#	Paper	IF	Citations
70	A randomized phase II feasibility trial of a multimodal intervention for the management of cachexia in lung and pancreatic cancer. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2017 , 8, 778-788	10.3	151
69	Cancer cachexia: rationale for the MENAC (Multimodal-Exercise, Nutrition and Anti-inflammatory medication for Cachexia) trial. <i>BMJ Supportive and Palliative Care</i> , 2018 , 8, 258-265	2.2	95
68	Skeletal muscle radiodensity is prognostic for survival in patients with advanced non-small cell lung cancer. <i>Clinical Nutrition</i> , 2016 , 35, 1386-1393	5.9	81
67	The Effectiveness of Smartphone Apps for Lifestyle Improvement in Noncommunicable Diseases: Systematic Review and Meta-Analyses. <i>Journal of Medical Internet Research</i> , 2018 , 20, e162	7.6	79
66	Muscle mass and association to quality of life in non-small cell lung cancer patients. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2017 , 8, 759-767	10.3	76
65	Dietary treatment of weight loss in patients with advanced cancer and cachexia: a systematic literature review. <i>Critical Reviews in Oncology/Hematology</i> , 2014 , 91, 210-21	7	65
64	Health-related quality of life and occurrence of intestinal side effects after pelvic radiotherapy—evaluation of long-term effects of diagnosis and treatment. <i>Acta Oncologica</i> , 2000 , 39, 173-80	3.2	58
63	Norwegian reference values for the Short-Form Health Survey 36: development over time. <i>Quality of Life Research</i> , 2018 , 27, 1201-1212	3.7	51
62	Symptoms in advanced pancreatic cancer are of importance for energy intake. <i>Supportive Care in Cancer</i> , 2013 , 21, 219-27	3.9	38
61	Older persons' experiences of adapting to daily life at home after hospital discharge: a qualitative metasummary. <i>BMC Health Services Research</i> , 2019 , 19, 224	2.9	36
60	Reduced plasma concentration of branched-chain amino acids in sarcopenic older subjects: a cross-sectional study. <i>British Journal of Nutrition</i> , 2018 , 120, 445-453	3.6	34
59	Comparing two classifications of cancer cachexia and their association with survival in patients with unresected pancreatic cancer. <i>Nutrition and Cancer</i> , 2015 , 67, 472-80	2.8	31
58	Quality of life during pelvic radiotherapy. <i>Acta Obstetricia Et Gynecologica Scandinavica</i> , 1995 , 74, 147-52, 8		31
57	No induction of anti-avenin IgA by oats in adult, diet-treated coeliac disease. <i>Scandinavian Journal of Gastroenterology</i> , 2008 , 43, 161-5	2.4	30
56	Feasibility and preliminary effects of resistance training and nutritional supplements during versus after radiotherapy in patients with head and neck cancer: A pilot randomized trial. <i>Cancer</i> , 2017 , 123, 4440-4448	6.4	29
55	Alterations in inflammatory biomarkers and energy intake in cancer cachexia: a prospective study in patients with inoperable pancreatic cancer. <i>Medical Oncology</i> , 2016 , 33, 54	3.7	27
54	The influence of low fat, low lactose diet on diarrhoea during pelvic radiotherapy. <i>Clinical Nutrition</i> , 1992 , 11, 147-53	5.9	23

53	Intake of a Protein-Enriched Milk and Effects on Muscle Mass and Strength. A 12-Week Randomized Placebo Controlled Trial among Community-Dwelling Older Adults. <i>Journal of Nutrition, Health and Aging</i> , 2017 , 21, 1160-1169	5.2	18
52	Long-term follow-up with a smartphone application improves exercise capacity post cardiac rehabilitation: A randomized controlled trial. <i>European Journal of Preventive Cardiology</i> , 2020 , 27, 1782-1792	3.9	18
51	Prevalence of factors associated with malnutrition among acute geriatric patients in Norway: a cross-sectional study. <i>BMJ Open</i> , 2016 , 6, e011512	3	18
50	Patient interpretation of the Patient-Generated Subjective Global Assessment (PG-SGA) Short Form. <i>Patient Preference and Adherence</i> , 2019 , 13, 1391-1400	2.4	17
49	Striking a balance: Health care providers' experiences with home-based, patient-centered care for older people-A meta-synthesis of qualitative studies. <i>Patient Education and Counseling</i> , 2019 , 102, 1991-2000	3.1	17
48	A Concept Analysis of Patient Participation in Intermediate Care. <i>Patient Education and Counseling</i> , 2018 , 101, 1337-1350	3.1	17
47	Duration of lactation, maternal metabolic profile, and body composition in the Norwegian EBBA I-study. <i>Breastfeeding Medicine</i> , 2013 , 8, 8-15	2.1	16
46	National survey of the Portuguese elderly nutritional status: study protocol. <i>BMC Geriatrics</i> , 2016 , 16, 139	4.1	15
45	Experiences of elderly patients regarding participation in their hospital discharge: a qualitative metasummary. <i>BMJ Open</i> , 2019 , 9, e025789	3	15
44	Health-care professionals' experiences of patient participation among older patients in intermediate care-At the intersection between profession, market and bureaucracy. <i>Health Expectations</i> , 2019 , 22, 921-930	3.7	14
43	The impact of nutritional status, physical function, comorbidity and early versus late start in dialysis on quality of life in older dialysis patients. <i>Renal Failure</i> , 2014 , 36, 9-16	2.9	13
42	Deterioration in Muscle Mass and Physical Function Differs According to Weight Loss History in Cancer Cachexia. <i>Cancers</i> , 2019 , 11,	6.6	13
41	A comparison of CT based measures of skeletal muscle mass and density from the Th4 and L3 levels in patients with advanced non-small-cell lung cancer. <i>European Journal of Clinical Nutrition</i> , 2019 , 73, 1069-1076	5.2	12
40	Older patients' and their family caregivers' perceptions of food, meals and nutritional care in the transition between hospital and home care: a qualitative study. <i>BMC Nutrition</i> , 2020 , 6, 11	2.5	11
39	Informal caregivers' views on the quality of healthcare services provided to older patients aged 80 or more in the hospital and 30 days after discharge. <i>BMC Geriatrics</i> , 2020 , 20, 97	4.1	11
38	Nutritional experiences in head and neck cancer patients. <i>European Journal of Cancer Care</i> , 2019 , 28, e13168	2.4	10
37	Effects of individualized nutrition after allogeneic hematopoietic stem cell transplantation following myeloablative conditioning; a randomized controlled trial. <i>Clinical Nutrition ESPEN</i> , 2018 , 28, 59-66	1.3	10
36	Body weight, body composition and survival after 1 year: follow-up of a nutritional intervention trial in allo-HSCT recipients. <i>Bone Marrow Transplantation</i> , 2019 , 54, 2102-2109	4.4	9

35	A randomised, open-label trial of a Multimodal Intervention (Exercise, Nutrition and Anti-inflammatory Medication) plus standard care versus standard care alone to prevent / attenuate cachexia in advanced cancer patients undergoing chemotherapy.. <i>Journal of Clinical Oncology</i> , 2015 , 33, 9628-9628	2.2	9
34	Healthcare professionals' experiences of providing individualized nutritional care for Older People in hospital and home care: a qualitative study. <i>BMC Geriatrics</i> , 2019 , 19, 317	4.1	9
33	Malnutrition among older adults living in Portuguese nursing homes: the PEN-3S study. <i>Public Health Nutrition</i> , 2018 , 1-12	3.3	9
32	What matters when asking, "what matters to you?" - perceptions and experiences of health care providers on involving older people in transitional care. <i>BMC Health Services Research</i> , 2020 , 20, 317	2.9	9
31	Associations of social networks with quality of life, health and physical functioning. <i>European Journal of Physiotherapy</i> , 2016 , 18, 78-88	0.5	8
30	Exercise and Nutrition Interventions in Patients with Head and Neck Cancer during Curative Treatment: A Systematic Review and Meta-Analysis. <i>Nutrients</i> , 2020 , 12,	6.7	7
29	A qualitative study of old patients' experiences of the quality of the health services in hospital and 30 days after hospitalization. <i>BMC Health Services Research</i> , 2020 , 20, 446	2.9	6
28	The effect of a low fat, low lactose diet on nutritional status during pelvic radiotherapy. <i>Clinical Nutrition</i> , 1993 , 12, 89-95	5.9	6
27	Feasibility of a Mobile Phone App to Promote Adherence to a Heart-Healthy Lifestyle: Single-Arm Study. <i>JMIR Formative Research</i> , 2019 , 3, e12679	2.5	6
26	Choice, Voice, and Coproduction in Intermediate Care: Exploring Geriatric Patients and Their Relatives' Perspectives on Patient Participation. <i>SAGE Open</i> , 2019 , 9, 215824401987631	1.5	6
25	Being a trained volunteer Peer Supporter for carers of people living with dementia in Norway: Reciprocal benefits and challenges. <i>Health and Social Care in the Community</i> , 2020 , 28, 2150-2159	2.6	5
24	Effects of individualized follow-up with a smartphone-application after cardiac rehabilitation: protocol of a randomized controlled trial. <i>BMC Sports Science, Medicine and Rehabilitation</i> , 2019 , 11, 34	2.4	5
23	Power Comparisons and Clinical Meaning of Outcome Measures in Assessing Treatment Effect in Cancer Cachexia: Secondary Analysis From a Randomized Pilot Multimodal Intervention Trial. <i>Frontiers in Nutrition</i> , 2020 , 7, 602775	6.2	5
22	The Palliative Radiotherapy and Inflammation Study (PRAIS) - protocol for a longitudinal observational multicenter study on patients with cancer induced bone pain. <i>BMC Palliative Care</i> , 2018 , 17, 110	3	5
21	Lifestyles of cancer survivors attending an inpatient educational program-a cross-sectional study. <i>Supportive Care in Cancer</i> , 2016 , 24, 1527-36	3.9	4
20	Nutritional problems, overhydration and the association with quality of life in elderly dialysis patients. <i>International Urology and Nephrology</i> , 2012 , 44, 1885-92	2.3	4
19	The tension between carrying a burden and feeling like a burden: a qualitative study of informal caregivers' and care recipients' experiences after patient discharge from hospital. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2021 , 16, 1855751	2	4
18	Crossing knowledge boundaries: health care providers' perceptions and experiences of what is important to achieve more person-centered patient pathways for older people. <i>BMC Health Services Research</i> , 2021 , 21, 310	2.9	4

17	Patient Flow or the Patient's Journey? Exploring Health Care Providers' Experiences and Understandings of Implementing a Care Pathway to Improve the Quality of Transitional Care for Older People. <i>Qualitative Health Research</i> , 2021 , 31, 1710-1723	3.9	4
16	The Dramaturgical Act of Positioning Within Family Meetings: Negotiation of Patients' Participation in Intermediate Care Services. <i>Qualitative Health Research</i> , 2020 , 30, 811-824	3.9	4
15	Food intake by Patient-Generated Subjective Global Assessment (PG-SGA) corresponds to energy and protein intake as well as weight change in patients with advanced cancer. <i>Clinical Nutrition Experimental</i> , 2019 , 25, 20-28	2	3
14	Measurements of body fat is associated with markers of inflammation, insulin resistance and lipid levels in both overweight and in lean, healthy subjects. <i>E-SPEN Journal</i> , 2012 , 7, e234-e240		3
13	Hospital nurses and home care providers' experiences of participation in nutritional care among older persons and their family caregivers: a qualitative study. <i>Journal of Human Nutrition and Dietetics</i> , 2020 , 33, 198-206	3.1	3
12	Physical rehabilitation in patients with head and neck cancer: Impact on health-related quality of life and suitability of a post-treatment program. <i>Laryngoscope Investigative Otolaryngology</i> , 2020 , 5, 330-338	2.8	2
11	Food choice and nutrient intake among patients on a low-fat, low-lactose diet: experience from a prospective randomized study. <i>Journal of Human Nutrition and Dietetics</i> , 1999 , 12, 273-285	3.1	2
10	Associations between health-related quality of life, body mass index, health status and sociodemographic variables in geriatric patients and non-hospitalized older people: A comparative cross-sectional study. <i>Nutrition and Health</i> , 2020 , 26, 141-150	2.1	2
9	No Effect of Individualized Nutrition on Quality of Life, Acute Graft-Versus-Host Disease or Oral Mucositis after Allogeneic Stem Cell Transplantation: A Randomized Controlled Trial. <i>Blood</i> , 2016 , 128, 2211-2211	2.2	1
8	Mortality and microbial diversity after allogeneic hematopoietic stem cell transplantation: secondary analysis of a randomized nutritional intervention trial. <i>Scientific Reports</i> , 2021 , 11, 11593	4.9	1
7	A comparison of two different refeeding protocols and its effect on hand grip strength and refeeding syndrome: a randomized controlled clinical trial. <i>European Geriatric Medicine</i> , 2021 , 12, 1201-1212	3.12	1
6	Community-living older people's interpretation of the Norwegian version of older people's quality of life (OPQOL) questionnaire. <i>Health and Social Care in the Community</i> , 2021 , 29, 1695-1705	2.6	1
5	It takes two to tango: carers' reflections on their participation and the participation of people with dementia in the James Lind Alliance process. <i>BMC Geriatrics</i> , 2020 , 20, 175	4.1	0
4	Patients' Experiences of Using a Smartphone App After Cardiac Rehabilitation: Qualitative Study.. <i>JMIR Human Factors</i> , 2022 , 9, e34294	2.5	0
3	Effect of nutritional and physical exercise intervention on hospital readmission for patients aged 65 or older: a systematic review and meta-analysis of randomized controlled trials. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 62	8.4	0
2	Refeeding syndrome occurs among older adults regardless of refeeding rates: A systematic review. <i>Nutrition Research</i> , 2021 , 91, 1-12	4	0
1	Clinical nutrition in patients with cancer 2020 , 605-618
