

Jonathan K Webb

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9490184/jonathan-k-webb-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
148	Invasion and the evolution of speed in toads. <i>Nature</i> , 2006 , 439, 803	50.4	594
147	Rapid expansion of the cane toad (<i>Bufo marinus</i>) invasion front in tropical Australia. <i>Austral Ecology</i> , 2007 , 32, 169-176	1.5	163
146	Invasive cane toads (<i>Bufo marinus</i>) cause mass mortality of freshwater crocodiles (<i>Crocodylus johnstoni</i>) in tropical Australia. <i>Biological Conservation</i> , 2008 , 141, 1773-1782	6.2	155
145	Using thermal ecology to predict retreat-site selection by an endangered snake species. <i>Biological Conservation</i> , 1998 , 86, 233-242	6.2	125
144	Toad on the road: Use of roads as dispersal corridors by cane toads (<i>Bufo marinus</i>) at an invasion front in tropical Australia. <i>Biological Conservation</i> , 2006 , 133, 88-94	6.2	122
143	CANOPY STRUCTURE, MICROCLIMATE, AND HABITAT SELECTION BY A NOCTURNAL SNAKE, HOPLOCEPHALUS BUNGAROIDES. <i>Ecology</i> , 2003 , 84, 2668-2679	4.6	110
142	A field study of spatial ecology and movements of a threatened snake species, <i>Hoplocephalus bungaroides</i> . <i>Biological Conservation</i> , 1997 , 82, 203-217	6.2	107
141	Paving the way for habitat restoration: can artificial rocks restore degraded habitats of endangered reptiles?. <i>Biological Conservation</i> , 2000 , 92, 93-99	6.2	104
140	Conditioned taste aversion enhances the survival of an endangered predator imperilled by a toxic invader. <i>Journal of Applied Ecology</i> , 2010 , 47, 558-565	5.8	101
139	What makes a species vulnerable to extinction? Comparative life-history traits of two sympatric snakes. <i>Ecological Research</i> , 2002 , 17, 59-67	1.9	89
138	Out on a limb: Conservation implications of tree-hollow use by a threatened snake species (<i>Hoplocephalus bungaroides</i> : Serpentes, Elapidae). <i>Biological Conservation</i> , 1997 , 81, 21-33	6.2	85
137	A native dasyurid predator (common planigale, <i>Planigale maculata</i>) rapidly learns to avoid a toxic invader. <i>Austral Ecology</i> , 2008 , 33, 821-829	1.5	83
136	Why don't small snakes bask? Juvenile broad-headed snakes trade thermal benefits for safety. <i>Oikos</i> , 2005 , 110, 515-522	4	83
135	Stemming the tide: progress towards resolving the causes of decline and implementing management responses for the disappearing mammal fauna of northern Australia. <i>Therya</i> , 2015 , 6, 169-226	1.8	74
134	Excluding access to invasion hubs can contain the spread of an invasive vertebrate. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2011 , 278, 2900-8	4.4	69
133	Removing forest canopy cover restores a reptile assemblage 2011 , 21, 274-80		68
132	The adaptive significance of reptilian viviparity in the tropics: testing the maternal manipulation hypothesis. <i>Evolution; International Journal of Organic Evolution</i> , 2006 , 60, 115-22	3.8	68

131	The impact of bush-rock removal on an endangered snake species, <i>Hoplocephalus bungaroides</i> (Serpentes : Elapidae). <i>Wildlife Research</i> , 1998 , 25, 285	1.8	67
130	Spatial genetic analysis and long-term mark-recapture data demonstrate male-biased dispersal in a snake. <i>Biology Letters</i> , 2007 , 3, 33-5	3.6	63
129	THE ADAPTIVE SIGNIFICANCE OF REPTILIAN VIVIPARITY IN THE TROPICS: TESTING THE MATERNAL MANIPULATION HYPOTHESIS. <i>Evolution; International Journal of Organic Evolution</i> , 2006 , 60, 115-122	3.8	63
128	Ecological characteristics of a threatened snake species, <i>Hoplocephalus bungaroides</i> (Serpentes, Elapidae). <i>Animal Conservation</i> , 1998 , 1, 185-193	3.2	61
127	Canopy Removal Restores Habitat Quality for an Endangered Snake in a Fire Suppressed Landscape. <i>Copeia</i> , 2005 , 2005, 894-900	1.1	55
126	New Weapons in the Toad Toolkit: A Review of Methods to Control and Mitigate the Biodiversity Impacts of Invasive Cane Toads (<i>Rhinella Marina</i>). <i>Quarterly Review of Biology</i> , 2017 , 92, 123-49	5.4	54
125	Sexual Dimorphism, Reproductive Biology, and Dietary Habits of Psammophiine Snakes (Colubridae) from Southern Africa. <i>Copeia</i> , 2006 , 2006, 650-664	1.1	48
124	Does foraging mode influence life history traits? A comparative study of growth, maturation and survival of two species of sympatric snakes from south-eastern Australia. <i>Austral Ecology</i> , 2003 , 28, 601-610	1.5	47
123	The perils of paradise: an endangered species conserved on an island loses antipredator behaviours within 13 generations. <i>Biology Letters</i> , 2018 , 14,	3.6	46
122	Life Underground: Food Habits and Reproductive Biology of Two Amphisbaenian Species from Southern Africa. <i>Journal of Herpetology</i> , 2000 , 34, 510	1.1	46
121	Collectors endanger Australia's most threatened snake, the broad-headed snake <i>Hoplocephalus bungaroides</i> . <i>Oryx</i> , 2002 , 36, 170-181	1.5	45
120	Flexible mate choice: a male snake's preference for larger females is modified by the sizes of females encountered. <i>Animal Behaviour</i> , 2006 , 71, 203-209	2.8	44
119	Quantifying historical changes in habitat availability for endangered species: use of pixel- and object-based remote sensing. <i>Journal of Applied Ecology</i> , 2009 , 46, 544-553	5.8	43
118	Using Artificial Rocks to Restore Nonrenewable Shelter Sites in Human-Degraded Systems: Colonization by Fauna. <i>Restoration Ecology</i> , 2008 , 18, 428-438	3.1	43
117	How Do Nocturnal Snakes Select Diurnal Retreat Sites?. <i>Copeia</i> , 2004 , 2004, 919-925	1.1	42
116	Life-history strategies in basal snakes: reproduction and dietary habits of the African thread snake <i>Leptotyphlops scutifrons</i> (Serpentes: Leptotyphlopidae). <i>Journal of Zoology</i> , 2000 , 250, 321-327	2	42
115	Prey-size selection, gape limitation and predator vulnerability in Australian blindsnakes (Typhlopidae). <i>Animal Behaviour</i> , 1993 , 45, 1117-1126	2.8	42
114	Predicting the impact of climate change on Australia's most endangered snake, <i>Hoplocephalus bungaroides</i> . <i>Diversity and Distributions</i> , 2010 , 16, 109-118	5	41

113	Energetics of bluetongue lizards (<i>Tiliqua scincoides</i>) in a seasonal tropical environment. <i>Oecologia</i> , 2003 , 136, 515-23	2.9	41
112	Population and behavioural responses of native prey to alien predation. <i>Oecologia</i> , 2012 , 168, 947-57	2.9	40
111	Incubation under climate warming affects learning ability and survival in hatchling lizards. <i>Biology Letters</i> , 2017 , 13,	3.6	39
110	Adrenocortical stress responses influence an invasive vertebrate's fitness in an extreme environment. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2013 , 280, 20131444	4.4	39
109	Do invasive cane toads (<i>Chaunus marinus</i>) compete with Australian frogs (<i>Cyclorana australis</i>)?. <i>Austral Ecology</i> , 2007 , 32, 900-907	1.5	38
108	Differential Effects of an Intense Wildfire on Survival of Sympatric Snakes. <i>Journal of Wildlife Management</i> , 2008 , 72, 1394-1398	1.9	37
107	Artificial water points facilitate the spread of an invasive vertebrate in arid Australia. <i>Journal of Applied Ecology</i> , 2014 , 51, 795-803	5.8	35
106	Chemical cues from both dangerous and nondangerous snakes elicit antipredator behaviours from a nocturnal lizard. <i>Animal Behaviour</i> , 2009 , 77, 1471-1478	2.8	35
105	To find an ant: trail-following in Australian blindsnakes (Typhlopidae). <i>Animal Behaviour</i> , 1992 , 43, 941-948	4.8	35
104	Three-dimensional crevice structure affects retreat site selection by reptiles. <i>Animal Behaviour</i> , 2008 , 76, 1875-1884	2.8	34
103	Hot mothers, cool eggs: nest-site selection by egg-guarding spiders accommodates conflicting thermal optima. <i>Functional Ecology</i> , 2012 , 26, 469-475	5.6	33
102	Hatchling Australian freshwater crocodiles rapidly learn to avoid toxic invasive cane toads. <i>Behaviour</i> , 2011 , 148, 501-517	1.4	33
101	Dietary Habits of Australian Blindsnakes (Typhlopidae). <i>Copeia</i> , 1993 , 1993, 762	1.1	33
100	Does intraspecific niche partitioning in a native predator influence its response to an invasion by a toxic prey species?. <i>Austral Ecology</i> , 2005 , 30, 201-209	1.5	32
99	Behavioural flexibility allows an invasive vertebrate to survive in a semi-arid environment. <i>Biology Letters</i> , 2014 , 10, 20131014	3.6	31
98	It's a dog-eat-croc world: dingo predation on the nests of freshwater crocodiles in tropical Australia. <i>Ecological Research</i> , 2011 , 26, 957-967	1.9	31
97	Nesting in a thermally challenging environment: nest-site selection in a rock-dwelling gecko, <i>Oedura lesueurii</i> (Reptilia: Gekkonidae). <i>Biological Journal of the Linnean Society</i> , 2010 , 99, 250-259	1.9	30
96	Olfactory recognition of predators by nocturnal lizards: safety outweighs thermal benefits. <i>Behavioral Ecology</i> , 2010 , 21, 72-77	2.3	29

95	Reproductive Biology and Food Habits of Horned Adders, <i>Bitis caudalis</i> (Viperidae), from Southern Africa. <i>Copeia</i> , 1998 , 1998, 391	1.1	29
94	Life on the Lowest Branch: Sexual Dimorphism, Diet, and Reproductive Biology of an African Twig Snake, <i>Thelotornis capensis</i> (Serpentes, Colubridae). <i>Copeia</i> , 1996 , 1996, 290	1.1	29
93	Natural History of Australian Typhlopoid Snakes. <i>Journal of Herpetology</i> , 1990 , 24, 357	1.1	27
92	Pregnancy Decreases Swimming Performance of Female Northern Death Adders (<i>Acanthophis praelongus</i>). <i>Copeia</i> , 2004 , 2004, 357-363	1.1	26
91	Out of the frying pan: Reintroduction of toad-smart northern quolls to southern Kakadu National Park. <i>Austral Ecology</i> , 2018 , 43, 139-149	1.5	25
90	Effects of tail autotomy on survival, growth and territory occupation in free-ranging juvenile geckos (<i>Oedura lesueurii</i>). <i>Austral Ecology</i> , 2006 , 31, 432-440	1.5	23
89	Restricting access to invasion hubs enables sustained control of an invasive vertebrate. <i>Journal of Applied Ecology</i> , 2015 , 52, 341-347	5.8	22
88	Behavioural responses of carnivorous marsupials (<i>Planigale maculata</i>) to toxic invasive cane toads (<i>Bufo marinus</i>). <i>Austral Ecology</i> , 2009 , 35, 560-567	1.5	21
87	The Physiological Cost of Pregnancy in a Tropical Viviparous Snake. <i>Copeia</i> , 2008 , 2008, 637-642	1.1	21
86	Effects of seasonal variation in prey abundance on field metabolism, water flux, and activity of a tropical ambush foraging snake. <i>Physiological and Biochemical Zoology</i> , 2007 , 80, 522-33	2	21
85	Communal nesting under climate change: fitness consequences of higher incubation temperatures for a nocturnal lizard. <i>Global Change Biology</i> , 2016 , 22, 2405-14	11.4	21
84	Hotter nests produce hatchling lizards with lower thermal tolerance. <i>Journal of Experimental Biology</i> , 2017 , 220, 2159-2165	3	20
83	Predation on invasive cane toads (<i>Rhinella marina</i>) by native Australian rodents. <i>Journal of Pest Science</i> , 2015 , 88, 143-153	5.5	20
82	Dietary Habits and Reproductive Biology of Typhlopoid Snakes from Southern Africa. <i>Journal of Herpetology</i> , 2001 , 35, 558	1.1	20
81	Feeding Habits and Reproductive Biology of Australian Pygopodid Lizards of the Genus <i>Aprasia</i> . <i>Copeia</i> , 1994 , 1994, 390	1.1	20
80	A small dasyurid predator (<i>Sminthopsis virginiae</i>) rapidly learns to avoid a toxic invader. <i>Wildlife Research</i> , 2011 , 38, 726	1.8	19
79	The benefits of habitat restoration for rock-dwelling velvet geckos <i>Oedura lesueurii</i> . <i>Journal of Applied Ecology</i> , 2013 , 50, 432-439	5.8	18
78	Context-dependent avoidance of predatory centipedes by nocturnal geckos (<i>Oedura lesueurii</i>). <i>Behaviour</i> , 2010 , 147, 397-412	1.4	18

77	Effects of Tail Autotomy on Anti-predator Behavior and Locomotor Performance in a Nocturnal Gecko. <i>Copeia</i> , 2006 , 2006, 803-809	1.1	18
76	Habitat selection in a rocky landscape: experimentally decoupling the influence of retreat site attributes from that of landscape features. <i>PLoS ONE</i> , 2012 , 7, e37982	3.7	18
75	Forest-fire regimes affect thermoregulatory opportunities for terrestrial ectotherms. <i>Austral Ecology</i> , 2013 , 38, 190-198	1.5	17
74	Chainsawing for conservation: Ecologically informed tree removal for habitat management. <i>Ecological Management and Restoration</i> , 2011 , 12, 110-118	1.4	17
73	Population ecology of the velvet gecko, <i>Oedura lesueurii</i> in south eastern Australia: Implications for the persistence of an endangered snake. <i>Austral Ecology</i> , 2008 , 33, 839-847	1.5	17
72	Avoiding the last supper: parentage analysis indicates multi-generational survival of re-introduced Boad-smart lineage. <i>Conservation Genetics</i> , 2017 , 18, 1475-1480	2.6	16
71	Fast Growth and Early Maturation in a Viviparous Sit-and-Wait Predator, the Northern Death Adder (<i>Acanthophis praelongus</i>), from Tropical Australia. <i>Journal of Herpetology</i> , 2002 , 36, 505-509	1.1	16
70	Genetic Connectivity among Populations of an Endangered Snake Species from Southeastern Australia (<i>Hoplocephalus bungaroides</i> , Elapidae). <i>Ecology and Evolution</i> , 2011 , 1, 218-27	2.8	15
69	Intraguild predation, thermoregulation, and microhabitat selection by snakes. <i>Behavioral Ecology</i> , 2009 , 20, 271-277	2.3	15
68	Does rock disturbance by superb lyrebirds (<i>Menura novaehollandiae</i>) influence habitat selection by juvenile snakes?. <i>Austral Ecology</i> , 2006 , 31, 58-67	1.5	15
67	Not such silly sausages: Evidence suggests northern quolls exhibit aversion to toads after training with toad sausages. <i>Austral Ecology</i> , 2018 , 43, 592-601	1.5	14
66	Eliciting conditioned taste aversion in lizards: Live toxic prey are more effective than scent and taste cues alone. <i>Integrative Zoology</i> , 2017 , 12, 112-120	1.9	14
65	School for Skinks: Can Conditioned Taste Aversion Enable Bluetongue Lizards (<i>Tiliqua scincoides</i>) to Avoid Toxic Cane Toads (<i>Rhinella marina</i>) as Prey?. <i>Ethology</i> , 2011 , 117, 749-757	1.7	14
64	Generalization of predator recognition: Velvet geckos display anti-predator behaviours in response to chemicals from non-dangerous elapid snakes. <i>Environmental Epigenetics</i> , 2010 , 56, 337-342	2.4	14
63	Biology of Burrowing Asps (<i>Atractaspididae</i>) from Southern Africa. <i>Copeia</i> , 2006 , 2006, 103-115	1.1	14
62	Behavioural responses of reptile predators to invasive cane toads in tropical Australia. <i>Austral Ecology</i> , 2014 , 39, 448-454	1.5	13
61	Molecular and morphological assessment of Australia's most endangered snake, <i>Hoplocephalus bungaroides</i> , reveals two evolutionarily significant units for conservation. <i>Conservation Genetics</i> , 2010 , 11, 747-758	2.6	13
60	Higher incubation temperatures produce long-lasting upward shifts in cold tolerance, but not heat tolerance, of hatchling geckos. <i>Biology Open</i> , 2019 , 8,	2.2	12

59	Bias averted: personality may not influence trappability. <i>Behavioral Ecology and Sociobiology</i> , 2019 , 73, 1	2.5	12
58	Interactions Between Infective Helminth Larvae and Their Anuran Hosts. <i>Herpetologica</i> , 2011 , 67, 378-385		12
57	Social and Thermal Cues Influence Nest-site Selection in a Nocturnal Gecko, <i>Oedura lesueurii</i> . <i>Ethology</i> , 2011 , 117, 796-801	1.7	12
56	Thermal regimes and diel activity patterns of four species of small elapid snakes from south-eastern Australia. <i>Australian Journal of Zoology</i> , 2005 , 53, 1	0.5	12
55	Do individual differences in behavior influence wild rodents more than predation risk?. <i>Journal of Mammalogy</i> , 2015 , 96, 1337-1343	1.8	11
54	Interplay among nocturnal activity, melatonin, corticosterone and performance in the invasive cane toad (<i>Rhinella marinus</i>). <i>General and Comparative Endocrinology</i> , 2014 , 206, 43-50	3	11
53	Chemosensory discrimination of social cues mediates space use in snakes, <i>Cryptophis nigrescens</i> (Elapidae). <i>Animal Behaviour</i> , 2013 , 85, 1493-1500	2.8	10
52	Variation of prey responses to cues from a mesopredator and an apex predator. <i>Austral Ecology</i> , 2014 , 39, 749-754	1.5	10
51	Natural History of the African Shieldnose Snake <i>Aspidelaps scutatus</i> (Serpentes, Elapidae). <i>Journal of Herpetology</i> , 1996 , 30, 361	1.1	10
50	Effects of pregnancy on body temperature and locomotor performance of velvet geckos. <i>Journal of Thermal Biology</i> , 2017 , 65, 64-68	2.9	9
49	The effects of incubation temperature on locomotor performance, growth and survival in hatchling velvet geckos. <i>Journal of Zoology</i> , 2017 , 303, 46-53	2	9
48	Effects of incubation temperatures on learning abilities of hatchling velvet geckos. <i>Animal Cognition</i> , 2020 , 23, 613-620	3.1	9
47	Time of testing affects locomotor performance in nocturnal versus diurnal snakes. <i>Journal of Thermal Biology</i> , 2006 , 31, 268-273	2.9	9
46	Determinants of habitat selection by hatchling Australian freshwater crocodiles. <i>PLoS ONE</i> , 2011 , 6, e28533		9
45	Movements and habitat use of an endangered snake, <i>Hoplocephalus bungaroides</i> (Elapidae): implications for conservation. <i>PLoS ONE</i> , 2013 , 8, e61711	3.7	9
44	Bait preference for remote camera trap studies of the endangered northern quoll (<i>Dasyurus hallucatus</i>). <i>Australian Mammalogy</i> , 2017 , 39, 72	1.1	8
43	A trophic cascade initiated by an invasive vertebrate alters the structure of native reptile communities. <i>Global Change Biology</i> , 2020 , 26, 2829-2840	11.4	8
42	Invasive cane toads might initiate cascades of direct and indirect effects in a terrestrial ecosystem. <i>Biological Invasions</i> , 2018 , 20, 1833-1847	2.7	8

41	Fire-mediated niche-separation between two sympatric small mammal species. <i>Austral Ecology</i> , 2015 , 40, 50-59	1.5	8
40	Flexible Defense: Context-Dependent Antipredator Responses of Two Species of Australian Elapid Snakes. <i>Herpetologica</i> , 2010 , 66, 1-11	1.9	8
39	Molecular evidence of <i>Chlamydia pecorum</i> and arthropod-associated Chlamydiae in an expanded range of marsupials. <i>Scientific Reports</i> , 2017 , 7, 12844	4.9	7
38	Territoriality in a snake. <i>Behavioral Ecology and Sociobiology</i> , 2015 , 69, 1657-1661	2.5	7
37	Novel microsatellite loci identified from the Australian eastern small-eyed snake (Elapidae: <i>Rhinocephalus nigrescens</i>) and cross species amplification in the related genus <i>Suta</i> . <i>Molecular Ecology Notes</i> , 2005 , 5, 54-56		7
36	Chemical cues influence retreat-site selection by flat rock spiders. <i>Behaviour</i> , 2017 , 154, 149-161	1.4	6
35	Phylogeography and dispersal in the velvet gecko (<i>Oedura lesueurii</i>), and potential implications for conservation of an endangered snake (<i>Hoplocephalus bungaroides</i>). <i>BMC Evolutionary Biology</i> , 2012 , 12, 67	3	6
34	Behaviour and survivorship of a dasyurid predator (<i>Antechinus flavipes</i>) in response to encounters with the toxic and invasive cane toad (<i>Rhinella marina</i>). <i>Australian Mammalogy</i> , 2013 , 35, 136	1.1	6
33	Heat, sight and scent: multiple cues influence foraging site selection by an ambush-foraging snake <i>Hoplocephalus bungaroides</i> (Elapidae). <i>Environmental Epigenetics</i> , 2009 , 55, 266-271	2.4	6
32	THE ADAPTIVE SIGNIFICANCE OF REPTILIAN VIVIPARITY IN THE TROPICS: TESTING THE MATERNAL MANIPULATION HYPOTHESIS. <i>Evolution; International Journal of Organic Evolution</i> , 2006 , 60, 115	3.8	5
31	Shifts in thermal preference of introduced Asian house geckos (<i>Hemidactylus frenatus</i>) in temperate regions of southeastern Australia. <i>Journal of Thermal Biology</i> , 2020 , 91, 102625	2.9	5
30	Familiarity with a female does not affect a male's courtship intensity in garter snakes <i>Thamnophis sirtalis parietalis</i> . <i>Environmental Epigenetics</i> , 2012 , 58, 805-811	2.4	4
29	Trophic cascade driven by behavioral fine-tuning as naïve prey rapidly adjust to a novel predator. <i>Ecology</i> , 2021 , 102, e03363	4.6	4
28	Training fails to elicit behavioral change in a marsupial suffering evolutionary loss of antipredator behaviors. <i>Journal of Mammalogy</i> , 2020 , 101, 1108-1116	1.8	3
27	To find an ant: trail-following in Australian blindsnakes (Typhlopidae) 1992 , 43, 941-941		3
26	Ecological characteristics of a threatened snake species, <i>Hoplocephalus bungaroides</i> (Serpentes, Elapidae) 1998 , 1, 185		3
25	No outbreeding depression in a trial of targeted gene flow in an endangered Australian marsupial. <i>Conservation Genetics</i> , 2021 , 22, 23-33	2.6	3
24	Behavioural responses of an Australian colubrid snake (<i>Dendrelaphis punctulatus</i>) to a novel toxic prey item (the Cane Toad <i>Rhinella marina</i>). <i>Biological Invasions</i> , 2018 , 20, 2507-2516	2.7	2

23	Bangers and cash: Baiting efficiency in a heterogeneous population. <i>Wildlife Society Bulletin</i> , 2019 , 43, 669-677	1.4	2
22	Australian reptiles and their conservation 354-381		2
21	Led by the Blind: Bandy-Bandy Snakes <i>Vermicella annulata</i> (Elapidae) Follow Blindsnake Chemical Trails. <i>Copeia</i> , 2005 , 2005, 184-187	1.1	2
20	Life-history strategies in basal snakes: reproduction and dietary habits of the African thread snake <i>Leptotyphlops scutifrons</i> (Serpentes: Leptotyphlopidae) 2000 , 250, 321		2
19	Trophic cascade driven by behavioural fine-tuning as naïve prey rapidly adjust to a novel predator		2
18	Training Animals in Captivity or the Wild, so They Can Return to the Wild 2020 , 289-308		2
17	Effects of learning and adaptation on population viability. <i>Conservation Biology</i> , 2021 , 35, 1245-1255	6	2
16	Shifts in thermal tolerance of the invasive Asian house gecko (<i>Hemidactylus frenatus</i>) across native and introduced ranges. <i>Biological Invasions</i> , 2021 , 23, 989-996	2.7	2
15	Interactions between corticosterone phenotype, environmental stressor pervasiveness and irruptive movement-related survival in the cane toad. <i>Journal of Experimental Biology</i> , 2018 , 221,	3	2
