

Ullrich K H Ecker

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9452097/ullrich-k-h-ecker-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

91
papers

4,727
citations

#	Paper	IF	Citations
91	The psychological drivers of misinformation belief and its resistance to correction 2022 , 1, 13-29		25
90	A Combination of Ice Ingestion and Head Cooling Enhances Cognitive Performance during Endurance Exercise in the Heat.. <i>Journal of Sports Science and Medicine</i> , 2022 , 21, 23-32	2.7	1
89	Impression formation stimuli: A corpus of behavior statements rated on morality, competence, informativeness, and believability. <i>PLoS ONE</i> , 2022 , 17, e0269393	3.7	
88	Countering demand for ineffective health remedies: Do consumers respond to risks, lack of benefits, or both?. <i>Psychology and Health</i> , 2021 , 36, 593-611	2.9	3
87	Losses, hopes, and expectations for sustainable futures after COVID. <i>Humanities and Social Sciences Communications</i> , 2021 , 8,	2.8	2
86	Working memory capacity, removal efficiency and event specific memory as predictors of misinformation reliance. <i>Journal of Cognitive Psychology</i> , 2021 , 33, 518-532	0.9	2
85	Refuting Spurious COVID-19 Treatment Claims Reduces Demand and Misinformation Sharing. <i>Journal of Applied Research in Memory and Cognition</i> , 2021 , 10, 248-258	2.3	6
84	Can you believe it? An investigation into the impact of retraction source credibility on the continued influence effect. <i>Memory and Cognition</i> , 2021 , 49, 631-644	2.2	11
83	Corrections of political misinformation: no evidence for an effect of partisan worldview in a US convenience sample. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2021 , 376, 20200145	5.8	8
82	Head Cooling Prior to Exercise in the Heat Does Not Improve Cognitive Performance. <i>Journal of Sports Science and Medicine</i> , 2021 , 20, 69-76	2.7	2
81	A Public Health Research Agenda for Managing Infodemics: Methods and Results of the First WHO Infodemiology Conference. <i>JMIR Infodemiology</i> , 2021 , 1, e30979		16
80	Sensitivity to misinformation retractions in the continued influence paradigm: Evidence for stability. <i>Quarterly Journal of Experimental Psychology</i> , 2021 , 17470218211048986	1.8	
79	Toward effective government communication strategies in the era of COVID-19. <i>Humanities and Social Sciences Communications</i> , 2021 , 8,	2.8	56
78	Correction format has a limited role when debunking misinformation.. <i>Cognitive Research: Principles and Implications</i> , 2021 , 6, 83	2.7	1
77	A comparison of prebunking and debunking interventions for implied versus explicit misinformation.. <i>British Journal of Psychology</i> , 2021 ,	4	3
76	Electrophysiological correlates of the continued influence effect of misinformation: an exploratory study. <i>Journal of Cognitive Psychology</i> , 2020 , 32, 771-784	0.9	2
75	Using the COVID-19 economic crisis to frame climate change as a secondary issue reduces mitigation support. <i>Journal of Environmental Psychology</i> , 2020 , 70, 101464	6.7	21

74	Can corrections spread misinformation to new audiences? Testing for the elusive familiarity backfire effect. <i>Cognitive Research: Principles and Implications</i> , 2020 , 5, 41	2.7	23
73	You don't have to tell a story! A registered report testing the effectiveness of narrative versus non-narrative misinformation corrections. <i>Cognitive Research: Principles and Implications</i> , 2020 , 5, 64	2.7	4
72	The Challenge of Misinformation and Ways to Reduce its Impact 2020 , 461-476		1
71	Interference control in working memory: Evidence for discriminant validity between removal and inhibition tasks. <i>PLoS ONE</i> , 2020 , 15, e0243053	3.7	1
70	Protecting consumers from fraudulent health claims: A taxonomy of psychological drivers, interventions, barriers, and treatments. <i>Social Science and Medicine</i> , 2020 , 259, 112790	5.1	23
69	Brief Report: Perceived Evidence and Use of Autism Intervention Strategies in Early Intervention Providers. <i>Journal of Autism and Developmental Disorders</i> , 2020 , 50, 1088-1094	4.6	1
68	Do False Allegations Persist? Retracted Misinformation Does Not Continue to Influence Explicit Person Impressions. <i>Journal of Applied Research in Memory and Cognition</i> , 2020 , 9, 587-601	2.3	3
67	Using the president's tweets to understand political diversion in the age of social media. <i>Nature Communications</i> , 2020 , 11, 5764	17.4	17
66	They Might Be a Liar But They're My Liar: Source Evaluation and the Prevalence of Misinformation. <i>Political Psychology</i> , 2020 , 41, 21-34	3.6	37
65	The effectiveness of short-format refutational fact-checks. <i>British Journal of Psychology</i> , 2020 , 111, 36-54		40
64	How Stories in Memory Perpetuate the Continued Influence of False Information. <i>Journal of Consumer Psychology</i> , 2020 , 30, 240-259	3.1	12
63	Evaluation of a template for countering misinformation-Real-world Autism treatment myth debunking. <i>PLoS ONE</i> , 2019 , 14, e0210746	3.7	28
62	Polarity and attitude effects in the continued-influence paradigm. <i>Journal of Memory and Language</i> , 2019 , 108, 104028	3.8	4
61	Keeping track of 'alternative facts': The neural correlates of processing misinformation corrections. <i>NeuroImage</i> , 2019 , 193, 46-56	7.9	14
60	Refutations of equivocal claims: No evidence for an ironic effect of counterargument number.. <i>Journal of Applied Research in Memory and Cognition</i> , 2019 , 8, 98-107	2.3	3
59	Refutations of Equivocal Claims: No Evidence for an Ironic Effect of Counterargument Number. <i>Journal of Applied Research in Memory and Cognition</i> , 2019 , 8, 98-107	2.3	20
58	Not wallowing in misery - retractions of negative misinformation are effective in depressive rumination. <i>Cognition and Emotion</i> , 2019 , 33, 991-1005	2.3	6
57	Political Attitudes and the Processing of Misinformation Corrections. <i>Political Psychology</i> , 2019 , 40, 241-260	3.6	58

56	Working memory capacity mediates the relationship between removal and fluid intelligence. <i>Journal of Memory and Language</i> , 2018 , 101, 18-36	3.8	16
55	Working memory capacity, short-term memory capacity, and the continued influence effect: A latent-variable analysis. <i>Intelligence</i> , 2018 , 69, 117-122	3	23
54	Age-related changes in working memory: Age affects relational but not conjunctive feature binding. <i>Psychology and Aging</i> , 2018 , 33, 512-526	3.6	10
53	Does truth matter to voters? The effects of correcting political misinformation in an Australian sample. <i>Royal Society Open Science</i> , 2018 , 5, 180593	3.3	31
52	Reducing demand for ineffective health remedies: overcoming the illusion of causality. <i>Psychology and Health</i> , 2018 , 33, 1472-1489	2.9	4
51	Processing political misinformation: comprehending the Trump phenomenon. <i>Royal Society Open Science</i> , 2017 , 4, 160802	3.3	164
50	Impaired memory updating associated with impaired recall of negative words in dysphoric rumination-Evidence for a removal deficit. <i>Behaviour Research and Therapy</i> , 2017 , 93, 22-28	5.2	13
49	Reminders and Repetition of Misinformation: Helping or Hindering Its Retraction?. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 185-192	2.3	107
48	Exploring the neural substrates of misinformation processing. <i>Neuropsychologia</i> , 2017 , 106, 216-224	3.2	35
47	Beyond Misinformation: Understanding and Coping with the Post-Truth Era. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 353-369	2.3	455
46	Neutralizing misinformation through inoculation: Exposing misleading argumentation techniques reduces their influence. <i>PLoS ONE</i> , 2017 , 12, e0175799	3.7	291
45	No evidence for a role of reconsolidation in updating of paired associates. <i>Journal of Cognitive Psychology</i> , 2017 , 29, 912-919	0.9	4
44	Why rebuttals may not work: the psychology of misinformation** This article is an edited version of his presentation at the Asia Journalism Forum, Singapore, 18 August 2017.View all notes. <i>Media Asia</i> , 2017 , 44, 79-87	1.5	10
43	Letting the Gorilla Emerge From the Mist: Getting Past Post-Truth. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 418-424	2.3	12
42	Reminders and repetition of misinformation: Helping or hindering its retraction?. <i>Journal of Applied Research in Memory and Cognition</i> , 2017 , 6, 185-192	2.3	19
41	The role of familiarity in correcting inaccurate information. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2017 , 43, 1948-1961	2.2	104
40	He did it! She did it! No, she did not! Multiple causal explanations and the continued influence of misinformation. <i>Journal of Memory and Language</i> , 2015 , 85, 101-115	3.8	50
39	Effects of prestudy and poststudy rest on memory: Support for temporal interference accounts of forgetting. <i>Psychonomic Bulletin and Review</i> , 2015 , 22, 772-8	4.1	14

38	Misinformation and How to Correct It 2015 , 1-17		26
37	Memory Without Consolidation: Temporal Distinctiveness Explains Retroactive Interference. <i>Cognitive Science</i> , 2015 , 39, 1570-93	2.2	18
36	Attention: Myth Follows! Facilitated Communication, Parent and Professional Attitudes towards Evidence-based Practice, and the Power of Misinformation. <i>Evidence-Based Communication Assessment and Intervention</i> , 2015 , 9, 113-126	0.3	18
35	Memory updating in sub-clinical eating disorder: differential effects with food and body shape words. <i>Eating Behaviors</i> , 2015 , 17, 103-6	3	1
34	Do people keep believing because they want to? Preexisting attitudes and the continued influence of misinformation. <i>Memory and Cognition</i> , 2014 , 42, 292-304	2.2	101
33	Working memory updating involves item-specific removal. <i>Journal of Memory and Language</i> , 2014 , 74, 1-15	3.8	50
32	Removal of information from working memory: A specific updating process. <i>Journal of Memory and Language</i> , 2014 , 74, 77-90	3.8	72
31	The effects of subtle misinformation in news headlines. <i>Journal of Experimental Psychology: Applied</i> , 2014 , 20, 323-35	1.8	85
30	Hippocampal integrity and neurocognition in first-episode schizophrenia: a multidimensional study. <i>World Journal of Biological Psychiatry</i> , 2014 , 15, 188-99	3.8	26
29	Binding of intrinsic and extrinsic features in working memory. <i>Journal of Experimental Psychology: General</i> , 2013 , 142, 218-234	4.7	48
28	Models of cognition and constraints from neuroscience: A case study involving consolidation. <i>Australian Journal of Psychology</i> , 2012 , 64, 37-45	2.3	14
27	Misinformation and Its Correction: Continued Influence and Successful Debiasing. <i>Psychological Science in the Public Interest: A Journal of the American Psychological Society</i> , 2012 , 13, 106-31	18.6	1178
26	Computational constraints in cognitive theories of forgetting. <i>Frontiers in Psychology</i> , 2012 , 3, 400	3.4	12
25	Electrophysiological correlates of exemplar-specific processes in implicit and explicit memory. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2012 , 12, 52-64	3.5	18
24	Correcting false information in memory: manipulating the strength of misinformation encoding and its retraction. <i>Psychonomic Bulletin and Review</i> , 2011 , 18, 570-8	4.1	146
23	Terrorists brought down the plane!--No, actually it was a technical fault: processing corrections of emotive information. <i>Quarterly Journal of Experimental Psychology</i> , 2011 , 64, 283-310	1.8	56
22	The components of working memory updating: an experimental decomposition and individual differences. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2010 , 36, 170-89	2.2	154
21	A working memory test battery for MATLAB. <i>Behavior Research Methods</i> , 2010 , 42, 571-85	6.1	91

20	Explicit warnings reduce but do not eliminate the continued influence of misinformation. <i>Memory and Cognition</i> , 2010 , 38, 1087-100	2.2	206
19	Increased cortical inhibition deficits in first-episode schizophrenia with comorbid cannabis abuse. <i>Psychopharmacology</i> , 2010 , 208, 353-63	4.7	34
18	Remembering perceptual features unequally bound in object and episodic tokens: Neural mechanisms and their electrophysiological correlates. <i>Neuroscience and Biobehavioral Reviews</i> , 2010 , 34, 1066-79	9	61
17	ERP evidence for flexible adjustment of retrieval orientation and its influence on familiarity. <i>Journal of Cognitive Neuroscience</i> , 2009 , 21, 1907-19	3.1	35
16	Cognitive impairment of executive function as a core symptom of schizophrenia. <i>World Journal of Biological Psychiatry</i> , 2009 , 10, 442-51	3.8	45
15	Verbal predicates foster conscious recollection but not familiarity of a task-irrelevant perceptual feature--an ERP study. <i>Consciousness and Cognition</i> , 2009 , 18, 679-89	2.6	11
14	The hidden persuaders break into the tired brain. <i>Journal of Experimental Social Psychology</i> , 2009 , 45, 320-326	2.6	56
13	Reduced cortical inhibition in first-episode schizophrenia. <i>Schizophrenia Research</i> , 2008 , 105, 252-61	3.6	69
12	The influence of object and background color manipulations on the electrophysiological indices of recognition memory. <i>Brain Research</i> , 2007 , 1185, 221-30	3.7	47
11	Color and context: an ERP study on intrinsic and extrinsic feature binding in episodic memory. <i>Memory and Cognition</i> , 2007 , 35, 1483-501	2.2	74
10	Context effects on familiarity are familiarity effects of context - an electrophysiological study. <i>International Journal of Psychophysiology</i> , 2007 , 64, 146-56	2.9	51
9	Has the butcher on the bus dyed his hair? When color changes modulate ERP correlates of familiarity and recollection. <i>NeuroImage</i> , 2006 , 32, 1879-90	7.9	83
8	How "implicit" are implicit color effects in memory?. <i>Experimental Psychology</i> , 2002 , 49, 120-31	1.5	6
7	Reducing demand for overexploited wildlife products: Lessons from systematic reviews from outside conservation science. <i>Conservation Science and Practice</i> ,	2.2	
6	Correction Format has a Limited Role when Debunking Misinformation		2
5	Using the president's tweets to understand political diversion in the age of social media		2
4	Refuting Spurious COVID-19 Treatment Claims Reduces Demand and Misinformation Sharing		2
3	Can You Believe it? An Investigation into the Impact of Retraction Source Credibility on the Continued Influence Effect		5

- 2 Corrections of Political Misinformation: No Evidence for an Effect of Partisan Worldview in a U.S. Convenience Sample 2
- 1 Ice Ingestion Maintains Cognitive Performance during a Repeated Sprint Performance in The Heat. *Journal of Sports Science and Medicine*,164-170 2.7
