#	Article	IF	CITATIONS
1	Analysis of Change in the Precipitation Regime on the Territory of the Russian Federation in the Second Half of the 20th Century and the Early 21st Century Using Bayesian Estimation of Markov Chain Parameters. Doklady Earth Sciences, 2021, 501, S32-S37.	0.7	2
2	Scenario-based Changes in the Annual Sum of Active Temperatures and Annual Total Precipitation in Russia and Neighboring Countries and Their Possible Consequences for Agriculture. Russian Meteorology and Hydrology, 2020, 45, 283-289.	1.3	0
3	Statistical Model for Assessing the Formation of Climate-related Hazards Based on Climate Monitoring Data. Russian Meteorology and Hydrology, 2020, 45, 339-344.	1.3	5
4	Identification of Climate Conditions Restricting the Distribution of the Taiga Tick Ixodes Persulcatus on the Territory of Russia and in Neighboring Countries. Doklady Earth Sciences, 2020, 493, 562-564.	0.7	2
5	Climatic Reasons for the Current Expansion of the Range of the Italian Locust in Russia and Neighboring Countries. Doklady Earth Sciences, 2019, 488, 1256-1258.	0.7	4
6	Assessment of Variations in the Annual Sum of Active Temperatures and Total Precipitation during the Vegetation Period in Russia and Neighboring Countries. Russian Meteorology and Hydrology, 2018, 43, 412-417.	1.3	7
7	On the correct use of cumulative applied climate indices for studying biological objects. Russian Meteorology and Hydrology, 2017, 42, 661-664.	1.3	1
8	Assessment of possible expansion of the climatic range of Italian locust (Calliptamus italicus L.) in Russia in the 21st century at simulated climate changes. Russian Meteorology and Hydrology, 2016, 41, 213-217.	1.3	9
9	Potential of Changes in Climatic Range of Colorado Potato Beetle in Russia and Neighboring Countries under Different Scenarios of Anthropogenic Impact on Climate. Izvestiya Rossiiskaya Akademii Nauk, Seriya Geograficheskaya, 2016, , 67-73.	0.2	2
10	The taiga tick Ixodes persulcatus: Propagation under climate change conditions in the 21st century. Russian Meteorology and Hydrology, 2014, 39, 558-563.	1.3	2
11	Comparative estimates of influence of changes in carbon dioxide, methane, nitrous oxide, and water vapor concentrations on radiation-equilibrium temperature of Earth's surface. Russian Meteorology and Hydrology, 2011, 36, 520-526.	1.3	4
12	Distribution of Ixodes ricinus L., 1758 and Ixodes persulcatus Shulze, 1930 (Parasitoformes, Ixodidae) in Russia and adjacent countries in view of observable climate changes. Doklady Earth Sciences, 2009, 427, 1030-1034.	0.7	13
13	Genetic variability and differentiation of three Russian populations of potato cyst nematode Globodera rostochiensis as revealed by nuclear markers. Russian Journal of Genetics, 2008, 44, 533-538.	0.6	4
