

Peter E Smouse

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9323701/peter-e-smouse-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

12
papers

18,760
citations

#	Paper	IF	Citations
12	genalex 6: genetic analysis in Excel. Population genetic software for teaching and research. <i>Molecular Ecology Notes</i> , 2006 , 6, 288-295		10090
11	GenALEx 6.5: genetic analysis in Excel. Population genetic software for teaching and research--an update. <i>Bioinformatics</i> , 2012 , 28, 2537-9	7.2	8361
10	A novel approach to an old problem: tracking dispersed seeds. <i>Molecular Ecology</i> , 2005 , 14, 3585-95	5.7	86
9	Relative contribution of contemporary pollen and seed dispersal to the effective parental size of seedling population of California valley oak (<i>Quercus lobata</i> , NØ). <i>Molecular Ecology</i> , 2009 , 18, 3967-79	5.7	57
8	An informational diversity framework, illustrated with sexually deceptive orchids in early stages of speciation. <i>Molecular Ecology Resources</i> , 2015 , 15, 1375-84	8.4	34
7	Influence of acorn woodpecker social behaviour on transport of coast live oak (<i>Quercus agrifolia</i>) acorns in a southern California oak savanna. <i>Journal of Ecology</i> , 2010 , 98, 561-572	6	25
6	Converting quadratic entropy to diversity: Both animals and alleles are diverse, but some are more diverse than others. <i>PLoS ONE</i> , 2017 , 12, e0185499	3.7	24
5	Impact of asymmetric male and female gamete dispersal on allelic diversity and spatial genetic structure in valley oak (<i>Quercus lobata</i> NØ). <i>Evolutionary Ecology</i> , 2015 , 29, 927-945	1.8	22
4	Use of alpha, beta, and gamma diversity measures to characterize seed dispersal by animals. <i>American Naturalist</i> , 2012 , 180, 719-32	3.7	22
3	Comparison of clonal diversity in mountain and Piedmont populations of <i>Trillium cuneatum</i> (Melanthiaceae-Trilliaceae), a forest understory species. <i>American Journal of Botany</i> , 2008 , 95, 1254-61	2.7	17
2	Patterns of molecular variation. II. associations of electrophoretic mobility and larval substrate within species of the <i>Drosophila mulleri</i> complex. <i>Genetics</i> , 1977 , 85, 141-54	4	15
1	Maximum likelihood analysis of population differences in allelic frequencies. <i>Genetics</i> , 1972 , 72, 709-19	4	7
