

# Ronald Seifer

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/9517077/ronald-seifer-publications-by-citations.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 175 | Adolescent sleep patterns, circadian timing, and sleepiness at a transition to early school days. <i>Sleep</i> , <b>1998</b> , 21, 871-81                                                        | 1.1  | 561       |
| 174 | Stability of intelligence from preschool to adolescence: the influence of social and family risk factors. <i>Child Development</i> , <b>1993</b> , 64, 80-97                                     | 4.9  | 534       |
| 173 | Estimating sleep patterns with activity monitoring in children and adolescents: how many nights are necessary for reliable measures?. <i>Sleep</i> , <b>1999</b> , 22, 95-103                    | 1.1  | 516       |
| 172 | Evidence for the validity of a sleep habits survey for adolescents. <i>Sleep</i> , <b>2003</b> , 26, 213-6                                                                                       | 1.1  | 496       |
| 171 | Stability of Intelligence from Preschool to Adolescence: The Influence of Social and Family Risk Factors. <i>Child Development</i> , <b>1993</b> , 64, 80                                        | 4.9  | 490       |
| 170 | Sleep/wake patterns derived from activity monitoring and maternal report for healthy 1- to 5-year-old children. <i>Sleep</i> , <b>2005</b> , 28, 1568-77                                         | 1.1  | 321       |
| 169 | Intelligence Quotient Scores of 4-Year-Old Children: Social-Environmental Risk Factors. <i>Pediatrics</i> , <b>1987</b> , 79, 343-350                                                            | 7.4  | 256       |
| 168 | The maternal lifestyle study: effects of substance exposure during pregnancy on neurodevelopmental outcome in 1-month-old infants. <i>Pediatrics</i> , <b>2002</b> , 110, 1182-92                | 7.4  | 244       |
| 167 | Experimental restriction of sleep opportunity in children: effects on teacher ratings. <i>Sleep</i> , <b>2005</b> , 28, 1561-7                                                                   | 1.1  | 218       |
| 166 | Familial Risk and Child Competence. <i>Child Development</i> , <b>1983</b> , 54, 1254                                                                                                            | 4.9  | 218       |
| 165 | Effects of acute sleep restriction on behavior, sustained attention, and response inhibition in children. <i>Perceptual and Motor Skills</i> , <b>2001</b> , 93, 213-29                          | 2.2  | 199       |
| 164 | An approach to studying circadian rhythms of adolescent humans. <i>Journal of Biological Rhythms</i> , <b>1997</b> , 12, 278-89                                                                  | 3.2  | 180       |
| 163 | Attachment, maternal sensitivity, and infant temperament during the first year of life.. <i>Developmental Psychology</i> , <b>1996</b> , 32, 12-25                                               | 3.7  | 171       |
| 162 | Early Development of Children at Risk for Emotional Disorder. <i>Monographs of the Society for Research in Child Development</i> , <b>1982</b> , 47, 1                                           | 6.6  | 160       |
| 161 | Emotional Competence and Early School Adjustment: A Study of Preschoolers at Risk. <i>Early Education and Development</i> , <b>2001</b> , 12, 73-96                                              | 1.4  | 159       |
| 160 | The maternal lifestyle study: cognitive, motor, and behavioral outcomes of cocaine-exposed and opiate-exposed infants through three years of age. <i>Pediatrics</i> , <b>2004</b> , 113, 1677-85 | 7.4  | 154       |
| 159 | Cocaine exposure and children: the meaning of subtle effects. <i>Science</i> , <b>1998</b> , 282, 633-4                                                                                          | 33.3 | 153       |

|     |                                                                                                                                                                                                                                                        |     |     |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| 158 | Infant temperament measured by multiple observations and mother report. <i>Child Development</i> , <b>1994</b> , 65, 1478-90                                                                                                                           | 4.9 | 153 |
| 157 | A longitudinal assessment of sleep timing, circadian phase, and phase angle of entrainment across human adolescence. <i>PLoS ONE</i> , <b>2014</b> , 9, e112199                                                                                        | 3.7 | 147 |
| 156 | Infant Temperament Measured by Multiple Observations and Mother Report. <i>Child Development</i> , <b>1994</b> , 65, 1478                                                                                                                              | 4.9 | 143 |
| 155 | Intrinsic circadian period of adolescent humans measured in conditions of forced desynchrony. <i>Neuroscience Letters</i> , <b>1999</b> , 260, 129-32                                                                                                  | 3.3 | 135 |
| 154 | Acute sleep restriction effects on emotion responses in 30- to 36-month-old children. <i>Journal of Sleep Research</i> , <b>2012</b> , 21, 235-46                                                                                                      | 5.8 | 130 |
| 153 | Sociocultural Variability in Infant Temperament Ratings. <i>Child Development</i> , <b>1982</b> , 53, 164                                                                                                                                              | 4.9 | 126 |
| 152 | Maternal characteristics measured prenatally are predictive of ratings of temperamental "difficulty" on the Carey Infant Temperament Questionnaire.. <i>Developmental Psychology</i> , <b>1987</b> , 23, 152-161                                       | 3.7 | 112 |
| 151 | Levels of family assessment: I. Family, marital, and parent-child interaction.. <i>Journal of Family Psychology</i> , <b>1998</b> , 12, 7-22                                                                                                           | 2.7 | 111 |
| 150 | Cocaine exposure is associated with subtle compromises of infants' and mothers' social-emotional behavior and dyadic features of their interaction in the face-to-face still-face paradigm. <i>Developmental Psychology</i> , <b>2005</b> , 41, 711-22 | 3.7 | 110 |
| 149 | Levels of family assessment: II. Impact of maternal psychopathology on family functioning.. <i>Journal of Family Psychology</i> , <b>1998</b> , 12, 23-40                                                                                              | 2.7 | 96  |
| 148 | Neurobehavioral Syndromes in Cocaine-Exposed Newborn Infants. <i>Child Development</i> , <b>1991</b> , 62, 694                                                                                                                                         | 4.9 | 94  |
| 147 | Neurobehavioral syndromes in cocaine-exposed newborn infants. <i>Child Development</i> , <b>1991</b> , 62, 694-705                                                                                                                                     | 4.9 | 85  |
| 146 | Parental psychopathology, multiple contextual risks, and one-year outcomes in children. <i>Journal of Clinical Child and Adolescent Psychology</i> , <b>1996</b> , 25, 423-435                                                                         |     | 80  |
| 145 | Medication adherence among Latino and non-Latino white children with asthma. <i>Pediatrics</i> , <b>2012</b> , 129, e1404-10                                                                                                                           | 7.4 | 79  |
| 144 | Showing and telling about emotions: Interrelations between facets of emotional competence and associations with classroom adjustment in Head Start preschoolers. <i>Cognition and Emotion</i> , <b>2006</b> , 20, 1170-1192                            | 2.3 | 79  |
| 143 | Contextual risk and resiliency during late adolescence. <i>Development and Psychopathology</i> , <b>1993</b> , 5, 741-763                                                                                                                              | 4.3 | 78  |
| 142 | Multiple urban and asthma-related risks and their association with asthma morbidity in children. <i>Journal of Pediatric Psychology</i> , <b>2007</b> , 32, 582-95                                                                                     | 3.2 | 76  |
| 141 | Emotions and Behaviors in the Head Start Classroom: Associations Among Observed Dysregulation, Social Competence, and Preschool Adjustment. <i>Early Education and Development</i> , <b>2004</b> , 15, 147-166                                         | 1.4 | 69  |

|     |                                                                                                                                                                                                          |      |    |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----|
| 140 | Observed Emotional and Behavioral Indicators of Motivation Predict School Readiness in Head Start Graduates. <i>Early Childhood Research Quarterly</i> , <b>2011</b> , 26, 430-441                       | 3.3  | 67 |
| 139 | Nutrition intervention for weight gain in cystic fibrosis: a meta analysis. <i>Journal of Pediatrics</i> , <b>1998</b> , 132, 486-92                                                                     | 3.6  | 66 |
| 138 | Your own children are special: clues to the sources of reporting bias in temperament assessments <b>2004</b> , 27, 323-341                                                                               |      | 66 |
| 137 | Childhood maltreatment and methylation of FK506 binding protein 5 gene (FKBP5). <i>Development and Psychopathology</i> , <b>2015</b> , 27, 1637-45                                                       | 4.3  | 65 |
| 136 | Facilitating mother-infant communication: A treatment model for high-risk and developmentally-delayed infants. <i>Infant Mental Health Journal</i> , <b>1983</b> , 4, 67-82                              | 2.3  | 59 |
| 135 | Change in FK506 binding protein 5 (FKBP5) methylation over time among preschoolers with adversity. <i>Development and Psychopathology</i> , <b>2017</b> , 29, 1627-1634                                  | 4.3  | 58 |
| 134 | Emotion Knowledge Skills in Low-income Elementary School Children: Associations with Social Status and Peer Experiences. <i>Social Development</i> , <b>2005</b> , 14, 637-651                           | 2.4  | 58 |
| 133 | Attachment status in children prenatally exposed to cocaine and other substances. <i>Child Development</i> , <b>2004</b> , 75, 850-68                                                                    | 4.9  | 54 |
| 132 | Infant neurobehavioral dysregulation: behavior problems in children with prenatal substance exposure. <i>Pediatrics</i> , <b>2009</b> , 124, 1355-62                                                     | 7.4  | 52 |
| 131 | Toddler's self-regulation strategies in a challenge context are nap-dependent. <i>Journal of Sleep Research</i> , <b>2015</b> , 24, 279-87                                                               | 5.8  | 51 |
| 130 | Relations among sustained engagement during play, quality of play, and mother-child interaction in samples of children with down syndrome and normally developing toddlers <b>1995</b> , 18, 163-176     |      | 51 |
| 129 | Interpreting Research on Prenatal Substance Exposure in the Context of Multiple Confounding Factors. <i>Clinics in Perinatology</i> , <b>1999</b> , 26, 39-54                                            | 2.8  | 49 |
| 128 | Ethnic differences in perception of lung function: a factor in pediatric asthma disparities?. <i>American Journal of Respiratory and Critical Care Medicine</i> , <b>2010</b> , 182, 12-8                | 10.2 | 47 |
| 127 | Functional MRI and response inhibition in children exposed to cocaine in utero. Preliminary findings. <i>Developmental Neuroscience</i> , <b>2009</b> , 31, 159-66                                       | 2.2  | 47 |
| 126 | The Maternal Lifestyle Study (MLS): effects of prenatal cocaine and/or opiate exposure on auditory brain response at one month. <i>Journal of Pediatrics</i> , <b>2003</b> , 142, 279-85                 | 3.6  | 47 |
| 125 | Defining environmental risk: multiple dimensions of psychological vulnerability. <i>American Journal of Community Psychology</i> , <b>1985</b> , 13, 433-47                                              | 3.5  | 47 |
| 124 | Methylation of exons 1D, 1F, and 1H of the glucocorticoid receptor gene promoter and exposure to adversity in preschool-aged children. <i>Development and Psychopathology</i> , <b>2015</b> , 27, 577-85 | 4.3  | 46 |
| 123 | Beliefs and barriers to medication use in parents of Latino children with asthma. <i>Pediatric Pulmonology</i> , <b>2009</b> , 44, 892-8                                                                 | 3.5  | 46 |

|     |                                                                                                                                                                                                                                                        |     |    |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----|
| 122 | Identifying individual, cultural and asthma-related risk and protective factors associated with resilient asthma outcomes in urban children and families. <i>Journal of Pediatric Psychology</i> , <b>2012</b> , 37, 424-37 <sup>2</sup>               |     | 46 |
| 121 | Mothers' Empathic Understanding of their Toddlers: Associations with Maternal Depression and Sensitivity. <i>Journal of Child and Family Studies</i> , <b>2007</b> , 16, 483-497                                                                       | 2.3 | 46 |
