Version: 2024-02-01

1. Quality and Utility of Information Captured by Surveillance Systems Relevant to Antimicrobial Resistance (AMR): A Systematic Review. Antibiotics, 2021, 10, 431.

Type of Track and Trigger system and incidence of in-hospital cardiac arrest: an observational registry-based study. BMC Health Services Research, 2020, 20, 885.

Views of health care professionals and policy-makers on the use of surveillance data to combat
<p>Can Patient Reported Outcomes (PROs) from Population Surveys Provide Accurate Estimates of
4 Pre-Admission Health Status of Emergency Hospital Admissions?</p>. Patient Related Outcome
Measures, 2020, Volume 11, 39-48.
5 Using patient-reported outcome measures for primary percutaneous coronary intervention. Open
$0.9 \quad 5$
Heart, 2019, 6, e000920.

DEMQOL and DEMQOL-Proxy: a Rasch analysis among those diagnosed with dementia. Health and
Quality of Life Outcomes, 2019, 17, 161.
1.0

Observational study to determine the utility of hospital administrative data to support case finding of
$7 \quad \begin{aligned} & \text { Observational study to determine the utiiity of hospital administrative data to support case finc } \\ & \text { English patients at higher risk of severe healthcare-related harm. BMJ Open, 2019, 9, e025372. }\end{aligned}$

$8 \quad$ Caregiver burden and quality of life 2Âyears after attendance at a memory clinic. International Journal of Geriatric Psychiatry, 2019, 34, 647-656.

Costâ€effectiveness analysis of English memory assessment services 2Âyears after first consultation for
$9 \quad$ Costâ€effectiveness analysis of English memory assessment services 2Âyears after first

10 Interventions to reduce mortality from in-hospital cardiac arrest: a mixed-methods study. Health Services and Delivery Research, 2019, 7, 1-110.
11 Agreement between retrospectively and contemporaneously collected patient-reported outcome
11 measures (PROMs) in hip and knee replacement patients. Quality of Life Research, 2018, 27, 1845-1854.
1.5

12 The cost of diagnosis and early support in patients with cognitive decline. International Journal of
Geriatric Psychiatry, 2018, 33, 5-13.
1.3

6

Is the effectiveness of memory assessment services associated with their structural and process
1.3

17
characteristics?. International Journal of Geriatric Psychiatry, 2018, 33, 75-84.

How do patient reported outcome measures (PROMs) support clinician-patient communication and
0.9

299 patient care? A realist synthesis. Journal of Patient-Reported Outcomes, 2018, 2, 42.
0.

> Feasibility of collecting retrospective patient reported outcome measures (PROMs) in emergency
> hospital admissions. Journal of Patient-Reported Outcomes, 2018, 2, 54.
0.9

11

Feasibility of collecting and assessing patient-reported outcomes for emergency admissions:
laparotomy for gastrointestinal conditions. BMJ Open Gastroenterology, 2018, 5, e000238.

Caregiver burden and quality of life two years after attendance at a memory clinic. International
Journal of Geriatric Psychiatry, 2018, . .

Friends and family test should no longer be mandatory. BMJ: British Medical Journal, 2018, 360, k367.
2.4

23

Memory assessment services and healthâ€related quality of life: lâ€year followâ€up. International Journal
of Geriatric Psychiatry, 2018, 33, 1220-1228.

Reliability and validity of a selfâ€edministration version of DEMQOLâ€Proxy. International Journal of
Geriatric Psychiatry, 2017, 32, 734-741.

Trends in diagnosis and treatment for people with dementia in the UK from 2005 to 2015: a
longitudinal retrospective cohort study. Lancet Public Health, The, 2017, 2, e149-e156.
4.7

Factors Contributing to the Weekend Effect. JAMA - Journal of the American Medical Association, 2017,
317, 1582.

The Friends and Family Test in general practice in England: a qualitative study of the views of staff and
patients. British Journal of General Practice, 2017, 67, e370-e376.
$0.7 \quad 16$
25

26 Effectiveness of ways to improve detection and rescue of deteriorating patients. British Journal of
Hospital Medicine (London, England: 2005), 2017, 78, 150-159.

Cost-effectiveness of Memory Assessment Services for the diagnosis and early support of patients
with dementia in England. Journal of Health Services Research and Policy, 2017, 22, 226-235.

Retrospectively patient-reported pre-event health status showed strong association and agreement with contemporaneous reports. Journal of Clinical Epidemiology, 2017, 81, 22-32.

From cutting costs to eliminating waste: reframing the challenge. Journal of Health Services
Research and Policy, 2017, 22, 73-75.
0.8

30 DEMQOL and DEMQOL-Proxy: a Rasch analysis. Health and Quality of Life Outcomes, 2017, 15, 164.
