prosocial behavior among preschoolers treated for ADHD Journal of Consulting and Clinical Psychology, 2013, 81, 481-493.	2.0	131
50	Social and Biological Changes During Adolescence That Precipitate the Onset of Antisocial Behavior., 2013,, 447-461.		2
51	Neuroanatomical Correlates of Heterotypic Comorbidity in Externalizing Male Adolescents. Journal of Clinical Child and Adolescent Psychology, 2012, 41, 346-352.	3.4	32
52	Instantiating the multiple levels of analysis perspective in a program of study on externalizing behavior. Development and Psychopathology, 2012, 24, 1003-1018.	2.3	101
53	Aggression as an equifinal outcome of distinct neurocognitive and neuroaffective processes. Development and Psychopathology, 2012, 24, 985-1002.	2.3	30
54	The canary in the coalmine: The sensitivity of mesolimbic dopamine to environmental adversity during development. Neuroscience and Biobehavioral Reviews, 2011, 35, 794-803.	6.1	103

#	Article	IF	Citations
55	Preschool Children's Cardiac Reactivity Moderates Relations Between Exposure to Family Violence and Emotional Adjustment. Child Maltreatment, 2011, 16, 205-215.	3.3	25
56	Mapping cardiac physiology and parenting processes in maltreating mother–child dyads Journal of Family Psychology, 2011, 25, 663-674.	1.3	58
57	Disrupted Effective Connectivity Between the Medial Frontal Cortex and the Caudate in Adolescent Boys With Externalizing Behavior Disorders. Criminal Justice and Behavior, 2009, 36, 1141-1157.	1.8	54
58	Multifinality in the development of personality disorders: A Biology × Sex × Environment interaction model of antisocial and borderline traits. Development and Psychopathology, 2009, 21, 735-770.	2.3	218
59	Correspondence between physiological and selfâ€report measures of emotion dysregulation: A longitudinal investigation of youth with and without psychopathology. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2009, 50, 1357-1364.	5.2	183
60	Neurological correlates of reward responding in adolescents with and without externalizing behavior disorders Journal of Abnormal Psychology, 2009, 118, 203-213.	1.9	119
61	Ten good reasons to consider biological processes in prevention and intervention research. Development and Psychopathology, 2008, 20, 745-774.	2.3	198
62	Familial and temperamental predictors of resilience in children at risk for conduct disorder and depression. Development and Psychopathology, 2007, 19, 701-727.	2.3	123
63	Polyvagal Theory and developmental psychopathology: Emotion dysregulation and conduct problems from preschool to adolescence. Biological Psychology, 2007, 74, 174-184.	2.2	601
64	Patterns of Psychopathology in the Families of Children with Conduct Problems, Depression, and both Psychiatric Conditions. Journal of Abnormal Child Psychology, 2007, 35, 301-312.	3.5	42
65	Direct and Passive Prenatal Nicotine Exposure and the Development of Externalizing Psychopathology. Child Psychiatry and Human Development, 2007, 38, 255-269.	1.9	96
66	Autonomic correlates of attention-deficit/hyperactivity disorder and oppositional defiant disorder in preschool children Journal of Abnormal Psychology, 2006, 115, 174-178.	1.9	188
67	The reactive–proactive aggression questionnaire: differential correlates of reactive and proactive aggression in adolescent boys. Aggressive Behavior, 2006, 32, 159-171.	2.4	1,232
68	Serious delinquent behavior, sensation seeking, and electrodermal arousal. Journal of Abnormal Child Psychology, 2002, 30, 477-486.	3.5	90
69	Temporal Lobe Deficits in Murderers. Journal of Neuropsychiatry and Clinical Neurosciences, 2001, 13, 486-491.	1.8	27
