

Dagmara Hering

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9407387/dagmara-hering-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

107
papers

3,307
citations

#	Paper	IF	Citations
107	Drug Interactions Affecting Kidney Function: Beware of Health Threats from Triple Whammy. <i>Advances in Therapy</i> , 2021 , 1	4.1	0
106	Routine assessment of cognitive function in older patients with hypertension seen by primary care physicians: why and how-a decision-making support from the working group on Hypertension and the brain of the European Society of Hypertension and from the European Geriatric Medicine Society. <i>Journal of Hypertension</i> , 2021 , 39, 90-100	1.9	7
105	Patient counselling service with the use of pictograms as the example of pharmacist intervention to improving compliance and medicine safety. <i>Cardiology Journal</i> , 2021 ,	1.4	1
104	Malignancy predicts short-term mortality in Takotsubo: insights from a meta-analysis of 125359 patients. <i>ESC Heart Failure</i> , 2021 , 8, 4357-4359	3.7	1
103	Levosimendan improves the acute course of takotsubo syndrome: a pooled analysis. <i>ESC Heart Failure</i> , 2021 , 8, 4360-4363	3.7	3
102	Impact of Renal Pelvic Denervation on Systemic Hemodynamics and Neurohumoral Changes in a Porcine Model. <i>American Journal of Nephrology</i> , 2021 , 52, 429-434	4.6	0
101	Slow breathing improves cardiovascular reactivity to mental stress and health-related quality of life in heart failure patients with reduced ejection fraction. <i>Cardiology Journal</i> , 2020 , 27, 772-779	1.4	6
100	Tachycardia: The hidden cardiovascular risk factor in uncomplicated arterial hypertension. <i>Cardiology Journal</i> , 2020 , 27, 857-867	1.4	3
99	Repeatability and reproducibility of pulse wave velocity in relation to hemodynamics and sodium excretion in stable patients with hypertension. <i>Journal of Hypertension</i> , 2020 , 38, 1531-1540	1.9	3
98	A perspective of private health care providers in the state of Madhya Pradesh on adopting key strategies of the India hypertension control initiative. <i>Journal of Clinical Hypertension</i> , 2020 , 22, 1321-1327	2.3	3
97	Successful renal denervation decreases the platelet activation status in hypertensive patients. <i>Cardiovascular Research</i> , 2020 , 116, 202-210	9.9	9
96	TMA, A Forgotten Uremic Toxin, but Not TMAO, Is Involved in Cardiovascular Pathology. <i>Toxins</i> , 2019 , 11,	4.9	51
95	May Measurement Month 2017: an analysis of blood pressure screening results from Australia-South-East Asia and Australasia. <i>European Heart Journal Supplements</i> , 2019 , 21, D14-D16	1.5	3
94	Neural Mechanisms. <i>Updates in Hypertension and Cardiovascular Protection</i> , 2019 , 71-86	0.1	
93	Long-term effects of device-guided slow breathing in stable heart failure patients with reduced ejection fraction. <i>Clinical Research in Cardiology</i> , 2019 , 108, 48-60	6.1	8
92	The Role of the Brain in Neurogenic Prehypertension. <i>Updates in Hypertension and Cardiovascular Protection</i> , 2019 , 349-360	0.1	
91	A polymorphism in the noradrenaline transporter gene is associated with increased blood pressure in patients with resistant hypertension. <i>Journal of Hypertension</i> , 2018 , 36, 1571-1577	1.9	13

90	Blood pressure in acute ischemic stroke: challenges in trial interpretation and clinical management: position of the ESH Working Group on Hypertension and the Brain. <i>Journal of Hypertension</i> , 2018 , 36, 1212-1221	1.9	11
89	Age-dependent sympathetic neural responses to βselective beta-blockade in untreated hypertension-related tachycardia. <i>Blood Pressure</i> , 2018 , 27, 158-165	1.7	4
88	Ambulatory arterial stiffness index as a predictor of blood pressure response to renal denervation. <i>Journal of Hypertension</i> , 2018 , 36, 1414-1422	1.9	14
87	Recommendation for the management of dyslipidemia in Poland - Third Declaration of Sopot. Interdisciplinary Expert Position Statement endorsed by the Polish Cardiac Society Working Group on Cardiovascular Pharmacotherapy. <i>Cardiology Journal</i> , 2018 , 25, 655-665	1.4	7
86	Comparison of hypertension epidemiology and treatment in Poland and Australia. <i>Kardiologia Polska</i> , 2018 , 76, 520-528	0.9	1
85	A polymorphism in the norepinephrine transporter gene is associated with affective and cardiovascular disease through a microRNA mechanism. <i>Molecular Psychiatry</i> , 2017 , 22, 134-141	15.1	30
84	Radiotherapy-induced right ventricular remodelling: The missing piece of the puzzle. <i>Archives of Cardiovascular Diseases</i> , 2017 , 110, 116-123	2.7	18
83	Effect of renal denervation on kidney function in patients with chronic kidney disease. <i>International Journal of Cardiology</i> , 2017 , 232, 93-97	3.2	36
82	The influence of chemotherapy on the right ventricle: did we forget something?. <i>Clinical Cardiology</i> , 2017 , 40, 437-443	3.3	17
81	Renal denervation in less severe forms of (resistant) hypertension-Quo vadis?. <i>Journal of Clinical Hypertension</i> , 2017 , 19, 369-370	2.3	1
80	Case of Refractory Hypertension Controlled by Repeated Renal Denervation and Celiac Plexus Block: A Case of Refractory Sympathetic Overload. <i>Hypertension</i> , 2017 , 69, 978-984	8.5	2
79	Sympathetic Response and Outcomes Following Renal Denervation in Patients With Chronic Heart Failure: 12-Month Outcomes From the Symplicity HF Feasibility Study. <i>Journal of Cardiac Failure</i> , 2017 , 23, 702-707	3.3	28
78	Preferred Fourth-Line Pharmacotherapy for Resistant Hypertension: Are We There Yet?. <i>Current Hypertension Reports</i> , 2017 , 19, 30	4.7	3
77	Response to Letter to the Editor by Drs. Yang and Yu entitled: Renal denervation in patients with chronic kidney disease. <i>International Journal of Cardiology</i> , 2017 , 235, 190	3.2	
76	Autonomic nervous system in acute kidney injury. <i>Clinical and Experimental Pharmacology and Physiology</i> , 2017 , 44, 162-171	3	14
75	Renal Denervation Reduces Monocyte Activation and Monocyte-Platelet Aggregate Formation: An Anti-Inflammatory Effect Relevant for Cardiovascular Risk. <i>Hypertension</i> , 2017 , 69, 323-331	8.5	45
74	[OP.7A.06] FIRST-IN-HUMAN EVALUATION OF A TRANSVENOUS CAROTID BODY ABLATION DEVICE TO TREAT PATIENTS WITH RESISTANT HYPERTENSION. <i>Journal of Hypertension</i> , 2017 , 35, e64	1.9	2
73	[OP.7A.08] A POLYMORPHISM IN THE NORADRENALINE TRANSPORTER GENE IS ASSOCIATED WITH INCREASED BLOOD PRESSURE IN PATIENTS WITH RESISTANT HYPERTENSION. <i>Journal of Hypertension</i> , 2017 , 35, e65	1.9	

72	[OP.7A.11] CHROMOGRANIN A AS A PREDICTIVE MARKER OF SUCCESSFUL RENAL DENERVATION. <i>Journal of Hypertension</i> , 2017 , 35, e66	1.9	1
71	[PP.05.32] PROFOUND SYMPATHETIC NERVOUS SYSTEM ACTIVATION IN PATIENTS WITH RESISTANT HYPERTENSION. <i>Journal of Hypertension</i> , 2017 , 35, e127	1.9	1
70	Effects of renal denervation on short-term blood pressure variability: lack of meta-analytic evidence. <i>Journal of Hypertension</i> , 2017 , 35, 1780-1781	1.9	
69	Soluble vascular endothelial growth factor receptor-1 is reduced in patients with resistant hypertension after renal denervation. <i>Journal of Human Hypertension</i> , 2017 , 31, 248-252	2.6	4
68	The Effect of Renal Denervation on Plasma Adipokine Profile in Patients with Treatment Resistant Hypertension. <i>Frontiers in Physiology</i> , 2017 , 8, 369	4.6	8
67	Recent advances in the pathophysiology of arterial hypertension: potential implications for clinical practice. <i>Polish Archives of Internal Medicine</i> , 2017 , 127, 195-204	1.9	4
66	Renal artery anatomy affects the blood pressure response to renal denervation in patients with resistant hypertension. <i>International Journal of Cardiology</i> , 2016 , 202, 388-93	3.2	14
65	Anatomical and procedural determinants of catheter-based renal denervation. <i>Cardiovascular Revascularization Medicine</i> , 2016 , 17, 474-479	1.6	12
64	Device Therapies for Resistant Hypertension. <i>Clinical Therapeutics</i> , 2016 , 38, 2152-2158	3.5	4
63	Hypertension and cognitive dysfunction in elderly: blood pressure management for this global burden. <i>BMC Cardiovascular Disorders</i> , 2016 , 16, 208	2.3	67
62	OS 19-01 BLOOD PRESSURE INDEPENDENT EFFECTS OF RENAL DENERVATION ON THE DECLINE OF KIDNEY FUNCTION IN PATIENTS WITH CHRONIC KIDNEY DISEASE. <i>Journal of Hypertension</i> , 2016 , 34, e228	1.9	1
61	OS 28-02 RENAL DENERVATION ALTERS ADIPOKINE LEVELS IN PATIENTS WITH RESISTANT HYPERTENSION. <i>Journal of Hypertension</i> , 2016 , 34, e251	1.9	2
60	Central Sympathetic Inhibition: a Neglected Approach for Treatment of Cardiac Arrhythmias?. <i>Current Hypertension Reports</i> , 2016 , 18, 13	4.7	3
59	Longitudinal tracking of muscle sympathetic nerve activity and its relationship with blood pressure in subjects with prehypertension. <i>Blood Pressure</i> , 2016 , 25, 184-92	1.7	12
58	Levosimendan: New hope therapy for takotsubo syndrome. <i>Cardiology Journal</i> , 2016 , 23, 616-617	1.4	4
57	Comparable Attenuation of Sympathetic Nervous System Activity in Obese Subjects with Normal Glucose Tolerance, Impaired Glucose Tolerance, and Treatment Naïve Type 2 Diabetes following Equivalent Weight Loss. <i>Frontiers in Physiology</i> , 2016 , 7, 516	4.6	17
56	Sympathetic Activation in Chronic Heart Failure: Potential Benefits of Interventional Therapies. <i>Current Hypertension Reports</i> , 2016 , 18, 51	4.7	6
55	Renal denervation in hypertensive patients not on blood pressure lowering drugs. <i>Clinical Research in Cardiology</i> , 2016 , 105, 755-62	6.1	17

54	A call to action and a lifecourse strategy to address the global burden of raised blood pressure on current and future generations: the Lancet Commission on hypertension. <i>Lancet, The</i> , 2016 , 388, 2665-2712	4.0	413
53	Unilateral Carotid Body Resection in Resistant Hypertension: A Safety and Feasibility Trial. <i>JACC Basic To Translational Science</i> , 2016 , 1, 313-324	8.7	85
52	The Role of Central Nervous System Mechanisms in Resistant Hypertension. <i>Current Hypertension Reports</i> , 2015 , 17, 58	4.7	21
51	Opposing effects of shear-mediated dilation and myogenic constriction on artery diameter in response to handgrip exercise in humans. <i>Journal of Applied Physiology</i> , 2015 , 119, 858-64	3.7	19
50	Role of the Sympathetic Nervous System in Stress-Mediated Cardiovascular Disease. <i>Current Hypertension Reports</i> , 2015 , 17, 80	4.7	57
49	Reduction in peripheral vascular resistance predicts improvement in insulin clearance following weight loss. <i>Cardiovascular Diabetology</i> , 2015 , 14, 113	8.7	10
48	Health-related quality of life and blood pressure 12 months after renal denervation. <i>Journal of Hypertension</i> , 2015 , 33, 2350-8	1.9	5
47	Targeting Blood Pressure Lowering and the Sympathetic Nervous System 2015 , 287-296		
46	Reverse cardiac remodeling after renal denervation: Atrial electrophysiologic and structural changes associated with blood pressure lowering. <i>Heart Rhythm</i> , 2015 , 12, 982-90	6.7	45
45	Arterial norepinephrine concentration is inversely and independently associated with insulin clearance in obese individuals with metabolic syndrome. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2015 , 100, 1544-50	5.6	10
44	Central arteriovenous anastomosis in resistant hypertension?. <i>Lancet, The</i> , 2015 , 385, 1596-7	4.0	5
43	Renal denervation superior to drug therapy in hypertension. <i>Lancet, The</i> , 2015 , 385, 1922-4	4.0	6
42	Sustained sympathetic and blood pressure reduction 1 year after renal denervation in patients with resistant hypertension. <i>Hypertension</i> , 2014 , 64, 118-24	8.5	110
41	Renal denervation: current implications and future perspectives. <i>Clinical Science</i> , 2014 , 126, 41-53	6.5	20
40	Baroreflex sensitivity: a reliable predictor of response to renal denervation?. <i>Journal of the American College of Cardiology</i> , 2014 , 64, 232-3	15.1	
39	Association of vitamin D status and blood pressure response after renal denervation. <i>Clinical Research in Cardiology</i> , 2014 , 103, 41-7	6.1	16
38	Renal Denervation And Pulmonary Vein Isolation In Patients With Drug Resistant Hypertension And Symptomatic Atrial Fibrillation. <i>Journal of Atrial Fibrillation</i> , 2014 , 7, 1165	0.8	1
37	Revelations about carotid body function through its pathological role in resistant hypertension. <i>Current Hypertension Reports</i> , 2013 , 15, 273-80	4.7	53

36	International expert consensus statement: Percutaneous transluminal renal denervation for the treatment of resistant hypertension. <i>Journal of the American College of Cardiology</i> , 2013 , 62, 2031-45	15.1	104
35	Response to quality of life after renal denervation. <i>Hypertension</i> , 2013 , 61, e39	8.5	2
34	Blood pressure and sympathetic nervous system response to renal denervation. <i>Hypertension</i> , 2013 , 61, e13	8.5	8
33	High-normal blood pressure is associated with increased resting sympathetic activity but normal responses to stress tests. <i>Blood Pressure</i> , 2013 , 22, 183-7	1.7	27
32	Feasibility of catheter-based renal nerve ablation and effects on sympathetic nerve activity and blood pressure in patients with end-stage renal disease. <i>International Journal of Cardiology</i> , 2013 , 168, 2214-20	3.2	101
31	Substantial reduction in single sympathetic nerve firing after renal denervation in patients with resistant hypertension. <i>Hypertension</i> , 2013 , 61, 457-64	8.5	266
30	Renal nerve ablation reduces augmentation index in patients with resistant hypertension. <i>Journal of Hypertension</i> , 2013 , 31, 1893-900	1.9	57
29	Dyslipidemia is associated with sympathetic nervous activation and impaired endothelial function in young females. <i>American Journal of Hypertension</i> , 2013 , 26, 250-6	2.3	45
28	Effects of acute and long-term slow breathing exercise on muscle sympathetic nerve activity in untreated male patients with hypertension. <i>Journal of Hypertension</i> , 2013 , 31, 739-46	1.9	34
27	Chronic kidney disease: role of sympathetic nervous system activation and potential benefits of renal denervation. <i>EuroIntervention</i> , 2013 , 9 Suppl R, R127-35	3.1	19
26	Sympathetic nervous system and arterial hypertension: new perspectives, new data. <i>Kardiologia Polska</i> , 2013 , 71, 441-6	0.9	5
25	Renal nerve ablation reduces blood pressure in a patient with renovascular hypertension resistant to drug and revascularisation therapies. <i>International Journal of Cardiology</i> , 2012 , 159, e35-6	3.2	6
24	Catheter based radiofrequency ablation of renal nerves for the treatment of resistant hypertension. <i>Italian Journal of Medicine</i> , 2012 , 6, 105-109	0.5	0
23	Effects of renal denervation on sympathetic activation, blood pressure, and glucose metabolism in patients with resistant hypertension. <i>Frontiers in Physiology</i> , 2012 , 3, 10	4.6	57
22	Advances in sympathetic nerve recording in humans. <i>Frontiers in Physiology</i> , 2012 , 3, 11	4.6	9
21	Renal denervation in human hypertension: mechanisms, current findings, and future prospects. <i>Current Hypertension Reports</i> , 2012 , 14, 247-53	4.7	36
20	Renal denervation in moderate to severe CKD. <i>Journal of the American Society of Nephrology: JASN</i> , 2012 , 23, 1250-7	12.7	271
19	Effects of renal denervation on insulin resistance. <i>Expert Review of Cardiovascular Therapy</i> , 2012 , 10, 1381-6	2.5	9

18	Health-related quality of life after renal denervation in patients with treatment-resistant hypertension. <i>Hypertension</i> , 2012 , 60, 1479-84	8.5	58
17	Lipids, Blood Pressure, Kidney-what was New in 2012?. <i>International Journal of Pharmacology</i> , 2012 , 8, 659-678	0.7	8
16	Smoking, Nicotine and Blood Pressure 2012 , 225-235		
15	Recent advances in the treatment of hypertension. <i>Expert Review of Cardiovascular Therapy</i> , 2011 , 9, 729-44	2.5	13
14	Potentiated sympathetic and hemodynamic responses to alcohol in hypertensive vs. normotensive individuals. <i>Journal of Hypertension</i> , 2011 , 29, 537-41	1.9	14
13	Resting sympathetic outflow does not predict the morning blood pressure surge in hypertension. <i>Journal of Hypertension</i> , 2011 , 29, 2381-6	1.9	20
12	Beta-2 adrenoreceptor gene polymorphisms and sympathetic outflow in humans. <i>Clinical Autonomic Research</i> , 2011 , 21, 333-8	4.3	1
11	Non-dipping pattern of hypertension and obstructive sleep apnea syndrome. <i>Hypertension Research</i> , 2010 , 33, 867-71	4.7	105
10	Smoking is associated with chronic sympathetic activation in hypertension. <i>Blood Pressure</i> , 2010 , 19, 152-5	1.7	40
9	An independent relationship between muscle sympathetic nerve activity and pulse wave velocity in normal humans. <i>Journal of Hypertension</i> , 2010 , 28, 979-84	1.9	119
8	Heightened acute circulatory responses to smoking in women. <i>Blood Pressure</i> , 2008 , 17, 141-6	1.7	10
7	Influences of gender on the interaction between sympathetic nerve traffic and central adiposity. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2008 , 93, 4974-8	5.6	47
6	Sympathetic neural responses to coronary occlusion during balloon angioplasty. <i>Journal of Hypertension</i> , 2007 , 25, 1650-4	1.9	3
5	Tonic chemoreflex activation contributes to the elevated muscle sympathetic nerve activity in patients with chronic renal failure. <i>Journal of Hypertension</i> , 2007 , 25, 157-61	1.9	61
4	Sympathetic neural outflow and chemoreflex sensitivity are related to spontaneous breathing rate in normal men. <i>Hypertension</i> , 2006 , 47, 51-5	8.5	74
3	Sympathetic neural responses to smoking are age dependent. <i>Journal of Hypertension</i> , 2006 , 24, 691-5	1.9	15
2	Gender-selective interaction between aging, blood pressure, and sympathetic nerve activity. <i>Hypertension</i> , 2005 , 45, 522-5	8.5	255
1	Smoking and cardiovascular risk: new mechanisms and further evidence for a guilty verdict. <i>Journal of Hypertension</i> , 2004 , 22, 31-4	1.9	4
