#	ARTICLE	IF	CITATIONS
1	A scoping review on the effect of cannabis on pain intensity in people with spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2022, 45, 656-667.	1.4	5
2	Factors Associated With High and Low Life Satisfaction 10 Years After Traumatic Brain Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2022, 103, 2164-2173.	0.9	3
3	Strategies for health care providers to help individuals experiencing grief and loss due to spinal cord injury (SCI): A qualitative study.. <i>Rehabilitation Psychology</i> , 2022, 67, 315-324.	1.3	0
4	Novel and modifiable factors associated with adherence to continuous positive airway pressure therapy initiated during stroke rehabilitation: An exploratory analysis of a prospective cohort study. <i>Sleep Medicine</i> , 2022, , .	1.6	1
5	A tele-health intervention to increase physical fitness in people with spinal cord injury and cardiometabolic disease or risk factors: a pilot randomized controlled trial. <i>Spinal Cord</i> , 2021, 59, 63-73.	1.9	17
6	Segmented quantitative diffusion tensor imaging evaluation of acute traumatic cervical spinal cord injury. <i>British Journal of Radiology</i> , 2021, 94, 20201000.	2.2	4
7	Exercise training and cognition in multiple sclerosis: The GET Smart trial protocol. <i>Contemporary Clinical Trials</i> , 2021, 104, 106331.	1.8	0
8	Driving patterns, confidence, and perception of abilities following moderate to severe traumatic brain injury: a TBI model system study. <i>Brain Injury</i> , 2021, 35, 1-8.	1.2	4
9	Return to Driving After Moderate-to-Severe Traumatic Brain Injury: A Traumatic Brain Injury Model System Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2021, 102, 1568-1575.	0.9	6
10	Relations Among Suicidal Ideation, Depressive Symptoms, and Functional Independence During the 10 Years After Traumatic Brain Injury: A Model Systems Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2021, , .	0.9	2
11	Quality of life in individuals newly diagnosed with multiple sclerosis or clinically isolated syndrome. <i>Journal of Neurology</i> , 2021, , 1.	3.6	0
12	Network Analysis of Neurobehavioral and Post-Traumatic Stress Disorder Symptoms One Year after Traumatic Brain Injury: A Veterans Affairs Traumatic Brain Injury Model Systems Study. <i>Journal of Neurotrauma</i> , 2021, 38, 3332-3340.	3.4	7
13	Management of Mental Health Disorders, Substance Use Disorders, and Suicide in Adults with Spinal Cord Injury: Clinical Practice Guideline for Healthcare Providers. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2021, 27, 152-224.	1.8	4
14	Identifying group-based patterns of suicidal ideation over the first 10 years after moderate-to-severe TBI. <i>Journal of Clinical Psychology</i> , 2021, , .	1.9	3
15	The Accuracy of the Patient Health Questionnaire-9 Algorithm for Screening to Detect Major Depression: An Individual Participant Data Meta-Analysis. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 25-37.	8.8	67
16	Equivalency of the diagnostic accuracy of the PHQ-8 and PHQ-9: a systematic review and individual participant data meta-analysis. <i>Psychological Medicine</i> , 2020, 50, 1368-1380.	4.5	175
17	Motivational interviewing to promote health outcomes and behaviour change in multiple sclerosis: a systematic review. <i>Clinical Rehabilitation</i> , 2020, 34, 299-309.	2.2	10
18	Pain across traumatic injury groups: A National Institute on Disability, Independent Living, and Rehabilitation Research model systems study. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, 829-833.	2.1	4

#	ARTICLE	IF	CITATIONS
19	How do healthcare providers manage depression in people with spinal cord injury?. Spinal Cord Series and Cases, 2020, 6, 85.	0.6	3
20	Accuracy of the PHQ-2 Alone and in Combination With the PHQ-9 for Screening to Detect Major Depression. JAMA - Journal of the American Medical Association, 2020, 323, 2290.	7.4	242
21	Patient Health Questionnaire-9 scores do not accurately estimate depression prevalence: individual participant data meta-analysis. Journal of Clinical Epidemiology, 2020, 122, 115-128.e1.	5.0	113
22	Estimating the sample mean and standard deviation from commonly reported quantiles in meta-analysis. Statistical Methods in Medical Research, 2020, 29, 2520-2537.	1.5	366
23	A Primary Care Provider's Guide to Depression After Spinal Cord Injury: Is It Normal? Do We Treat It?. Topics in Spinal Cord Injury Rehabilitation, 2020, 26, 152-156.	1.8	3
24	Intensive Continuous Positive Airway Pressure Adherence Program During Stroke Rehabilitation. Stroke, 2019, 50, 1895-1897.	2.0	7
25	Shortening self-report mental health symptom measures through optimal test assembly methods: Development and validation of the Patient Health Questionnaire-Depression-4. Depression and Anxiety, 2019, 36, 82-92.	4.1	16
26	Probability of major depression diagnostic classification using semi-structured versus fully structured diagnostic interviews. British Journal of Psychiatry, 2018, 212, 377-385.	2.8	53
27	Improving the quality of depression and pain care in multiple sclerosis using collaborative care: The MS-care trial protocol. Contemporary Clinical Trials, 2018, 64, 219-229.	1.8	15
28	American Academy of Spinal Cord Injury Professionals ASCIP 2018 Educational Conference & Expo Stronger Together: Passion, Purpose and Possibilities in SCI/D. Journal of Spinal Cord Medicine, 2018, 41, 599-622.	1.4	0
29	Modifying and Validating a Measure of Chronic Stress for People With Aphasia. Journal of Speech, Language, and Hearing Research, 2018, 61, 2934-2949.	1.6	19
30	Rasch analysis of alcohol abuse and dependence diagnostic criteria in persons with spinal cord injury. Spinal Cord, 2017, 55, 497-501.	1.9	0
31	Selective Cutoff Reporting in Studies of Diagnostic Test Accuracy: A Comparison of Conventional and Individual-Patient-Data Meta-Analyses of the Patient Health Questionnaire-9 Depression Screening Tool. American Journal of Epidemiology, 2017, 185, 954-964.	3.4	45
32	Sertraline for Major Depression During the Year Following Traumatic Brain Injury: A Randomized Controlled Trial. Journal of Head Trauma Rehabilitation, 2017, 32, 332-342.	1.7	60
33	The Relations of Cognitive, Behavioral, and Physical Activity Variables to Depression Severity in Traumatic Brain Injury: Reanalysis of Data From a Randomized Controlled Trial. Journal of Head Trauma Rehabilitation, 2017, 32, 343-353.	1.7	18
34	Pain Acceptance Decouples the Momentary Associations Between Pain, Pain Interference, and Physical Activity in the Daily Lives of People With Chronic Pain and Spinal Cord Injury. Journal of Pain, 2017, 18, 319-331.	1.4	48
35	Test-Retest and Interreader Reproducibility of Semiautomated Atlas-Based Analysis of Diffusion Tensor Imaging Data in Acute Cervical Spine Trauma in Adult Patients. American Journal of Neuroradiology, 2017, 38, 2015-2020.	2.4	8
36	Do measures of depressive symptoms function differently in people with spinal cord injury versus primary care patients: the CES-D, PHQ-9, and PROMIS-D. Quality of Life Research, 2017, 26, 139-148.	3.1	21

#	ARTICLE	IF	CITATIONS
37	A comparison of bivariate, multivariate random-effects, and Poisson correlated gamma frailty models to meta-analyze individual patient data of ordinal scale diagnostic tests. <i>Biometrical Journal</i> , 2017, 59, 1317-1338.	1.0	4
38	Effects of a Tailored Positive Psychology Intervention on Well-Being and Pain in Individuals With Chronic Pain and a Physical Disability. <i>Clinical Journal of Pain</i> , 2016, 32, 32-44.	1.9	121
39	Evaluating the Psychometric Properties of 3 Depression Measures in a Sample of Persons With Traumatic Brain Injury and Major Depressive Disorder. <i>Journal of Head Trauma Rehabilitation</i> , 2016, 31, 225-232.	1.7	33
40	Professional standards of practice for psychologists, social workers, and counselors in SCI rehabilitation. <i>Journal of Spinal Cord Medicine</i> , 2016, 39, 127-145.	1.4	11
41	Outcomes and Lessons Learned From a Randomized Controlled Trial to Reduce Health Care Utilization During the First Year After Spinal Cord Injury Rehabilitation: Telephone Counseling Versus Usual Care. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1793-1796.e1.	0.9	17
42	Changes in pain and quality of life in depressed individuals with spinal cord injury: does type of pain matter?. <i>Journal of Spinal Cord Medicine</i> , 2016, 39, 535-543.	1.4	8
43	Comorbid Traumatic Brain Injury and Spinal Cord Injury: Screening Validity and Effect on Outcomes. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1628-1634.	0.9	14
44	Collaborative Care for Pain, Depression and Physical Inactivity in an Outpatient SCI Clinic: the SCI-CARE Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, e78-e79.	0.9	5
45	Prevalence of suicidal behaviour following traumatic brain injury: Longitudinal follow-up data from the NIDRR Traumatic Brain Injury Model Systems. <i>Brain Injury</i> , 2016, 30, 1311-1318.	1.2	54
46	Resilience, age, and perceived symptoms in persons with long-term physical disabilities. <i>Journal of Health Psychology</i> , 2016, 21, 640-649.	2.3	104
47	Relative Importance of Baseline Pain, Fatigue, Sleep, and Physical Activity: Predicting Change in Depression in Adults With Multiple Sclerosis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1309-1315.	0.9	13
48	Depression Trajectories during the First Year after Traumatic Brain Injury. <i>Journal of Neurotrauma</i> , 2016, 33, 2115-2124.	3.4	66
49	Evaluating the Psychometric Properties and Responsiveness to Change of 3 Depression Measures in a Sample of Persons With Traumatic Spinal Cord Injury and Major Depressive Disorder. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 929-937.	0.9	12
50	Depression Trajectories During the First Year After Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 196-203.	0.9	31
51	Measurement characteristics and clinical utility of the Patient Health Questionnaire-9 among individuals with spinal cord injury.. <i>Rehabilitation Psychology</i> , 2015, 60, 211-212.	1.3	4
52	Trajectories of life satisfaction after traumatic brain injury: Influence of life roles, age, cognitive disability, and depressive symptoms.. <i>Rehabilitation Psychology</i> , 2015, 60, 353-364.	1.3	72
53	Pain affects depression through anxiety, fatigue, and sleep in multiple sclerosis.. <i>Rehabilitation Psychology</i> , 2015, 60, 81-90.	1.3	95
54	Measuring grief and loss after spinal cord injury: Development, validation and psychometric characteristics of the SCI-QOL Grief and Loss item bank and short form. <i>Journal of Spinal Cord Medicine</i> , 2015, 38, 347-355.	1.4	15

#	ARTICLE	IF	CITATIONS
55	Measuring depression after spinal cord injury: Development and psychometric characteristics of the SCI-QOL Depression item bank and linkage with PHQ-9. <i>Journal of Spinal Cord Medicine</i> , 2015, 38, 335-346.	1.4	22
56	Overview of the Spinal Cord Injury "Quality of Life (SCI-QOL) measurement system. <i>Journal of Spinal Cord Medicine</i> , 2015, 38, 257-269.	1.4	127
57	Telephone and In-Person Cognitive Behavioral Therapy for Major Depression after Traumatic Brain Injury: A Randomized Controlled Trial. <i>Journal of Neurotrauma</i> , 2015, 32, 45-57.	3.4	102
58	Differences in Quality of Life Outcomes Among Depressed Spinal Cord Injury Trial Participants. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015, 96, 340-348.	0.9	14
59	Venlafaxine Extended-Release for Depression Following Spinal Cord Injury. <i>JAMA Psychiatry</i> , 2015, 72, 247.	11.0	38
60	Distinguishing Grief From Depression During Acute Recovery From Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015, 96, 1419-1425.	0.9	23
61	(486) Pain acceptance predicts indicators of distress, well-being and functioning in spinal cord injury. <i>Journal of Pain</i> , 2015, 16, S97.	1.4	0
62	Novel Risk Factors Associated With Current Suicidal Ideation and Lifetime Suicide Attempts in Individuals With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015, 96, 799-808.	0.9	33
63	Efficacy of Venlafaxine XR for the Treatment of Pain in Patients With Spinal Cord Injury and Major Depression: A Randomized, Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015, 96, 680-689.	0.9	50
64	A comparison of multiple patient reported outcome measures in identifying major depressive disorder in people with multiple sclerosis. <i>Journal of Psychosomatic Research</i> , 2015, 79, 550-557.	2.6	26
65	Identifying depression severity risk factors in persons with traumatic spinal cord injury.. <i>Rehabilitation Psychology</i> , 2014, 59, 50-56.	1.3	27
66	Affective mediators of a physical activity intervention for depression in multiple sclerosis.. <i>Rehabilitation Psychology</i> , 2014, 59, 57-67.	1.3	25
67	A randomized controlled trial of venlafaxine XR for major depressive disorder after spinal cord injury: Methods and lessons learned. <i>Journal of Spinal Cord Medicine</i> , 2014, 37, 247-263.	1.4	14
68	Post-traumatic growth following spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2014, 37, 218-225.	1.4	33
69	Adverse events in cardiovascular-related training programs in people with spinal cord injury: A systematic review. <i>Journal of Spinal Cord Medicine</i> , 2014, 37, 672-692.	1.4	13
70	Improved Physical Fitness Correlates With Improved Cognition in Multiple Sclerosis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 1328-1334.	0.9	47
71	Depression and Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 413-414.	0.9	6
72	Social support, depression, and physical disability: Age and diagnostic group effects. <i>Disability and Health Journal</i> , 2014, 7, 164-172.	2.8	89

#	ARTICLE	IF	CITATIONS
73	Screening for neuropathic pain after spinal cord injury with the Spinal Cord Injury Pain Instrument (SCIPI): a preliminary validation study. <i>Spinal Cord</i> , 2014, 52, 407-412.	1.9	49
74	Evaluating a Spinal Cord Injury-Specific Model of Depression and Quality of Life. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 455-465.	0.9	32
75	Predictors of Participation Enfranchisement After Spinal Cord Injury: The Mediating Role of Depression and Moderating Role of Demographic and Injury Characteristics. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 1106-1113.	0.9	7
76	Comparing Multicomponent Interventions to Improve Skin Care Behaviors and Prevent Recurrence in Veterans Hospitalized for Severe Pressure Ulcers. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 1246-1253.e3.	0.9	38
77	Rates and Predictors of Suicidal Ideation During the First Year After Traumatic Brain Injury. <i>American Journal of Public Health</i> , 2014, 104, e100-e107.	2.7	72
78	Depression, Pain Intensity, and Interference in Acute Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2014, 20, 32-39.	1.8	39
79	Depression Treatment Preferences After Acute Traumatic Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 2389-2395.	0.9	25
80	Future Directions of Multiple Sclerosis Rehabilitation Research. <i>Physical Medicine and Rehabilitation Clinics of North America</i> , 2013, 24, 721-730.	1.3	1
81	Self-Reported Depression and Physical Activity in Adults With Mobility Impairments. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 731-736.	0.9	41
82	Telephone-based physical activity counseling for major depression in people with multiple sclerosis. <i>Journal of Consulting and Clinical Psychology</i> , 2013, 81, 89-99.	2.0	105
83	Activity and participation after spinal cord injury: State-of-the-art report. <i>Journal of Rehabilitation Research and Development</i> , 2012, 49, 155.	1.6	22
84	Understanding Falls in Multiple Sclerosis: Association of Mobility Status, Concerns About Falling, and Accumulated Impairments. <i>Physical Therapy</i> , 2012, 92, 407-415.	2.4	141
85	Potentially modifiable risk factors among veterans with spinal cord injury hospitalized for severe pressure ulcers: a descriptive study. <i>Journal of Spinal Cord Medicine</i> , 2012, 35, 240-250.	1.4	37
86	Perceived Exercise Self-efficacy as a Predictor of Exercise Behavior in Individuals Aging with Spinal Cord Injury. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2012, 91, 640-651.	1.4	36
87	An Exploration of Modifiable Risk Factors for Depression After Spinal Cord Injury: Which Factors Should We Target?. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 775-781.	0.9	59
88	Benefits of Exercise Maintenance After Traumatic Brain Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1319-1323.	0.9	90
89	Validity of the Patient Health Questionnaire-9 in Assessing Major Depressive Disorder During Inpatient Spinal Cord Injury Rehabilitation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1838-1845.	0.9	65
90	Physical activity and depression in middle and older-aged adults with multiple sclerosis. <i>Disability and Health Journal</i> , 2012, 5, 269-276.	2.8	12

#	ARTICLE	IF	CITATIONS
91	Confirmatory Factor Analysis of the Patient Health Questionnaire-9: A Study of the Participants From the Spinal Cord Injury Model Systems. <i>PM and R</i> , 2011, 3, 533-540.	1.6	19
92	Depression After Spinal Cord Injury: Comorbidities, Mental Health Service Use, and Adequacy of Treatment. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011, 92, 352-360.	0.9	175
93	A Longitudinal Study of Depression From 1 to 5 Years After Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011, 92, 411-418.	0.9	153
94	Do Somatic and Cognitive Symptoms of Traumatic Brain Injury Confound Depression Screening?. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011, 92, 818-823.	0.9	76
95	Use of on-demand video to provide patient education on spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2011, 34, 404-409.	1.4	28
96	Preinjury alcohol and drug use among persons with spinal cord injury: Implications for rehabilitation. <i>Journal of Spinal Cord Medicine</i> , 2011, 34, 461-472.	1.4	20
97	Physical Activity Among Persons Aging with Mobility Disabilities: Shaping a Research Agenda. <i>Journal of Aging Research</i> , 2011, 2011, 1-16.	0.9	57
98	Postrehabilitative Health Care for Individuals with SCI: Extending Health Care into the Community. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2011, 17, 46-58.	1.8	17
99	Traumatic Brain Injury and Major Depressive Disorder—Reply. <i>JAMA - Journal of the American Medical Association</i> , 2010, 304, 857.	7.4	0
100	Rates of Major Depressive Disorder and Clinical Outcomes Following Traumatic Brain Injury. <i>JAMA - Journal of the American Medical Association</i> , 2010, 303, 1938.	7.4	570
101	The Relationship of Age-Related Factors to Psychological Functioning Among People With Disabilities. <i>Physical Medicine and Rehabilitation Clinics of North America</i> , 2010, 21, 281-297.	1.3	32
102	A Randomized Controlled Trial of Exercise to Improve Mood After Traumatic Brain Injury. <i>PM and R</i> , 2010, 2, 911-919.	1.6	87
103	The Relationship of Chronological Age, Age at Injury, and Duration of Injury to Employment Status in Individuals with Spinal Cord Injury. <i>Psychological Injury and Law</i> , 2009, 2, 263-275.	1.6	17
104	Effect of acute and chronic alcohol abuse on pain management in a trauma center. <i>Expert Review of Neurotherapeutics</i> , 2009, 9, 271-277.	2.8	29
105	The Efficacy of a Scheduled Telephone Intervention for Ameliorating Depressive Symptoms During the First Year After Traumatic Brain Injury. <i>Journal of Head Trauma Rehabilitation</i> , 2009, 24, 230-238.	1.7	84
106	Depression Treatment Preferences After Traumatic Brain Injury. <i>Journal of Head Trauma Rehabilitation</i> , 2009, 24, 272-278.	1.7	45
107	Measuring Depression in Persons With Spinal Cord Injury: A Systematic Review. <i>Journal of Spinal Cord Medicine</i> , 2009, 32, 6-24.	1.4	60
108	Patient Health Questionnaire-9 in Spinal Cord Injury: An Examination of Factor Structure as Related to Gender. <i>Journal of Spinal Cord Medicine</i> , 2009, 32, 147-156.	1.4	48
