#	ARTICLE	IF	CITATIONS
1	Societal acceptance of wind farms: Analysis of four common themes across Australian case studies. <i>Energy Policy</i> , 2013, 58, 200-208.	4.2	213
2	China's carbon capture, utilization and storage (CCUS) policy: A critical review. <i>Renewable and Sustainable Energy Reviews</i> , 2020, 119, 109601.	8.2	174
3	Public attitudes towards bioplastics – knowledge, perception and end-of-life management. <i>Resources, Conservation and Recycling</i> , 2019, 151, 104479.	5.3	139
4	The development of Carbon Capture Utilization and Storage (CCUS) research in China: A bibliometric perspective. <i>Renewable and Sustainable Energy Reviews</i> , 2021, 138, 110521.	8.2	132
5	Public attitudes towards plastics. <i>Resources, Conservation and Recycling</i> , 2019, 147, 227-235.	5.3	114
6	Rethinking renewable energy targets and electricity sector reform in Indonesia: A private sector perspective. <i>Renewable and Sustainable Energy Reviews</i> , 2019, 101, 231-247.	8.2	114
7	From research to action: Now we have to move on CCS communication. <i>International Journal of Greenhouse Gas Control</i> , 2010, 4, 426-433.	2.3	75
8	Geothermal technology in Australia: Investigating social acceptance. <i>Energy Policy</i> , 2011, 39, 6301-6307.	4.2	74
9	Developments in public communications on CCS. <i>International Journal of Greenhouse Gas Control</i> , 2015, 40, 449-458.	2.3	73
10	Public support for energy sources and related technologies: The impact of simple information provision. <i>Energy Policy</i> , 2013, 63, 862-869.	4.2	67
11	What's in store: Lessons from implementing CCS. <i>International Journal of Greenhouse Gas Control</i> , 2012, 9, 402-409.	2.3	61
12	Doing the Social in Social License. <i>Social Epistemology</i> , 2014, 28, 209-218.	0.7	50
13	Assessing socio-technical mindsets: Public deliberations on carbon capture and storage in the context of energy sources and climate change. <i>Energy Policy</i> , 2013, 53, 149-158.	4.2	45
14	An integrated roadmap of communication activities around carbon capture and storage in Australia and beyond. <i>Energy Procedia</i> , 2009, 1, 4749-4756.	1.8	40
15	Investigating the link between knowledge and perception of CO ₂ and CCS: An international study. <i>International Journal of Greenhouse Gas Control</i> , 2014, 28, 79-87.	2.3	40
16	Enhancing developing countries' transition to a low-carbon electricity sector. <i>Energy</i> , 2021, 220, 119659.	4.5	40
17	Engaging the public on carbon dioxide capture and storage: Does a large group process work?. <i>Energy Procedia</i> , 2009, 1, 4765-4773.	1.8	36
18	Challenges and prospects for negawatt trading in light of recent technological developments. <i>Nature Energy</i> , 2020, 5, 834-841.	19.8	35

#	ARTICLE	IF	CITATIONS
19	Print media representations of carbon capture utilization and storage (CCUS) technology in China. <i>Renewable and Sustainable Energy Reviews</i> , 2022, 155, 111938.	8.2	33
20	Engaging the public with low-carbon energy technologies: Results from a Scottish large group process. <i>Energy Policy</i> , 2014, 66, 496-506.	4.2	27
21	The demographics of nuclear power: Comparing nuclear experts's™, scientists's™ and non-science professionals's™ views of risks, benefits and values. <i>Energy Research and Social Science</i> , 2018, 46, 29-39.	3.0	26
22	Public Preferences to CCS: How does it Change Across Countries?. <i>Energy Procedia</i> , 2013, 37, 7410-7418.	1.8	23
23	Comparing how the public perceive CCS across Australia and China. <i>International Journal of Greenhouse Gas Control</i> , 2019, 86, 125-133.	2.3	21
24	What Do Science Communicators Talk About When They Talk About Science Communications? Engaging With the Engagers. <i>Science Communication</i> , 2015, 37, 274-282.	1.8	20
25	The Language of Science and Social Licence to Operate. <i>Journal of Language and Social Psychology</i> , 2017, 36, 45-60.	1.2	19
26	Exploring the value proposition for RRI in Australia. <i>Journal of Responsible Innovation</i> , 2019, 6, 332-339.	2.3	19
27	Energymark: Empowering individual Australians to reduce their energy consumption. <i>Energy Policy</i> , 2012, 51, 264-276.	4.2	15
28	The Citizen's™ Round Table process: canvassing public opinion on energy technologies to mitigate climate change. <i>Climatic Change</i> , 2013, 119, 533-546.	1.7	15
29	The influence of narrative versus statistical evidence on public perception towards CCS in China: Survey results from local residents in Shandong and Henan provinces. <i>International Journal of Greenhouse Gas Control</i> , 2019, 84, 54-61.	2.3	15
30	CCS in the Media: An Analysis of International Coverage. <i>Energy and Environment</i> , 2012, 23, 283-298.	2.7	13
31	Comparing public attitudes towards energy technologies in Australia and the UK: The role of political ideology. <i>Global Environmental Change</i> , 2021, 70, 102327.	3.6	13
32	Examining the Role of Carbon Capture and Storage Through an Ethical Lens. <i>Science and Engineering Ethics</i> , 2014, 20, 1111-1128.	1.7	12
33	Who's™ talking CCS?. <i>Energy Procedia</i> , 2011, 4, 6194-6201.	1.8	10
34	Relating Individual Perceptions of Carbon Dioxide to Perceptions of CCS: An International Comparative Study. <i>Energy Procedia</i> , 2013, 37, 7436-7443.	1.8	10
35	Exploring the orientations which characterise the likely public acceptance of low emission energy technologies. <i>Climatic Change</i> , 2011, 107, 549-565.	1.7	9
36	Message framing, environmental behaviour and support for carbon capture and storage in Australia. <i>Energy Research and Social Science</i> , 2021, 73, 101931.	3.0	8

#	ARTICLE	IF	CITATIONS
37	Reflections on a process for developing public trust in energy technologies: Follow-up results of the Australian large group process. Energy Procedia, 2011, 4, 6322-6329.	1.8	7
38	ZeroGen new generation powerâ€“a framework for engaging stakeholders. Energy Procedia, 2009, 1, 4697-4705.	1.8	6
39	Urban sustainability â€“ a segmentation study of Greater Brisbane, Australia. Journal of Environmental Planning and Management, 2016, 59, 414-435.	2.4	5
40	Critical factors and pathways influencing genetically modified food risk perceptions. Journal of Risk Research, 2019, 22, 44-54.	1.4	5
41	Developing an Interactive Survey Game for Informing Opinions about CCS. Energy Procedia, 2013, 37, 7428-7435.	1.8	4
42	Influence of the Large Earthquake and Nuclear Plant Accident on Perception of CCS. Energy Procedia, 2014, 63, 7133-7140.	1.8	4
43	Towards the Intelligent Grid: A Review of the Literature. , 2008, , 283-307.		2
44	Understanding Australian Attitudes to Low Carbon Energy Technologies. Energy Procedia, 2014, 63, 6991-6998.	1.8	2
45	Understanding the publicâ€™s response towards â€“enhanced water recoveryâ€™ in the Great Artesian Basin (Australia) using the carbon capture and storage process. Hydrogeology Journal, 2020, 28, 427-437.	0.9	2
46	Understanding Stakeholder Attitudes to CCS in Victoria, Australia. Energy Procedia, 2014, 63, 6982-6990.	1.8	1
47	Sidrap: A Study of the Factors That Led to the Development of Indonesiaâ€™s First Large-Scale Wind Farm. Case Studies in the Environment, 2019, 3, 1-12.	0.4	1
48	Effect of Collaboration and Competition in an Augmented Reality Mobile Game. , 2011, , 109-116.		1
49	Collaborative emission reduction in regional Australia: Maine's power. IOP Conference Series: Earth and Environmental Science, 2009, 6, 542005.	0.2	0
50	Best Practice for Community Engagement: Determining Who is Affected and What is at Stake. , 0, , 391-410.		0
51	First Year of the UQ Sustainable Energy MicroMasters Series: Evaluation of Participation and Achievement. Lecture Notes in Computer Science, 2019, , 140-145.	1.0	0
