

Jonathan Van Blerkom

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/939202/jonathan-van-blerkom-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
45	The Role of Mitochondria in the Establishment of Developmental Competence in Early Human Development 2019 , 897-913		
44	Ganglioside-enriched microdomains define an oolemma that is functionally polarized with respect to fertilizability in the mouse. <i>Reproductive BioMedicine Online</i> , 2016 , 33, 458-475	4	4
43	First births with a simplified culture system for clinical IVF and embryo transfer. <i>Reproductive BioMedicine Online</i> , 2014 , 28, 310-20	4	48
42	Sperm attachment and penetration competence in the human oocyte: a possible aetiology of fertilization failure involving the organization of oolemmal lipid raft microdomains influenced by the Φ of subplasmalemmal mitochondria. <i>Reproductive BioMedicine Online</i> , 2013 , 27, 690-701	4	12
41	Mitochondrial Activity as a Biomarker of Gamete and Embryo Health 2013 , 239-257		
40	The Role of Mitochondria in the Establishment of Developmental Competence in Early Human Development 2013 , 319-345		
39	The Role of the Plasma Membrane and Pericortical Cytoplasm in Early Mammalian Development 2013 , 265-287		1
38	The Role of Mitochondria in the Establishment of Developmental Competence in Early Human Development 2012 , 641-657		1
37	Mitochondrial function in the human oocyte and embryo and their role in developmental competence. <i>Mitochondrion</i> , 2011 , 11, 797-813	4.9	398
36	Mitochondria in early mammalian development. <i>Seminars in Cell and Developmental Biology</i> , 2009 , 20, 354-64	7.5	132
35	Mitochondria as regulatory forces in oocytes, preimplantation embryos and stem cells. <i>Reproductive BioMedicine Online</i> , 2008 , 16, 553-69	4	97
34	Regulation of mitochondrial polarity in mouse and human oocytes: the influence of cumulus derived nitric oxide. <i>Molecular Human Reproduction</i> , 2008 , 14, 431-44	4.4	40
33	Mitochondrial signaling and fertilization. <i>Molecular Human Reproduction</i> , 2007 , 13, 759-70	4.4	88
32	Translocation of the subplasmalemmal cytoplasm in human blastomeres: possible effects on the distribution and inheritance of regulatory domains. <i>Reproductive BioMedicine Online</i> , 2007 , 14, 191-200	4	15
31	Regulatory roles for mitochondria in the peri-implantation mouse blastocyst: possible origins and developmental significance of differential DeltaPsi _m . <i>Reproduction</i> , 2006 , 131, 961-76	3.8	57
30	High-polarized (Delta Psi _m (HIGH)) mitochondria are spatially polarized in human oocytes and early embryos in stable subplasmalemmal domains: developmental significance and the concept of vanguard mitochondria. <i>Reproductive BioMedicine Online</i> , 2006 , 13, 246-54	4	61
29	Cryopreservation of metaphase II human oocytes effects mitochondrial membrane potential: implications for developmental competence. <i>Human Reproduction</i> , 2004 , 19, 1861-6	5.7	128

28	Mitochondria in human oogenesis and preimplantation embryogenesis: engines of metabolism, ionic regulation and developmental competence. <i>Reproduction</i> , 2004 , 128, 269-80	3.8	270
27	Occurrence of maternal and paternal spindles in unfertilized human oocytes: possible relationship to nucleation defects after silent fertilization. <i>Reproductive BioMedicine Online</i> , 2004 , 8, 454-9	4	19
26	Inner mitochondrial membrane potential (DeltaPsi _m), cytoplasmic ATP content and free Ca ²⁺ levels in metaphase II mouse oocytes. <i>Human Reproduction</i> , 2003 , 18, 2429-40	5.7	87
25	Domains of high-polarized and low-polarized mitochondria may occur in mouse and human oocytes and early embryos. <i>Human Reproduction</i> , 2002 , 17, 393-406	5.7	202
24	A microscopic and biochemical study of fragmentation phenotypes in stage-appropriate human embryos. <i>Human Reproduction</i> , 2001 , 16, 719-29	5.7	135
23	Differential mitochondrial distribution in human pronuclear embryos leads to disproportionate inheritance between blastomeres: relationship to microtubular organization, ATP content and competence. <i>Human Reproduction</i> , 2000 , 15, 2621-33	5.7	233
22	Epigenetic influences on oocyte developmental competence: perifollicular vascularity and intrafollicular oxygen. <i>Journal of Assisted Reproduction and Genetics</i> , 1998 , 15, 226-34	3.4	61
21	ATP content of human oocytes and developmental potential and outcome after in-vitro fertilization and embryo transfer. <i>Human Reproduction</i> , 1995 , 10, 415-24	5.7	516
20	Cytogenetic, cellular, and developmental consequences of cryopreservation of immature and mature mouse and human oocytes. <i>Microscopy Research and Technique</i> , 1994 , 27, 165-93	2.8	131
19	Dispermic fertilization of human oocytes. <i>Journal of Electron Microscopy Technique</i> , 1991 , 17, 437-49		8
18	Cellular and developmental biological aspects of bovine meiotic maturation, fertilization, and preimplantation embryogenesis in vitro. <i>Journal of Electron Microscopy Technique</i> , 1990 , 16, 298-323		38
17	Occurrence and developmental consequences of aberrant cellular organization in meiotically mature human oocytes after exogenous ovarian hyperstimulation. <i>Journal of Electron Microscopy Technique</i> , 1990 , 16, 324-46		103
16	Mitochondrial reorganization during resumption of arrested meiosis in the mouse oocyte. <i>American Journal of Anatomy</i> , 1984 , 171, 335-55		188
15	Computer-assisted analysis demonstrates that polypeptides induced by natural and recombinant human interferon-alpha are the same and that some have related primary structures. <i>Antiviral Research</i> , 1983 , 3, 303-14	10.8	6
14	Morphodynamics of outgrowths of mouse trophoblast in the presence and absence of a monolayer of uterine epithelium. <i>American Journal of Anatomy</i> , 1981 , 162, 143-55		26
13	Intrinsic and Extrinsic Patterns of Molecular Differentiation during Oogenesis, Embryogenesis, and Organogenesis in Mammals 1981 , 155-176		13
12	Persistence of embryonic RNA synthesis during facultative delayed implantation in the mouse. <i>Developmental Biology</i> , 1979 , 70, 39-49	3.1	16
11	Molecular differentiation of the rabbit ovum. III. Fertilization-autonomous polypeptide synthesis. <i>Developmental Biology</i> , 1979 , 72, 188-94	3.1	22

10	A scanning electron microscopic study of the luteo-follicular complex. III. Repair of ovulated follicle and the formation of the corpus luteum. <i>Cell and Tissue Research</i> , 1978 , 189, 131-53	4.2	18
9	Molecular and cellular aspects of facultative delayed implantation in the mouse. <i>Novartis Foundation Symposium</i> , 1978 , 141-72		8
8	Patterns of polypeptide synthesis of porcine oocytes during maturation in vitro. <i>Developmental Biology</i> , 1977 , 56, 241-54	3.1	58
7	The fine structural development of preimplantation mouse parthenotes. <i>The Journal of Experimental Zoology</i> , 1976 , 196, 113-24		26
6	A scanning electron microscopic study of the luteo-follicular complex. II. Events leading to ovulation. <i>American Journal of Anatomy</i> , 1975 , 143, 241-63		50
5	Qualitative patterns of protein synthesis in the preimplantation mouse embryo. II. During release from facultative delayed implantation. <i>Developmental Biology</i> , 1975 , 46, 446-51	3.1	15
4	Qualitative patterns of protein synthesis in the preimplantation mouse embryo. I. Normal pregnancy. <i>Developmental Biology</i> , 1975 , 44, 148-57	3.1	124
3	Development of preimplantation rabbit embryos in vivo and in vitro. <i>Developmental Biology</i> , 1974 , 40, 40-51	3.1	59
2	Development of preimplantation rabbit embryos in vivo and in vitro. I. An ultrastructural comparison. <i>Developmental Biology</i> , 1973 , 35, 262-82	3.1	89
1	An overview of determinants of oocyte and embryo developmental competence: specificity, accuracy and applicability in clinical IVF17-50
