#	Article	IF	CITATIONS
1	Seasonal patterns of malaria, genital infection, nutritional and iron status in non-pregnant and pregnant adolescents in Burkina Faso: a secondary analysis of trial data. BMC Public Health, 2021, 21, 1764.	1.2	7
2	Iron Status of Burkinabé Adolescent Girls Predicts Malaria Risk in the Following Rainy Season. Nutrients, 2020, 12, 1446.	1.7	5
3	Excess risk of preterm birth with periconceptional iron supplementation in a malaria endemic area: analysis of secondary data on birth outcomes in a double blind randomized controlled safety trial in Burkina Faso. Malaria Journal, 2019, 18, 161.	0.8	24
4	Community approval required for periconceptional adolescent adherence to weekly iron and/or folic acid supplementation: a qualitative study in rural Burkina Faso. Reproductive Health, 2018, 15, 48.	1.2	9
5	Effects of Weekly Iron and Folic Acid Supplements on Malaria Risk in Nulliparous Women in Burkina Faso: A Periconceptional, Double-Blind, Randomized Controlled Noninferiority Trial. Journal of Infectious Diseases, 2018, 218, 1099-1109.	1.9	18
6	Effects of long-term weekly iron and folic acid supplementation on lower genital tract infection – a double blind, randomised controlled trial in Burkina Faso. BMC Medicine, 2017, 15, 206.	2.3	19
7	A qualitative study to assess the potential of the human papillomavirus vaccination programme to encourage under-screened mothers to attend for cervical screening. Journal of Family Planning and Reproductive Health Care, 2016, 42, 119-126.	0.9	O
8	Perspectives on the design and methodology of periconceptional nutrient supplementation trials. Trials, 2016, 17, 58.	0.7	4
9	A cluster randomised trial of strategies to increase cervical screening uptake at first invitation (STRATEGIC). Health Technology Assessment, 2016, 20, 1-138.	1.3	36
10	Women's beliefs, views and practices concerning medication use during pregnancy in rural Malawi. African Journal of Midwifery and Women's Health, 2015, 9, 158-162.	0.3	1
11	Comparing risk behaviours of human papillomavirus-vaccinated and non-vaccinated women: TableÂ1. Journal of Family Planning and Reproductive Health Care, 2015, 41, 255-258.	0.9	11
12	Effect of Human Papillomavirus vaccination of daughters on the cervical screening uptake of their non-vaccinated mothers. European Journal of Public Health, 2015, 25, 1097-1100.	0.1	3
13	Sociodemographic factors predicting mother's cervical screening and daughter's HPV vaccination uptake. Journal of Epidemiology and Community Health, 2014, 68, 571-577.	2.0	45
14	"There is Iron and Iron…―BurkinabèWomen's Perceptions of Iron Supplementation: A Qualitative Study. Maternal and Child Health Journal, 2014, 18, 1976-1984.	0.7	11
15	Early pregnancy exposure to feto-toxic medications among out-patients in Malawi. Journal of Maternal-Fetal and Neonatal Medicine, 2014, 27, 1204-1208.	0.7	1
16	Interventions to improve cervical cancer screening uptake amongst young women: A systematic review. Acta OncolÁ³gica, 2014, 53, 445-451.	0.8	25
17	Mothers' screening histories influence daughters' vaccination uptake: An analysis of linked cervical screening and human papillomavirus vaccination records in the North West of England. European Journal of Cancer, 2013, 49, 1264-1272.	1.3	29
18	Influence of iron status on risk of maternal or neonatal infection and on neonatal mortality with an emphasis on developing countries. Nutrition Reviews, 2013, 71, 528-540.	2.6	39

#	Article	IF	Citations
19	Development of a pre-notification leaflet to encourage uptake of cervical screening at first invitation: a qualitative study. Health Education Research, 2013, 28, 793-802.	1.0	5
20	The school nurse, the school and HPV vaccination: A qualitative study of factors affecting HPV vaccine uptake. Vaccine, 2011, 29, 3192-3196.	1.7	45
21	Implementation of prophylactic HPV vaccination: progress and future challenges. Expert Review of Obstetrics and Gynecology, 2010, 5, 591-603.	0.4	3
22	Survey of girls' recall of a film providing information on human papillomavirus and cervical cancer 6 months after an offer of vaccination. Vaccine, 2010, 28, 4210-4214.	1.7	11
23	Parental smoking and increased likelihood of female births. Annals of Human Biology, 2010, 37, 789-800.	0.4	14
24	A survey of adolescent experiences of human papillomavirus vaccination in the Manchester study. British Journal of Cancer, 2009, 101, 1502-1504.	2.9	51
25	A qualitative study to assess school nurses' views on vaccinating 12–13 year old school girls against human papillomavirus without parental consent. BMC Public Health, 2009, 9, 254.	1.2	34
26	Delivery of chlamydia screening to young women requesting emergency hormonal contraception at pharmacies in Manchester, UK: a prospective study. BMC Women's Health, 2009, 9, 7.	0.8	37
27	A case-control study of CYP1A1, GSTT1 and GSTM1 gene polymorphisms, pregnancy smoking and fetal growth restriction. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2009, 143, 38-42.	0.5	31
28	Rural Gambian women's reliance on health workers to deliver sulphadoxine – pyrimethamine as recommended intermittent preventive treatment for malaria in pregnancy. Malaria Journal, 2009, 8, 25.	0.8	29
29	The second to fourth digit ratio (2D:4D) in women with and without human papillomavirus and cervical dysplasia. American Journal of Human Biology, 2008, 20, 337-341.	0.8	27
30	The right to remain silent: a qualitative study of the medical and social ramifications of pregnancy disclosure for Gambian women. BJOG: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1641-1647.	1.1	31
31	Informing adolescents about human papillomavirus vaccination: What will parents allow?. Vaccine, 2008, 26, 2203-2210.	1.7	20
32	Current issues in adolescent immunization. Vaccine, 2008, 26, 4120-4134.	1.7	50
33	Prenatal smoking exposure and asymmetric fetal growth restriction. Annals of Human Biology, 2008, 35, 573-583.	0.4	27
34	Pregnancy Late in Life: A Hospital-Based Study of Birth Outcomes. Journal of Women's Health, 2008, 17, 965-970.	1.5	66
35	Uptake of first two doses of human papillomavirus vaccine by adolescent schoolgirls in Manchester: prospective cohort study. BMJ: British Medical Journal, 2008, 336, 1056-1058.	2.4	183
36	A semi-qualitative study of attitudes to vaccinating adolescents against human papillomavirus without parental consent. BMC Public Health, 2007, 7, 20.	1.2	39

#	Article	IF	Citations
37	Future acceptance of adolescent human papillomavirus vaccination: A survey of parental attitudes. Vaccine, 2006, 24, 3087-3094.	1.7	229
38	The IL-10 â~1082G polymorphism is associated with clearance of HPV infection. BJOG: an International Journal of Obstetrics and Gynaecology, 2006, 113, 961-964.	1.1	26
39	Vaccines against human papillomavirus: the future is bright. British Journal of Hospital Medicine (London, England: 2005), 2006, 67, 566-568.	0.2	0
40	Pregnancy, Smoking and Birth Outcomes. Women's Health, 2006, 2, 389-403.	0.7	33
41	Reducing iron deficiency anaemia due to heavy menstural blood loss in Nigerian rural adolescents. Reprinted from Public Health Nutrition Volume 1 (4), 249–257, 1998. Public Health Nutrition, 2005, 8, 451-460.	1.1	0
42	Biological and hormonal markers of chlamydia, human papillomavirus, and bacterial vaginosis among adolescents attending genitourinary medicine clinics. Sexually Transmitted Infections, 2005, 81, 128-132.	0.8	27
43	Finding a curriculum that works under trees: Literacy and health education for adolescent girls in rural Malawi. Development in Practice, 2005, 15, 655-667.	0.6	6
44	HIV, malaria and beyond: reducing the disease burden of female adolescents. Malaria Journal, 2005, 4, 2.	0.8	13
45	The adolescent health gap in developing countries. Annals of Tropical Paediatrics, 2004, 24, 115-116.	1.0	3
46	Sex hormone patterns and serum retinol concentrations in adolescent girls. Journal of reproductive medicine, The, 2004, 49, 41-51.	0.2	2
47	Oral contraceptives and cervical cancer. Lancet, The, 2002, 360, 409-410.	6.3	4
48	Interactions of the Female Hormonal Environment, Susceptibility to Viral Infections, and Disease Progression. AIDS Patient Care and STDs, 2002, 16, 211-221.	1.1	110
49	Maternal height, birthweight and cephalo pelvic disproportion in urban Nigeria and rural Malawi. Acta Obstetricia Et Gynecologica Scandinavica, 2002, 81, 502-507.	1.3	25
50	Maternal height, birthweight and cephalo pelvic disproportion in urban Nigeria and rural Malawi. Acta Obstetricia Et Gynecologica Scandinavica, 2002, 81, 502-507.	1.3	1
51	Tetanus antibody levels among adolescent girls in developing countries. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2000, 94, 455-459.	0.7	12
52	Clinical management and prevention of sexually transmitted diseases: a review focusing on women. Acta Tropica, 2000, 75, 53-70.	0.9	19
53	Improving antenatal care for pregnant adolescents in southern Malawi. Acta Obstetricia Et Gynecologica Scandinavica, 1998, 77, 402-409.	1.3	36
54	High Prevalence of Anaemia among Women in Mumbai, India. Food and Nutrition Bulletin, 1998, 19, 205-209.	0.5	21

#	Article	IF	CITATIONS
55	Reducing iron deficiency anaemia due to heavy menstrual blood loss in Nigerian rural adolescents. Public Health Nutrition, 1998, 1, 249-257.	1.1	51
56	Providing accessible health care for adolescents with sexually transmitted disease. Acta Tropica, 1996, 62, 209-216.	0.9	9
57	Protecting adolescent girls against tetanus. BMJ: British Medical Journal, 1995, 311, 73-74.	2.4	14
58	Difficulties of interpreting PPD reactions of women living in Madang, Papua New Guinea. Transactions of the Royal Society of Tropical Medicine and Hygiene, 1994, 88, 349-353.	0.7	2
59	Parasitic Infections in Women and their Consequences. Advances in Parasitology, 1992, 31, 1-81.	1.4	86
60	The epidemiological significance of Chagas' disease in womem. Memorias Do Instituto Oswaldo Cruz, 1992, 87, 73-79.	0.8	22
61	Failure of chloroquine prophylaxis for falciparum malaria in pregnant women in Madang, Papua New Guinea. Annals of Tropical Medicine and Parasitology, 1990, 84, 1-9.	1.6	49
62	Malaria and Glucose 6-Phosphate Dehydrogenase Deficiency in Populations with High and Low Spleen Rates in Madang, Papua New Guinea. Human Heredity, 1990, 40, 15-21.	0.4	9
63	Two populations of women with high and low spleen rates living in the same area of Madang, Papua New Guinea, demonstrate different immune responses to malaria. Transactions of the Royal Society of Tropical Medicine and Hygiene, 1989, 83, 577-583.	0.7	11
64	High and low spleen rates distinguish two populations of women living under the same malaria endemic conditions in Madang, Papua New Guinea. Transactions of the Royal Society of Tropical Medicine and Hygiene, 1988, 82, 671-676.	0.7	18
65	CULTURAL FACTORS AND TRANSMISSION OF HEPATITIS B VIRUS. American Journal of Epidemiology, 1985, 122, 725-730.	1.6	20
66	Malnutrition among the Akamba of Kenya â€Problem or response to a problem?. Disasters, 1985, 9, 115-121.	1.1	0
67	Polygyny: an indicator of nutritional stress in African agricultural societies?. Africa, 1984, 54, 31-45.	0.2	19
