#	Article	IF	CITATIONS
1	Inflammatory bowel disease in sub-Saharan Africa: a protocol of a prospective registry with a nested case–control study. BMJ Open, 2020, 10, e039456.	0.8	1
2	Investigation on the hereditary basis of colorectal cancers in an African population with frequent early onset cases. PLoS ONE, 2019, 14, e0224023.	1.1	6
3	A case–control study of risk factors for colorectal cancer in an African population. European Journal of Cancer Prevention, 2019, 28, 145-150.	0.6	22
4	Dietary patterns and colorectal cancer risk in Zimbabwe: A population based case-control study. Cancer Epidemiology, 2018, 57, 33-38.	0.8	12
5	The shifting epidemiology of colorectal cancer in sub-Saharan Africa. The Lancet Gastroenterology and Hepatology, 2017, 2, 377-383.	3.7	47
6	The incidence and histo-pathological characteristics of colorectal cancer in a population based cancer registry in Zimbabwe. Cancer Epidemiology, 2016, 44, 96-100.	0.8	14
7	Serum ferritin concentrations in Africans with low dietary iron. Annals of Hematology, 2009, 88, 1131-1136.	0.8	6
8	Rapid emergence of resistance to penicillin and trimethoprim–sulphamethoxazole in invasive Streptococcus pneumoniae in Zimbabwe. International Journal of Antimicrobial Agents, 2003, 21, 557-561.	1.1	24
9	Iron overload in Africans and African-Americans and a common mutation in the SCL40A1 (ferroportin) Tj ETQq1 1	0,784314	rgBT /Overi
10	Iron Status in Black Persons Is Not Influenced by Haptoglobin Polymorphism. Clinical Chemistry and Laboratory Medicine, 2002, 40, 810-3.	1.4	17
11	Cryptococcus neoformans meningoencephalitis in African children with acquired immunodeficiency syndrome. Pediatric Infectious Disease Journal, 2002, 21, 54-56.	1.1	66
12	Effect of transferrin polymorphism on the metabolism of vitamin C in Zimbabwean adults. American Journal of Clinical Nutrition, 2002, 75, 321-325.	2.2	10
13	Carbohydrate-Deficient Transferrin and Chronic Alcohol Ingestion in Subjects with Transferrin CD-Variants. Clinical Chemistry and Laboratory Medicine, 2001, 39, 937-43.	1.4	24
14	Clinical and genetic heterogeneity in hereditary haemochromatosis: association between lymphocyte counts and expression of iron overload. European Journal of Haematology, 2001, 67, 110-118.	1.1	24
15	Impact of HIV infection on meningitis in Harare, Zimbabwe: a prospective study of 406 predominantly adult patients. Aids, 2000, 14, 1401-1407.	1.0	195
16	Transferrin Polymorphism Influences Iron Status in Blacks. Clinical Chemistry, 2000, 46, 1535-1539.	1.5	41
17	Reference range of serum haptoglobin is haptoglobin phenotype-dependent in blacks. Clinica Chimica Acta, 2000, 296, 163-170.	0.5	32
18	Pancytopenia in Zimbabwe. American Journal of the Medical Sciences, 1999, 317, 22-32.	0.4	3

INNOCENT T GANGAIDZO

#	Article	IF	CITATIONS
19	Intestinal parasites in patients with diarrhea and human immunodeficiency virus infection in Zimbabwe. Aids, 1999, 13, 819-821.	1.0	90
20	Pancytopenia in Zimbabwe. American Journal of the Medical Sciences, 1999, 317, 22-32.	0.4	39
21	Cryptococcal Meningitis in Human Immunodeficiency Virus–Infected Patients in Harare, Zimbabwe. Clinical Infectious Diseases, 1998, 26, 284-289.	2.9	107
22	Serum transferrin receptors are decreased in the presence of iron overload. Clinical Chemistry, 1998, 44, 40-44.	1.5	73
23	African iron overload and hepatocellular carcinoma (HAâ€7–0–080). European Journal of Haematology, 1998, 60, 28-34.	1.1	47
24	Cytokine Profiles in Cerebrospinal Fluid of Human Immunodeficiency Virus â€Infected Patients with Cryptococcal Meningitis: No Leukocytosis despite High Interleukinâ€8 Levels. Journal of Infectious Diseases, 1997, 176, 1633-1636.	1.9	51
25	Traditional Beer Consumption and the Iron Status of Spouse Pairs From a Rural Community in Zimbabwe. Blood, 1997, 89, 2159-2166.	0.6	40
26	ABUNDANT FOLATE IN ZIMBABWEAN BEER. Alcoholism: Clinical and Experimental Research, 1995, 19, 1596-1596.	1.4	2
27	Vitamin B12deficiency is the primary cause of megaloblastic anaemia in Zimbabwe. British Journal of Haematology, 1994, 86, 844-850.	1.2	77
