

Ullrich K H Ecker

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9452097/ullrich-k-h-ecker-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

91
papers

4,727
citations

#	Paper	IF	Citations
91	Misinformation and Its Correction: Continued Influence and Successful Debiasing. <i>Psychological Science in the Public Interest: A Journal of the American Psychological Society</i> , 2012 , 13, 106-31	18.6	1178
90	Beyond Misinformation: Understanding and Coping with the Post-Truth Era. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 353-369	2.3	455
89	Neutralizing misinformation through inoculation: Exposing misleading argumentation techniques reduces their influence. <i>PLoS ONE</i> , 2017 , 12, e0175799	3.7	291
88	Explicit warnings reduce but do not eliminate the continued influence of misinformation. <i>Memory and Cognition</i> , 2010 , 38, 1087-100	2.2	206
87	Processing political misinformation: comprehending the Trump phenomenon. <i>Royal Society Open Science</i> , 2017 , 4, 160802	3.3	164
86	The components of working memory updating: an experimental decomposition and individual differences. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2010 , 36, 170-89	2.2	154
85	Correcting false information in memory: manipulating the strength of misinformation encoding and its retraction. <i>Psychonomic Bulletin and Review</i> , 2011 , 18, 570-8	4.1	146
84	Reminders and Repetition of Misinformation: Helping or Hindering Its Retraction?. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 185-192	2.3	107
83	The role of familiarity in correcting inaccurate information. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2017 , 43, 1948-1961	2.2	104
82	Do people keep believing because they want to? Preexisting attitudes and the continued influence of misinformation. <i>Memory and Cognition</i> , 2014 , 42, 292-304	2.2	101
81	A working memory test battery for MATLAB. <i>Behavior Research Methods</i> , 2010 , 42, 571-85	6.1	91
80	The effects of subtle misinformation in news headlines. <i>Journal of Experimental Psychology: Applied</i> , 2014 , 20, 323-35	1.8	85
79	Has the butcher on the bus dyed his hair? When color changes modulate ERP correlates of familiarity and recollection. <i>NeuroImage</i> , 2006 , 32, 1879-90	7.9	83
78	Color and context: an ERP study on intrinsic and extrinsic feature binding in episodic memory. <i>Memory and Cognition</i> , 2007 , 35, 1483-501	2.2	74
77	Removal of information from working memory: A specific updating process. <i>Journal of Memory and Language</i> , 2014 , 74, 77-90	3.8	72
76	Reduced cortical inhibition in first-episode schizophrenia. <i>Schizophrenia Research</i> , 2008 , 105, 252-61	3.6	69
75	Remembering perceptual features unequally bound in object and episodic tokens: Neural mechanisms and their electrophysiological correlates. <i>Neuroscience and Biobehavioral Reviews</i> , 2010 , 34, 1066-79	9	61

74	Political Attitudes and the Processing of Misinformation Corrections. <i>Political Psychology</i> , 2019 , 40, 241-260	3.6	58
73	Terrorists brought down the plane!--No, actually it was a technical fault: processing corrections of emotive information. <i>Quarterly Journal of Experimental Psychology</i> , 2011 , 64, 283-310	1.8	56
72	The hidden persuaders break into the tired brain. <i>Journal of Experimental Social Psychology</i> , 2009 , 45, 320-326	2.6	56
71	Toward effective government communication strategies in the era of COVID-19. <i>Humanities and Social Sciences Communications</i> , 2021 , 8,	2.8	56
70	Context effects on familiarity are familiarity effects of context - an electrophysiological study. <i>International Journal of Psychophysiology</i> , 2007 , 64, 146-56	2.9	51
69	He did it! She did it! No, she did not! Multiple causal explanations and the continued influence of misinformation. <i>Journal of Memory and Language</i> , 2015 , 85, 101-115	3.8	50
68	Working memory updating involves item-specific removal. <i>Journal of Memory and Language</i> , 2014 , 74, 1-15	3.8	50
67	Binding of intrinsic and extrinsic features in working memory. <i>Journal of Experimental Psychology: General</i> , 2013 , 142, 218-234	4.7	48
66	The influence of object and background color manipulations on the electrophysiological indices of recognition memory. <i>Brain Research</i> , 2007 , 1185, 221-30	3.7	47
65	Cognitive impairment of executive function as a core symptom of schizophrenia. <i>World Journal of Biological Psychiatry</i> , 2009 , 10, 442-51	3.8	45
64	The effectiveness of short-format refutational fact-checks. <i>British Journal of Psychology</i> , 2020 , 111, 36-54	4.0	40
63	They Might Be a Liar But They're My Liar: Source Evaluation and the Prevalence of Misinformation. <i>Political Psychology</i> , 2020 , 41, 21-34	3.6	37
62	Exploring the neural substrates of misinformation processing. <i>Neuropsychologia</i> , 2017 , 106, 216-224	3.2	35
61	ERP evidence for flexible adjustment of retrieval orientation and its influence on familiarity. <i>Journal of Cognitive Neuroscience</i> , 2009 , 21, 1907-19	3.1	35
60	Increased cortical inhibition deficits in first-episode schizophrenia with comorbid cannabis abuse. <i>Psychopharmacology</i> , 2010 , 208, 353-63	4.7	34
59	Does truth matter to voters? The effects of correcting political misinformation in an Australian sample. <i>Royal Society Open Science</i> , 2018 , 5, 180593	3.3	31
58	Evaluation of a template for countering misinformation-Real-world Autism treatment myth debunking. <i>PLoS ONE</i> , 2019 , 14, e0210746	3.7	28
57	Misinformation and How to Correct It 2015 , 1-17		26

56	Hippocampal integrity and neurocognition in first-episode schizophrenia: a multidimensional study. <i>World Journal of Biological Psychiatry</i> , 2014 , 15, 188-99	3.8	26
55	The psychological drivers of misinformation belief and its resistance to correction 2022 , 1, 13-29		25
54	Working memory capacity, short-term memory capacity, and the continued influence effect: A latent-variable analysis. <i>Intelligence</i> , 2018 , 69, 117-122	3	23
53	Can corrections spread misinformation to new audiences? Testing for the elusive familiarity backfire effect. <i>Cognitive Research: Principles and Implications</i> , 2020 , 5, 41	2.7	23
52	Protecting consumers from fraudulent health claims: A taxonomy of psychological drivers, interventions, barriers, and treatments. <i>Social Science and Medicine</i> , 2020 , 259, 112790	5.1	23
51	Using the COVID-19 economic crisis to frame climate change as a secondary issue reduces mitigation support. <i>Journal of Environmental Psychology</i> , 2020 , 70, 101464	6.7	21
50	Refutations of Equivocal Claims: No Evidence for an Ironic Effect of Counterargument Number. <i>Journal of Applied Research in Memory and Cognition</i> , 2019 , 8, 98-107	2.3	20
49	Reminders and repetition of misinformation: Helping or hindering its retraction?. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 185-192	2.3	19
48	Memory Without Consolidation: Temporal Distinctiveness Explains Retroactive Interference. <i>Cognitive Science</i> , 2015 , 39, 1570-93	2.2	18
47	Attention: Myth Follows! Facilitated Communication, Parent and Professional Attitudes towards Evidence-based Practice, and the Power of Misinformation. <i>Evidence-Based Communication Assessment and Intervention</i> , 2015 , 9, 113-126	0.3	18
46	Electrophysiological correlates of exemplar-specific processes in implicit and explicit memory. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2012 , 12, 52-64	3.5	18
45	Using the president's tweets to understand political diversion in the age of social media. <i>Nature Communications</i> , 2020 , 11, 5764	17.4	17
44	Working memory capacity mediates the relationship between removal and fluid intelligence. <i>Journal of Memory and Language</i> , 2018 , 101, 18-36	3.8	16
43	A Public Health Research Agenda for Managing Infodemics: Methods and Results of the First WHO Infodemiology Conference. <i>JMIR Infodemiology</i> , 2021 , 1, e30979		16
42	Keeping track of 'alternative facts': The neural correlates of processing misinformation corrections. <i>NeuroImage</i> , 2019 , 193, 46-56	7.9	14
41	Effects of prestudy and poststudy rest on memory: Support for temporal interference accounts of forgetting. <i>Psychonomic Bulletin and Review</i> , 2015 , 22, 772-8	4.1	14
40	Models of cognition and constraints from neuroscience: A case study involving consolidation. <i>Australian Journal of Psychology</i> , 2012 , 64, 37-45	2.3	14
39	Impaired memory updating associated with impaired recall of negative words in dysphoric rumination-Evidence for a removal deficit. <i>Behaviour Research and Therapy</i> , 2017 , 93, 22-28	5.2	13

38	Letting the Gorilla Emerge From the Mist: Getting Past Post-Truth. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 418-424	2.3	12
37	Computational constraints in cognitive theories of forgetting. <i>Frontiers in Psychology</i> , 2012 , 3, 400	3.4	12
36	How Stories in Memory Perpetuate the Continued Influence of False Information. <i>Journal of Consumer Psychology</i> , 2020 , 30, 240-259	3.1	12
35	Verbal predicates foster conscious recollection but not familiarity of a task-irrelevant perceptual feature--an ERP study. <i>Consciousness and Cognition</i> , 2009 , 18, 679-89	2.6	11
34	Can you believe it? An investigation into the impact of retraction source credibility on the continued influence effect. <i>Memory and Cognition</i> , 2021 , 49, 631-644	2.2	11
33	Why rebuttals may not work: the psychology of misinformation** This article is an edited version of his presentation at the Asia Journalism Forum, Singapore, 18 August 2017.View all notes. <i>Media Asia</i> , 2017 , 44, 79-87	1.5	10
32	Age-related changes in working memory: Age affects relational but not conjunctive feature binding. <i>Psychology and Aging</i> , 2018 , 33, 512-526	3.6	10
31	Corrections of political misinformation: no evidence for an effect of partisan worldview in a US convenience sample. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2021 , 376, 20200145	5.8	8
30	How "implicit" are implicit color effects in memory?. <i>Experimental Psychology</i> , 2002 , 49, 120-31	1.5	6
29	Refuting Spurious COVID-19 Treatment Claims Reduces Demand and Misinformation Sharing. <i>Journal of Applied Research in Memory and Cognition</i> , 2021 , 10, 248-258	2.3	6
28	Not wallowing in misery - retractions of negative misinformation are effective in depressive rumination. <i>Cognition and Emotion</i> , 2019 , 33, 991-1005	2.3	6
27	Can You Believe it? An Investigation into the Impact of Retraction Source Credibility on the Continued Influence Effect		5
26	Polarity and attitude effects in the continued-influence paradigm. <i>Journal of Memory and Language</i> , 2019 , 108, 104028	3.8	4
25	No evidence for a role of reconsolidation in updating of paired associates. <i>Journal of Cognitive Psychology</i> , 2017 , 29, 912-919	0.9	4
24	You don't have to tell a story! A registered report testing the effectiveness of narrative versus non-narrative misinformation corrections. <i>Cognitive Research: Principles and Implications</i> , 2020 , 5, 64	2.7	4
23	Reducing demand for ineffective health remedies: overcoming the illusion of causality. <i>Psychology and Health</i> , 2018 , 33, 1472-1489	2.9	4
22	Countering demand for ineffective health remedies: Do consumers respond to risks, lack of benefits, or both?. <i>Psychology and Health</i> , 2021 , 36, 593-611	2.9	3
21	Refutations of equivocal claims: No evidence for an ironic effect of counterargument number.. <i>Journal of Applied Research in Memory and Cognition</i> , 2019 , 8, 98-107	2.3	3

20	Do False Allegations Persist? Retracted Misinformation Does Not Continue to Influence Explicit Person Impressions. <i>Journal of Applied Research in Memory and Cognition</i> , 2020 , 9, 587-601	2.3	3
19	A comparison of prebunking and debunking interventions for implied versus explicit misinformation.. <i>British Journal of Psychology</i> , 2021 ,	4	3
18	Electrophysiological correlates of the continued influence effect of misinformation: an exploratory study. <i>Journal of Cognitive Psychology</i> , 2020 , 32, 771-784	0.9	2
17	Correction Format has a Limited Role when Debunking Misinformation		2
16	Losses, hopes, and expectations for sustainable futures after COVID. <i>Humanities and Social Sciences Communications</i> , 2021 , 8,	2.8	2
15	Using the president's tweets to understand political diversion in the age of social media		2
14	Refuting Spurious COVID-19 Treatment Claims Reduces Demand and Misinformation Sharing		2
13	Corrections of Political Misinformation: No Evidence for an Effect of Partisan Worldview in a U.S. Convenience Sample		2
12	Working memory capacity, removal efficiency and event specific memory as predictors of misinformation reliance. <i>Journal of Cognitive Psychology</i> , 2021 , 33, 518-532	0.9	2
11	Head Cooling Prior to Exercise in the Heat Does Not Improve Cognitive Performance. <i>Journal of Sports Science and Medicine</i> , 2021 , 20, 69-76	2.7	2
10	Memory updating in sub-clinical eating disorder: differential effects with food and body shape words. <i>Eating Behaviors</i> , 2015 , 17, 103-6	3	1
9	The Challenge of Misinformation and Ways to Reduce its Impact 2020 , 461-476		1
8	A Combination of Ice Ingestion and Head Cooling Enhances Cognitive Performance during Endurance Exercise in the Heat.. <i>Journal of Sports Science and Medicine</i> , 2022 , 21, 23-32	2.7	1
7	Interference control in working memory: Evidence for discriminant validity between removal and inhibition tasks. <i>PLoS ONE</i> , 2020 , 15, e0243053	3.7	1
6	Brief Report: Perceived Evidence and Use of Autism Intervention Strategies in Early Intervention Providers. <i>Journal of Autism and Developmental Disorders</i> , 2020 , 50, 1088-1094	4.6	1
5	Correction format has a limited role when debunking misinformation.. <i>Cognitive Research: Principles and Implications</i> , 2021 , 6, 83	2.7	1
4	Reducing demand for overexploited wildlife products: Lessons from systematic reviews from outside conservation science. <i>Conservation Science and Practice</i> ,	2.2	
3	Sensitivity to misinformation retractions in the continued influence paradigm: Evidence for stability. <i>Quarterly Journal of Experimental Psychology</i> , 2021 , 17470218211048986	1.8	

- 2 Ice Ingestion Maintains Cognitive Performance during a Repeated Sprint Performance in The Heat. *Journal of Sports Science and Medicine*,164-170 2.7
- 1 Impression formation stimuli: A corpus of behavior statements rated on morality, competence, informativeness, and believability. *PLoS ONE*, **2022**, 17, e0269393 3.7
