citing authors

#	ARTICLE	IF	CITATIONS
1	The Association between Family History of Alcohol Use Disorder and Catamenial Epilepsy. <i>Epilepsia</i> , 2022, , .	5.1	3
2	The interactions between reproductive hormones and epilepsy. <i>Handbook of Clinical Neurology / Edited By PJ Vinken and G W Bruyn</i> , 2021, 182, 155-174.	1.8	13
3	Differential risks of changes in seizure frequency with transitions between hormonal and non-hormonal contraception in women with epilepsy: A prospective cohort study. <i>Epilepsy and Behavior</i> , 2021, 120, 108011.	1.7	2
4	Infertility, impaired fecundity, and live birth/pregnancy ratio in women with epilepsy in the <scp>USA</scp>: Findings of the Epilepsy Birth Control Registry. <i>Epilepsia</i> , 2019, 60, 1993-1998.	5.1	11
5	Prevalence of highly effective contraception use by women with epilepsy. <i>Neurology</i> , 2019, 92, e2815-e2821.	1.1	10
6	Does the age of seizure onset relate to menarche and does it matter?. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2019, 69, 1-6.	2.0	8
7	Association of Unintended Pregnancy With Spontaneous Fetal Loss in Women With Epilepsy. <i>JAMA Neurology</i> , 2019, 76, 50.	9.0	13
8	Predictors of unintended pregnancy in women with epilepsy. <i>Neurology</i> , 2017, 88, 728-733.	1.1	79
9	Folic acid use by women with epilepsy: Findings of the Epilepsy Birth Control Registry. <i>Epilepsy and Behavior</i> , 2017, 72, 156-160.	1.7	17
10	Reasons for discontinuation of reversible contraceptive methods by women with epilepsy. <i>Epilepsia</i> , 2017, 58, 907-914.	5.1	9
11	Contraceptive practices of women with epilepsy: Findings of the epilepsy birth control registry. <i>Epilepsia</i> , 2016, 57, 630-637.	5.1	43
12	Differential impact of contraceptive methods on seizures varies by antiepileptic drug category: Findings of the Epilepsy Birth Control Registry. <i>Epilepsy and Behavior</i> , 2016, 60, 112-117.	1.7	28
13	Distribution of seizures across the menstrual cycle in women with epilepsy. <i>Epilepsia</i> , 2015, 56, e58-62.	5.1	40
14	Catamenial epilepsy: Update on prevalence, pathophysiology and treatment from the findings of the NIH Progesterone Treatment Trial. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2015, 28, 18-25.	2.0	98
15	Differential impact of antiepileptic drugs on the effects of contraceptive methods on seizures: Interim findings of the epilepsy birth control registry. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2015, 28, 71-75.	2.0	17
16	Allopregnanolone levels and seizure frequency in progesterone-treated women with epilepsy. <i>Neurology</i> , 2014, 83, 345-348.	1.1	40
17	Neuroendocrinological aspects of epilepsy: Important issues and trends in future research. <i>Epilepsy and Behavior</i> , 2011, 22, 94-102.	1.7	54
18	Premenstrual dysphoric disorder in women with epilepsy: Relationships to potential epileptic, antiepileptic drug, and reproductive endocrine factors. <i>Epilepsy and Behavior</i> , 2011, 21, 391-396.	1.7	6

#	ARTICLE	IF	CITATIONS
19	Variation of seizure frequency with ovulatory status of menstrual cycles. <i>Epilepsia</i> , 2011, 52, 1843-1848.	5.1	36
20	A comparison of anastrozole and testosterone versus placebo and testosterone for treatment of sexual dysfunction in men with epilepsy and hypogonadism. <i>Epilepsy and Behavior</i> , 2010, 17, 264-271.	1.7	28
21	Hormonal Therapies: Progesterone. <i>Neurotherapeutics</i> , 2009, 6, 383-391.	4.4	33
22	Circalunar and ultralunar periodicities in women with partial seizures. <i>Epilepsia</i> , 2008, 49, 1081-1085.	5.1	27
23	Catamenial epilepsy: Definition, prevalence pathophysiology and treatment. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2008, 17, 151-159.	2.0	178
24	Disorders of reproduction in patients with epilepsy: Primary neurological mechanisms. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2008, 17, 101-110.	2.0	120
25	SENSITIVITY AND SPECIFICITY OF THE ASSOCIATION BETWEEN CATAMENIAL SEIZURE PATTERNS AND OVULATION. <i>Neurology</i> , 2008, 70, 486-487.	1.1	22
26	Is there a lateralized asymmetry in the sensitivity of the brain to hormones in epilepsy?. <i>Epilepsy and Behavior</i> , 2007, 11, 157-159.	1.7	15
27	Neuroactive Properties of Reproductive Steroids. <i>Headache</i> , 2007, 47, S68-78.	3.9	29
28	Differential Effects of Antiepileptic Drugs on Neuroactive Steroids in Men with Epilepsy. <i>Epilepsia</i> , 2006, 47, 1945-1948.	5.1	36
29	Hormone Replacement Therapy in Women with Epilepsy: A Randomized, Double-Blind, Placebo-Controlled Study. <i>Epilepsia</i> , 2006, 47, 1447-1451.	5.1	116
30	Menstrual disorders in women with epilepsy. <i>Neurology</i> , 2006, 66, S23-8.	1.1	60
31	Sexual hormones and epilepsy: threat and opportunities. <i>Current Opinion in Neurology</i> , 2005, 18, 167-172.	3.6	42
32	Serum Valproate Levels with Oral Contraceptive Use. <i>Epilepsia</i> , 2005, 46, 970-971.	5.1	20
33	Effect of Antiepileptic Drugs on Reproductive Endocrine Function in Individuals with Epilepsy. <i>CNS Drugs</i> , 2005, 19, 207-223.	5.9	175
34	Frequency of catamenial seizure exacerbation in women with localization-related epilepsy. <i>Annals of Neurology</i> , 2004, 56, 431-434.	5.3	141
35	Differential Effects of Antiepileptic Drugs on Sexual Function and Reproductive Hormones in Men with Epilepsy: Interim Analysis of a Comparison between Lamotrigine and Enzyme-inducing Antiepileptic Drugs. <i>Epilepsia</i> , 2004, 45, 764-768.	5.1	92
36	Seizure exacerbation associated with inhibition of progesterone metabolism. <i>Annals of Neurology</i> , 2003, 53, 390-391.	5.3	120

#	ARTICLE	IF	CITATIONS
37	Interictal EEG discharges, reproductive hormones, and menstrual disorders in epilepsy. <i>Annals of Neurology</i> , 2003, 54, 625-637.	5.3	119
38	Relationship of sexual dysfunction to epilepsy laterality and reproductive hormone levels in women. <i>Epilepsy and Behavior</i> , 2003, 4, 407-413.	1.7	86
39	Paired-Pulse Transcranial Magnetic Stimulation: Effects of Hemispheric Laterality, Gender, and Handedness in Normal Controls. <i>Journal of Clinical Neurophysiology</i> , 2003, 20, 371-374.	1.7	42
40	Epilepsy and the menstrual cycle. , 2003, , 119-130.		0
41	Altered reproductive endocrine regulation in men with epilepsy: Implications for reproductive function and seizures. <i>Annals of Neurology</i> , 2002, 51, 539-542.	5.3	45
42	Valproate and the Polycystic Ovarian Syndrome: Final Thoughts. <i>Epilepsia</i> , 2002, 42, 311-315.	5.1	91
43	Transcranial Magnetic Stimulation Evidence of a Potential Role for Progesterone in the Modulation of Premenstrual Corticocortical Inhibition in a Woman with Catamenial Seizure Exacerbation. <i>Epilepsy and Behavior</i> , 2001, 2, 367-369.	1.7	27
44	Health Issues for Women with Epilepsy: A Descriptive Survey to Assess Knowledge and Awareness among Healthcare Providers. <i>Journal of Women's Health and Gender-Based Medicine</i> , 2000, 9, 959-965.	1.5	59
45	Psychoneuroendocrine Aspects of Temporolimbic Epilepsy. <i>Psychosomatics</i> , 1999, 40, 95-101.	2.5	61
46	Late-onset congenital adrenal hyperplasia: a treatable cause of anxiety. <i>Biological Psychiatry</i> , 1999, 46, 856-859.	1.3	32
47	Progesterone therapy in women with epilepsy: A 3-year follow-up. <i>Neurology</i> , 1999, 52, 1917.	1.1	132
48	Hormonal Effects on Epilepsy in Women. <i>Epilepsia</i> , 1998, 39, S9-S16.	5.1	51
49	To what extent do premenstrual and interictal dysphoric disorder overlap? significance for therapy. <i>Journal of Affective Disorders</i> , 1998, 48, 215-225.	4.1	26
50	Three Patterns of Catamenial Epilepsy. <i>Epilepsia</i> , 1997, 38, 1082-1088.	5.1	469
51	Polycystic ovarian syndrome in women with epilepsy: Epileptic or iatrogenic?. <i>Annals of Neurology</i> , 1996, 39, 559-560.	5.3	48
52	Hormonal Changes in Epilepsy. <i>Epilepsia</i> , 1995, 36, 323-326.	5.1	22
53	Hormonal influences on spasmodic torticollis: A case report. <i>Movement Disorders</i> , 1993, 8, 118-119.	3.9	3
54	Reproductive Endocrine Considerations and Hormonal Therapy for Men with Epilepsy. <i>Epilepsia</i> , 1991, 32, S34-7.	5.1	76

#	ARTICLE	IF	CITATIONS
55	Phenytoin-Induced Elevation of Serum Estradiol and Reproductive Dysfunction in Men with Epilepsy. <i>Epilepsia</i> , 1991, 32, 550-553.	5.1	73
56	Reproductive Endocrine Considerations and Hormonal Therapy for Women with Epilepsy. <i>Epilepsia</i> , 1991, 32, S27-33.	5.1	77
57	Acute effects of anticonvulsant drugs on gonadotropin-stimulated and precursor-supported androgen production in the rat testis. <i>European Journal of Pharmacology</i> , 1990, 181, 151-155.	3.5	42
58	A hypothesis to integrate partial seizures of temporal lobe origin and reproductive endocrine disorders. <i>Epilepsy Research</i> , 1989, 3, 151-159.	1.6	80
59	The Effect of Phenytoin and Carbamazepine on Serum Dehydroepiandrosterone Sulfate in Men and Women Who Have Partial Seizures with Temporal Lobe Involvement *. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1986, 63, 243-245.	3.6	53
