#	ARTICLE	IF	CITATIONS
1	Discontinuity of Women Veterans's™ Care in Patient-Centered Medical Homes: Does Workforce Gender Sensitivity Matter?. <i>Women's Health Issues</i> , 2022, 32, 173-181.	2.0	2
2	Collaboration Leading to Addiction Treatment and Recovery from Other Stresses (CLARO): process of adapting collaborative care for co-occurring opioid use and mental disorders. <i>Addiction Science & Clinical Practice</i> , 2022, 17, 25.	2.6	3
3	Trauma-informed Collaborative Care for African American Primary Care Patients in Federally Qualified Health Centers. <i>Medical Care</i> , 2022, 60, 232-239.	2.4	4
4	Design of CLARO (Collaboration Leading to Addiction Treatment and Recovery from other Stresses): A randomized trial of collaborative care for opioid use disorder and co-occurring depression and/or posttraumatic stress disorder. <i>Contemporary Clinical Trials</i> , 2021, 104, 106354.	1.8	5
5	Understanding Gender Sensitivity of the Health Care Workforce at the Veterans Health Administration. <i>Women's Health Issues</i> , 2020, 30, 120-127.	2.0	8
6	Association Between Difficulty with VA Patient-Centered Medical Home Model Components and Provider Emotional Exhaustion and Intent to Remain in Practice. <i>Journal of General Internal Medicine</i> , 2020, 35, 2069-2075.	2.6	2
7	Understanding Which Teenagers Benefit Most From a Brief Primary Care Substance Use Intervention. <i>Pediatrics</i> , 2019, 144, e20183014.	2.1	13
8	Adolescents with better mental health have less problem alcohol use six months later. <i>Addictive Behaviors</i> , 2019, 95, 77-81.	3.0	2
9	Long-term impact of evidence-based quality improvement for facilitating medical home implementation on primary care health professional morale. <i>BMC Family Practice</i> , 2018, 19, 149.	2.9	19
10	Influence of mental health and alcohol or other drug use risk on adolescent reported care received in primary care settings. <i>BMC Family Practice</i> , 2018, 19, 10.	2.9	17
11	Brief motivational interviewing intervention to reduce alcohol and marijuana use for at-risk adolescents in primary care.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 775-786.	2.0	92
12	Attitudes, Practices, and Experiences with Implementing a Patient-Centered Medical Home for Women Veterans. <i>Women's Health Issues</i> , 2017, 27, 221-227.	2.0	3
13	Primary Care Providers with More Experience and Stronger Self-Efficacy Beliefs Regarding Women Veterans Screen More Frequently for Interpersonal Violence. <i>Women's Health Issues</i> , 2017, 27, 586-591.	2.0	8
14	Longitudinal Associations Among Pain, Posttraumatic Stress Disorder Symptoms, and Stress Appraisals. <i>Journal of Traumatic Stress</i> , 2016, 29, 176-179.	1.8	5
15	Validation of a brief PTSD screener for underserved patients in federally qualified health centers. <i>General Hospital Psychiatry</i> , 2016, 38, 84-88.	2.4	24
16	Impact of Collaborative Care for Underserved Patients with PTSD in Primary Care: a Randomized Controlled Trial. <i>Journal of General Internal Medicine</i> , 2016, 31, 509-517.	2.6	41
17	Cluster randomized trial of a multilevel evidence-based quality improvement approach to tailoring VA Patient Aligned Care Teams to the needs of women Veterans. <i>Implementation Science</i> , 2015, 11, 101.	6.9	37
18	Emotional Exhaustion in Primary Care During Early Implementation of the VA's™ Medical Home Transformation. <i>Medical Care</i> , 2015, 53, 253-260.	2.4	33

#	ARTICLE	IF	CITATIONS
19	Design of the Violence and Stress Assessment (ViStA) study: A randomized controlled trial of care management for PTSD among predominantly Latino patients in safety net health centers. <i>Contemporary Clinical Trials</i> , 2014, 38, 163-172.	1.8	17
20	A Collaborative Approach to Identifying Effective Incentives for Mental Health Clinicians to Improve Depression Care in a Large Managed Behavioral Healthcare Organization. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2011, 38, 193-202.	2.1	6
21	Prioritizing "Psychological" Consequences for Disaster Preparedness and Response: A Framework for Addressing the Emotional, Behavioral, and Cognitive Effects of Patient Surge in Large-Scale Disasters. <i>Disaster Medicine and Public Health Preparedness</i> , 2011, 5, 73-80.	1.3	31
22	Does Screening for Pain Correspond to High Quality Care for Veterans?. <i>Journal of General Internal Medicine</i> , 2010, 25, 900-905.	2.6	33
23	Factors Associated with Clinician Intention to Address Diverse Aspects of Pain in Seriously Ill Outpatients. <i>Pain Medicine</i> , 2010, 11, 1365-1372.	1.9	14
24	Psychological Effects of Patient Surge in Large-Scale Emergencies: A Quality Improvement Tool for Hospital and Clinic Capacity Planning and Response. <i>Prehospital and Disaster Medicine</i> , 2010, 25, 107-114.	1.3	4
25	Addressing Patients' Concerns about Pain Management and Addiction Risks. <i>Pain Management Nursing</i> , 2010, 11, 92-98.	0.9	17
26	Impact of Teen Depression on Academic, Social, and Physical Functioning. <i>Pediatrics</i> , 2009, 124, e596-e605.	2.1	205
27	Perceived Barriers to Treatment for Adolescent Depression. <i>Medical Care</i> , 2009, 47, 677-685.	2.4	88
28	System Factors Affect the Recognition and Management of Posttraumatic Stress Disorder by Primary Care Clinicians. <i>Medical Care</i> , 2009, 47, 686-694.	2.4	34
29	PTSD in Latino Patients: Illness Beliefs, Treatment Preferences, and Implications for Care. <i>Journal of General Internal Medicine</i> , 2008, 23, 1386-1392.	2.6	38
30	Clinician Burden and Depression Treatment: Disentangling Patient- and Clinician-Level Effects of Medical Comorbidity. <i>Journal of General Internal Medicine</i> , 2008, 23, 1763-1769.	2.6	18
31	Interventions in Organizational and Community Context: A Framework for Building Evidence on Dissemination and Implementation in Health Services Research. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2008, 35, 21-37.	2.1	294
32	Brief motivational interviewing for teens at risk of substance use consequences: A randomized pilot study in a primary care clinic. <i>Journal of Substance Abuse Treatment</i> , 2008, 35, 53-61.	2.8	203
33	Trust Influences Response to Public Health Messages During a Bioterrorist Event. <i>Journal of Health Communication</i> , 2007, 12, 217-232.	2.4	92
34	Balancing Participation and Expertise: A Comparison of Locally and Centrally Managed Health Care Quality Improvement Within Primary Care Practices. <i>Qualitative Health Research</i> , 2007, 17, 1268-1279.	2.1	61
35	Effect of Mental Health Care and Shared Decision Making on Patient Satisfaction in a Community Sample of Patients with Depression. <i>Medical Care Research and Review</i> , 2007, 64, 416-430.	2.1	86
36	Factors Associated With Primary Care Clinicians' Choice of a Watchful Waiting Approach to Managing Depression. <i>Psychiatric Services</i> , 2007, 58, 72-78.	2.0	32

#	ARTICLE	IF	CITATIONS
37	Connoisseurs of Care? Unannounced Standardized Patients's™ Ratings of Physicians. <i>Medical Care</i> , 2006, 44, 1092-1098.	2.4	27
38	Primary Care Patients's™ Involvement in Decision-Making Is Associated With Improvement in Depression. <i>Medical Care</i> , 2006, 44, 398-405.	2.4	179
39	Impacts of evidence-based quality improvement on depression in primary care a randomized experiment. <i>Journal of General Internal Medicine</i> , 2006, 21, 1027-1035.	2.6	60
40	Influence of patient preference and primary care clinician proclivity for watchful waiting on receipt of depression treatment. <i>General Hospital Psychiatry</i> , 2006, 28, 379-386.	2.4	22
41	Implementation and Maintenance of Quality Improvement for Treating Depression in Primary Care. <i>Psychiatric Services</i> , 2006, 57, 48-55.	2.0	87
42	Primary Care Provider Attitudes are Associated With Smoking Cessation Counseling and Referral. <i>Medical Care</i> , 2005, 43, 929-934.	2.4	66
43	Impact of a primary care quality improvement intervention on use of psychotherapy for depression. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2003, 5, 109-120.	2.3	39
44	Understanding the Causal Relationship Between Patient-Reported Interpersonal and Technical Quality of Care for Depression. <i>Medical Care</i> , 2002, 40, 696-704.	2.4	23
45	Knowledge of Health Care Benefits Among Patients With Depression. <i>Medical Care</i> , 2002, 40, 338-346.	2.4	11
46	Understanding Team-based Quality Improvement for Depression in Primary Care. <i>Health Services Research</i> , 2002, 37, 1009-1029.	2.0	93
47	Effects of Cost-Containment Strategies Within Managed Care on Continuity of the Relationship Between Patients With Depression and Their Primary Care Providers. <i>Medical Care</i> , 2001, 39, 1075-1085.	2.4	11
48	Are Better Ratings of the Patient-Provider Relationship Associated With Higher Quality Care for Depression?. <i>Medical Care</i> , 2001, 39, 349-360.	2.4	82
49	Cost-effectiveness of Practice-Initiated Quality Improvement for Depression. <i>JAMA - Journal of the American Medical Association</i> , 2001, 286, 1325.	7.4	292
50	Long-term Effectiveness of Disseminating Quality Improvement for Depression in Primary Care. <i>Archives of General Psychiatry</i> , 2001, 58, 696.	12.3	138
51	The Quality Improvement for Depression Collaboration: general analytic strategies for a coordinated study of quality improvement in depression care. <i>General Hospital Psychiatry</i> , 2001, 23, 239-253.	2.4	64
52	Impact of Disseminating Quality Improvement Programs for Depression in Managed Primary Care. <i>JAMA - Journal of the American Medical Association</i> , 2000, 283, 212.	7.4	909
53	Counseling for Depression by Primary Care Providers. <i>International Journal of Psychiatry in Medicine</i> , 2000, 30, 343-365.	1.8	13
54	Quality improvement for depression enhances long-term treatment knowledge for primary care clinicians. <i>Journal of General Internal Medicine</i> , 2000, 15, 868-877.	2.6	46

#	ARTICLE	IF	CITATIONS
55	Treating depression in staff-model versus network-model managed care organizations. Journal of General Internal Medicine, 1999, 14, 39-48.	2.6	73
56	Provider Choice and Continuity for the Treatment of Depression. Medical Care, 1996, 34, 723-734.	2.4	45
57	Switches Between Prepaid and Fee-For-Service Health Systems Among Depressed Outpatients. Medical Care, 1994, 32, 917-929.	2.4	14
